# UNDERGRADUATE CATALOG

---

Date of Publication: July 2025

## Applicability of Catalog

The information outlined in this Catalog does not constitute a contract between Monmouth University and any student, parent, guardian or individual acting on a student's behalf. The information in this Catalog also does not constitute an unconditional promise of any kind. Monmouth University reserves the right, in its sole judgment, to make changes to any policy, procedure, academic program, curricular information, class schedules, class delivery method, class content or available courses, and any other published information without prior notice. If Monmouth University makes changes, it may provide for alternatives when reasonably practical under the circumstances. This reservation of rights includes changes the University makes that are necessary to address the global pandemic, unforeseen circumstances or acts of God.

# MISSION STATEMENT OF MONMOUTH UNIVERSITY

---

Monmouth University is an independent, comprehensive institution of higher education committed to excellence and integrity in teaching, scholarship, and service. Through its offerings in liberal arts, science, and professional programs, Monmouth University educates and prepares students to realize their potential as leaders and to become engaged citizens in a diverse and increasingly interdependent world.

# RESPONSIBILITY AND POLICIES OF THE UNIVERSITY

## Responsibility of the University

The programs and/or requirements set forth in this catalog are subject to change without notice. Any modification in the programs and/or requirements shall be made at the discretion of the administrative officers of Monmouth University whenever such action is deemed necessary.

## Equal Opportunity, Harassment, and Nondiscrimination Statement

Monmouth University supports equal opportunity in every phase of our operation including recruitment, admission, educational programs, and employment practices of recruitment, hiring, promotion, reclassification, transfer, compensation, benefits, termination, layoff, and return from layoff, social and recreational programs and any other aspects of education or employment. The University does not discriminate on the basis of race, color, creed, ancestry, national origin, nationality, sex (including pregnancy and sexual harassment), affectional or sexual orientation, gender identity or expression, atypical hereditary cellular or blood trait, genetic information, marital status, domestic partnership or civil union status, age, liability for military service, protected veteran status, or status as an individual with a mental or physical disability, including AIDS and HIV-related illnesses or any other protected category under applicable local, state, or federal law. The University also complies with all major federal and state laws and executive orders requiring equal employment opportunity and/or affirmative action.

Monmouth University affirms the right of its faculty, staff, and students to work and learn in an environment free from discrimination and harassment, including sexual harassment, and has developed procedures to be used to resolve discrimination or sexual harassment complaints. A copy of the University-wide policy on discrimination and harassment, including sexual harassment, which describes the procedures for resolving such complaints, may be obtained from the Director of the Office of Equity and Diversity located at: 400 Cedar Avenue, Great Hall, Room 304, West Long Branch, NJ 07764, Phone: (732) 571-7577, Fax: (732) 263-5140.

Additionally, inquiries may be made externally to: Office of Civil Rights (OCR), U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-1100. Customer Service Hotline Phone: (800) 421-3481, Fax (202) 453-6012, TDD: (877) 521-2172, by E-mail (OCR@ed.gov) or on their Web site (<http://www.ed.gov/ocr/>).

Equal Employment Opportunity Commission (EEOC) Web site. (<http://www.eeoc.gov/>)

## Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act of 1974 (FERPA) establishes the right of all students to limited access to certain records and information; to review, seek correction of, and add explanations to records; and to receive a hearing on allegations of violations. The University may not require a waiver of these rights in its admission, academic, or service requirements.

Information such as grades, financial records, and financial aid records may be released to parent(s) of Monmouth University students who are

dependents of their parents as defined by the Internal Revenue Service (IRS). To establish parents' eligibility to receive such a disclosure, the University must first obtain a copy of the parents' most recent tax return (at least the first page where dependents are listed, the financial portions may be redacted). If you have any questions regarding proof of such dependency, you may contact Monmouth University's Office of the General Counsel at (732) 571-3598. The student may also elect to grant access to academic information such as grades, financial records, and financial aid records to their parent(s) by completing a "FERPA Waiver Release" form from their e-FORMS account which is accessible from the Monmouth University student portal, *myMU*. Students may also elect to grant their parent(s) or another person proxy access to their grade reports (view only) using the Grades Self-Service (<https://wlb-ssweb-01.monmouth.edu/Student/PersonProxy/>) feature, which is also accessible from the student portal, *myMU*.

A copy of Student Records Policies and Procedures for Monmouth University, developed in support of the Family Educational Rights and Privacy Act, may be obtained from the Office of the General Counsel's Web page (<https://www.monmouth.edu/general-counsel/ferpa/>).

## Directory Information

The following information may be released by the University without the student's permission unless the student states that they do not want their directory information released. The student must submit this request using the FERPA - Do Not Disclose e-FORM. The "Do Not Disclose" will remain in place indefinitely unless the student submits a written request to have it removed.

- Address
- Biographical data for public relations purposes
- Birth date
- Birthplace

- Degree candidacy
- Degree status
- Major field of study
- Most recent previous educational institution attended
- Participation in recognized activities and sports
- Photographs of student
- Registered credits for the current term
- Student's name
- Official student e-mail address
- Student's I.D. number
- Telephone number
- Veteran's status

## Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973

The Director of Equity and Diversity, as the University's Americans with Disabilities Act Coordinator and Compliance Officer, has responsibility for issues related to Section 503 and 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

The Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973 provide that no otherwise qualified individual with a disability (student/employee/applicant) shall, by reason of the disability, be excluded from participation in, be denied the benefit of, or be subjected to discrimination under any program or activity receiving federal financial assistance. An otherwise qualified individual with respect to post secondary education is one who meets the essential academic requirements and, with respect to employment, is one who with reasonable accommodation can perform the essential functions of the job in question. Monmouth University has complied with these principles and intends to continue its compliance. Anyone having a complaint or observation about a possible discriminatory act or practice should contact the Office of Equity and Diversity at (732) 571-7577.

## **Human Relations Philosophy and Policy Statement**

Monmouth University affirms the inestimable worth and dignity of every individual, regardless of their condition of life. We affirm, further, the right of each person to develop to their full potential and to be judged on the basis of personal accomplishments. Finally, we believe that the achievement of full humanity is enhanced by the experience of the human family.

We are committed to achieving and sustaining a pluralistic environment recognized for its racial, cultural, and ethnic diversity, and which is characterized by genuine mutuality, acceptance, affirmation of the strengths and contributions of differing individuals and groups, and a willingness to resolve disputes in a spirit of good will.

Monmouth University, through this philosophy and policy statement, seeks to create a pluralistic community in which people:

- are accepted and judged as individuals, independent of ancestry, social and economic background, sexual orientation, age, gender, gender identity, physical characteristics, personal beliefs or any protected classes;
- may freely engage in constructive academic dialogue and debate in classrooms and public halls, and pursue their social and private lives uninhibited by discrimination, disruption, or harassment in any form and;
- value, respect, and draw their intellectual strength from the rich diversity of other peoples of different races, cultures, religions, nationalities, and beliefs.

This affirmation and commitment will guide us in the challenging times ahead as we strive to achieve excellence in service, teaching, and scholarship.

# THE UNIVERSITY

Monmouth University, as described in its Mission Statement, is an independent, comprehensive institution of higher education, emphasizing excellence and integrity in teaching, and scholarship at the undergraduate, graduate, and doctorate levels. Monmouth is dedicated to service in the public interest and, in particular, to the enhancement of the quality of life. The University is committed to providing a learning environment that enables men and women to pursue their educational goals, to reach their full potential as leaders, to determine the direction of their lives, and to contribute actively in order to become engaged citizens in their community and society in an increasingly interdependent world.

Seven schools within the University—the Wayne D. McMurray School of Humanities and Social Sciences; the School of Science; the Leon Hess Business School; the School of Education; the Marjorie K. Unterberg School of Nursing and Health Studies; the Honors School; and the School of Social Work—provide a wide variety of academic programs at both the undergraduate and graduate levels. There are bachelor's degree programs in the arts and sciences and in the professional areas of business, computer science, criminal justice, education, nursing, social work, and software engineering. Co-curricular activities have been designed to complement the academic programs. Master's level programs include anthropology, business administration (M.B.A.), clinical mental health counseling, computer science, communication, creative writing (M.F.A.), criminal justice, education (M.Ed., M.S.Ed., and M.A.T.), English, history, information systems, nursing, physician assistant, social work, software engineering, and speech-language pathology. The School of Nursing and Health Studies offers doctorate level programs: Doctor of Nursing Practice (D.N.P.) and the Occupational Therapy Doctorate (2021). The School of Education offers a Doctor of Education (Ed.D.) in Educational Leadership and a Doctor of Education (Ed.D.) in Educational Leadership - Higher Education Track.

The undergraduate curriculum is built upon an innovative, interdisciplinary general education program and careful academic advising and career counseling. One of the University's main goals is to prepare Monmouth undergraduates for active participation as leaders in the twenty-first century. Accordingly, the University provides a learning environment that enables all students to develop their capacities for leadership in a multicultural world. Students are provided opportunities to develop information technology and collaborative problem-solving skills and to develop a sense of social responsibility as members of local, national, and global communities. Small classes and course clustering allow for individual attention, cooperative learning, and interactive student-faculty exchange.

The University is located in a quiet, residential area of an attractive community near the Atlantic Ocean, about an hour and thirty minutes from the metropolitan attractions of New York City and Philadelphia. Monmouth enjoys the advantage of proximity, within its home county, to many high-technology firms, financial institutions, healthcare institutions, and a thriving business-industrial sector. These provide employment possibilities for Monmouth University graduates, as well as opportunities for undergraduates to gain practical experience through internships. The surrounding communities also offer opportunities for service activities in local schools and public agencies.

## Campus Facilities

The University's 170-acre campus, considered to be one of the most beautiful in New Jersey, includes among its seventy-five buildings a harmonious blending of historic and traditional architectural styles.

The centerpiece building—and the University's identifying landmark—is the **Great Hall at Shadow Lawn**, the administrative center. Completed in 1931, the 130-room mansion—originally known as Shadow Lawn—began as the private residence of Hubert T. Parson, a former president of F.W. Woolworth Company. The mansion has been described in newspapers throughout the world, is featured in many books on architecture and art, and has been used as a backdrop for innumerable print ads and television commercials. In 1981, it served as the setting for the film version of *Annie*. In 1978, along with the University's **Guggenheim Memorial Library**, another architectural treasure that was the summer home of Murray and Leonie Guggenheim, it was entered in the National Register of Historic Places. In 1985, The Great Hall at Shadow Lawn was designated a National Historic Landmark by the U.S. Department of the Interior.

**Monmouth University Graduate Center** is located at 185 State Highway 36, West Long Branch, NJ. This center is approximately two miles from the main campus and currently houses Athletic Training, the Department of Professional Counseling, the Physician Assistant Program, the Speech-Language Pathology Graduate Program, and the Center for Speech and Language Disorders. The Center provides rehabilitation services to the neighboring community on a free-service basis with a one-time per semester registration fee. Please call 732-923-4547 or e-mail (MUSpeechCenter@monmouth.edu) the center with further questions.

The **OceanFirst Bank Center** is a 153,200-square-foot facility that seats approximately 4,000 people. The building, which is located in the center of the campus, includes a multipurpose arena; a 200-meter, six-lane indoor track; the **University store**; Leon Hess Champions' Hall, locker rooms for nineteen athletic teams; box office; fitness center; and the University's Blue/White Club.

The **Lauren K. Woods Theatre**, a former carriage house that retains many of its original architectural features, is just one of the many gracious older buildings that lend distinctive balance to the modern additions to the campus. Prominent among these newer buildings is the **Rebecca Stafford Student Center** that houses an open computer lab, dining room and food court, student offices, lounges, and a large combination banquet/performance hall. In a first-floor suite is the Disability Services and Tutoring Center. On the lower level is the **Center for Student Success** that includes Career Services, First-Year Advising (which provides advising support to freshmen students), the Writing Center, and a graduate student lounge. Other buildings include: the **Magill Commons**, a student dining hall and conference center; the **Thomas A. Edison Science Building** (with nearby greenhouse); **Howard Hall**, housing the **Pollak Theatre** and many academic computing labs, as well as a twenty-four-hour open lab; **Bey Hall**, the Leon Hess Business School building, which contains case study classrooms, seminar rooms, and a computer laboratory; **McAllan Hall**, which houses the School of Education, the Marjorie K. Unterberg School of Nursing and Health Studies, and the School of Social Work; the state-of-the-art **Jules Plangere Center**, which houses the department of Communication, World Languages and Cultures, and a Faculty Resource Center; **Pozyski Hall**, provides several classrooms including a 150-person lecture hall, a lab and conference rooms, and **Joan and Robert Rechnitz Hall**, which houses the department of Art and Design and the Rechnitz Gallery. **William T. Boylan Gymnasium**; eleven traditional and suite-style, on-campus residence halls: **Beechwood, Cedar, Elmwood, Hesse, Laurel, Mullaney, Oakwood,**

**Pinewood, Redwood, Spruce, and Willow Hall**; and three apartment-style facilities: the **Great Lawn Apartments**, the **Garden Apartments**, and **Maplewood Hall**. Additional off-campus housing is the **University Bluffs**, a six-apartment-building complex located on 2.7 acres on the ocean in Long Branch.

## History

Monmouth University was founded in 1933 with federal assistance as Monmouth Junior College, largely to provide opportunity for higher education to area high school graduates who could not afford to go away to college during the Depression. It was a two-year institution, holding classes only in the evening. For a time it appeared uncertain whether the College would have adequate funds to continue. With support from students and the community, however, the fledgling College survived the economic crisis and quickly assumed its present private status. In 1956, it was renamed Monmouth College and accredited by the state to offer four-year programs leading to the baccalaureate degree. Less than a decade later, it was authorized to offer master's degree programs. In March 1995, the New Jersey Commission on Higher Education designated Monmouth a teaching university pursuant to N.J.A.C. 9:1-3.1 et seq.

Today, Monmouth offers more than ninety-five undergraduate and graduate degree programs and concentrations. Monmouth University also offers doctorate-level programs:

### School of Nursing and Health Studies:

- Doctor of Nursing Practice (D.N.P.)
- Occupational Therapy Doctorate (OTD)

### School of Education:

- Doctor of Education (Ed.D.) in Educational Leadership
- Doctor of Education (Ed.D.) in Educational Leadership - Higher Education Track

### School of Humanities and Social Sciences:

- Doctor of Social Work (D.S.W.) in Human Rights Leadership

Within Monmouth's student body, thirty-two states and forty-eight foreign countries are represented. More than 1,600 undergraduates are resident students.

## Accreditation

The University is licensed by the New Jersey Commission on Higher Education and accredited by the Middle States Commission on Higher Education (MSCHE) (<https://www.msche.org/>). In addition,

- the Leon Hess Business School is accredited by the AACSB International (<https://www.aacsb.edu/>)—the Association to Advance Collegiate Schools of Business;
- the Bachelor of Science in Software Engineering (BSSE) program is accredited by the Engineering Accreditation Commission of (ABET) (<http://abet.org>);
- the Bachelor of Science in Computer Science program is accredited by the Computing Accreditation Commission of (ABET) (<http://abet.org>);
- the Bachelor of Science in Chemistry with a Concentration in Advanced Chemistry is certified by the American Chemical Society

(ACS) (<https://www.acs.org/content/acs/en/education/policies/acs-approval-program.html>);

- the baccalaureate degree program in nursing, master's degree program in nursing, Doctor of Nursing Practice program and post-graduate APRN certificate programs at Monmouth University are accredited by the Commission on Collegiate Nursing Education (CCNE) (<https://www.aacnursing.org/CCNE/>);
- the undergraduate Bachelor of Social Work and graduate Master of Social Work programs are accredited by the Council on Social Work Education (CSWE) (<https://www.cswe.org/>);
- in the School of Education, the bachelor of arts and bachelor of science programs in Education, the Masters of Arts in Teaching (MAT) program in Education, the Master of Science in Education (MSEd) programs in Literacy, Principal/Supervisor, and Special Education, and the Learning Disabilities Teacher Consultant Post-Master's Endorsement are accredited by the Council for the Accreditation of Educator Preparation (CAEP) (<http://caepnet.org/>); the MSEd in School Counseling and the MSEd in Student Affairs and College Counseling programs are accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP) (<https://www.cacrep.org/>);
- the Master of Science in Education (M.S.Ed.) education program in speech-language pathology (residential) at Monmouth University is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700;
- 1. the Department of Professional Counseling's the Master of Science in Clinical Mental Health Counseling program is accredited by CACREP (<https://www.cacrep.org/>). The Licensed Alcohol and Drug Counselor (LDADC) specialization is also accredited by the National Addiction Studies Accreditation Commission (NASAC) (<https://nasacaccreditation.org/>).
- Master of Science Physician Assistant (MSPA) Program (<https://www.monmouth.edu/graduate/ms-physician-assistant/>)
  - At its **September 2023** meeting, the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) placed the **Monmouth University Physician Assistant Program** sponsored by **Monmouth University on Accreditation-Probation** status until its next review in **September 2025**.

Probation accreditation is a temporary accreditation status initially of not less than two years. However, that period may be extended by the ARC-PA for up to an additional two years if the ARC-PA finds that the program is making substantial progress toward meeting all applicable standards but requires additional time to come into full compliance. Probation accreditation status is granted, at the sole discretion of the ARC-PA, when a program holding an accreditation status of Accreditation – Provisional or Accreditation – Continued does not, in the judgment of the ARC-PA, meet the Standards or when the capability of the program to provide an acceptable educational experience for its students is threatened.

Once placed on probation, a program that fails to comply with accreditation requirements in a timely manner, as specified by the ARC-PA, may be scheduled for a focused site visit and is subject to having its accreditation withdrawn.

Specific questions regarding the Program and its plans should be directed to the Program Director and/or the appropriate institutional official(s).

The program's accreditation history can be viewed on the ARC-PA website at <https://www.arc-pa.org/accreditation-history-monmouth-university/>.

- The entry-level occupational therapy doctoral degree program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is (301) 652-AOTA and its web address is [www.acoteonline.org](http://www.acoteonline.org). Graduates of the program will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

## The Faculty

The faculty at Monmouth University work together to provide challenging classroom environments that encourage student involvement and ensure that Monmouth graduates leave the University ready to exercise socially responsible leadership in their professional and personal communities. The faculty take teaching and student learning seriously. To enhance their effectiveness, most have participated in faculty workshops on active learning techniques.

The Monmouth faculty are respected scholars, artists, scientists, and professionals. Students are drawn into the ongoing scholarly and creative work of the faculty through classroom demonstration, research assistantships, and attendance at professional meetings. Faculty also serve as advisors to students, some as designated freshman advisors who work closely with new students during their first year.

In departments having graduate programs, certain faculty are appointed to the graduate faculty. The graduate faculty provide the core of instruction in the graduate programs at Monmouth University. Recognized for their scholarly achievements by peers in their fields, the members of the graduate faculty provide a challenging classroom environment. They bring insight from research and professional experience into the classroom. Graduate students are drawn into the ongoing, creative work of the faculty through classroom demonstration, as research assistants, and through attendance at professional meetings. The graduate faculty also serve as advisors and mentors to students; in many cases, contact is maintained after graduation.

Working directly with senior faculty who are engaged in research is a key element in graduate-level study. In recent interviews, a group of student leaders on campus unanimously agreed that the opportunity to work closely with faculty is the greatest single benefit of Monmouth's small class size and engaged faculty. Students are able to achieve a comfortable rapport with the professors.

Interviewed recently about their views of the University, a group of student leaders on campus unanimously agreed the greatest single appeal of the institution was the opportunity it afforded them to work closely with faculty, to achieve a comfortable rapport in which they not

only got to know their teachers, but also were known by them. "We are never made to feel we are simply numbers," one of the student leaders stated.

A member of the anthropology faculty, who regularly involves students in his research activities, explains: "It gives them opportunity to meet important people in the field whom they otherwise would only read about, and to engage in some of the personal excitement of anthropology." A biology professor, who provides opportunity for students in his major field to participate in his environmental projects, also encourages them to write papers on their work and to present them at scientific meetings. "For some," he reports, "this experience has been a determining factor in gaining acceptance to graduate school or in getting jobs in their major field. Being able to include published research in their résumés gives them a decided edge." A psychology professor whose undergraduate students have presented papers at prestigious, professional psychology conferences is enthusiastic about their experiences. "They have truly earned the recognition they received and are excited about pursuing advanced degrees."

Monmouth faculty are committed to helping students achieve their fullest potential. That they succeed is attested in the words of a graduate who is now a successful physicist. "Any student who has anything on the ball, and who wants to learn and get the finest education possible in his or her major field, can get it at Monmouth. The teachers are tops; they care about you as an individual, work right along with you, and share the joy of your own successes. I was a science major. When they saw that I was serious about my work, my professors gave me special encouragement, allowed me flexible lab privileges, and even worked with me on research. I knew it was a great experience then. Five years into my career field, I am even more appreciative of the solid kind of preparation provided me at Monmouth. Just show the faculty you care, and you'll have them on your team all the way."

## Distinguished Teaching Award

Each year at Commencement, the University cites one member of the faculty for distinguished teaching. Honorees are chosen by a committee of faculty, administrators, and students. Recipients since 1975, when the award was established, are:

| Name                                     | Year |
|------------------------------------------|------|
| Rose Mary Miller, Mathematics            | 1975 |
| William P. Mitchell, Anthropology        | 1976 |
| Richard Benjamin, Electronic Engineering | 1977 |
| Vernon Churchill, Biology                | 1978 |
| Charles J. Lewis, Mathematics            | 1979 |
| J. Emmett Collins, Marketing             | 1980 |
| Robert J. Sipos, English                 | 1981 |
| Harris Drucker, Electronic Engineering   | 1982 |
| Alicia E. Portuondo, Foreign Languages   | 1983 |
| John A. Styslinger, English              | 1984 |
| Everett L. Rich, Communication           | 1985 |
| Doris K. Hiatt, Psychology               | 1986 |
| Eugene S. Simko, Management              | 1987 |
| Thomas S. Pearson, History               | 1988 |
| Datta V. Naik, Chemistry                 | 1989 |

|                                                      |      |
|------------------------------------------------------|------|
| Donald M. Moliver, Economics                         | 1990 |
| Robert S. Rouse, Chemistry                           | 1991 |
| Leonard Wollack, Marketing                           | 1992 |
| Arie van Everdingen, Art                             | 1993 |
| Mark Rodgers, Social Work                            | 1994 |
| Kenneth Campbell, History                            | 1995 |
| Margaret Del Guercio, English                        | 1996 |
| Marilyn Parker, Chemistry                            | 1997 |
| Gregory Coram, Criminal Justice                      | 1998 |
| Robyn Holmes, Psychology                             | 1999 |
| Robin Mama, Social Work                              | 2000 |
| Brian Garvey, English                                | 2001 |
| John Morano, Communication                           | 2002 |
| Rekha Datta, Political Science                       | 2003 |
| Judith Nye, Psychology                               | 2004 |
| Michael Palladino, Biology                           | 2005 |
| Bruce Normandia, Curriculum and Instruction          | 2006 |
| Richard Veit, History and Anthropology               | 2007 |
| Kelly Ward, Social Work                              | 2008 |
| Joseph Patten, Political Science                     | 2009 |
| David Tripold, Music and Theatre Arts                | 2010 |
| Nancy Mezey, Political Science and Sociology         | 2011 |
| Gary Lewandowski, Psychology                         | 2012 |
| Vincent Dimattio, Art and Design                     | 2013 |
| James Mack, Biology                                  | 2014 |
| Kenneth Mitchell, Political Science                  | 2015 |
| Massimiliano Lamberto, Chemistry and Physics         | 2016 |
| James Konopack, School of Nursing and Health Studies | 2017 |
| Christopher DeRosa, History and Anthropology         | 2018 |
| Lisa Dinella, Psychology                             | 2019 |
| Pedram Danesghar, Biology                            | 2020 |
| Michele Van Volkom, Psychology                       | 2021 |
| Tina Paone, Educational Counseling                   | 2022 |
| Kathy Lionetti, Biology                              | 2023 |
| Cathy (Chiu-Yin) Wong, Curriculum & Instruction      | 2024 |
| Joanne Jodry, Professional Counseling                | 2025 |

## Faculty Leadership Award

In 2019 Faculty Council established the Eugene Simko Faculty Leadership Award to honor the late Gene Simko, former Faculty Council Chair and Associate Professor in the Department of Management and Leadership. The award recognizes individuals who best capture Professor Simko's substantial, diverse and enduring impact on Monmouth University.

Recipients since 2019, when the award was established:

| Name                                           | Year |
|------------------------------------------------|------|
| Richard Veit, History and Anthropology         | 2019 |
| James Mack, Biology                            | 2020 |
| Hettie Williams, History and Anthropology      | 2021 |
| Datta Naik, Chemistry and Physics              | 2022 |
| Saliba Sarsar, Political Science and Sociology | 2023 |
| Robin Mama, Social Work                        | 2024 |
| Golam Mathbor, Social Work                     | 2025 |

## Distinguished Scholar Award

This award celebrates and encourages sustained excellence in scholarship and research. The recipient shall be distinguished for their high-quality scholarly work, as evidenced by internal and external approbation, including publication in peer-reviewed journals, publication of books and monographs with highly regarded academic and trade presses, successful grant writing, and/or invited exhibits and performances at highly selective venues.

| Name                                      | Year |
|-------------------------------------------|------|
| Kieth Dunton, Hettie Williams, & Jay Wang | 2025 |

## Awards

### Donald Warncke Award

The Faculty Association of Monmouth (FAMCO) sponsors this award in memory of Donald Warncke, first president of FAMCO. Any member of the University community who has distinguished him- or herself through outstanding service over the years is eligible. Recipients through 2020 are:

| Name              | Year |
|-------------------|------|
| Ann Nowick        | 1980 |
| Carol Giroud      | 1981 |
| Jack Christie     | 1982 |
| George Smith      | 1982 |
| Richard Steadman  | 1983 |
| Alfred Brown      | 1984 |
| Jane Freed        | 1985 |
| Della Garrabrant  | 1985 |
| Philip C. Donahue | 1986 |
| William T. Boylan | 1988 |
| Mary Abate        | 1989 |
| Aldean Davis      | 1990 |
| Rose Iovino       | 1991 |
| Demetrius Markov  | 1992 |
| C. Dale Haase     | 1993 |
| Carol Neuer       | 1993 |
| Deanna Scherrer   | 1994 |
| Sandra G. Epstein | 1995 |
| Gertrude Murphy   | 1996 |

|                                        |      |
|----------------------------------------|------|
| Marilyn Parker                         | 1996 |
| Susan Kuykendall                       | 1997 |
| John Bolton                            | 1998 |
| James Mack                             | 1999 |
| Debbie Mellish                         | 1999 |
| Marianne Seitz                         | 2000 |
| Vernon Churchill                       | 2001 |
| Richard Guilfoyle                      | 2002 |
| Thomas Murtha                          | 2003 |
| Ella Elizabeth Boyington               | 2004 |
| Koorleen Minton                        | 2004 |
| Linda Silverstein                      | 2005 |
| Franca Mancini                         | 2006 |
| Annette Gough                          | 2007 |
| Doreen Brown                           | 2008 |
| Sandy Villa                            | 2008 |
| William Mitchell                       | 2009 |
| Brian Garvey                           | 2010 |
| Heather Kelly                          | 2011 |
| Richard Veit                           | 2012 |
| Reenie Menditto                        | 2013 |
| Margaret Del Guercio                   | 2014 |
| Brian Greenberg                        | 2014 |
| Susan Douglas                          | 2015 |
| Karen Wyant                            | 2015 |
| Wayne Elliott                          | 2016 |
| Kelly Ward                             | 2016 |
| Datta Naik                             | 2017 |
| Danielle Schrama                       | 2018 |
| Rebecca Raffa                          | 2019 |
| Information Management Division        | 2020 |
| Kathy Maloney and Harold Hillyard      | 2021 |
| Steph Ambrozy and Clementine Stevenson | 2022 |
| John Morano                            | 2023 |
| Bill Schreiber                         | 2024 |
| Heide Estes                            | 2025 |

|                                 |      |
|---------------------------------|------|
| Debbie Mellish                  | 2007 |
| Mary Anne Nagy                  | 2007 |
| Colleen Johnson                 | 2008 |
| Jean Judge                      | 2009 |
| Sharon Smith                    | 2010 |
| Kevin Roane                     | 2011 |
| James Reme                      | 2012 |
| Kristen Isaksen                 | 2013 |
| Kara Sullivan                   | 2013 |

| Bea Rogers & David Tsang        | 2024 |
| Elizabeth O'Brien & Kurt Wagner | 2025 |

## Mary Abate Excellence in Academic Advising Award

Established in 2025, this award celebrates and encourages sustained excellence in academic advising. The award recipient shall exemplify excellence in advising through their commitment to providing Monmouth University students with accurate, timely, and thoughtful academic advice. Nominations are accepted from students and alumni.

| Name        | Year |
|-------------|------|
| Bill Gorman | 2025 |

## Stafford Presidential Award of Excellence

Established in 2003, this award is presented annually to the outstanding member(s) of the Monmouth University staff or administration as recognition for his or her tireless efforts, dedication, creativity, and evident commitment to supporting and enhancing Monmouth University. The award is named after Dr. Rebecca Stafford, who retired in 2003 after ten years of exceptional service as President.

| Name                 | Year |
|----------------------|------|
| Bertha Hughes        | 2003 |
| Datta Naik           | 2003 |
| Maureen Paparella    | 2003 |
| Patricia L. Swannack | 2004 |
| Samuel A. Weir       | 2005 |
| Saliba Sarsar        | 2006 |

# UNDERGRADUATE ADMISSION

## First-Time First-Year Applicants

Admission to Monmouth is based upon many factors. Recognizing that each student is different, Monmouth makes every attempt to ensure that its selection process is as fair to each student as possible. The admission process is need-blind, i.e., a family's ability to pay for college is not considered.

Admission to the University is at the discretion of the Admission Committee under the guidance and supervision of the Assistant Vice President for Undergraduate Admission. The applicant pool for fall admission changes each year; admission guidelines are established based upon the applicant pool and strategic objectives of the University. Factors considered in the application review process include the high school transcript with focus on cumulative grade point average and rigor of course work, standardized test scores (when required), letter(s) of recommendation, essay, activities/work experience, community service, and leadership roles. (The Committee reserves the right to make admission exceptions on the basis of the student's overall application and potential for success at Monmouth University.)

## Admission Requirements

A candidate for admission is required to:

1. be a graduate of an accredited secondary school or the equivalent;
2. have completed sixteen (16) Carnegie units to include the following: four units of English, three units of mathematics, two units of social studies, two units of science, and five additional units of academic electives chosen from the following areas: English, social science, science, humanities, world languages, and mathematics; and
3. satisfy the University's requirements for grade point average and/or standardized test scores (SAT or ACT\*). \*First-year applicants can choose either the **traditional** or **test optional** application review to best demonstrate their ability to succeed at Monmouth. Please visit [monmouth.edu/testoptional](https://www.monmouth.edu/admission/undergraduate/how-to-apply/) (<https://www.monmouth.edu/admission/undergraduate/how-to-apply/>) to learn more.

The application deadlines for first-time, full-time students are as follows:

The application deadline for early decision is November 15. Early decision is a binding admission program geared toward students who meet the overall criteria for admission and have a strong desire to enroll at Monmouth. Early decision candidates will be notified of an admission decision by December 15. Applicants who are offered admission through the early decision program are asked to withdraw all other applications to other colleges and universities and accept the offer of admission. Applicants may be offered admission, denied admission, or returned to the regular applicant pool for further consideration.

The application deadline for early action is December 1. Early action is a non-binding program geared toward students who meet the overall criteria for admission and have a strong desire to enroll at Monmouth. Early action candidates will be notified of an admission decision by January 15. Applicants may be offered admission, denied admission, or returned to the regular applicant pool for further consideration.

The application deadline for regular decision is March 1. This is the final application deadline for first-time full-time students. Students who wish to apply for regular admission may file their credentials any time after the start term of their senior year. Applications received after the March 1

deadline will be considered on a space-available basis. Regular decision candidates who complete an application by March 1 will be notified of an admission decision by April 1.

The application deadline for Nursing (BSN freshman applicants) is December 1; this program may have special requirements. BSN candidates who complete an application by December 1 will be notified of an admission decision by February 1. Refer to the current Monmouth University Application for Undergraduate Admission for information. This program has a Fall-only application.

The application deadline for the 3+3 B.S. in Health Studies/Doctor of Occupational Therapy (OTD) program is December 1 and may have special requirements. Candidates for this program who complete an application by December 1 will be notified of an admission decision by February 15. An interview is required for this application; qualified candidates will be offered the opportunity to interview based on their academic credentials. Refer to the current Monmouth University Application for Undergraduate Admission for information. This program has a Fall-only application.

The application deadline for the 3+3 B.S./B.A. with M.S. in Physician Assistant is December 1 and may have special requirements. Candidates for this program who complete an application by December 1 will be notified of an admission decision by February 15. An interview is required for this application; qualified candidates will be offered the opportunity to interview based on their academic credentials. Refer to the current Monmouth University Application for Undergraduate Admission for information. This program has a Fall-only application.

The application deadline for the 4+2 B.S./B.A. with M.S.Ed. in Speech-Language Pathology is December 1 and may have special requirements. Candidates for this program who complete an application by December 1 will be notified of an admission decision by February 15. An oral presentation (audio recording, 1-2 minutes is required for this application. Refer to the current Monmouth University Application for Undergraduate Admission for information. This program has a Fall-only application.

Enrollment deposits are required of all undergraduate students who are accepting offers of admission to the University. Seats in the fall first-year class may be filled by the May 1 National Candidates' reply date. Therefore, full-time, first-year students should submit the enrollment deposit by May 1.

First-year students may also apply for spring semester admission; the deadline for spring semester applications is December 1. First-year full-time students who are entering in the spring semester should also submit the enrollment deposit as soon as possible in order to confirm intention to enroll.

## Part-Time and Transfer Students

The priority application deadline for the fall semester is July 15, after which decisions become rolling. The priority application deadline for the spring semester is December 1, after which decisions become rolling. Applications are accepted on a space-available basis after these priority deadlines.

## Adult Students (24 Years of Age or Older)

The application deadline for the fall semester is July 15. The application deadline for the spring semester is December 1.

An enrollment deposit is not required for part-time students; however, students must return an enrollment confirmation form to indicate intent to enroll.

## Admission Procedures

1. Undergraduate applicants apply through the Common Application (<https://www.commonapp.org>) or through the Monmouth University application ([monmouth.edu/apply](https://monmouth.edu/apply)). Applications should be completed in full and submitted to Monmouth University. A nonrefundable application fee of \$60 is required with the application.
2. The secondary school of the applicant should forward an official transcript to the Office of Admission Processing.
3. Official SAT or ACT score reports should be submitted for those applying through the traditional application plan. Test results may be either included on the official transcript provided by the applicant's secondary school or may be forwarded to Monmouth directly by the testing service. Monmouth University's code number for the SAT is 002416. The ACT code is 2571.
4. At least one letter of recommendation from a high school teacher or counselor is requested for all freshman applicants.
5. An essay should be submitted by all freshman applicants. *Please note: certain direct-entry programs require a program-specific essay. Please refer to the application for more information.*
6. *Applicants who have satisfactorily completed the General Educational Development (GED) or equivalent test in lieu of high school graduation should request that an official score report be sent directly to the Monmouth University Office of Admission Processing. The scores can be obtained by contacting the New Jersey Department of Education.*
7. *All matriculating undergraduate students must complete the required medical forms prior to registration. Instructions on how to submit medical forms will be forwarded to students after the enrollment deposit is received by the University. All required immunizations must meet current University policies.*

## Credit Accumulation Advanced Standing

Monmouth University grants college credit (Advanced Standing) for secondary school courses that have been validated by the Advanced Placement Examination Board. In most cases, credit is awarded for Monmouth University course equivalents of the subject matter covered by the examination when the AP examination scores are 3, 4, or 5. See the Advanced Placement Exams chart (p. 20) for specific Monmouth equivalencies.

Monmouth University accepts International Baccalaureate (IB) Diploma Program Credit based on Higher Level examination achievement. Scores of a 5, 6, or 7 must be earned in order to receive credit for the IB. International Baccalaureate courses are graded on a scale of 1 (minimum) to 7 (maximum). Official IB transcripts should be forwarded to the Office of Undergraduate Admission for official evaluation. Monmouth does not grant IB credits for subjects taken at the Standard Level.

Students will be given credit in specific subject areas on a course-by-course basis; credit policies will be determined by the academic department to which the credit will be transferred. Please refer to the International Baccalaureate chart (p. 21) for specific Monmouth equivalencies.

Monmouth University will grant three (3) credits as a Political Science elective for students who enroll at Monmouth University and who have successfully completed The American Legion Jersey Boys State Program (ALJBS).

## Credits in Escrow

Monmouth University provides a taste of college life as well as a head start in college for secondary school students who have completed at least their junior year. Credits earned are held in escrow and may be applied toward a degree at Monmouth after the student is matriculated as a regular student, or they may be transferred. By taking advantage of this opportunity and with careful planning of course sequences, it may be possible for a student to complete requirements for a baccalaureate degree in three calendar years.

Monmouth University also grants credit for college courses taken at another accredited institution while the student was still attending high school. In order to evaluate credit, official transcripts must be submitted from that institution for evaluation.

## Dual Enrollment Credit

College credit completed while enrolled in high school is evaluated for transferability by the Office of Undergraduate Admission. In order to evaluate credit, official transcripts must be submitted from the institution granting the credit. Refer to the section on credit transfer (p. 22) for more details on how credit is evaluated.

### Homeschooled Students

A candidate for admission who has been homeschooled is asked to follow these guidelines in the application process. Please note that all homeschooled students are required to meet their home state requirements and submit appropriate supporting documentation demonstrating that they have done so, should they be asked to do so by Monmouth University. Applicants should:

1. Complete the Common Application (<https://www.commonapp.org/>) or Monmouth University application in full and submit to Monmouth University.
2. Submit the nonrefundable application fee.
3. Submit one of the following credentials:
  - a. Transcript from a homeschool program, private school, or primary teacher. Please note that if any part of your high school education was completed in a conventional public or private high school, Monmouth University requires the transcript of that academic work be sent directly from the registrar of that school. Additionally, if you have completed any college-level course work while in high school or to satisfy graduation requirements, submit all official transcripts. If course work is still in progress, submit a course schedule.
  - b. Portfolio of academic work completed to include syllabi, list of textbooks used, academic curriculum outline, and any other documentation of academic work completed. The portfolio must include grade evaluations by the primary teacher. Also required with the portfolio is Monmouth University's Curriculum Chart for Homeschooled Students. All students who apply to Monmouth University must demonstrate that they have completed the following Carnegie Units: four units of English, three units of mathematics, two units of social studies, two units of science, and five additional units of academic electives chosen from the

following areas: English, social studies, science, humanities, foreign languages, and mathematics.

4. Submit at least one letter of recommendation.
5. Submit official standardized test scores if applying through the traditional application plan—either SAT or ACT. Score reports must be sent directly from the testing agency. Monmouth's SAT code is 002416. Monmouth's ACT code is 2571.

## Credits Awarded for Advanced Placement Exams

| AP Exam                          | AP Score | Monmouth Credit Awarded for | Credits |
|----------------------------------|----------|-----------------------------|---------|
| African American Studies         | 3,4,5    | ADS-246                     | 3       |

<sup>1</sup> Students must apply to department for specification of course.

<sup>2</sup> Specific language course code will be determined on an individual basis.

<sup>3</sup> Students may apply to the department to specify course as alternate 100-level course.

<sup>4</sup> Students may apply to the department for evaluation for specific course credit.

## Transfer Applicants

Monmouth University welcomes applications from transfer students who are in good academic standing at other accredited colleges or universities. Students from non-accredited colleges may be admitted if they satisfy the admission requirements of Monmouth University. Students with a cumulative GPA of 2.25 or better will be considered for admission to the University. Students pursuing a major within the School of Education must have a minimum GPA of 3.0 according to New Jersey State Guidelines. Please refer to the School of Education section of this catalog for additional State guidelines. Admission is determined by successful completion of course work over time and is not automatic; there may be instances when a student with a 2.25

GPA or greater will not be offered admission. Students who have been dismissed for academic reasons will not be considered for acceptance by Monmouth University until at least one academic semester has elapsed following their dismissal. Students suspended for disciplinary reasons from another institution must serve the term imposed by that suspension before Monmouth University will consider their application for admission.

Students offered provisional admission must be nonmatriculated and part-time. Conditions imposed on such students are as follows:

- they may earn no more than eighteen credits in that status and may carry no more than nine (9) credits per semester;
- they must reapply for admission after earning twelve to eighteen credits at Monmouth in order to matriculate and continue taking courses at the University.

Admission as a matriculating student is contingent upon successful completion of course work. (See the Changing from Non-Matriculated to Matriculated Status (p. 65) section of the catalog for more details.)

The priority application deadline for the spring semester is December 1, after which admission becomes rolling. The priority application deadline for the fall semester is July 15, after which admission becomes rolling. If a student has attempted and received grades in twenty-four credits or more at or above the 100-level, the University will only look at the student's collegiate course work in determining admission. If a student has fewer than twenty-four credits, an official high school transcript is requested; such applicants may also submit official SAT or ACT scores.

Transfer students must send official transcripts from all institutions attended previously, regardless of whether or not credit for such work is desired or expected. Final transcripts from previous institutions attended must be received by Monmouth University prior to beginning enrollment. Students who do not provide official transcripts will not be permitted to continue at Monmouth. Failure to declare attendance at any postsecondary institution where registration occurred may lead to disciplinary action and/or dismissal. When applying for transfer credit, students may be requested to submit official course descriptions.

## Articulation Agreements

Monmouth University currently has program articulation agreements with Brookdale Community College, Ocean County College, Mercer County Community College, Raritan Valley Community College, and Union County College. Similar agreements may be in development with other two-year colleges. If you are interested in one of the existing agreements, please contact either the Office of Undergraduate Admission at 732-571-3456 or Transfer Services in the Center for Student Success (CSS) at 732-571-3588.

## Credit Transfer

Transfer students who have been admitted to the University will receive an official transfer credit evaluation. Students who fail to declare attendance at any postsecondary institution where they had been registered automatically waive the right to have that work considered for transfer credit and are subject to disciplinary action and/or suspension. Grades earned at previous institutions are not reflected in the Monmouth University grade point average (GPA). (Education majors may transfer a maximum of six professional credits from a two-year school.) Due to the individual review process required for evaluating music and art course work, students in these disciplines may require an audition or a portfolio review to determine equivalency for certain course work.

Students attending an accredited two-year institution in New Jersey may find transfer equivalencies through the New Jersey Transfer Initiative (<http://www.njtransfer.org>).

All candidates for bachelor's degrees must complete the University's general education requirements. Note that the course type(s) associated with a course are specific to course work taken at Monmouth University. Courses earned through transfer equivalency will not automatically earn the course type associated with the Monmouth University course equivalent. For instructions on how to have a transfer course reviewed to fulfill the General Education requirements of Technological Literacy (TL), Reasoned Oral Discourse (RD), Interdisciplinary Studies (ISP), Cultural Diversity (CD), Global Understanding (GU), or Experiential Education (EX), students should contact the Director of Transfer Student Services and Undeclared Students and may also refer to the general education transfer equivalencies (p. 24) for more details. Prospective students may contact the Office of Undergraduate Admission for further information.

***For undergraduate students who attended accredited (by the Commission on Higher Education) two-year community or county colleges, the following applies:***

1. Students transferring from a two-year institution may use up to sixty-nine transfer credits toward a baccalaureate degree at Monmouth University, providing these credits fulfill degree requirements. Students who attended both two-year and four-year institutions may apply a maximum of twenty-one additional credits at the 200-level or higher (as determined by the four-year institution where these courses were taken) toward baccalaureate degree requirements at Monmouth University, providing these credits fulfill degree requirements. Students who attended only a four-year institution may apply a maximum of ninety credits toward a baccalaureate degree at Monmouth University, providing these credits fulfill degree requirements.
2. Full-time students at accredited community or county colleges who have maintained continuous semester-to-semester attendance and who graduate in five or fewer semesters in AA, AS, or AAS (nursing only) degree programs will be considered for acceptance as transfer students at Monmouth University. Provided such students begin their enrollment at Monmouth in the first or second semester immediately following their graduation from the two-year institution, they may elect to follow the Monmouth University curriculum that was in effect at the time they entered the two-year college. Students must request matriculation in the prior catalog by writing to the Office of the Registrar within the first semester of attendance. Please be aware that accreditation or state mandate may make a program unavailable.
3. All other graduates of accredited community or county colleges who have earned AA or AS degrees (full-time students taking more than five semesters to graduate or part-time students) will be considered for acceptance as transfer students at Monmouth University. Provided such students begin their enrollment at Monmouth in the first or second semester immediately following their graduation from the two-year institution, they may elect to follow the Monmouth University curriculum that was in effect four semesters prior to their enrollment at Monmouth.

***For all other undergraduate students who attended accredited (by the Commission on Higher Education) institutions, courses are transferred as follows:***

1. Only courses in which earned grades were "C" or higher will be accepted. Furthermore:

- a. No remedial courses will be accepted.
  - b. A maximum of four (4) physical education credits may transfer for non-health physical education majors. Health/Physical Education and Health/Physical Education with an Endorsement in Education majors may transfer six (6) credits in physical education course work.
  - c. No personal development or vocational (e.g., secretarial, automotive) courses, unrelated to degree programs at Monmouth University, will transfer. (The designation "vocational" will be determined by the course description/syllabus, not necessarily by the discipline designation assigned at the previous institution.)
  - d. Courses that are more than five years old may be declined by the major department, but only in cases where the subject matter of these courses has undergone significant and substantial additions/revisions.
  - e. Monmouth will accept transfer credit for classes indicated as "Pass" or "Satisfactory" provided that the sending institution's policy states that the "Pass" or "Satisfactory" grade is equivalent to a grade of "C" or better. Credit for courses from institutions with a policy that also allows "C-" or "D" grades to be included will be evaluated on an individual basis. Students should be prepared to submit additional documentation.
2. Courses will transfer in at the Monmouth University equivalent.
  3. Each transfer student must complete at least the last thirty credits at Monmouth University, of which fifteen credits must be in the major. For business administration majors, at least fifty percent of their business requirements (business core and concentration[s]) must be completed at Monmouth University. For other graduation and residency requirements, please refer to the Academic Programs, Support Services, and Regulations (p. 43) section of this Catalog.
  4. Students changing majors will have their transfer credits re-evaluated by the new major department.
  5. Undergraduate students who attended a study abroad program through their former institutions may be eligible for Experiential Education credit at Monmouth. The student must have earned a minimum of six credits at the foreign institution, with grades of "C" or better. The study abroad courses must be noted on the academic transcript of the American institution and annotated as "study abroad." See the Office of the Registrar for additional information.

***For undergraduate students who attended non-foreign, nonaccredited programs:***

Courses other than nursing courses will transfer automatically only if a formal document of course equivalencies exists that was previously adopted by the University. When a formal document does not exist, courses taken in these nonaccredited programs will be evaluated on a case-by-case basis by the appropriate departments to determine acceptability for transfer. In all instances, conditions one through four above apply.

Nursing courses will transfer as described within the Nursing and Health Studies section of this Catalog. Non-nursing majors who have graduated from a diploma nursing school may transfer nursing courses by taking as many as four ACT/PEP tests as specified by the School of Nursing and Health Studies at Monmouth University. Each successfully passed examination may transfer as eight credits (8) of lower-division nursing courses. These credits may apply to the requirements of the major program as applicable. Students should consult with their major department chair for details.

***For undergraduate students who attended foreign institutions:***

The Monmouth University Office of Undergraduate Admission will evaluate credits submitted from foreign institutions. Transcripts that are not in English must be translated and evaluated by a reputable credential evaluation service, including members of the National Association of Credential Evaluation Services (NACES). Course descriptions in English must accompany transcripts. A course syllabus in English may be required for evaluation of coursework. In all instances, conditions one through four above apply to foreign courses. Students may, upon request, be required to have previous academic work validated, at the students' expense, through an outside credential evaluation service.

***For undergraduate students who have served in the military:***

Students who have completed basic training in any of the Armed Forces will automatically receive one (1) credit in physical education activities and one (1) credit of health by virtue of that experience and presentation of official discharge documentation. Other credits earned while in the military may be considered for transfer credit upon presentation of official military transcript documentation to the Office of Undergraduate Admission.

## Fire Academy Transfer Policy

Students who successfully complete a New Jersey Fire Academy program prior to enrolling in Monmouth University will be awarded six (6) Homeland Security free elective credits. Once matriculated into Monmouth University, no fire academy credits will be awarded to students who subsequently enter a New Jersey Fire Academy.

## Police Academy Transfer Policy

Students who successfully complete a New Jersey Police Academy program prior to enrolling in Monmouth University will be awarded six (6) Monmouth University credits (CJ-101 Introduction to Criminal Justice (3 cr.), and CJ-225 Law Enforcement (3 cr.)). Once matriculated into Monmouth University, no police academy credits will be awarded to students who subsequently enter a New Jersey Police Academy.

## Emergency Medical Technician (EMT) Training Credit

Students who successfully complete EMT training will be awarded five (5) total Monmouth University credits – three (3) credits of Biology free electives (and two (2) credits for PE-201 First Aid/CPR/AED Certification (2 cr.)). Students wishing to be awarded credit should present an active certification identification card to the Transcript Credit Evaluator.

## American Council on Education (ACE)

Credit for course work that appears on an official American Council on Education (ACE) transcript with a recommendation for credit at the baccalaureate degree level will be awarded at the discretion of the University. The ACE recommendation does not guarantee that Monmouth University credit will be awarded.

## Transfer Equivalencies for General Education Requirements

| Monmouth University Requirement                                                                      | Transfer Equivalencies                                                                                                                                |
|------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1. Reading &amp; Writing – Six credits</b> (EN-101 and EN-102)                                    | Any two three-credit English composition courses with similar content. Remedial English courses are not accepted.                                     |
| <b>2. Mathematics – Three credits</b> (“MA,” except MA-050 or MA-101)                                | Three credits from subject MA excluding MA-050 and MA-101.                                                                                            |
| <b>3. Natural Sciences – Six credits</b> (Course type “NS”)                                          | Any two natural science courses (minimum six credits) in biology, chemistry, geology, physics, or science.                                            |
| <b>4. Literature – Three credits</b> (Course type “LIT”)                                             | Any three-credit, 200-level or above literature survey course.                                                                                        |
| <b>5. Aesthetics &amp; Creativity – Three Credits</b> (Course type “AT”)                             | Any three-credit course in art, dance, music, or theatre.                                                                                             |
| <b>6. Technological Literacy – Three Credits</b> (Course type “TL”)                                  | Any three-credit course designed to develop the knowledge, skills, and abilities necessary to effectively and responsibly use Information Technology. |
| <b>7. Reasoned Oral Discourse – Three Credits</b> (Course type “RD”)                                 | Any three-credit course emphasizing both public speaking (or oral presentation) and critical analysis of disciplinary material.                       |
| <b>8. Historical Perspective – Three Credits</b> (Course type “HS.SV”)                               | Any three-credit history survey course that is not a U.S. History course.                                                                             |
| <b>9. Social Sciences – Three Credits</b> (Course type “SS.SV”)                                      | Three credits in any of the following: anthropology, economics, geography, political science, sociology, psychology, or Gender Studies GS-225.        |
| <b>10. Historical Perspective or Social Sciences – Three Credits</b> (Course type “HS.SV or “SS.SV”) | Any three-credit history survey course OR three credits in social sciences as listed above.                                                           |
| <b>11. Interdisciplinary Studies – Three Credits</b> (Course type “ISP”)                             | A three-credit senior-level course that involves an interdisciplinary approach to evaluate ethical and social issues.                                 |
| <b>12. Cultural Diversity – Three credits</b> (Course type “CD”)                                     | Any three-credit course that deals primarily with issues of gender, race, ethnicity, or socio-economic status.                                        |
| <b>OR</b>                                                                                            |                                                                                                                                                       |
| <b>Global Understanding – Three credits</b> (Course type “GU”)                                       | Any three-credit course that deals primarily with cultures and societies outside of the United States.                                                |
| <b>13. World Language - Three Credits</b> (1, 2)                                                     | Any three-credit World Language (which includes American Sign Language) course.                                                                       |
| <b>14. Experiential Education – Zero credits</b> (Course type “EX”)                                  | To be determined on an individual basis.                                                                                                              |

**15. Writing Intensive – Zero credits** Writing Intensive courses must be completed at Monmouth University. (two courses from within the Major designated with course type “WT”) Extraordinary cases will be heard and determined by the Writing Committee.

- <sup>1</sup> Students with a documented disability may contact the Disability Services for Students office to discuss a possible course substitution.
- <sup>2</sup> Transfer students entering in 2023-24 and 2024-25 who transfer in courses consistent with Monmouth's previous general education requirements may have fulfilled this requirement. Contact Transfer & Undeclared Services office for more information.

## Alternative Credit Options

### Credits Awarded for College Level Examination Program (CLEP)<sup>4</sup>

| General Exams <sup>1</sup>                      | Monmouth Credit Awarded for         | Credits |

<sup>1</sup> Monmouth University grants three credits for each of the five General Examinations, completed with a minimum score of 52. CLEP exams taken prior to July 1, 2001, require a minimum score of 481.

<sup>2</sup> Monmouth University grants credit to the subject matter covered by the examination when the score is at or above the fiftieth percentile.

<sup>3</sup> EN-202 Literature II: Neoclassical to the Present (3 cr.) equivalent for non-English majors only.

<sup>4</sup> Monmouth University does not accept CLEP test results after a student has been enrolled.

## Credit by Examination

Credit by Examination is a process for granting academic credit for a life experience with an academic parallel. The term "life experience" connotes a learning experience equivalent to an academic course in an accredited institution on the college level. Credits obtained by examination are accorded the same status as transfer credit and consequently are not used in the computation of the grade point average. Credit by examination is counted as part of the maximum allowable transfer credits for an academic program. Undergraduate students earning credits by examination for languages cannot use these credits to satisfy the cultural diversity (CD), global understanding (GU) or world language (WL) general education requirement.

Interested students should apply to the appropriate academic departments. Details about these procedures are available in the Office of the Registrar.

## Applied Music

Applied Music is private instruction in a particular instrument or voice. The student should discuss his/her desire to take applied music with a Monmouth University music faculty member and then register directly in the Music Department. The student may earn as many as six (6) credits in Applied Music and will be awarded the credit after successful

completion of the lessons and the payment of the credit by examination fee. Credit for Applied Music will be treated in the same manner as credit by examination (see above).

Additional guidelines are available online on the Office of the Registrar forms Web page (<http://www.monmouth.edu/registrar/forms.asp>).

## Prior Learning/Portfolio Assessment Program

Students who have been working, managing a home, volunteering in the community, traveling, serving in the military, or studying independently may have acquired some college-level learning from these experiences.

It is possible to have this learning evaluated and receive credit. Credit is granted for learning rather than the experience itself, and is awarded when the learning is closely related to the subject matter of a Monmouth course. Students who wish to earn credit for learning from work and life experience will be asked to prepare a portfolio that describes and documents that learning. Additional information is available from the Office of the Registrar.

## Former Students Applying for Readmission

### Readmission to the University

Former Monmouth University students not on an official Leave of Absence who have not attended the University for at least one semester must submit an application for readmission and submit an application fee. Applications can be found on the Monmouth University Web site (<https://www.monmouth.edu/apply-now/>) at [monmouth.edu/apply](https://www.monmouth.edu/apply). For students with a grade point average below 2.0, the Academic Standards and Review Committee will evaluate the student's (course) plan and application and provide recommendations regarding admission. If the applicant has attended another institution in the interim, the applicant must have an official transcript forwarded to the Office of Admission Processing. Students will be re-evaluated based upon the full academic record and will be advised if further information is needed.

### Readmission to the University after Academic Dismissal

Students who have been academically dismissed may apply for readmission. Review of the application and the ensuing decision is made by the Academic Standards and Review Committee. Previously dismissed students seeking readmission must have been away from the University for one full semester. Students who have been dismissed twice may apply for readmission after a minimum of three years. Application must be made through the Office of Admission.

### Application for Academic Amnesty

(See Academic Amnesty (p. 60).)

## Visiting Students

Visiting students from other institutions must apply online through the Undergraduate Permission Enrollment Application (<https://apply.monmouth.edu/register/PNMApplication/>). Students must be in good academic and disciplinary standing at their home institution and must receive permission from that institution as part of the application

process in order to enroll in a course at Monmouth. Admission as a visiting student does not constitute admission as a matriculated student. Eligible rising high school juniors and seniors may apply to enroll in college-level course work at Monmouth University. Eligibility will be determined by the Office of Undergraduate Admission based on a review of the student's academic credentials.

## Adult Applicants

Monmouth University endeavors to support lifelong learning by providing services and programs—degree and nondegree, credit and noncredit—that enable nontraditional students to meet their varied educational needs and goals.

Program 65 affords opportunity for persons 65 years of age or older who meet admission criteria to enroll for study at Monmouth University at reduced tuition (please visit the Monmouth University website for current tuition discount). Admission requirements include the designated nonrefundable application fee and proof of age as well as all application requirements. Enrollment is on a space-available basis. Those interested in learning more about Program 65 may contact the Office of Undergraduate or Graduate Admission.

## Applicants with Disabilities

Monmouth University welcomes applications from persons with disabilities, complying with the requirements of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Students who wish to utilize available accommodations and services provided by the University must submit current and adequate documentation related to their disability to the Department of Disability Services for Students.

All applicants, including students with disabilities, must meet all University admission requirements. You are not required to disclose a disability, nor should you submit documentation of your disability with your application materials. If information is provided, it is not used in admission decisions and will be forwarded to the Department of Disability Services for Students. You are welcome to contact that office at 732-571-3460 to speak with a staff member about how they may be able to assist you. Monmouth University can also be contacted by using the New Jersey Telecommunications TTY Relay Services Operator at 800-852-7899.

## International Applicants

International applicants must meet three basic criteria before being accepted and issued an I-20 Form:

1. demonstration of academic ability,
2. English language proficiency, and
3. sufficient financial support.

Applicants for admission whose native language is not English must demonstrate English language proficiency. Such proficiency may be demonstrated by submitting an official score report from one of the following standardized tests and meeting the minimum score requirements. Students who have completed the equivalent of a baccalaureate or master's degree at an accredited institution in a native, English-speaking country may be exempt from these standardized testing requirements. For a current list of additional ways to meet the English language proficiency requirement please contact the Admission Office at 732-571-3456.

| Standardized Test                                                                | Minimum Score Requirement                                                |
|----------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| TOEFL (Test of English as a Foreign Language) <sup>1</sup>                       | 79 (Internet-based version)                                              |
| IELTS (International English Language Testing System) <sup>1</sup>               | 6 (with no less than a score of 5.5 on any section)                      |
| MELAB (Michigan English Language Assessment Battery) <sup>1</sup>                | 77                                                                       |
| ESOL (Cambridge University English for Speakers of Other Languages) <sup>1</sup> | Certificate of Advanced English (CAE) - A B2 constitutes a passing grade |

<sup>1</sup> Note that exceptions to minimum score requirements for graduate programs may be made upon recommendation of the graduate program director within the student's major department and with approval from the Provost's Office. Monmouth also requires a student's academic profile to meet regular standards for admission.

Monmouth University will also accept international students who meet Monmouth's regular standards for admission and who have successfully completed the ELS Language Services program at the master's level of English proficiency, which is completion of Level 112, in lieu of the TOEFL or other English proficiency exam. Conditional acceptance may be issued by Monmouth University to those students who elect to prove English proficiency by enrolling in and completing ELS Level 112.

In order to obtain the nonimmigrant Certificate of Eligibility (Form I-20), all accepted international applicants are required to provide financial documentation, such as bank statements, attesting that sufficient funds are available to support the period of study for the degree at Monmouth. To obtain a copy of the Application for Form I-20 and instructions, visit our International Students Information page (<http://www.monmouth.edu/admission/graduate/international.asp>). This document is required and must be completed before the Form I-20 can be issued.

Undergraduate applicants who have attended a school outside of the United States must submit official evidence of secondary school completion and certified original copies of national examination results where applicable.

International undergraduate freshman applicants from English-speaking countries must take the SAT or ACT and meet regular standards for admission. To learn from which countries the SAT/ACT is required, please visit our TOEFL Requirements page (<http://www.monmouth.edu/admission/international/toefl.asp>).

## International Transfer Applicants

Credentials submitted from foreign institutions will be evaluated by the Office of Undergraduate Admission for credit transfer. Official college transcripts for all college-level work, regardless of whether the credit will be transferrable, must be sent directly from the institution at which the credit was completed. Official transcripts, mark sheets, diplomas, degrees, and/or certificates of all secondary and post-secondary academic records and examination results are required. If fewer than twenty-four transferrable credits have been completed, high school/secondary school transcripts must also be provided. Transcripts that are not in English must be translated and evaluated by a reputable credential evaluation service, including members of the National Association of Credential Evaluation Services (NACES), and then sent directly from the agency to Monmouth University. A course-by-course evaluation is required for all non-English transcripts. Course descriptions in English of all completed course work are also required if not included in the

course-by-course evaluation. Transcripts are considered official when sent directly to Monmouth University from the college/university at which the courses were taken and certified by the institution's Registrar's Office, Ministry of Education, or when sent directly from the evaluation agency along with the translation and evaluation to the Office of Admission Processing. Photocopied documents or transcripts marked "issued to student" are not accepted as official.

The records should list all courses the student has taken and grades received in each subject. Course descriptions and/or syllabi and the number of weeks and hours spent in lectures and laboratory work for each course are required of transfer applicants if transfer credit is expected. Only credits from recognized accredited institutions will be considered for direct transfer into any degree program. All course work is subject to approval by the department chair of the specific program chosen; not all courses may transfer. A maximum of seventy-two credits will be allowed for undergraduates transferring from a two-year accredited institution; a maximum of ninety-six credits will be allowed when transferring from a four-year accredited institution.

Course work done through national examination may be considered for credit by department evaluation, credit by examination, waiver, or portfolio if results meet specific department and/or University requirements and standards.

Students may, upon request, be required to have previous academic work validated, at the student's expense, through an outside credential evaluation service.

Failure to declare and/or present all academic work, or presentation of academic records that are found to be altered or of a questionable nature, may result in non-acceptance of student or dismissal of student from the University. Generally, international students currently studying in the United States who wish to transfer to Monmouth University should follow the regular transfer admission process. The English proficiency/SAT requirement can be waived for international students who have completed at least twenty-four transferable credits of which at least three are in English at the 100 level or higher. See details referenced in the International Applicants section for English proficiency requirements. An international student transferring from an institution within the United States is asked to provide the following documentation:

- Common Application
- Nonrefundable application fee
- Official transcript(s)
- Official test scores (as applicable)
- Monmouth University's F-1 Transfer form (<http://www.monmouth.edu/Student/grad/Transfer.pdf>) if currently enrolled at a U.S. institution and Monmouth University's Application for Form I-20 (<http://www.monmouth.edu/uploadedFiles/Content/University/admission/international-students/FormI20.pdf>).

In addition, upon acceptance, the transfer applicant should request the previous institution to transfer his or her Student and Exchange Visitor Information System (SEVIS) record.

International transfer applicants must also provide financial support documentation (see details referenced in the International Applicants section).

## Military Applicants

Monmouth University has been designated as an institutional member of Service Members Opportunity Colleges (SOC), a group of over 400 colleges and universities providing voluntary postsecondary education to members of the military throughout the world. As an SOC member, Monmouth University recognizes the unique nature of the military lifestyle and has committed itself to easing the transfer of relevant course credit, providing flexible academic residency requirements, and crediting learning from appropriate military training and experiences. SOC has been developed jointly by educational representatives of each of the Armed Services, the Office of the Secretary of Defense, and a consortium of thirteen leading, national higher education associations; it is sponsored by the American Association of State Colleges and Universities (AASCU) and the American Association of Community and Junior Colleges (AACJC).

## Veterans and War Orphans

Complete information regarding benefits and procedures for applying may be obtained from the Office of Veterans Services or the Financial Aid Office. Monmouth University is approved by the New Jersey Department of Military and Veterans' Affairs for veterans' benefits.

## Non-Disclosure

Failure to submit complete records of all previous academic experiences will result in a student being denied admission, or, in the case of nondisclosure or misrepresentation, the rescinding of admission previously granted.

# TUITION AND FEES

Tuition and fees are billed by the Office of the Bursar each semester, based on the number of credits and the specific courses the student is registered for. The bill will include a comprehensive fee, any course-related lab fee(s), and room and meal charges for students living in University housing. Full-time undergraduate students (i.e., students taking 12-18 credits) are billed at a flat rate, while part-time undergraduate students (i.e., students taking less than 12 credits) and all graduate students are billed on a per credit basis.

For the 2025-26 academic year the annual tuition and fees for full-time undergraduate students is approximately \$48,140, and for students living in University housing, it is approximately \$66,408, depending on the room assignment and meal plan chosen. It should be noted that more than 90 percent of Monmouth University students are eligible for financial aid. Depending upon family financial circumstances—regardless of income—actual costs could be considerably less than published student charges. Inquiries should be directed to the Financial Aid Office.

For a more precise estimate and for per credit tuition rates for part-time undergraduate and graduate students, please review the following:

## 2025-2026 Rates:

Undergraduate Student Tuition and Comprehensive Fee (<https://www.monmouth.edu/tuition/undergraduate/>)

Housing and Meal Plans (<https://www.monmouth.edu/tuition/housing-and-meal-plan/>)

Program Costs and Other Fees (<https://www.monmouth.edu/tuition/program-costs-and-fees/>)

## Financial Information

Tuition and fees are subject to annual increases at the discretion of the Board of Trustees. Tuition and fees listed in these schedules are in effect as of February 27, 2025. Monmouth University reserves the right to alter any and all charges and to do so within the academic year.

For more information regarding tuition and fees, billing, and payment, please contact the Office of the Bursar at 732-571-3454 or [bursar@monmouth.edu](mailto:bursar@monmouth.edu).

# Explanation of Tuition, Fees and Deposits

**Tuition Charges:** Undergraduate students are billed according to their status as matriculated full-time or part-time students. Full-time undergraduate students will be billed, upon registering for a given semester, for tuition at the full-time rate; those who register for more than eighteen credits will have an additional charge for each credit over eighteen, billed at the part-time rate. Part-time students are billed at the per-credit rate. Undergraduate students wishing to change status must process a Request to Change Enrollment Status form with the Office of the Bursar. In addition, part-time, non-matriculated students must receive approval from the Office of Undergraduate Admission before a change to full-time status can be processed.

Under this policy, undergraduate students whose status is full time will be billed at the full-time rate, regardless of the number of credits for which they are registered, until a Request to Change Enrollment Status form

is processed. If a full-time student fails to register for a full-time load by the end of the registration period, the University will adjust the billing and change the student's status accordingly. An undergraduate student whose status is part-time will be billed at the part-time per-credit rate, unless registered for twelve or more credits (then the student will be billed at the full-time rate). Summer tuition will be billed at the per-credit rate regardless of status.

Financial Aid awards will be based on the student's status, and students should be aware that change in status may affect Financial Aid eligibility.

Graduate students are assessed tuition on a per-credit basis. Students should be aware that the number of enrolled credits may affect Financial Aid eligibility.

**Application Fee:** This nonrefundable fee is for the cost of processing undergraduate and graduate applications.

**Acceptance Deposit:** This deposit must be paid by all new full-time undergraduate students (twelve or more credits) prior to registration. Acceptance deposits paid by transfer students are not refundable. Acceptance deposits paid by freshmen for the fall semester are refundable until May 1.

**Comprehensive Fee:** The Comprehensive Fee includes services provided by the Student Center, Student Engagement, Health Center, Intercollegiate and Intramural Athletics, Career Development, Counseling, the Fitness Center, and Registration. It also includes online services and campus technology programs.

**Clinical Laboratory and Practicum Fee:** This fee is charged to offset the additional costs associated with certain clinical laboratory and practicum courses.

**Credit by Examination Fee:** This fee is for the administrative and personnel costs for the Credit by Examination program.

**Graduation Fee:** This fee covers all costs associated with graduation from the University including diploma, diploma case, cap, gown and hood, processing, and electronic credentials issued the day of your graduation.

**Laboratory and Studio Fee:** This fee is charged in addition to the tuition for each laboratory or studio course. It covers costs of additional class hours and special materials.

**Late Payment Fee:** A fee is charged to all students who have not properly made final financial arrangements with the Bursar by the payment due date.

**Orientation Fee:** This fee is charged to new students to cover the expenses of the orientation program.

**Parking Fee:** This fee is charged to all resident students who register a motor vehicle with the campus police. Failure to register vehicles will result in parking fines.

**Physical Education Fee:** This fee is for the use of equipment required in the physical education program.

**Portfolio Assessment Fee:** This fee is for the administrative and personnel costs for the Portfolio Assessment program.

**Program Fee – BSN Students:** This fee is charged to all Bachelor of Science in Nursing students to offset the expense of a supplemental

learning solution that provides students with the tools and essential skills needed to be successful on the NCLEX.

**Returned Check Fee:** A fee is charged for each uncollectible check issued to the University.

**Residence Hall Room Reservation Deposit:** Students who wish to reserve space in the residence halls are required to forward a \$150 room reservation deposit and signed contract prior to registration. The \$150 is applied as a credit toward room rent.

**Residence Hall Contract Cancellation Fee:** This fee is charged to students who have contracted to reserve space in the residence hall and fail to cancel that contract. This fee is in addition to forfeiture of the room reservation deposit.

**Second Year Residency Penalty Fee:** All undergraduate students enrolled who are not commuting from or living in the home of the parent/guardian are required to live in Monmouth University housing for their second year. Students who elect to live off campus without an approved waiver will be responsible for a substantial off-campus housing fee.

**Study Abroad Fee:** This fee is charged to Monmouth University students who have been granted permission to enroll in a Study Abroad program sponsored by another college or university.

**Student Teacher Early Field Experience Fee:** This fee is charged to education majors to offset the expense of the early field experience.

**Student Teaching Field Experience Fee:** This fee is charged to education majors to offset the expense of student teaching.

## Veterans' Benefits Policy

In accordance with Title 38 U.S. Code 3679 subsection (e), Monmouth University has adopted the following additional provisions for any students using U.S. Department of Veterans' Affairs (VA) Post 9/11® G.I. Bill (Chapter 33) or Vocational Rehabilitation and Employment (VR&E) (Chapter 31) benefits, while payment to the institution is pending from Veterans' Affairs.

### Monmouth University will not:

- Prevent the students enrollment;
- Assess a late penalty fee;
- Require VA students obtaining benefits to secure alternative or additional funding;
- Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

### However, to qualify for this provision, such students may be required to:

- Provide Chapter 33 Certificate of Eligibility (or its equivalent) or for Chapter 31, Veterans' Affairs Vocational Rehabilitation and Employment (VR&E) contract with the school on VA Form 28-1905 by the first day of class. *\*Note: Chapter 33 students can register at the VA Regional Office to use E-Benefits to get the equivalent of a Chapter 33 Certificate of Eligibility. Chapter 31 students cannot get a completed VA Form 28-1905 (or its equivalent) before the VA VR&E case manager issues it to the school.*
- Provide written request to be certified;

- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

## Terms of Payment

Payment of Fall semester charges are due in August, and Spring semester charges are due in December. Specific dates are set annually and can be viewed on the Bursar Web page titled Payment Deadlines (<https://www.monmouth.edu/bursar/general-information/payment-deadlines/>). Billing statements will be sent electronically to students and authorized users designated by the student.

**Electronic Check Payments:** accepted online on the Student Bill & Payment Center. No additional fees will be assessed.

**Credit Cards:** Visa, MasterCard, Discover, and American Express are accepted online on the Student Bill & Payment Center. A nonrefundable service fee is assessed to all credit card payments remitted towards tuition, fees, room & board, and other charges posted onto students' accounts. It is currently 3.00% of the payment remitted for domestic transactions, 4.25% for international transactions, or a minimum of \$3.00. Please note that this service fee is not collected by Monmouth University and may be subject to change.

**Check or Money Order:** accepted in person, as above, or mailed with remittance form found on the semester e-bills uploaded to the Student Bill & Payment Center. The student's ID number must be written on all checks and money orders.

**Cash:** accepted in person at the Bursar's Office located on the first floor of The Great Hall Annex, Room 110

**To process payment online** by electronic check (ACH) or credit card (see credit card fees above):

- Students can log into their MyMU portal (<https://my.monmouth.edu/>) and select "Student Bill & Payment Center". If you have a balance due, a button will appear on the screen to allow you to make an online payment.
- Designated Authorized Users can access TouchNet Solutions Payment Gateway ([https://secure.touchnet.net/C21067\\_tsa/web/](https://secure.touchnet.net/C21067_tsa/web/)). Be prepared to enter an Authorized User ID and password.

**International Payments:** We have partnered with TransferMate to provide seamless international payments. Log into your Student Bill & Payment Center, select Make A Payment, choose TransferMate INTL from the dropdown menu, and follow prompts. For more information about making international payments, watch this video (<https://vimeo.com/723508067/6bd449677e/>) for easy instructions.

A student who does not meet their financial obligations to the University by the payment due date, could be subject to deregistration from their courses for nonpayment. Subsequently, if a balance occurs that exceeds the set minimum, the student may not be allowed to register for future semesters/terms until the outstanding balance is cleared. All financial obligations should be satisfied for a student to receive their diploma document at graduation. If a balance remains due after graduation or separation from the University, the account will be considered in default and may be assigned to an external party for collections. All collection costs and fees, including reasonable collection agency fees, attorney charges, and legal fees necessary for the collection of outstanding indebtedness, will be paid by the student.

## Tuition Payment Plan

To accommodate students and parents who prefer to pay for educational expenses in monthly installments, payment plans are available through the Student Bill & Payment Center for the Fall, Spring, and Summer semesters. Plans range from three to six installments depending on the semester and the time of enrollment. All payment plans have a required and nonrefundable \$45.00 enrollment fee that must be paid at the time of enrollment.

The Bursar's Office provides answers to a list of frequently asked questions (FAQs) regarding the payment plan on its web page (<https://www.monmouth.edu/bursar/payment-plans-plus-faq/>).

## Refund Policy Summer Sessions

Refunds, upon **withdrawal from summer sessions**, will be made according to the policy stated below:

- **Students who withdraw from a four-week or six-week summer session** within the first week of the session will receive 100 percent refunds. Withdrawals after the first week are not eligible for refunds.
- **Students who withdraw from a nine-week or twelve-week summer session** within the first week of the session will receive 100 percent refunds. Fifty-percent refunds will be given if courses are withdrawn in the second week. Withdrawals after the second week are not eligible for refunds.

## Winter Session

Refunds, upon **withdrawal from the winter session**, will be made according to the policy stated below:

- **Students who withdraw from the winter session** within the first two days of the session will receive 100 percent refunds. Withdrawals after the first two days are not eligible for refunds.

## Refund Policy For Complete Withdrawals Fall and Spring Semesters

Tuition and fees, including room and board fees, will be refunded upon **complete withdrawal from all semester courses** according to the policy stated below:

Students who withdraw completely from the University after the opening of classes will receive 100 percent refunds (less a \$500 cancellation fee as detailed in the Housing Contract) through the end of the first week of the semester. Students who withdraw completely after the first week of the semester will receive pro-rata refunds (less a \$500 cancellation fee as detailed in the Housing Contract) calculated on the basis of days enrolled through the sixtieth percent point in the semester. Please refer to the Registration Information ([http://www.monmouth.edu/registrar/registration\\_information/default.asp](http://www.monmouth.edu/registrar/registration_information/default.asp)) online for semester start and end dates. Withdrawals after the sixtieth percent point in the semester are not eligible for refunds.

All refunds will be based on the **official date of withdrawal**, which is the date the completed withdrawal eFORM or an e-mail message (e-mail must be from the student's University e-mail account and sent to the Registrar's Office ([registrar@monmouth.edu](mailto:registrar@monmouth.edu))) is received by the Office of the Registrar (OR). The University encourages students to make notification of withdrawal in writing as outlined above; however, verbal

communication in the form of a phone call to the OR will be accepted within the following guidelines:

- The call must be made during business hours (Monday through Friday, 9 a.m. to 5 p.m.).
- The call must be communicated by the student (not a parent or designate) directly to the OR personnel. Voice messages will not be accepted.
- The student must provide name, last four digits of his or her social security number, and his or her unique Monmouth student ID number.
- Telephone withdrawals will be confirmed by the OR.
- The **student** is responsible for ensuring that the withdrawal is communicated to the OR.
- International students cannot use e-mail or telephone contact with the OR. International students must coordinate registrations and withdrawals with the Office of International Student Services.

Pro-rata percentages are applied against tuition, comprehensive fee, lab fee, and room and board fees (less a \$500 cancellation fee for students who have contracted for housing). The resulting amount is then compared to any student payments that may have been made with the difference being the amount still due the University or the amount available to be refunded. There will be no refunding of moneys paid for health insurance, books, supplies, damages, fines, or other fees not mentioned above. Any amount available for refund will be returned to its sources. Federal Title IV aid, state aid, and University aid will receive refunds prior to any refund being paid to the student.

## Refund Policy for Partial Withdrawals Fall and Spring Semesters

All refunds will be based on the **official date of withdrawal**, which is the date the completed withdrawal eFORM is received by the Office of the Registrar (OR). E-mail or verbal communication **will not** be accepted for communicating partial withdrawals to OR. Only the completed withdrawal eFORM will be accepted.

**Full-time undergraduate students** who are registered for twelve to eighteen credits in the semester are not entitled to any refund when withdrawing from one or more, but not all, courses after the first week of the semester. If the student drops below twelve credits prior to the end of the first week of the semester, the student's status will be changed to part-time, and the student will be billed at the per-credit rate. Full-time undergraduate students should note that enrolling for fewer than twelve credits may affect eligibility for financial aid. Those students who are registered for credits in excess of eighteen will be entitled to refunds for tuition paid for credits in excess of eighteen according to the partial withdrawal refund schedule for part-time undergraduate students and graduate students, which follows below.

**Part-time undergraduate students and all graduate students** who withdraw from one or more courses during the semester while remaining registered for one or more courses are entitled to 100 percent refunds on the courses dropped if the courses are dropped during the first week of the semester or on the day following the first class meeting. Fifty-percent refunds will be given if the courses are withdrawn from during the second week. Withdrawals after the second week are not eligible for refunds.

## Housing Contract: Refund Schedule

Students who change housing and/or board arrangements during the semester while continuing as students at Monmouth University are eligible only for such refunds (less a \$500 cancellation fee as detailed

in the Housing Contract) as established by the Office of Residential Life. Further information on this process is available from the Office of Residential Life at 732-571-3465 or [Reslife@monmouth.edu](mailto:Reslife@monmouth.edu).

## **Important Note:**

By registering for classes, students agree to the refund policy above. Beginning with the Fall 2025 semester, students have the opportunity to purchase tuition insurance through their Student Bill & Payment Center as a supplement to the refund policy to help recover educational expenses paid due to a covered medical withdrawal or other covered reason. Further information or explanation of the refund policy is available from the Office of the Bursar by email [bursar@monmouth.edu](mailto:bursar@monmouth.edu) or by calling 732-571-3454.

# FINANCIAL AID

Monmouth University believes that financing a student's education should be a cooperative effort between the student and the institution. To that end, the staff of the Financial Aid Office is available to assist students in developing a comprehensive educational financial plan. Students are strongly encouraged to contact the Financial Aid Office to engage in this planning process. The Financial Aid Office is accessible by email (finaid@monmouth.edu) or by phone at 732-571-3463. On Monday through Friday from the hours of 10am to 2pm, students can also speak with a counselor in our Zoom room (<https://monmouth.zoom.us/j/96690751230/?pwd=Y05lVnFmWWdrWTBHYmVyWmJsUHZVUT09#success>); appointments are not necessary.

## Application Process

Monmouth University uses the Free Application for Federal Student Aid (FAFSA) as its primary application for all federal, state, and institutional financial aid programs; no supplementary applications are required. Students must apply online (<https://www.fafsa.gov>).

The FAFSA is completed each year using the student's and parents' federal income tax data and should also include Monmouth University's Title IV School Code (002616). Completed FAFSAs may be submitted to the U.S. Department of Education on or after October 1, 2024 and until June 30 2026 for the 2025-26 academic year.

Monmouth University does not have a deadline for applying for financial aid. However, students are encouraged to file as soon after October 1 as possible, as funding for several types of financial aid is limited, and funds are awarded on a first-come, first-served basis. Further, New Jersey residents must file the FAFSA to be considered for state grant (TAG) eligibility and should be aware of the following FAFSA filing deadlines set by the state:

| TAG Recipients            | Deadline                                  |
|---------------------------|-------------------------------------------|
| First time TAG recipients | September 15 of the current academic year |
| Prior TAG recipients      | April 15 of the preceding academic year   |
| Spring Term only          | February 15 of the current academic year  |

Financial data provided on the FAFSA will be forwarded electronically to the University and will be the basis for the creation of the student's financial aid offer. The financial aid offer will be sent to the student in a financial aid offer letter. Offer letters will be sent by email; prior to enrollment, new students will receive the offer letter at the email address they provided on the application for admission, while continuing students will receive their offer letter at their University e-mail address; students may also review their financial aid via the financial aid Self-Service portion of the University's website.

Generally, the initial offer of financial assistance delineated in the offer letter is non-negotiable. The financial aid offer may, however, be altered as a result of one or more of the following conditions:

- Changes in the student's housing status
- Changes in the student's enrollment (i.e., credit hours) status

- Lack of satisfactory academic progress
- Receipt of financial aid from an outside source
- Discrepancies noted as a result of the verification process

*(Note that the U.S. Department of Education selects applications for verification. The verification process entails the comparison of actual financial data to that supplied on the FAFSA. Students selected for this process will be notified by the Financial Aid Office and will be asked to supply additional information. Instructions for submitting this documentation will be provided by the Financial Aid Office.)*

## Types of Financial Aid

### Grants and Scholarships

#### Monmouth University Academic Scholarships and Grants

The primary form of assistance offered to full-time incoming freshmen and transfer students is provided through the incentive grant, academic grant, and academic excellence scholarship programs. Awards are made by the Office of Undergraduate Admission to students who qualify on the basis of their prior academic performance; awards are not based upon financial need. New freshmen are evaluated on the basis of their cumulative high school grade point average and a calculated academic grade point average; standardized test scores (e.g., SAT and ACT scores) will also be considered, if submitted. Awards to transfer students with 24 or more transferrable credit hours are made based upon the student's cumulative college grade point average; for students with less than 24 transferrable credit hours the award is based upon the high school grade point average, calculated academic grade point average, and standardized test scores (when submitted). For both new freshmen and transfer students, award values will vary as a function of prior academic performance; awards will not be increased once the student has enrolled at the University.

Awards are renewable for the entirety of the student's undergraduate career, provided the student maintains full-time enrollment status (at least twelve credit hours) each semester and satisfactory academic progress; education majors may receive a prorated award during their student teaching semester if they are only enrolled for nine credit hours. Students receiving the incentive grant are required to maintain a minimum cumulative grade point average of at least 2.0; academic grant recipients must maintain a minimum cumulative grade point average of at least 2.5; and academic excellence scholarship recipients must maintain a minimum cumulative grade point average of at least 3.0. In the event that the student fails to maintain satisfactory academic progress, the award may be reduced or cancelled.

Incentive grants, academic grants, and academic excellence scholarships may only be applied toward tuition assessed by Monmouth University, and, therefore, cannot be applied toward housing costs. Academic awards are applicable to study abroad costs only when tuition is assessed by Monmouth University; to study at the Washington Center; and to Medical Laboratory Science and Clinical Laboratory Science majors who are taking coursework not offered at Monmouth University.

(Note that for students in the Medical Laboratory Science and Clinical Lab Sciences programs, the award will be prorated during the semester(s) in which course work is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition.) These awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the

tuition exchange program. Awards are available only during the regular academic year (i.e., fall and spring semesters) and are not offered during the summer term.

## Transfer Science Scholarship

Beginning with the Fall 2024 semester, this award is no longer being offered to newly enrolling students; awards to continuing students will be continued for the duration of their undergraduate enrollment.

Scholarships are offered to full-time transfer students in a major within the School of Science, who have completed an Associate's Degree at any New Jersey Community College and who have a transfer cumulative grade point average of at least 3.25. Candidates are identified by the Office of Undergraduate Admission; there is no separate application process for the scholarship. The award is valued at \$3,500 per academic year and is renewable. To renew, students must maintain full-time status, have a cumulative grade point average of 3.0 or better, and remain a science major.

The award may only be applied toward tuition assessed by Monmouth University, and, therefore, cannot be applied toward housing costs. Academic awards are applicable to study abroad costs only when tuition is assessed by Monmouth University; to study at the Washington Center; and to Medical Laboratory Science and Clinical Laboratory Science majors who are taking coursework not offered at Monmouth University.

(Note that for students in the Medical Laboratory Science and Clinical Lab Sciences programs, the award will be prorated during the semester(s) in which course work is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition.) These awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., fall and spring semesters) and are not offered during the summer term.

## Shadow Lawn Grant

**Beginning with the Fall 2023 semester, this award is no longer being offered to newly enrolling students. The award will be continued for students who enrolled prior to Fall 2023, provided they continue to meet the general eligibility requirements.**

Grants are offered to first-time, full-time students who are pursuing a major within the School of Science. Candidates are identified by the Office of Undergraduate Admission; there is no separate application process. The award is \$4,000 per academic year and is renewable. To renew students must maintain full-time status and a cumulative grade point average of 3.0 or better, and must remain enrolled a science major. For students entering in Fall 2021, the award is valued at \$2,500 per year.

The award may only be applied toward tuition assessed by Monmouth University, and, therefore, cannot be applied toward housing costs. Academic awards are applicable to study abroad costs only when tuition is assessed by Monmouth University; to study at the Washington Center; and to Medical Laboratory Science and Clinical Laboratory Science majors who are taking coursework not offered at Monmouth University.

(Note that for students in the Medical Laboratory Science and Clinical Lab Sciences programs, the award will be prorated during the semester(s) in which course work is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition.) These awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular

academic year (i.e., fall and spring semesters) and are not offered during the summer term.

## SOAR Grant

Grants are awarded at the discretion of the Director of Undergraduate Admission to incoming full-time undergraduate students and there is no separate application process; award values are also determined by the Director. The award is renewable provided that the student maintains full-time enrollment status and a cumulative grade point average of 2.0 or better.

The award may only be applied toward tuition assessed by Monmouth University, and, therefore, cannot be applied toward housing costs. Academic awards are applicable to study abroad costs only when tuition is assessed by Monmouth University; to study at the Washington Center; and to Medical Laboratory Science and Clinical Laboratory Science majors who are taking coursework not offered at Monmouth University.

(Note that for students in the Medical Laboratory Science and Clinical Lab Sciences programs, the award will be prorated during the semester(s) in which course work is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition.) These awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., fall and spring semesters) and are not offered during the summer term.

## Residency Grant

Beginning in Fall 2023, newly enrolling students – both freshmen and transfers - who reside in University owned or sponsored housing will be given a Residency Grant of \$2,000. The award is renewable as long as the student is living in University owned or sponsored housing, maintains a cumulative grade point average of at least 2.0 and is full-time; tuition remission and tuition exchange recipients are ineligible for the grant. There is no application process and grants will automatically be added to eligible students' financial aid records. The grant in combination with all other grants, scholarships, and need-based loans will not exceed direct cost (e.g., tuition, fees, and room/board for resident students). Awards are available only during the regular academic year (i.e., fall and spring semesters) and are not offered during the summer term.

## Athletics Scholarship

The Department of Athletics offers grants-in-aid, commonly known as athletics scholarships, to student-athletes who meet the eligibility requirements set forth in the National Collegiate Athletic Association (NCAA) bylaws. These grants-in-aid are offered and renewed at the discretion of the head coach with the consent and approval of the Director of Athletics and the Director of Financial Aid and in accordance with guidelines prescribed by Monmouth University and the NCAA. Grants-in-aid are made for the academic year; funding for summer course work is awarded at the discretion of the Director of Athletics. Student athletes who receive an athletics scholarship must complete a Grant-In-Aid agreement, as prepared by the Department of Athletics.

## Endowed Scholarships

The University offers a number of endowed scholarships, which have been made possible through the generosity of friends of the University.

All enrolled students automatically receive consideration for these awards, and there is no student-initiated application process. The Financial Aid Office will identify and, except where otherwise specified by the donor, will select the candidate who most closely matches the donor-established criteria. Scholarship recipients will be notified via

the Financial Aid Offer Letter. Where possible and as permitted by donor stipulated criteria, the Financial Aid Office will make every effort to renew the awards in subsequent years.

## Great Lawn Grant

**The award will no longer be offered to newly enrolling first-year students beginning in fall 2025 new transfer students will still be offered the award.**

The Great Lawn Grant is awarded to full-time undergraduate students on the basis of unmet financial need (as defined by the U.S. Department of Education) and academic performance. Awards are automatically granted to qualified students and are valued at up to \$6,500 for first-time students and \$3,000 for transfer students (not to exceed direct costs). Awards are available only to students who are completing their first bachelor's degree.

The award may only be applied toward tuition assessed by Monmouth University, and, therefore, cannot be applied toward housing costs. Academic awards are applicable to study abroad costs only when tuition is assessed by Monmouth University; to study at the Washington Center; and to Medical Laboratory Science and Clinical Laboratory Science majors who are taking coursework not offered at Monmouth University.

(Note that for students in the Medical Laboratory Science and Clinical Lab Sciences programs, the award will be prorated during the semester(s) in which course work is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition.) These awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., fall and spring semesters) and are not offered during the summer term. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 2.0 and continues to demonstrate unmet financial need. Please note that changes in housing status can affect need and the student's eligibility for the Great Lawn Grant.

## Monmouth University Need Grant

Beginning in fall 2025, the Monmouth University Need Grant is awarded to full-time (12 or more credit hours) first-year students on the basis of institutional financial need (as defined by the US Department of Education). All students who file a FAFSA are automatically evaluated for grant eligibility.

Awards may only be applied toward tuition assessed by Monmouth University; awards are applicable to costs associated with study abroad only when tuition is assessed by Monmouth University or study at the Washington Center. For students in the medical technology and clinical lab sciences programs, the award will be prorated during the semester(s) where coursework is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition; student teachers enrolled in only 9 credits during the student teaching semester will also be offered prorated awards. The awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. The grant in combination with all other grants, scholarships, and need-based loans will not exceed direct cost (e.g., tuition, fees, and room/board for resident students). Awards are available only during the regular academic year (i.e., Fall and Spring semesters) and are not offered during the summer term. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 2.0.

## Monmouth Promise Grant

Beginning in fall 2025, the Monmouth Promise Grant is awarded to newly enrolling (i.e., completing their first bachelor's degree) first-time freshmen who are New Jersey residents and who have a high school cumulative grade point average of at least 3.5 and who meet certain financial criteria. Students must qualify for the maximum award for both Pell and TAG grants or have a family income less than or equal to \$65,000 and qualify for some amount of either a Pell or TAG grant. The grant is a "last dollar" award, meaning that it will be added after all other federal, state, and institutional grants and the student's full federal Direct Subsidized loan eligibility are considered and will bring the total of these aid elements to the cost of annual tuition and fees. (Note that if students choose to decline federal loan funding or become ineligible for federal or state funding, those funds will not be replaced by Monmouth University Promise Grant funding.) All students are automatically evaluated for eligibility and there is no separate application process. Students must be full-time.

Awards may only be applied toward tuition assessed by Monmouth University; awards are applicable to costs associated with study abroad only when tuition is assessed by Monmouth University or study at the Washington Center. For students in the medical technology and clinical lab sciences programs, the award will be prorated during the semester(s) where coursework is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition; student teachers enrolled in only 9 credits during the student teaching semester will also be offered prorated awards. The awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., Fall and Spring semesters) and are not offered during the summer term. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 2.0, is full-time, and has at least \$1 of either federal Pell or NJ TAG grant funding.

## Phi Theta Kappa Scholarship

Phi Theta Kappa is a national honor society for students at junior or community colleges. A limited number of scholarships at Monmouth University are available for students who are members of the society at the time they enroll at Monmouth and who enroll as full-time (12 or more credits) undergraduate students. The Office of Undergraduate Admission will identify and select the recipients; there is no separate application process for the scholarship. Awards are valued at \$2,500 per year.

The award may only be applied toward tuition assessed by Monmouth University, and is applicable to costs associated with study abroad only when tuition is assessed by Monmouth University. The award is also available for Medical Laboratory Science or Clinical Laboratory Science majors and will be prorated during the semester(s) in which course work is not taken at Monmouth University; the award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition. For education majors the award will be prorated in the student teaching semester if the student is registered for fewer than 12 credits.

Awards will not be awarded in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. The grant in combination with all other grants, scholarships, and need-based loans will not exceed direct cost (e.g., tuition, fees, and room/board for resident students and tuition and fees for commuting students); the scholarship cannot be applied toward housing charges. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 3.0.

## Brookdale Promise Scholarship

Beginning in fall 2025, the Brookdale Promise Scholarship is awarded to newly enrolling students who transfer from Brookdale County College and who meet certain financial criteria. Students must qualify for the maximum award for both Pell and TAG grants or have a family income less than or equal to \$65,000 and qualify for some amount of either a Pell or TAG grant. The grant is a “last dollar” award, meaning that it will be added after all other federal, state, and institutional grants and the student’s full federal Direct Subsidized loan eligibility are considered and will bring the total of these aid elements to the cost of annual tuition and fees. (Note that if students choose to decline federal loan funding or become ineligible for federal or state funding, those funds will not be replaced by Brookdale Promise Scholarship funding.) All students are automatically evaluated for eligibility and there is no separate application process. Students must be full-time.

Awards may only be applied toward tuition assessed by Monmouth University; awards are applicable to costs associated with study abroad only when tuition is assessed by Monmouth University or study at the Washington Center. For students in the medical technology and clinical lab sciences programs, the award will be prorated during the semester(s) where coursework is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition; student teachers enrolled in only 9 credits during the student teaching semester will also be offered prorated awards. The awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., Fall and Spring semesters) and are not offered during the summer term. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 2.0, is full-time, and has at least \$1 of either federal Pell or NJ TAG grant funding.

## Brookdale Achievement Grant

Beginning in fall 2025, the Brookdale Achievement Grant is awarded to newly enrolling students who transfer to Monmouth after completing their associate’s degree from Brookdale County College. Students will automatically be awarded an additional \$2,000, not to exceed the cost of tuition and fees, each academic year.

Awards may only be applied toward tuition assessed by Monmouth University; awards are applicable to costs associated with study abroad only when tuition is assessed by Monmouth University or study at the Washington Center. For students in the medical technology and clinical lab sciences programs, the award will be prorated during the semester(s) where coursework is not taken at Monmouth University. The award will be prorated by the amount of the non-Monmouth tuition as a percentage of Monmouth tuition; student teachers enrolled in only 9 credits during the student teaching semester will also be offered prorated awards. The awards will not be made in conjunction with other institutional benefits such as employee tuition remission or the tuition exchange program. Awards are available only during the regular academic year (i.e., Fall and Spring semesters) and are not offered during the summer term. Awards are renewable provided the student maintains a cumulative grade point average at Monmouth University of at least 2.5 and is full-time.

## Yellow Ribbon Grant

Monmouth University has voluntarily entered into a Yellow Ribbon Agreement with the Department of Veterans Affairs (VA). The agreement is completed on an annual basis and includes the maximum number of students to be funded, degree level of the recipients, and the maximum contribution by the University. The University’s contribution is matched

by the VA. Students must be 100% eligible for Post-9/11 benefits to qualify for the Yellow Ribbon program. All interested students must complete the University’s online Yellow Ribbon Application (<https://www.monmouth.edu/Yellow-Ribbon-Application.asp>). Newly enrolling full-time undergraduate students must submit an enrollment deposit before being considered for the program, and part-time students must submit a part-time reply form to the Office of Undergraduate Admission. A Certificate of Eligibility and DD-214 are required from all students at least two weeks prior to the start of their first semester. The University provides funding for up to forty (40) students – both undergraduate and graduate. Awards are made on a first-come, first-served basis, and students are notified of their eligibility through the Financial Aid award letter. Students serving on active duty are not eligible for the Yellow Ribbon Program. Students in the Yellow Ribbon Program are not eligible for other institutional grants or scholarships. The Federal Supplemental Educational Opportunity Grant (FSEOG) and work study are only awarded to students living on campus, provided that the student has remaining unmet need after the Yellow Ribbon Grant and other VA benefits are considered. Yellow Ribbon recipients may receive the Pell Grant in addition to the benefit. Students are not issued refunds until the University receives payment from the VA. For students attending a full academic year, Yellow Ribbon benefits are generally awarded in the spring semester after the Post-9/11 benefits have been exhausted. Awards are renewable, provided that the student remains enrolled as a full-time student, and meets the established standards of Satisfactory Academic Progress for federal and state awards, and continues to meet VA-specified eligibility requirements.

## Activity Scholarship

Scholarships are awarded to students who occupy campus leadership positions (i.e., yearbook editor, newspaper editor, radio station manager, Student Government Association President, etc.). Recipients and award amounts are determined by the Director of Student Activities. Awards are available only during the academic year (e.g., the Fall and Spring terms).

## Federal Pell Grant

The federal Pell Grant is a need based grant for undergraduate students who have not yet completed a baccalaureate or first professional degree and who meet all other federal eligibility requirements (<https://www.monmouth.edu/finaid/getting-started/eligibility-for-aid/>). The Financial Aid Office will calculate the amount of the student’s award based upon the student’s Student Aid Index, cost of attendance, and enrollment status. Receipt of a Pell Grant does not depend upon the availability of funds; all students who meet the federal eligibility requirements will be awarded the grant.

The amount of the Federal Pell Grant depends in part on the amount that Congress appropriates for the program. The maximum award for a full-time student for 2024-25 is \$7,395. It may be possible to also receive a Federal Pell Grant in summer; the Financial Aid Office can help you determine if you may be eligible for summer funding. The Pell grant may be used for study abroad, study at the Washington Center, or by students in the Medical Laboratory Science and Clinical Lab Sciences programs during the semester(s) in which course work is not taken at Monmouth University.

Students who file the Free Application for Federal Student Aid (FAFSA) (<http://www.fafsa.ed.gov/>) will be automatically considered for the Pell Grant. Pell grant renewal is dependent on the student filing the FAFSA each year and continuing to meet the eligibility requirements.

## Federal Supplemental Educational Opportunity Grant (FSEOG)

FSEOG is awarded to undergraduate students who demonstrate extreme financial need and is generally awarded to undergraduate students who are Pell Grant recipients. On average, Monmouth University awards \$650 to FSEOG recipients. Funding is limited, and priority is given to students who have filed their FAFSA in a timely fashion. FSEOG is available during the regular academic year (i.e., fall and spring semesters) and may be available during the summer term on a limited basis. Awards are renewable, provided that the student continues to demonstrate extreme financial need and meets the established standards of Satisfactory Academic Progress for federal awards. Awards are applicable to costs associated with study abroad when the tuition is assessed by Monmouth University, study at the Washington Center, and for off-campus study associated with the Medical Technology and Clinical Laboratory Science programs. Awards are available during the summer term on a "funds available" basis.

## Federal TEACH Grant

The Teacher Education Assistance for College and Higher Education (TEACH) Grant that provides grants of up to \$4,000 per year (including the summer term); students may receive a maximum of \$16,000 in TEACH Grant funding for undergraduate studies. In exchange for receiving a TEACH Grant, the student must agree to serve as a full-time teacher in a high-need field (e.g., bilingual education and English language acquisition, foreign language, mathematics, reading specialist, science, special education, or other identified teacher shortage areas) in a public or private elementary or secondary school that serves low-income students. As a recipient of a TEACH Grant, the student must teach for at least four academic years within eight calendar years of completing the program of study for which the TEACH Grant was awarded.

**IMPORTANT:** If the student fails to complete this service obligation, all TEACH Grants that the student received will be converted to a Direct Unsubsidized Loan, with interest having accrued since the date the TEACH grants were originally disbursed. The student must then repay this loan to the U.S. Department of Education. Note: TEACH Grant recipients will be given a six-month grace period prior to entering repayment if a TEACH Grant is converted to a Direct Unsubsidized Loan.

### Eligibility Requirements

To receive a TEACH Grant, the student must meet the following criteria:

- Be enrolled as an undergraduate, post-baccalaureate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program;
- Be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher);
- Meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25); and
- Sign a TEACH Grant Agreement to Serve, and complete an Entrance Counseling session.

## New Jersey Tuition Aid Grant (TAG)

Students who are full-time undergraduates, have demonstrated financial need (as determined by the FAFSA), and have been New Jersey residents for at least twelve consecutive months prior to the beginning of the academic year may be eligible to receive the TAG grant. (Note that TAG

grants may be available under certain conditions for students in their last semester who are part-time.) Final determinations of eligibility are made by the New Jersey Higher Education Student Assistance Authority (NJHESAA); Monmouth University has no influence or control over a student's determination of eligibility. For the 2023-24 academic year, grant amounts ranged from \$2,176 to \$14,404. Grants are renewable annually based upon continued financial need and Satisfactory Academic Progress, but will only be awarded for a maximum of nine semesters of full-time undergraduate enrollment. Students who have not previously received a TAG grant must apply by completing the FAFSA by September 15 for the fall and spring semesters and by February 15 for the spring only. Prior TAG recipients must complete the FAFSA by April 15. TAG grants are generally available during the regular academic year (i.e., fall and spring semesters), but under certain circumstances may be available for summer coursework. Awards are applicable to costs associated with study abroad or study at the Washington Center.

Students will be notified of their eligibility by NJHESAA and may also be asked to supply additional documentation to NJHESAA. Funding of this award is subject to change due to annual State budget appropriations.

## Educational Opportunity Fund (EOF) Grant

The undergraduate EOF program is designed to provide access to higher education for New Jersey residents who might otherwise not have the opportunity to obtain a college education. Both the state of New Jersey and the University provide grants to EOF students. Monmouth University EOF grants are awarded to full-time undergraduate students for tuition / fees and on-campus room / meal costs that are not covered after all other federal, state, and institutional grant and loan entitlements are considered. (Note that if students choose to decline federal loan funding or become ineligible for federal or state funding, those funds will not be replaced by Monmouth University EOF Grant funding.) Institutional grants are also offered for books and approved supplies; the award value is the lesser of \$1,200 or the actual value of the books and supplies. The Monmouth University EOF Grant will not be awarded in excess of direct cost plus books and supplies.

EOF funding is available during the regular academic year (i.e., fall and spring semesters), and is available on a limited basis during the summer term. In order to receive funding during the summer, students must complete a summer financial aid application. Requests for summer funding are reviewed by the Director of the EOF program in conjunction with the Assistant Director of Financial Aid, and are prioritized as follows:

1. students scheduled to graduate at the conclusion of the summer or fall term;
2. science majors and
3. students who have changed majors.

All other requests will be fulfilled as funding permits.

Academic year awards are renewable, provided that the student continues to demonstrate extreme financial need, meets the established standards of Satisfactory Academic Progress for state awards, and is in compliance with the institutional requirements of the EOF program. Awards are applicable to costs associated with study abroad, when tuition is assessed by the University, or study at the Washington Center; approval for off-campus study is at the discretion of the Director of the EOF program and students may use Monmouth University EOF funding for only one off-campus study experience.

## New Jersey Survivor Tuition Benefits Program

The Survivor Tuition Benefits Program is for New Jersey residents who attend Monmouth University on, at least, a half-time basis who are spouses and/or dependents of emergency service personnel or law enforcement officers killed in the line of duty. Grants pay the actual cost of tuition up to the highest tuition charged at a New Jersey public institution of higher education. For the fall and spring terms, applications must have been submitted by October 1, and for Spring only awards, the application must be submitted by March 1; applications are available on the NJFAMS portal (<https://njfams.hesaa.org/NJFAMS/login.aspx?ReturnUrl=/NJFAMS/int/FinAid/index.aspx>). Scholarship availability and finding levels are determined by NJHESAA.

## Law Enforcement Officer Memorial Scholarship

The Law Enforcement Officer Memorial Scholarship (LEOMS) benefits dependent children of New Jersey law enforcement officers who were killed in the line of duty. The scholarship is awarded up to the cost of attendance less any other scholarships, grants, benefits, and other assistance awarded under the NJHESAA statute and may be renewed for up to four years. Students must be U.S. citizens or eligible non-citizens and enrolled on a full-time basis. The application deadline for the fall and spring semesters is October 1, and for the spring only the deadline is March 1. An application may be downloaded from the Higher Education Student Assistance Web site (<http://www.hesaa.org/Pages/NJGrantsHome.aspx>). The LEOMS is only available during the regular academic year (i.e., fall and spring semesters).

## World Trade Center Scholarships

This scholarship was established to benefit dependent children and surviving spouses of New Jersey residents who were killed in or who died as a result of the terrorist attacks against the United States on September 11, 2001 or who died as a result of illness caused by exposure to the attack sites. In order to apply, you must complete the World Trade Center Application through the NJFAMS portal (<https://njfams.hesaa.org/NJFAMS/login.aspx?ReturnUrl=/NJFAMS/int/FinAid/index.aspx>). The deadline for fall and spring term is October 1 of the academic year for which aid is requested. The deadline for the spring term only is March 1 of the academic year for which aid is requested. Based on current funding levels, the maximum award amount is \$5,000 per academic year.

In order to be eligible, students must:

- Be a child or spouse of an individual who was a NJ resident on September 11, 2001 and who was:
  - Killed in the terrorist attack against the U.S. on September 11, 2001
  - Died as a result of injuries received in the attack
  - Died as a result of illness caused by exposure to the attack sites
  - Declared missing an officially presumed dead as a result of the attack
- Provide documentation to verify eligibility
- Be a U.S. citizen, eligible non-citizen, or eligible to file the NJ Alternative Financial Aid application
- Be a full-time, undergraduate student
- Eligibility to apply is limited to eight years from the date of the child's high school graduation and/or eight years from the date of the death for the spouse
- Maintain satisfactory academic progress

- Complete an application each year and not have received the maximum allowable number of payments (eight semesters of payments for a regular four-year degree program; five semesters of payments for a regular two-year degree program.)

## Governor's Urban Scholarship Program

The New Jersey Higher Education Student Assistance Authority (NJHESAA) provides eligible students awards of \$1,000 each year for up to four years as part of the Governor's Urban Scholarship Program. These funds are only available during the fall and spring terms. To be eligible for this award, students must meet all the following criteria:

- Reside in one of the designated high-need communities in New Jersey: Asbury Park City, Burlington City, Bridgeton, Camden City, East Orange City, Elizabeth, Garfield, Gloucester City, Harrison, Hoboken, Irvington Township, Jersey City, Keansburg, Lakewood, Long Branch, Millville City, Neptune Township, Newark City, New Brunswick City, Orange, Passaic City, Paterson City, Pemberton Township, Perth Amboy, Phillipsburg, Plainfield City, Pleasantville, Roselle Borough, Salem City, Trenton City, Union City, Vineland City, or West New York.
- Rank in the top 5% of their high school graduating class.
- Have a cumulative GPA of at least 3.0 at the end of the junior year in high school.
- Be a U.S. citizen or eligible non-citizen
- Be a New Jersey resident for at least twelve consecutive months prior to receiving the award.
- File a FAFSA or the NJ Alternative Financial Aid Application each year.
- Be Tuition Aid Grant (TAG)-eligible (if at any point in time the student is no longer eligible for TAG funding, the Urban Scholarship money will be cancelled.)
- Be matriculated full-time in an eligible academic program.
- Make satisfactory academic progress in order to continue to receive the award.

There is no separate application for the scholarship; eligible students will be notified by NJHESAA. Funding of this award is subject to change due to annual State appropriations.

## New Jersey Student Tuition Assistance Reward Scholarship (STARS) II

The NJ STARS II Program is a continuation of the NJ STARS I Program. NJ STARS I recipients who complete an Associate's Degree at any New Jersey county college may transfer to a New Jersey four-year college/university to earn a bachelor's degree. NJ STARS II awards may only be applied toward tuition, unless the student is also a Tuition Aid Grant (TAG) recipient, in which case it goes toward tuition and approved fees. All other State and Federal grants and scholarships will be applied to the charges first; the award will not exceed \$1,250 per semester. NJ STARS II awards are dependent upon annual State budget appropriations. Awards are available only during the regular academic year (i.e., the fall and spring semesters) and are renewable, provided the student meets the established standards of Satisfactory Academic Progress for state awards. Awards are applicable to costs associated with study abroad when the tuition is assessed by Monmouth University or study at the Washington Center.

In order to be eligible for this scholarship, students must:

- Be a NJ STARS I recipient or NJ STARS I eligible and unfunded (e.g., student would otherwise qualify for STARS I, but tuition and approved fees are fully covered by other state and/or federal aid).
- Have graduated from a NJ county college with an associate degree and a GPA of 3.25 or higher.
- Have family income (including taxable and untaxed income) less than \$250,000.
- Be admitted to a NJ four-year institution that participates in the TAG program.
- Begin NJ STARS II program participation no later than the second semester immediately following county college graduation.
- Be enrolled full-time (twelve credits or more) each semester.
- Submit their FAFSA and submit any requested documentation to complete or verify the application within established State deadlines.

- \$4,000 per year for undergraduate students who have completed fewer than sixty credits
- \$5,000 per year for undergraduate students who have completed sixty or more credits

Direct Unsubsidized Loans, in combination with other sources of financial aid, cannot exceed the student's budgeted cost of attendance. The interest rate is fixed at 6.53% for loans disbursed on or after July 1, 2024 and on or before July 1, 2025; the interest rate is fixed for the life of the loan. Interest does not accrue while the student is enrolled for at least six credit hours. Borrowers are charged, by the federal government, an up-front origination fee. For loans disbursed on or after October 1, 2020 and before October 1, 2025 the fee is 1.057%.

Students who have not previously borrowed a Direct Loan - either Subsidized or Unsubsidized - must complete a promissory note; one promissory note will be used for both the Subsidized and Unsubsidized loan programs. The Financial Aid Office will notify new borrowers when a promissory note is available for signature. Borrowers must complete the promissory note and an Entrance Counseling (an online tutorial regarding the student loan borrower's rights and responsibilities) session before the loan funds will be credited to the student's account. The student will begin repayment of all Direct Loans six months after graduation or cessation of at least half-time enrollment. Direct Loans are available during the regular academic year (i.e., fall and spring semesters) and may be available during the summer term, depending upon the student's borrowing during the academic year; to access loan funds during the summer term, students must complete the University's Summer Financial Aid Application and be registered for at least six credits during the course of the summer. In order to receive Direct Loan funding in subsequent academic years, the student must meet the established standards of Satisfactory Academic Progress for federal awards. Direct Loans are applicable to costs associated with study abroad or study at the Washington Center.

## Loans

### Direct Subsidized Loan

This is a federally funded loan program that is available to any undergraduate student who has completed the FAFSA, demonstrated financial need, is a matriculated student enrolled for at least six credits in the term the loan is being awarded, is a United States citizen or eligible non-citizen, has maintained Satisfactory Academic progress, is not in default on a prior student loan and has demonstrated financial need; creditworthiness is not a requirement for the Direct Subsidized Loan. The amount an undergraduate student may borrow is dependent on class level and need:

- 0 - 29.5 credits completed - up to \$3,500
- 30 - 59.5 credits completed - up to \$4,500
- 60 or more credits completed - up to \$5,500

The interest rate is fixed at 6.53% for loans disbursed on or after July 1, 2024 and on or before June 30, 2025; the interest rate is fixed for the life of the loan. Interest does not accrue while the student is enrolled for at least six credits. Borrowers are charged, by the federal government, an up-front origination fee. For loans disbursed on or after October 1, 2020 and before October 1, 2025 the fee is 1.057%.

### Direct Unsubsidized Loan

The Direct Unsubsidized Loan is a federally funded, low-interest-rate loan with eligibility requirements, terms, and conditions similar to those of the Direct Subsidized Loan. The primary difference is that interest accrues on the loan immediately after it is disbursed and while the student is enrolled. Students with no financial need are permitted to borrow through the Direct Unsubsidized loan program and may borrow between \$3,500 and \$5,500, depending upon class level:

- 0 - 29.5 credits completed - up to \$3,500
- 30 - 59.5 credits completed - up to \$4,500
- 60 or more credits completed - up to \$5,500

Additionally, all undergraduate students, regardless of financial need, are eligible for \$2,000 in Direct Unsubsidized Loan funds each academic year, up to a maximum of \$8,000.

Independent students (or dependent students whose parents are unable to borrow a Federal Direct PLUS Loan) may also borrow additional amounts under the Direct Unsubsidized Loan program, as follows:

### Direct Parent Loan for Undergraduate Students (PLUS)

This is a federally funded loan program. Parents (biological or adopted) of eligible dependent undergraduate students (i.e., the student is enrolled as a matriculated student in at least six credits, is U.S. citizen or eligible non-citizen, has maintained Satisfactory Academic Progress, has completed the FAFSA, and is not in default on a prior student loan) may apply for this loan; the parent must also meet general eligibility criteria (i.e., the parent must be a U.S. citizen or eligible non-citizen and must not be in default on a prior student loan). The PLUS loan is not based on financial need, but borrowers must demonstrate creditworthiness. Eligible borrowers may borrow the difference between the cost of attending Monmouth and any other financial aid the student receives.

The interest rate is fixed at 9.08% for loans disbursed on or after July 1, 2024 and before July 1, 2025; the interest rate is fixed for the life of the loan. Interest does not accrue while the student is enrolled for at least six credit hours. Borrowers are charged, by the federal government, an up-front origination fee. For loans disbursed on or after October 1, 2020 and before October 1, 2025 the fee is 4.228%. Interest begins to accrue on the loan once it is disbursed and, unless the parent borrower requests an in-school deferment, the first payment is due sixty days after the loan is fully disbursed. Repayment lasts between ten and twenty-five years based on the total amount borrowed and the repayment option chosen by the borrower.

The parent borrower must complete the application and promissory note online (<https://studentloans.gov/myDirectLoan/index.action/>). Shortly after the beginning of each term, the University's Financial Aid Office will electronically transmit the funds to the student's account.

Direct PLUS Loans are available during the regular academic year (i.e., fall and spring semesters) and the summer term; to access loan funds during the summer term, students must complete the University's Summer Financial Aid Application and must be registered for at least six credits during the summer. In order to receive Direct Loan funding in subsequent academic years, the student must meet the established standards of Satisfactory Academic Progress for federal awards. PLUS loans are applicable to costs associated with study abroad or study at the Washington Center.

## Monmouth University Loan Fund

This loan program is funded by Monmouth University. Awards are made at the discretion of the Director of Financial Aid and are not renewable; the amount of the award is also at the discretion of the Director. Monmouth University Loan Funds may not be applied to costs associated with off-campus study (e.g., study abroad or study at the Washington Center). The terms and conditions of the loan are as follows:

- Interest on the loan is fixed at 7 percent for the life of the loan and begins to accrue nine (9) months after the student ceases at least half-time (i.e., six credits) enrollment. When the student ceases half-time enrollment, he or she enters repayment.
- While in repayment, the student is expected to make quarterly payments of principle and interest of at least \$120, although a minimum annual payment of 10% of the principle is required.
- The maximum repayment term is ten (10) years and there is no penalty for prepayment.
- In order to accept the offer of a Monmouth University Loan, students must complete a promissory note and disclosure documents as prepared by the Financial Aid Office.

## Alternative Loans

Alternative financing sources are available from private lenders and are a financing option for students who either do not meet the eligibility criteria for the Direct Loan programs, or who have exceeded the borrowing limits for those programs. Generally, students may apply for a loan of up to the cost of education, as determined by the Financial Aid Office, less any other aid. Alternative loans are not regulated by the federal government, and the terms and conditions of the loans may vary widely among lenders and, as such, students are encouraged to carefully evaluate alternative loan options. Once you have chosen a lender, complete their recommended application process. The Financial Aid Office will then certify the loan, and once the semester begins, funds will be forwarded to the University and credited to the student's account.

Although alternative loans are generally not regulated by the U.S. Department of Education, the University is required to publish a Code of Conduct ([https://catalog.monmouth.edu/graduate-catalog/financial-aid/loans/Code\\_of\\_Conduct.pdf](https://catalog.monmouth.edu/graduate-catalog/financial-aid/loans/Code_of_Conduct.pdf)) regarding loans.

## Employment

### Federal Work Study for Undergraduate Students

This federally funded program provides on- and off-campus employment opportunities in a variety of settings to eligible students. Students are compensated at a competitive wage and may work between five and 20 hours per week during the academic year. Earnings for work performed are paid directly to students every two weeks and are not credited toward student charges for tuition, room, board, etc.

Eligibility and award amounts are based upon demonstrated financial need, in the context of the total amount of financial aid received by the student from all other sources. To be considered for the Federal Work Study program, the student must have filed the FAFSA and meet all eligibility requirements for federal funding. Funding is limited, and priority is given to students who have filed their financial aid application in a timely fashion. Inclusion of Federal Work Study in a student's financial aid offer is not a guarantee of employment.

The University also offers a limited number of part-time, on-campus jobs to students not eligible for Federal Work Study; these positions are known as "student help". To be considered for these positions, students must complete the FAFSA and demonstrate that they are ineligible for Federal Work Study. Students employed in student help positions are also compensated at a competitive wage. Generally, students in this non-need-based employment program are limited to a maximum number of twenty hours per week.

For more information on employment, please contact the Student Employment Office (<https://www.monmouth.edu/student-employment/>) at 732-263-5706 or [studemploy@monmouth.edu](mailto:studemploy@monmouth.edu).

## Satisfactory Academic Progress

Federal regulations require institutions to establish minimum standards of satisfactory academic progress for students receiving federal funding (i.e., Pell Grant, SEOG grant, Direct Loans, TEACH Grant, and Work Study); the New Jersey Higher Education Student Assistance Authority (NJHESAA) requires that recipients of NJ grants and scholarships (i.e., TAG, EOF, Urban Scholarship, NJCLASS loan) meet these requirements as well.

Satisfactory academic progress for federal and state funding at Monmouth University is measured along three dimensions: cumulative grade point average, pace, and maximum time frame. All course work is considered in the evaluation of a student's academic progress, whether or not the student received financial aid at the time the work was completed.

**To remain in good standing, a student must meet each of the three requirements:**

- **Cumulative Grade Point Average:** Consistent with the general academic requirements of the University, students must meet the following grade point average requirements to retain their eligibility for financial aid:

| Year       | Credits |
|------------|---------|
| Freshmen   | 1.60    |
| Sophomores | 2.00    |

|         |      |
|---------|------|
| Juniors | 2.00 |
| Seniors | 2.00 |

*Please refer to Academic Definitions of freshman, sophomore, junior, and senior class standing.*

*Note: Students must have earned a cumulative GPA of 2.00 or better by the end of their second academic year of enrollment, regardless of whether or not they have completed enough credits to attain junior class standing.*

- **Pace:** All students must successfully complete (i.e., earn a grade of "D-" or better or a grade of "P") at least 67% of the credits they attempt. Repeated courses and course work assigned a grade of "W," "WF," "F," or "I" will not count as credits completed, but will count as attempted credits. "I" incomplete grades that are later converted to a letter grade are factored into the next regular evaluation of academic progress. Course work taken at the developmental level (i.e., courses numbered "050") will also be counted as credits attempted and, if the student successfully completes the course, as completed credits; a student may not receive financial aid for more than 30 credits of developmental level courses. Credits transferred from another institution will count as both attempted and completed credits. Course work graded on a Pass / Fail basis and that counts toward degree requirements will count as attempted credits and courses in which the student receives a grade of "P" will count as completed credits.
- **Maximum Time Frame:** The maximum number of credits an undergraduate student in a 120 credit degree program may attempt and receive funding for is 180 credits or 150% of the number of credits (120) required to complete the degree program. Course work attempted on a Pass/Fail basis and credits transferred from other institutions will be counted toward the maximum. Students who add majors and/or change majors or degree programs are still subject to the same maximum time frame requirements. Although students may attempt more than 180 credits, federal and state funds will not be awarded for credits attempted in excess of the limit.

**Those students who receive scholarship or grant funding from Monmouth University must also meet certain standards for cumulative grade point average as follows:**

- Monmouth Academic Excellence Scholarship (3.0)
- Monmouth Academic Grant (2.5)
- Monmouth Incentive Grant (2.0)
- Shadow Lawn Science Grant (3.5)
- Transfer Science Scholarship (3.0)
- Phi Theta Kappa Scholarship (3.0)
- Great Lawn Grant (2.5)
- SOAR Grant (2.0)
- Each sponsored or endowed scholarship may require unique criteria for renewal, and recipients will be advised of those criteria.

Financial aid at Monmouth University is awarded to students for the entire academic year or summer session. Academic progress for all aid recipients is reviewed at the conclusion of the spring semester. If a student has not met **all** of the requisite standards, the student will be ineligible to receive federal, state, and/or institutional funds. Students who are deemed ineligible will be offered the opportunity to submit an appeal for reinstatement of their aid eligibility; refer to the section below for the Appeals procedure. (Please note that submission of an appeal for

reinstatement of financial aid does not constitute an appeal for academic reinstatement to the University.)

## Appeals Process

Students who fail to meet one or more of the standards (cumulative grade point average, pace, or maximum time frame) noted above are ineligible for financial aid. Students will be notified in writing that they are ineligible and offered the opportunity to appeal. All appeals must be submitted using the Satisfactory Academic Progress Etrieve form and must be received by the stated deadline. Students who do not appeal will remain ineligible for federal and state financial aid, and will (if applicable) receive an automatic reduction to their University grant or scholarship. Students should note that the appeals process for Financial Aid Satisfactory Academic Progress is separate from the University's Academic Standards Review process for academic reinstatement to the University.

Circumstances that might merit an appeal include, but are not limited to: serious illness or injury to the student or a member of the student's immediate family, a death in the immediate family, or other special circumstances outside the student's control. Supporting documentation of the circumstances forming the basis for the student's appeal must be submitted with the appeal. Students who have been deemed ineligible in a prior semester, but who have since improved their performance to the required level are also encouraged to submit an appeal for the reinstatement of their aid; a student's aid will not be automatically reinstated.

The Associate Director of Financial Aid will review the appeal, and may elect to either grant the student a one semester probationary period and require the student to agree to an academic plan or uphold the determination of ineligibility (e.g., cancel the student's financial aid; University grants and scholarships may be reduced).

A probationary period may not last more than one semester and if, at the conclusion of the probationary semester, the student has not met the standards for academic progress their award(s) will be removed.

If the student is offered an academic plan, the student must return a signed copy of it to the Financial Aid Office; funding will not be restored to the student's account until the plan has been received. The student's academic progress will be reviewed at the conclusion of each semester that the plan is in force.

Throughout the duration of their enrollment, students may submit a maximum of two appeals based upon the same circumstance. Additional appeals must include a description of what circumstances have changed that would enable the student to meet the requirements for satisfactory academic progress and the allowability of such appeals will be determined on a case by case basis by the Associate Director of Financial Aid.

Students who submit an appeal will receive written notification of outcome of the appeal. Documentation of the student's ineligibility and any subsequent appeals is maintained within the student's financial aid record. Students who leave the University and subsequently re-enroll will be evaluated based upon their status at the point they left.

## Return of Financial Aid When a Student Withdraws

Financial aid is awarded under the assumption that the student will attend school for the entire period for which the aid is awarded; students

must “earn” the aid they received by remaining enrolled in and attending classes. When a student withdraws (either officially or unofficially) or is dismissed from the University, the student may not have earned the full amount of aid that was initially awarded and may be responsible for repaying the unearned portion of their aid. Determining what aid is earned or unearned is known as the refund / recalculation process, and is separate from the process related to any tuition refund a student may be due after withdrawing. What follows is a description of the financial aid refund / recalculation process, including sample calculations, for federal, University, and NJ State Awards; awards from all other sources are recalculated as per the requirements of the source or if the source doesn't specify, then the award would be treated in the same way as University awards. Although this is a summary, the complete Return of Funds Policy is also available for review upon request.

**their academic advisor before doing so.** At that time, the consequences of withdrawing from all classes can be explained and clearly illustrated.

Students who withdraw from the University may also be entitled to a refund of a portion of their tuition, fees, and room/board charges, dependent upon the point in time at which the student withdraws. See *Refund Policy* for detailed information on the University's tuition, fee, and room/board refund policies.

## Process

1. Students are identified as either an “official” or “unofficial” withdrawal. Students who withdraw from all courses by completing either the “Withdrawal From Courses”, “Leave of Absence”, or “Total Withdrawal From the University” e-forms have withdrawn officially; students who are dismissed from the University are also classified as official withdrawals. If the student stops attending and doesn't notify the University or completes all courses with a combination of “W” and/or “F” grades, the student is an unofficial withdrawal.
2. The Financial Aid Office determines the number of days in the semester the student attended, based on either the withdrawal / dismissal date for official withdrawals or the last date of attendance, confirmed with the instructor for each of the student's courses, for unofficial withdrawals.
3. The percentage of the semester the student completed will be calculated by dividing the number of days the student attended by the number of calendar days in the semester, less any break period of 5 or more days; where the last date of attendance can't be confirmed, the midpoint (50%) of the semester will be used in the calculation.  
If the percentage of the semester completed is 60% or more, all aid is considered “earned” and no further action will be taken. If the student completed less than 60% of the semester, then a portion of their financial aid is unearned and must be returned. Students who withdraw during the drop/add period will receive a 100% refund on tuition and all financial aid will be cancelled; no refund calculation is required.
4. The Financial Aid Office completes a series of calculations to determine the type(s) and amount of aid to be returned to the program(s) from which it came. The methods for calculating the amount of federal, University, and/or state aid to be returned are described in detail on the financial aid website (<https://www.monmouth.edu/finaid/after-monmouth/withdrawing/financial-aid-when-a-student-withdraws/>).
5. Adjustments will be made to the student's account by either removing unearned aid or crediting earned funds not credited prior to the student withdrawing. Monmouth University must then return unearned funds to the aid program they came from; funds must be returned within 45 days of date the University became aware of the student's withdrawal.
6. The student will receive a revised, hard copy financial aid offer letter that documents the changes to their aid. The offer letter will be delivered to the mailing address that the student has on file with the University.

**Students whose circumstances require that they withdraw from all classes are strongly encouraged to contact the Financial Aid Office and**

# ACADEMIC PROGRAMS, SUPPORT SERVICES AND REGULATIONS

## Degree Requirements

### Bachelor's Degrees

The fundamental purpose of Monmouth University is to foster a love of learning and enable our graduates to enjoy a better quality of life and contribute to the greater health and well-being of all communities, human and natural. A Monmouth University undergraduate education provides an understanding of the world in which we live, the skills and knowledge needed to pursue further education and a career, an awareness of civic responsibility including the opportunities for service and leadership in the public interest, and the ability to engage in a lifetime of learning. Specific learning goals are embodied within the six categories described below.

**Monmouth University students will be prepared to embark on a journey of lifelong learning and will:**

1. Be empowered with a mastery of practical and intellectual skills, including writing, reading, speaking, qualitative and quantitative reasoning, technology, information literacy, and critical thinking;
2. Be informed by knowledge of the natural and social sciences and basic forms of inquiry, including competence in basic research skills, scientific method, collaborative problem solving, and working in interdisciplinary groups;
3. Have self-understanding based upon reflection, judgment, self-examination, independence of mind, and creativity;
4. Have an understanding of the human experience based upon knowledge of history, culture, interdependence, equality, justice, diversity, commonality, and contemporary global affairs;
5. Be responsible for ethics in social interactions, community involvement, and civic action; and
6. Relate academic knowledge to broader life and career pursuits, and acquire a depth of knowledge in a major field.

All candidates for bachelor's degrees must complete the General Education Requirements (p. 45). (Transfer students should also refer to the General Education Transfer Equivalencies (p. 24).) These requirements, generally satisfied in the first two years, provide foundations designed to enhance all major courses of study.

In the senior year, all students take an interdisciplinary perspectives course that affords the opportunity to explore a focused problem, topic, or issue. The ability to bring a variety of intellectual tools to complex problems is encouraged, and course formats include discussion and group projects.

## Degree Programs

Monmouth University offers a variety of courses and programs at the undergraduate level. The curriculum provides for general education in the liberal arts and intensive study in one or more major disciplines. Classes are offered year-round during the day and in the evening. Candidates for bachelor's degrees may select majors or concentrations from the following (for specific details, please see the appropriate school section):

### Wayne D. McMurray School of Humanities and Social Sciences

**Dean: David Golland, Ph.D.**

Completion of the following programs leads to the Bachelor of Arts (B.A.) Degree:

- Anthropology
- Art
- Art with a Concentration in Photography
- Communication
- Communication with a Concentration in Journalism, Public Relations, and Sports Communication
- Communication with a Concentration in Media, Content Creation, and Sports
- Communication with a Concentration in Communication, Culture, and Leadership
- Criminal Justice
- Criminal Justice with Social Work
- English
- English with a Concentration in Creative Writing
- History
- History-Political Science Interdisciplinary
- Interdisciplinary Studies
- Music
- Music with a Concentration in Music Industry
- Music with a Concentration in Musical Theatre
- Political Science
- Political Science with a Concentration in International Relations
- Political Science with a Concentration in Legal Studies
- Psychology
- Sociology
- Sociology with a Concentration in Applied Research and Community Organizing
- Spanish
- Spanish and Communication

Completion of the following program leads to the Bachelor of Science (B.S.) Degree:

- Homeland Security

Completion of the following programs lead to the Bachelor of Fine Arts (B.F.A.) Degree:

- Fine Arts in Design and Animation with a Concentration in Animation
- Fine Arts in Design and Animation with a Concentration in Graphic and Interactive Design

### School of Science

**Interim Dean: Joseph Coyle, Ph.D.**

Completion of the following programs leads to the Bachelor of Science (B.S.) Degree:

- Biology
- Biology with a Concentration in Molecular Cell Physiology
- Chemistry

- Chemistry with a Concentration in Advanced Chemistry
- Clinical Laboratory Science with a Concentration in Medical Laboratory Science
- Computer Science
- Marine and Environmental Biology and Policy
- Mathematics
- Mathematics with a Concentration in Statistics
- Medical Laboratory Science
- Software Engineering

*Completion of the following programs leads to the Bachelor of Arts (B.A.) Degree:*

- Computer Science

## Leon Hess School of Business

**Dean: Raj Devasagayam, Ph.D.**

*Completion of the following program leads to the Bachelor of Science (B.S.) Degree:*

- Business Administration with a Concentration in Accounting, Accounting Analytics, Economics, Economics and Finance, Finance, Finance and Real Estate, International Business, Operations, Supply Chain, and Data Management, Small Business Management and Entrepreneurship, Leadership and Organizational Development, Marketing, Marketing and Management, or Real Estate

## School of Education

**Interim Dean: Wendy Harriott, Ph.D.**

*Completion of the following programs leads to the Bachelor of Arts (B.A.) Degree:*

- Education (elementary, secondary, or K-12). Must be combined with a content major from Anthropology, Art, English, English with a Concentration in Creative Writing, History, History/Political Science, Music, Political Science, or Spanish
- Education (elementary) Interdisciplinary Studies for Elementary Educators
- Special Education Endorsement (elementary or secondary). Must be combined with a content major from Anthropology, English, English with a Concentration in Creative Writing, History, or Spanish and Education.

*Completion of the following programs leads to the Bachelor of Science (B.S.) Degree:*

- Education (elementary or secondary). Must be combined with a content major from Biology, Chemistry, Health/Physical Education, or Mathematics.

## School of Nursing and Health Studies

**Acting Dean: Shannon Clifford, Ph.D.**

*Completion of the following program leads to the Bachelor of Science in Nursing (B.S.N.) Degree:*

- Nursing

*Completion of the following programs leads to the Bachelor of Science (B.S.) Degree:*

- Health Studies
- Health Promotion

## School of Social Work

**Interim Dean: Golam Mathbor, Ph.D.**

*Completion of the following program leads to the Bachelor of Social Work (B.S.W.) Degree:*

- Social Work
- Social Work with Criminal Justice

| <i>Mathematics</i>                                                                           |                        |           |
| Select one course designated with Course Type: MA at the 100-level or higher (except MA-101) |                        | 3         |
| <i>Natural Sciences</i>                                                                      |                        |           |
| Select two courses designated with Course Type: NS                                           |                        | 6         |
| <i>Literature</i>                                                                            |                        |           |
| Select one course designated with Course Type: LIT                                           |                        | 3         |
| <i>Aesthetics and Creativity</i>                                                             |                        |           |
| Select one course designated with Course Type: AT                                            |                        | 3         |
| <i>Technological Literacy</i>                                                                |                        |           |
| Select one course designated with Course Type: TL                                            |                        | 3         |
| <i>Reasoned Oral Discourse</i>                                                               |                        |           |
| Select one course designated with Course Type: RD                                            |                        | 3         |
| <i>Historical Perspective</i>                                                                |                        |           |
| Select one course designated with Course Type: HS.SV                                         |                        | 3         |
| <i>Social Sciences</i>                                                                       |                        |           |
| Select one course designated with Course Type: SS.SV                                         |                        | 3         |
| <i>Historical Perspective or Social Science</i>                                              |                        |           |
| Select one course designated with Course Type: HS.SV or SS.SV                                |                        | 3         |
| <i>Cultural Diversity/Global Understanding</i>                                               |                        |           |
| Select one course designated with Course Type: CD or GU                                      |                        | 3         |
| <i>World Language</i>                                                                        |                        |           |
| Select one World Language (which includes American Sign Language) course                     |                        | 3         |
| <i>Interdisciplinary Perspectives on the Human Experience</i>                                |                        |           |
| Select one course designated with Course Type: ISP                                           |                        | 3         |
| Completion of two Writing-Intensive Courses Within the Major: WT                             |                        | 0         |
| <i>Experiential Education</i>                                                                |                        |           |
| Select one course designated with Course Type: EX                                            |                        | 0         |
| <b>Total Credits</b>                                                                         |                        | <b>45</b> |

Please visit the University website for information regarding General Education Curriculum and Learning Goals. (<https://www.monmouth.edu/gened/>)

Additional requirements, including major requirements, are referenced in the sponsoring school under the appropriate discipline. The major must be chosen by the end of the sophomore year. All majors require the completion of a minimum total of 120 credits, with at least fifty-four credits from courses at the 200-level or higher. In addition to completing all required course work for the degree, the cumulative grade point average must be at least 2.00 and the grade point average in the major must be at least 2.10 for courses completed at Monmouth. All students must complete the last thirty (30) credits at Monmouth; this requirement is called the "residency requirement." Residency requirements for transfer

students are discussed further in the *Admission* section of this catalog under *Transfer Applicants*.

## Double-Dipping Requirements in the General Education Curriculum:

Content Area Courses (Mathematics, Natural Sciences (NS), Literature (LIT), World Languages, Aesthetics and Creativity (AT), Historical Perspectives (HS.SV) and Social Science Survey (SS.SV) may carry one additional general education course designation. However, these courses may not be double-dipped with another content area course. World Language courses are prohibited from being double-dipped with courses that carry a Cultural Diversity (CD) or Global Understanding (GU) course code.

Interdisciplinary Courses (Technological Literacy (TL), Reasoned Oral Discourse (RD), Cultural Diversity (CD), Global Understanding (GU), and Experiential Education (EX) may be fulfilled with a stand-alone course that carries the course code, in a course that carries two Interdisciplinary Course Codes, or in a Content Area course that carries an Interdisciplinary Course code. *No course can carry both a Cultural Diversity (CD) and a Global Understanding (GU) course code.*

Writing Intensive Courses (WT) must be fulfilled in courses within a student's major and therefore could be fulfilled either in a stand-alone course that carries the course code, in a course that carries a Content Area general education designation that also fulfills a requirement in a student's major, or in a course that carries an Interdisciplinary general education designation and also fulfills a requirement in a student's major.

No course will be permitted to carry more than two general education course designations. This restriction includes the Writing Intensive (WT) courses.

## Rationale The Purpose of the General Education Requirements at Monmouth University

*The purpose of Monmouth University's General Education curriculum is to multiply the intellectual vistas that the student has considered. The curriculum is designed to be a transformative learning experience that inspires intellectual curiosity, critical thinking, and personal growth.*

In pursuit of this purpose, the Faculty of Monmouth University has developed a curriculum that draws upon multiple disciplines and perspectives to create an academic experience with a strong emphasis on the liberal arts.

## Reading and Writing (EN-101 & EN-102)

The *First Year Composition* sequence prepares students in the conventions, style, and substance of general academic writing while also teaching basic research and documentation skills. Additionally, through exposure to a variety of texts and genres in these courses, students learn to be more discerning and critical readers. Students can apply these experiences and skills to all subsequent coursework.

## Mathematics (MA)

*Mathematics* courses give students opportunities to better understand the quantitative nature of the world and develop logical methods to solve problems in a variety of disciplines. Students taking these courses will learn ways that mathematics can play a role in their academic experience as well as in their lives beyond the campus.

## Natural Sciences (NS)

*Natural Science* courses provide students with understanding of and appreciation for the process and practice of science, while at the same time offering instruction in areas of particular scientific interest. This knowledge will inform their reactions to critical public, professional and personal issues.

## Literature (LIT)

Through reading and writing analytically about major literary texts, students in *Literature* courses develop an understanding of the key characteristics in a literary genre. They also learn how these characteristics reflect ethical and cultural concerns across national and class differences.

## Aesthetics and Creativity (AT)

*Aesthetics and Creativity* courses provide students with an understanding of and appreciation for the arts, offering instruction in the specific areas of art, dance, music, and theatre. Through exposure to live performances and exhibits, students learn to view and critique artistic endeavors in an informed and articulate manner.

## Technological Literacy (TL)

*Technological Literacy* courses provide students with knowledge and experience that prepares them to ethically and effectively use current and future technology in their personal, civic, educational and professional lives.

## Reasoned Oral Discourse (RD)

Students in *Reasoned Oral Discourse* courses learn to develop and deliver persuasive and effective oral presentations, and to critically evaluate the presentations of others.

## Historical Perspective (HS.SV)

History is our collective memory as a society—indeed, history is the foundation of the society we live in today. It provides a rich body of examples for understanding the challenges of daily life, and is an excellent guide for public action. *History survey* courses help students understand the world in which they live through an examination of the broad patterns of the human past, as reflected in written documents, physical artifacts, and oral traditions.

## Social Sciences (SS.SV)

*Social Science survey* courses explore why people think, feel and act the way they do, through the study of anthropology, economics, gender studies, geography (including geographic information systems or GIS), political science, psychology, or sociology. Students explore scientific avenues for understanding the human experience by studying the theoretical underpinnings, major concepts, and methodologies of the social sciences.

## Interdisciplinary Perspectives on the Human Experience (ISP)

*Interdisciplinary Perspectives* courses enable students to synthesize knowledge from many subject areas to forge coherent and ethical responses to contemporary issues and problems. These courses are

taken by students in their senior year and they serve as a capstone learning experience in students' intellectual lives within the university.

## Cultural Diversity (CD)

*Cultural Diversity* courses challenge students to recognize differences between people — based on race, ethnicity (ethnic identity), class (economics), gender, sexual orientation, disability, and religion — that affect the lives of individuals, communities, societies, nations, and world regions. Students learn how these differences influence hierarchies of power that exist in our world today. Understanding these differences is essential for students to become engaged citizens in this diverse world.

## Global Understanding (GU)

Students in *Global Understanding* courses explore individual and collective responsibilities through analytical, practical, or creative responses to issues facing a global interconnected society. Students' understanding of interconnectedness, difference, and diversity enables them to interact effectively in cultures other than their own.

## World Language (WL)

*World Language* courses provide students with the skills to become marketable global citizens through the study of language within the cultural context in which the language occurs. The curriculum is designed to focus on communication, culture, connections, comparisons, and communities in order to equip students for success in a pluralistic American society and abroad.

## Experiential Education (EX)

*Experiential Education* courses allow students to connect what they have learned in the classroom to external experiences, such as internships (paid or unpaid), research opportunities, service learning projects, or study abroad. Through these experiences students gain deeper understanding and develop field-related competencies. They are able to explore possible future careers and lifestyles while considering local and global options, discover and understand other cultures, reflect upon personal and professional development and relate their experience to life after Monmouth.

## Writing-Intensive Courses Within the Major (WT)

The primary goal of *Writing Intensive* courses is to provide Monmouth students with opportunities to practice writing beyond the first-year composition sequence. As a skill that is necessary for both academic and life success, writing mastery requires constant practice, varying based on audience, context, and purpose.

## Experiential Education Requirements

Experiential Education (EX) courses allow students to connect what they have learned in the classroom to experiences, such as internships (paid or unpaid), research opportunities, service learning projects, or study abroad. Through these experiences students gain deeper understanding and develop field-related competencies. They are able to explore possible future careers and lifestyles while considering local and global options, discover and understand other cultures, reflect upon personal and professional development, and relate their experience to life after Monmouth.

Examples of ways a student could complete the ExEd requirement include the following:

- Internships (including practicums, fieldwork, and student teaching)
- Service Learning
- Research
- Study Abroad
- ExEd designated courses

Students who wish to learn more about Experiential Education and explore career and service learning opportunities, potential courses, and placement options in each academic discipline are encouraged to visit the program's Web site. Experiential Education courses are listed in the Catalog, designated with course type "ExEd", in the "Registration" section of WebAdvisor for students under "Sections Offered by Term (Search for Classes), and on the program's interactive Web site (<http://www.monmouth.edu/exed/>).

Students must consult their faculty advisors to learn more about the specific ways in which the ExEd requirement is completed in their respective disciplines, to plan for meaningful work and service experiences that are relevant to their personal and career goals, and to follow the process for applying for ExEd credit. When students plan for an internship practicum, service learning, or corporate project they must complete fifty (50) hours for every one credit of experiential course work.

Beyond satisfying the ExEd requirement, students are encouraged to explore additional experiential learning opportunities that foster critical thinking and that emphasize the application of real-world knowledge and skills.

Nontraditional students who have returned to school after gaining experience in the work world should inquire about the **Experiential Education Portfolio Policy**. Work experience that can be documented (including military service) can serve as credit for the ExEd requirement.

To further explore internship and service learning opportunities, students should contact Career Services, located in the lower level of the Rebecca Stafford Student Center.

To learn more about Study Abroad, students should contact the Global Education Office, located in Room 29 of the Rebecca Stafford Student Center.

## Experiential Education Portfolio Policy

The portfolio process was designed for the nontraditional student who has returned to school after experience in the work world that can be documented (including military service) and serve as credit for the experiential education requirement within his or her major. Students who wish to submit a portfolio package for consideration in fulfillment of the Experiential Education general education requirement must produce a body of official documentation, which is outlined below.

1. The departmental chairperson should initiate a memo to which all copies of the documentation from the student are attached. Chairs should indicate their agreement or reservations for approval and then forward the package to the chair of the Experiential Education Committee. The documentation must include:
  - a. resume;
  - b. a minimum 3-5-page academic piece, such as a short research paper or reflection journal on past learning activities, if the student did not carry out the internship/service learning activity

for academic credit or under faculty supervision (from any post-secondary institution);

- c. academic transcript;
  - d. company/organization letters that verify work experience for which the student is trying to get credit;
  - e. brief statement that outlines the time frame, circumstances, and manner under which the experience occurred;
  - f. Individual departments have the option to add additional requirements to this procedure.
2. After receiving and assessing such work, the chair will send the Dean's Office the completed academic piece and the student's portfolio; the Dean's Office will then forward this information to the Experiential Education Committee for final approval. After all of the appropriate signatures have been obtained, the memo will then be forwarded to the Registrar for appropriate accreditation.

Students must demonstrate through a detailed dossier a substantial background of career or community service experience related to their chosen program of study. While each department will determine the guidelines for portfolio experience, it is recommended that students have engaged in a particular career or community service activity for at least four consecutive years.

All portfolio dossiers must be reviewed and receive initial approval by the department chairperson and school dean before they are forwarded to the chair of the Experiential Education Committee.

Students cannot exercise the portfolio option if the department of their chosen academic studies requires certain Experiential Education courses as part of their major.

## Experiential Education Travel Class Policy

A travel class is defined as any trip taken with a faculty member to be exposed to learning opportunities out of the classroom.

Faculty may request that a travel class be considered as an experiential education class if the course meets the following guidelines:

1. Students will engage in a learning project, prearranged with a supervisor at the destination (not the faculty member) for a minimum of fifty (50) hours/one (1) credit.
2. Students will produce a daily log, reflective essay, and an external evaluation from their supervisor while at the destination.
3. The course will comply with all other Experiential Education requirements regarding percentage of assignments and number of hours, etc.
4. If faculty offers the class for some students as Experiential Education and some without Experiential Education credit, classes can be cross-listed as such on a case-by-case basis.

## Dual Majors

Students wishing to simultaneously satisfy the requirements of two degree programs should observe the following guidelines:

- The "Change Program Major" e-FORM should be used to declare intent of satisfying the requirements of two degree programs.
- The official curriculum for each degree program is the curriculum in effect at the time of declaring that particular degree program.

- The student is responsible for coordinating the course requirements of the two curricula and should seek appropriate advising in both departments.
- The student will receive one diploma stating both major programs if each program is associated with the same degree; if the degrees are different, two diplomas will be issued. The fact of the dual majors should be declared before the time of the application for graduation.
- A student's major must contain eighteen (18) or more credits distinct for each degree program and any additional programs (e.g., a minor)
- Students following dual programs must complete both programs to graduate.

## Minors

Minor programs are designed to let students pursue a guided course of study in an area outside their major. Minors normally require at least one-half the number of credits of the major. Courses transferred into Monmouth University may apply toward the minor, but at least nine credits must be earned at Monmouth University. A 2.10 minimum grade point average is required in the minor.

Once a student declares a minor, his or her academic program will be modified to include the minor. The Registrar will record the minor on the student's transcript only after the student has completed the minor and has satisfied all requirements for the appropriate baccalaureate degree. Students with a declared but incomplete minor at the time of completion of their major will not graduate unless written notice is received by the Office of the Registrar to delete the minor. The written notice must be received no later than ten (10) days prior to graduation.

Students cannot minor and major in the same discipline. A student's minor must contain six (6) or more credits distinct from the student's major requirements and any additional programs (e.g., a second minor). This does not include interdisciplinary requirements of a student's major, which may be applied to the student's minor in another discipline. Credits required as part of a concentration are not considered distinct credits. Other restrictions might apply. Individual minors may require additional unique credits; please refer to curriculum chart. To review Minor program requirements please navigate to the applicable departmental page in this catalog.

## Second Baccalaureate Degree

Monmouth University graduates with a baccalaureate degree desiring to return to Monmouth University for an additional baccalaureate degree must satisfy, by taking additional courses, a minimum of thirty (30) additional credits of the curriculum requirements in effect at time of readmission and declaration of the major. Any student who has completed a degree program at Monmouth University will be considered to have met the residency requirement, but transfer credits taken subsequent to the first degree program may not be applied toward the second baccalaureate degree.

Students with baccalaureate degrees from other institutions who wish to enter Monmouth to receive a second baccalaureate degree will be accepted on a case-by-case basis and must satisfy the existing policy for transfer students. Please see the *Admission* section of this catalog for more details. Students may not pursue a second baccalaureate degree in the same major. Students requesting second baccalaureate degrees in a major where a graduate degree exists will likely be denied acceptance into the second baccalaureate degree upon School/department review. If an application for a second baccalaureate is considered, only credits

relevant to the second baccalaureate degree will be evaluated for designated course credit; all other credits will be designated as free electives. Students enrolling for a second baccalaureate must satisfy all Monmouth general education requirements. A minimum of thirty (30) curriculum credits must be completed to receive a baccalaureate degree. Additional credits may be necessary in order to satisfy curriculum requirements in the second baccalaureate.

## Credits Awarded for Advanced Placement Exams

| AP Exam                          | AP Score | Monmouth Credit Awarded for | Credits |
|----------------------------------|----------|-----------------------------|---------|
| African American Studies         | 3,4,5    | ADS-246                     | 3       |
| Art-Drawing Portfolio            | 4, 5     | AR-191                      | 3       |
| Art-Gen Portfolio                | 4, 5     | AR-001                      | 3       |
| Art-Gen Portfolio                | 3        | Apply to Department         | 0       |
| Art-History of                   | 4, 5     | AR-241                      | 3       |
| Art-Studio Art 2- &3-d Port.     | 3, 4, 5  | Apply to Department         | 0       |
| Biology                          | 3        | BY-104                      | 3       |
| Biology                          | 4, 5     | BY-110                      | 4       |
| Calculus AB                      | 3        | No Credit                   | 0       |
| Calculus AB                      | 4, 5     | MA-125                      | 4       |
| Calculus BC                      | 3        | MA-125                      | 4       |
| Calculus BC                      | 4, 5     | MA-125 and MA-126           | 8       |
| Chemistry                        | 3        | CE-101                      | 3       |
| Chemistry                        | 4, 5     | CE-111/CE-111L/CE-111R      | 5       |
| Chinese                          | 3        | FO-002                      | 3       |

## The Honors School

The Honors School offers a program for high-achieving and highly motivated students to participate in a supportive living-learning community that provides enhanced curricular and co-curricular experiences. This program fosters enthusiasm for intellectual inquiry as a lifelong process and incorporates interdisciplinary approaches to education to encourage the intellectual and ethical growth necessary for a successful college and post-college life.

Honors students work closely with faculty mentors as they pursue scholarly research, writing, and dissemination. They complete twenty-six honors credits, twelve at the lower level in general education, nine at the upper level, often in their major, and five specific to completing their honors thesis/capstone. Students fulfill their twelve general education credits by taking sections designated for honors students. Limited in size to no more than twenty students, these honors classes promote faculty and student rapport and participation. Many courses such as in English, History, Anthropology, Psychology, Sociology, Art, and Music, are "clustered" together by a cohesive theme that encourages seeing the connections among different fields of study, thereby encouraging an integrative approach to learning. Students in the cluster take these courses together, further fostering friendship and collaborative learning. For students whose strengths lie in Math and Sciences, we also offer honors sections at the lower level.

At the upper level, students complete twelve (12) credits of honors courses in the major or other field of study, culminating with five credits distributed over three semesters to complete the Honors Thesis/Capstone. The capstone thesis or project is completed as a tutorial, with the close support and academic guidance of faculty mentors. The Honors School also offers students the opportunity to be considered for the prestigious Freed Award for the best completed Honors Thesis/Capstone, as well as the William P. Mitchell Award for the Dr. William P. Mitchell Excellence in Honors Award for outstanding service to the Honors School.

In addition to the academic curriculum, the Monmouth University Honors experience is enriched by numerous social, cultural, and academic co- and extracurricular activities, including participation in the Peer Mentor Program and the Honors School Association. Honors students can fully immerse in a living-learning community by opting to house in Beechwood Residence Hall. Regardless of where they live, all Honors students can take advantage of Beechwood's main floor study lounge and lower level social lounge. Honors students who commute can park in designated parking spots behind Beechwood. These combined features make Beechwood Residence Hall a unique living-learning experience for Honors students to foster academic, social, and professional relationships with their peers as they live, relax, study, attend classes, and grow together.

Honors students also enjoy enhanced opportunities after graduation. In addition to gainful employment, more than 50 percent of Honors School students go on to pursue graduate and professional degree programs. Graduation from the Honors school is noted on the student's transcript and diploma. Best of all, Honors School students know that they have completed a program that encourages serious intellectual exploration in a supportive environment.

## B.A. or B.S. in Interdisciplinary Studies

Please contact the Honors School to discuss the available options for these programs.

## Study Abroad

**Monmouth University encourages students to add an international dimension to their undergraduate education by offering opportunities to study abroad. Qualified students can participate in study abroad either through** Monmouth University's Signature Semester or Summer Programs, (<https://www.monmouth.edu/study-abroad/>) **or** (<https://www.monmouth.edu/study-abroad/faculty-directed-programs/>) **Monmouth Global Seminars**, short-term, faculty-led Study Abroad programs that foster academic achievement and improve students' global understanding. Students are also able to study through any program offered by an approved or accredited U.S. institution of higher education. Students who plan to study abroad in a program other than one sponsored by Monmouth University cannot enroll through another school or consortium when that program is offered through Monmouth University.

Studying abroad at any of Monmouth's Signature programs or through other approved programs will satisfy the experiential education component of the general education requirements, provided that a minimum of six credits are successfully completed.

Students wishing to study abroad must meet the following qualifications:

1. At least sophomore status.
2. A minimum GPA of 2.75.
3. Not on judicial probation.
4. Not on academic probation.

Students must meet these criteria at the time of application and immediately before studying abroad. Failure to do so will result in the student's removal from the study abroad program.

## Monmouth University's Signature Study Abroad Programs

Tuition for the Monmouth study abroad programs is charged at the same rate as on-campus tuition. All merit awards and scholarships apply, except for athletic scholarships and tuition remission. Students attending the Monmouth programs will have all grades listed on their transcript and calculated into their grade point average (G.P.A.). Institutional credit will be granted for all earned grades.

Students considering this opportunity should consult with the Global Education Office located on the lower level of the Rebecca Stafford Student Center or email the Global Education Office ([GEO@monmouth.edu](mailto:GEO@monmouth.edu)) with questions.

**To apply, go to the Monmouth Global Programs Study Abroad Portal Page** (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ListAll>) **or click on one of the programs below:**

- Monmouth in Buenos Aires, Argentina - ([https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgram&Program\\_ID=32427](https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgram&Program_ID=32427)) with the Universidad de Belgrano
- Monmouth in the Gold Coast, Australia - with Bond University (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgramAngular&id=49660>)
- Monmouth in Cádiz, Spain - University of Cádiz, Andalusia (<https://monmouth-sa.terradotta.com/?>)

FuseAction=Programs.ViewProgramAngular&id=32430) (summer only)

- Monmouth in Florence, Italy - Lorenzo de' Medici Institute (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgramAngular&id=32428>)(summer and fall only)
- Monmouth in London, England - University of Westminster & CIS-Abroad (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgramAngular&id=42321>)
- Monmouth in Sorrento, Italy - The Sant'Anna Institute (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgramAngular&id=44040>) (spring only)

## Non-Monmouth Study Abroad Programs

Students who choose the option of studying abroad under the auspices of other accredited programs must meet the study abroad criteria specified above, complete the Monmouth University study abroad application on the Global Education Office's section of the Portal, and follow the guidelines as provided on the "Study Abroad – non-Monmouth Program" form available from e-FORMS. The e-FORM will be electronically routed for approvals, with an e-mail confirmation when all approvals have been obtained.

## Faculty-Led Study Abroad Programs

Monmouth Global Seminars are short-term, faculty-led study abroad programs that foster academic achievement and improve students' global understanding. These seminars serve a variety of students in disciplines across the university and often fit students' budgets and busy calendars. Annually, more than 100 Monmouth University students venture abroad in this manner.

Here's where Monmouth Faculty can lead you in 2025 - 2026 (<https://www.monmouth.edu/study-abroad/faculty-directed-programs/>):

**#SW-689 Global Mental Health – Italy**

**#CJ-582 International Policing and Public Safety Leadership**

**#PC-650 Transformational Travel**

**#BY-317 Tropical Island Ecology**

**#ED-300 Education and Culture**

**##PE-222 International Outdoor Adventure Education**

**## PY-498 Ecopsychology Immersive: Peace in the Wild Alps** (<https://monmouth-sa.terradotta.com/?FuseAction=Programs.ViewProgramAngular&id=49796>)

**##SW-698 Global Mental Health – Germany**

## The Washington Center

Monmouth University is affiliated with the Washington Center that provides semester and summer internship programs in Washington, DC, for all majors. Internships in the capital that combine on-the-job experience with academic study are available in the White House, Congress, the courts, cabinet-level agencies, think tanks, professional and trade associations, print and electronic media, financial institutions, law firms, with lobbyists, high-tech industries, museums, theaters, advertising agencies, and market research firms. The Monmouth

University liaison to the Washington Center is Dr. Joseph Patten, Political Science Department, Bey Hall.

An internship course number will be assigned for use by any department wishing to place interns. Specific application of credits to degree requirements will be approved by the department chair and school dean in advance of enrolling. Students register for fifteen credits: twelve for the internship and three for the academic course. Students who successfully complete the Washington Center Program automatically satisfy the experiential education requirement.

## Accelerated Programs

In several programs a student may complete requirements for a baccalaureate degree within three calendar years. Students who are considering such an accelerated program should consult with advisors to plan their course sequences carefully.

## Certificate Programs

Certificate programs offer students an opportunity to obtain a concentrated education in a specialized area. Students who successfully complete the stated requirements and have a minimum G.P.A. of 2.10 for the certificate courses will be awarded the appropriate certificate. Certificates are awarded on the dates when degrees are conferred (with the exception of the Information Technology Certificate, which can be awarded prior to graduation). Curriculum charts for certificate programs are available at [www.monmouth.edu/registrar/documents/](https://www.monmouth.edu/registrar/documents/).

These Certificate Programs are not related in any way to Certification Endorsement Programs for teachers.

## Air Force ROTC

Monmouth University and Rutgers University have an agreement permitting students at Monmouth University to cross-enroll in the Air Force Reserve Officers' Training Corps (ROTC) program at Rutgers University. The Air Force ROTC program provides students the opportunity to study and train for careers in the U.S. Air Force. Students who successfully complete the program are tendered commissions as second lieutenants.

To qualify for enrollment, a student must be physically qualified, be enrolled as a full-time student, and be of good moral character. Enrollment in the Air Force ROTC involves no military commitment during the freshman and sophomore years. The advanced portion of the program is contractual and is scheduled during the junior and senior years. Obligations include enrollment in the Reserves, successful completion of field training between sophomore and junior year, and acceptance of a reserve commission, if tendered.

Monmouth students must complete a "Permission to Take Courses" e-FORM prior to taking classes at Rutgers in order to have the ROTC credits apply toward degree requirements.

Students cross-enrolling for the ROTC courses are charged separately by Rutgers for these courses. Uniforms and textbooks are supplied to all students enrolled in both the basic and advanced programs. A deposit fee is required for textbooks and uniforms. This fee is refunded when textbooks and uniforms are returned. Students enrolled in the advanced program receive a subsistence allowance from the Air Force while enrolled.

Air Force ROTC scholarships of various lengths are available. These scholarships are awarded on the basis of academic performance, scores on the Air Force Officer Qualifying Test, results of a medical examination, and a personal interview.

For further information, call 848-932-7706, write to:

Air Force ROTC Det 485  
Rutgers University  
190 College Ave  
New Brunswick, NJ 08901-1199

or send an e-mail ([rotc485@afrotc.rutgers.edu](mailto:rotc485@afrotc.rutgers.edu)). Information is also available on the ROTC Web site (<http://afrotc.rutgers.edu>).

## Army ROTC

Monmouth University and Rutgers University have an affiliation agreement permitting students at Monmouth University to cross-enroll in the Army Reserve Officers' Training Corps (ROTC) program at Rutgers University. The Army ROTC program provides students the opportunity to study and train for careers as Commissioned Officers in the U.S. Army. Students who successfully complete the four-year ROTC program and their undergraduate degree program commission as second lieutenants in the Active Duty Army, the Army Reserve, or the NJ Army National Guard.

To qualify for enrollment, a student must be physically qualified, be enrolled as a full-time student, and be of good moral character. Enrollment in the Army ROTC involves no military commitment during the freshman and sophomore years. The advanced portion of the program is contractual and is scheduled during the junior and senior years. Obligations include enrollment in the Reserves, successful completion of a Leadership Development and Assessment Course in the summer between the junior and senior years, and acceptance of a reserve commission.

Monmouth students must complete a "Permission to Take Courses" e-FORM prior to taking classes at Rutgers in order to have the ROTC credits apply toward degree requirements.

Students cross-enrolling for the ROTC courses are charged separately by Rutgers for these courses. Uniforms and textbooks are supplied to all students enrolled in both the basic and advanced programs. Contracted ROTC students receive a subsistence allowance from the U.S. Army Cadet Command.

Army ROTC scholarships of various lengths are available. Scholarships cover tuition and fees at Monmouth University and Rutgers University and a book stipend. These scholarships are awarded on the basis of academic performance, the Army Physical Fitness Test, results of a medical examination, and a personal interview.

For further information, call 848-932-3216, write to:

Army ROTC  
Rutgers University  
157 College Ave  
New Brunswick, NJ 08901

or send an e-mail ([Michelle.Lawrence@armyrotc.rutgers.edu](mailto:Michelle.Lawrence@armyrotc.rutgers.edu)) to Mrs. Michelle Lawrence, Secretary, Department of Military Science. Information is also available on the ROTC Army Web site (<http://armyrotc.com/edu/rutgers/>).

## Academic Support Services

### The Center for Student Success

The Center for Student Success (CSS) provides academic and career counseling for all students. Academic advising for **transfer students** is coordinated in the CSS. The Center administers Monmouth's Early Warning System (MEWS) for several student populations including first year students, athletes, and **undeclared sophomores**. MEWS is utilized to identify students who are experiencing academic difficulty and connects them to their advisors and/or appropriate learning resources across campus. Advising for undeclared sophomores is designed to help with exploration of different majors while taking courses that satisfy degree requirements. Students are required to declare a major no later than the end of sophomore year. Additionally, throughout the year, the CSS offers numerous workshops related to academic, personal, and career topics.

Career Development offers many services and resources in order to assist students with career exploration, career planning, part-time employment, internships, experiential education, and job placement. Students are provided assistance in exploring their career values, interests, and skills.

All students have the opportunity to attend career fairs and meet with many prospective employers who visit the University at the invitation of **Career Development**. In preparation, students are given professional assistance in writing effective résumés and in acquiring interviewing skills to make the fullest possible use of these opportunities. In order to maintain close ties between the University and its students after graduation, Monmouth continues to offer these services to alumni. Job opportunities are available to students and alumni through Handshake (<https://www.monmouth.edu/career-development/student-handshake-account/>), our online job board.

The CSS provides administrative support for the **Experiential Education** requirement. Please refer to the *Experiential Education Requirements* section of this catalog for a complete description of the requirement and the related Web site.

The **Office of Service Learning and Community Service** provides students with information about service learning and volunteer opportunities in nonprofit agencies, schools, and governmental organizations. Through service learning and volunteering, students can explore their personal, career, and intellectual potential while increasing their knowledge of community needs.

## Services for First-Year Students

The Office of First Year Advising in the Center for Student Success is a key resource for first-year students at Monmouth University, offering academic advising and major and career services for all first-year students. First Year Advising offers programming designed to help first-year students experience the challenges, opportunities, and support needed to succeed at Monmouth. Students are encouraged to take part in academic and co-curricular activities that are supported by this office to promote their growth and learning.

### Academic Advising

All first-year students receive comprehensive academic advising from specially trained faculty as part of our First Year Advising Program. Although most students tend to think of advising as simply assistance in registering for courses, the Office of First Year Advising strives to build an advising relationship that works holistically to help students develop their academic, career, personal, and social interests.

## New Student Orientation

All new first-year students, commuters and residents, are expected to attend New Student Orientation. This structured program includes educational and social activities designed to ease the transition to college life at Monmouth and to give students opportunities to meet and interact with other new students. During orientation, students meet faculty, staff, and students with whom they will interact with during their first year.

Throughout the academic year, many programs are offered to continue the transition process. The SHADOW Program, First-Year Service Project, leadership development opportunities, and social programming are led by the Office of Student Engagement.

## Major and Career Choices

Monmouth University believes that everyone can benefit from career advising, whether it involves help in choosing a major, access to career interest resources, a workshop on resume writing, meeting with faculty across departments, and other related topics. First Year Advising offers students a great deal of support with their major and career choices. Students can assess their career interests in a variety of ways, and we strongly encourage all first-year students to begin this exploration as early as possible.

## Online Community: SOAR

SOAR (Support, Orientation, Advisement, and Registration) is an online community for new students that provides important information relevant to their first year and beyond. SOAR provides critical information about many first-year experiences, including career and major exploration opportunities, help in understanding course requirements for majors, and information for building student schedules.

## Parent Orientation

It stands to reason that parents, guardians, and family members who are informed are better prepared to help their first-year students navigate the challenges ahead. Parents are encouraged to become familiar with transition issues, the nature of how a university works, the federal laws affecting the sharing of student information, and the wide variety of resources, support services, and activities available to students.

The Division of Student Life coordinates Parent and Family Orientation, which is designed to help family members of incoming first-year students learn more about Monmouth University and how to help their students make a successful transition to college life. These programs provide a broad range of information and the opportunity to meet with representatives from various departments across campus. Please visit our Parent and Family website (<https://www.monmouth.edu/parents-and-families/>) for a robust list of resources. Parents and families are encouraged to sign up for the Monmouth Family Connection (<https://www.monmouth.edu/parents-and-families/monmouth-family-connection/>), a free online resource available on any device where you can receive important updates and information.

## Services for Transfer Students

The Office of Transfer Services assists undergraduate students transferring in eighteen or more credits. Initially, Transfer Services connects deposited students with their faculty advisors for course registration and academic advisement, while acting as a second layer of support for new students.

Transfer Services also helps transfer students transition into Monmouth University. Our online pre-orientation highlights academic and transfer credit policies, career and academic support services, and guides students to complete their preparations before classes begin. New Transfer Student Orientation welcomes students to campus by providing a dynamic venue to explore helpful resources while forming connections with faculty, staff, and student peers.

Lastly, Transfer Services plans workshops, events, and individual appointments to assist current transfer students. Programming focuses on helping students maximize their academic potential, explore career options holistically, and prepare for life after Monmouth.

## Reverse Transfer

Students who transfer to Monmouth University from a New Jersey community college now have the opportunity to complete their associate degree through credits earned at Monmouth. Students can “reverse transfer” credits taken as part of their bachelor’s degree back to their former community college by meeting the criteria below outlined in The Statewide Reverse Transfer Agreement. (<https://catalog.monmouth.edu/undergraduate-catalog/academic-programs-support-services-regulations/academic-support-services/statewidereversetransfer.pdf>)

### Eligibility

In order to participate in the reverse transfer process:

- Students must have met the residency requirement and designated minimum grade point average at the community college prior to enrollment at the four-year institution.
- Students must have applied and been admitted to the four-year institution.
- Following enrollment at the four-year Institution, students must have earned a cumulative total of 66 semester hours between the community college and the four-year institution.
- Students must be current with financial obligations to both the four-year institution and the community college.
- Students must have met all of the graduation requirements of the community college.

### How it Works

Please visit The Office of Transfer Services’ Reverse Transfer website ([https://www.monmouth.edu/transfer-services/?page\\_id=882&preview=true](https://www.monmouth.edu/transfer-services/?page_id=882&preview=true)) for information on how to initiate the reverse transfer process.

## Student Success Services

Student Success Services, including Tutoring and Writing Services and the Math Learning Center, provide personalized academic assistance. Students may be referred by professors, may be required to attend as a result of placement testing, or may come voluntarily.

## Tutoring and Writing Services

Located in the Center for Student Success, **Tutoring and Writing Services** provides free, personalized academic assistance to all students of the University. Students may be referred by faculty members and advisors or come voluntarily.

Undergraduate content-specific tutoring by peer tutors is available in most academic disciplines and students are encouraged to make appointments at [accudemia.monmouth.edu](https://accudemia.monmouth.edu). Academic coaches offer weekly one-on-one sessions focusing on executive functioning skills such

as time management, note taking, test taking, and college level reading strategies. In addition, academic skills workshops on strategies for college success are offered throughout the semesters and are open to all undergraduate students. For more information, please contact **Tutoring Services** at 732-263-5721, by e-mail ([tutoringservices@monmouth.edu](mailto:tutoringservices@monmouth.edu)) or by visiting the Tutoring Services Web site (<http://www.monmouth.edu/tutoring/>).

Peer, professional, and faculty writing assistants are available to help students with all stages of the writing process, across all disciplines, from the initial drafting of the assignment through the final stages of editing and proofreading. Writing Services also offers assistance with grammar and punctuation skills and documentation styles. Students can make an appointment for writing services online (<https://mu.accudemia.net/Private/Main.aspx?Referer=http://www.monmouth.edu>). For more information, please contact **Writing Services** at 732-571-7542, by e-mail ([writingservices@monmouth.edu](mailto:writingservices@monmouth.edu)) or by visiting the Writing Services Web site. (<http://www.monmouth.edu/writing/>)

The **Math Learning Center**, located in Howard Hall room 203, provides students with assistance in all levels of mathematics. Peer tutors are available to help students solve problems and to review concepts. In addition, students may use the Center to do homework assignments or to study for tests while having a student tutor available. For more information, contact the Department of Mathematics at 732-571-4461.

## Disability Services

At Monmouth University we believe a supportive environment contributes to a students' success. Accommodations are available to qualified students with disabilities through the Department of Disability Services (DDS).

To begin the process of applying for services, students should complete the Confidential Registration Form (<https://www.monmouth.edu/disability-services/current-students-2020/>) located on the DDS website and submit appropriate documentation (<https://www.monmouth.edu/disability-services/documentation-guidelines/>). Please see the DDS webpage for details about documentation requirements. Students should contact the DDS office at [dds@monmouth.edu](mailto:dds@monmouth.edu) and/or (732) 571-3460 with any questions related to eligibility of services.

## Educational Opportunity Fund Program

The Educational Opportunity Fund (EOF) is one of the nation's most comprehensive and successful state-supported efforts to provide access to higher education for economically disadvantaged students. EOF assists low-income New Jersey residents by providing supplemental financial aid to help cover college costs and provides academic support services, developmental counseling, and career guidance throughout the student's college career. EOF students must be enrolled full-time. A five-week, residential, pre-freshman summer program is required of all incoming EOF freshmen. Additional information is available from the EOF Office, located in the 600 Building.

## Pre-Professional Health Advising Programs

### Pre-Health Advising for Medicine, Vet, Physician Assistant, Dental, Physical Therapy, Occupational Therapy, Optometry and Other Health Careers

Designed to foster motivated, caring, and communicative students who intend to pursue careers as physicians and healthcare professionals, Monmouth University's Pre-Medical, Pre-Dental, Pre-Vet, Pre-PA, Pre-PT, Pre-OT and other health careers preparation chart a uniform course of study under the mentorship of the Pre-Health Advising Department. The preparation encompasses all undergraduates intending to attend medical school, veterinary school, dental school, a physician assistant, occupational therapy, physical therapy, optometry, or any graduate course of study in the health professions.

Pre-Health Advising prepares undergraduates for medical school as well as other health professional schools, including dental, veterinary medicine, physician assistant, physical therapy, occupational therapy and public health. Pre-Health Advising works closely with the Center for Student Success (CSS) and Undergraduate Admission.

Most pre-medical students major in biology or chemistry, as a strong foundation in basic science is vital to success in professional education. However, it is possible to major in another field, and to take the prerequisite science courses for health professional schools. Students from diverse majors, including health studies, psychology and Spanish, have been successful by being exceptional in both their majors and in science courses. Non-science majors are encouraged to use their free electives for biology and chemistry courses, as taking more science than the minimum prerequisite courses for health professional schools is advised. An increasingly complex and global medical profession demands healthcare professionals to have broad cultural knowledge and excellent communication skills. Therefore, pre-health students are encouraged to excel in humanities courses as well as in science. Students geared towards a career in healthcare should also seek out volunteer and shadowing opportunities as early as possible. Leadership skills can be enhanced through participation in pre health clubs, campus clubs and organizations.

Preparation for health professional schools begins in the freshman year. Incoming first-year students are encouraged to indicate their future career aspirations to their academic advisor during orientation where they will receive a pre health registration form to fill out and return to the PHA office. The sequential nature of the natural and physical science courses chosen requires careful planning if students are to meet the requirements of their chosen professional schools. Throughout the academic year, students are encouraged to attend all meetings for the different career professions, health professional graduate program information sessions, grade specific and application cycle meetings as well as presentations by healthcare providers. The director attends the major national and regional health profession conferences to remain current, concerning both developments in the field and medical and professional school requirements. In addition to pre requisite course advisement, pre health provides students with information on admissions tests, such as the MCAT (Medical College Admission Test), DAT (Dental Admissions Test), and Graduate Record Examinations (GRE Test). The PHA prepares students for entrance interviews at professional health schools, including conducting mock interviews. Pre Health Advising also composes and provides a comprehensive letter of

recommendation to professional health schools, which is one of the most important parts of the admissions package.

**Pre-Health Advising is pleased to offer the following affiliation programs:**

### **Early Assurance Admission Program to the Doctor of Medicine Program at Rutgers Robert Wood Johnson Medical School**

Monmouth University and Rutgers Robert Wood Johnson Medical School are collaborating to provide early exposure to the medical school, individualized mentorship, healthcare delivery, and other areas related to the healthcare profession. This Early Assurance Program is for junior standing Monmouth University students. This a pipeline opportunity that includes summer enrichment programs and a conditional early acceptance to medical school. The applicant must be from a group underrepresented in medicine (as defined by the medical school); and/or educationally disadvantaged (first generation college student) background and/or economically disadvantaged. The applicant must be able to complete their pre-requisite courses and degree within four years. The applicant must have an overall GPA of at least 3.5 with a science GPA of 3.3. (Science GPA includes biology, chemistry, physics, biochemistry and mathematics courses).

### **Rowan-Virtua - School of Osteopathic Medicine**

Monmouth University offers a cooperative academic arrangement between Monmouth University and Rowan-Virtua School of Osteopathic Medicine so that highly qualified students can complete the required courses for the baccalaureate and osteopathic medicine degrees in an eight-year sequence. This program is composed of four years of approved undergraduate study at Monmouth University and four years of study in Osteopathic Medicine at Rowan University-SOM. Eligibility for entry into the program at the end of the sophomore year is limited to Monmouth University students who are citizens or permanent residents of the United States and who have completed a minimum of sixty (60) credits with a major in biology or chemistry, and meet the following requirements:

1. overall G.P.A. of 3.50 or higher,
2. receive a recommendation of support from the PHA, and
3. submit scores of all components of the SAT or the ACT.

Candidates must maintain a 3.50 G.P.A. at Monmouth University, with no science course grade lower than a "B." Candidates will be interviewed by the PHA at Monmouth University and by Rowan-Virtua SOM and must achieve a competitive score on the MCAT (determined by Rowan University-SOM) by September 15 of their senior year. The decision for final admission to medical school will be made by the Rowan-Virtua SOM and will be based on a candidate's satisfaction of the school's admission requirements.

### **Monmouth University Physician Assistant Program**

The Monmouth University Physician Assistant Program began accepting students for its first class in Fall 2014. The Physician Assistant program allows qualified students to pursue a three-year Master of Science in Physician Assistant degree following a bachelor's degree at Monmouth University. Preference for interviews for this program is given to Monmouth University undergraduates.

### **St. George's University (SGU), Grenada, B.S./M.D. and B.S./D.V.M. 4 +4 Program**

In this program, students will begin their studies at Monmouth University (MU). After successfully completing four (4) years of undergraduate

study and earning a B.S. degree at MU, qualified students who satisfy all respective admission requirements will proceed to Grenada and enter the first year of St. George's University School of Medicine or St. George's University School of Veterinary Medicine. Qualified medical students will be eligible to complete the first two (2) years of medical study in Grenada and the final two (2) years of this combined program in clinical rotations at affiliated hospitals in the U.S. and/or the U.K. Qualified veterinary students will be eligible to complete the first three (3) years of veterinary study in Grenada and their final clinical year at affiliated veterinary schools in the U.S., U.K., Canada, Australia, or Ireland.

Undergraduate students must express interest in one of the combined degree programs at time of application to Monmouth University. MU and SGU will select candidates based on criteria and conduct undergraduate interviews. The eligible medical student will maintain a G.P.A. of at least 3.40 while at MU and a score of 498 or higher on the MCAT. For the veterinary student, a GPA of 3.3 with no science grades less than "C" must be maintained while at MU and a score of at least 304 (combined verbal reasoning and quantitative reasoning) on the GRE. Additionally, all qualified MU students must meet all admission criteria of SGU School of Medicine and SGU School of Veterinary Medicine including a successful interview with SGU.

Students apply to this joint program from high school. There is no cap on the number of students who can be accepted. There is no binding commitment for the student to attend SGU once accepted into the program. They may choose to apply and enter another school if accepted.

### **American University of Antigua – College of Medicine**

American University of Antigua will allow qualified sophomores to apply to Monmouth University to be accepted into a "4 + 4" program with AUA College of Medicine. Qualified students (up to five per year) would complete four years at Monmouth University (with a major in biology or chemistry), and would continue to AUA College of Medicine to earn the Doctor of Medicine (MD) degree. Accepted students must maintain an overall 3.25 G.P.A. at Monmouth University and a 3.25 G.P.A. in all prerequisite courses required by AUA College of Medicine, with no more than one "D" or "F" in any prerequisite course. Candidates must also obtain a total MCAT score of 20 or higher, receive a letter of recommendation from the PHAC, and be successfully interviewed by the AUA College of Medicine. Acceptance to this program is non-binding, and students in the program are eligible to apply to additional schools.

### **American International College of Arts and Sciences – Antigua (AICASA) – Monmouth University Bachelor of Science degree**

Students who achieve an Associate's Degree from the American International College of Arts and Sciences (Antigua) may be offered admission to Monmouth University to complete a Bachelor of Science degree in Biology or Chemistry if the following qualifications are met:

- Be in good academic and disciplinary standing;
- An overall cumulative college grade point average (G.P.A.) of 3.00 or higher; high school applicants must have at least a 3.00 cumulative high school G.P.A. and 1500 three-section SAT score;
- No "F" or "D" grade in any required course by Monmouth University;
- Monmouth University does not represent that students admitted pursuant to this agreement will be able to complete the degree requirements. Each student is responsible for planning his or her undergraduate education to develop the skills necessary to succeed in a demanding degree program;

- Transfer credit will be awarded as specified in the Monmouth University catalog.

Students interested in any of the pre-professional health programs should contact 732-571-3687 for specific requirements and to seek advising.

## Pre-Requisite Course Requirements for health professional schools taken at Monmouth University

College graduates who wish to enter medical or other health professional schools but have not completed the prerequisite course requirements may enroll at Monmouth University to complete the necessary credits as a post-baccalaureate student. If interested, please contact the Office of Admission at 732-263-5869. Once a student is admitted to Monmouth University as a post-baccalaureate student, Pre-Health Advising provides academic advising in preparation for admission into a medical or other health professional school.

## Instructional Technology Support

Monmouth University fully supports the use of technology in teaching/learning through the comprehensive services of Information Management. All students are provided with an official email account and storage for course-related files and Web pages. Faculty are encouraged to integrate a variety of technologies into their courses and are provided necessary training and support to do so. Beyond making use of our learning management system for content presentation and online participation, many employ a variety of Web-based tools to increase student collaboration, participation, and engagement. In addition, the Monmouth University Library catalog and digital databases are available online, as are many instructional materials used in individual courses. The University has a fully networked and wireless-enabled campus with over 1,000 computers available to students in various lab configurations including Windows, macOS, and Linux. A comprehensive complement of software is available throughout campus in these labs, and course-specific software is made available in departmental computing labs.

**For all Information Management service needs, call the Help Desk at 732-923-4357 (HELP) or email [helpdesk@monmouth.edu](mailto:helpdesk@monmouth.edu). Normal hours are Monday through Friday from 8 a.m. until 9 p.m. (5 p.m. on Fridays during the summer). \*\*Please note Help Desk hours are subject to change; check the myMU Portal for the most recent schedule. Media technicians for classroom and event coverage are also on site until 10 p.m. Monday through Friday, with abbreviated availability on weekends. For more information on the services of Information Management, please visit their Web page ([http://www.monmouth.edu/Campus\\_Technology.aspx](http://www.monmouth.edu/Campus_Technology.aspx)).**

### Student Technology Assistant Program (STAP)

The Student Technology Assistant Program (STAP) at Monmouth University is a flexible employment opportunity for undergraduate and graduate students from all academic disciplines. The program is designed to provide students with practical, hands-on experience in the field of technology within a professional university setting. Participants in STAP engage in various roles that support the university's technology services. Responsibilities may include working in open computer labs to help manage IT infrastructure or providing technical support to fellow students, faculty, and staff at the Student Help Desk. Additionally, assistants gain experience operating and troubleshooting a range of multimedia equipment. Through these duties, students develop valuable skills in problem-solving, customer service, and technical support. The experience serves as a significant addition to a résumé, demonstrating

to potential employers that a student has acquired real-world skills in a technology-related role.

## Guggenheim Memorial Library

The Guggenheim Memorial Library builds and maintains collections to support the teaching and scholarship mission of the University, whether online or in our historic library. Conveniently located adjacent to the residence halls, the library is a comfortable space where patrons can do so much: we have Wi-Fi, 110+ computers, network printers, copiers, document scanners, two classrooms, quiet study space, group meeting space, lounge space for casual reading, outdoor reading tables and benches, and a modest cafe.

Serving our faculty and students with resource materials needed to support both curriculum and research needs, the Guggenheim Memorial Library is the center of learning and research. The Library provides robust access to a diverse collection of more than 400,000 monographs, e-Books, print journals, e-Journals (full text), media titles, microfilms, reference materials, and special collections, including government documents, the New Jersey Collection, the Mumford Collection, and the Library Archives. Coupled with Interlibrary Loan and reciprocal borrowing privileges, access to more than 2.1 billion holdings in over 72,000 libraries located in 170 countries around the world is only a request away.

Library online services (<http://library.monmouth.edu>) are available twenty-four hours per day, seven days per week, and include research guides customized by subject area that can be helpful in jump-starting any project. The building is open seven days a week during the regular semester (until midnight Sunday-Thursday) and our staff is delighted to help, so please ask. We can support our patrons' needs in many ways, for any assignment, via phone at 732-571-3438 or e-mail ([referenc@monmouth.edu](mailto:referenc@monmouth.edu)) or one-on-one consultation by appointment.

## Grades

The grading system is as follows:

| Grade     | Description                                                                                                                                                                                                                                                                  |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A, A-     | <b>Exceptional performance</b>                                                                                                                                                                                                                                               |
| B+, B, B- | <b>Strong performance</b> (for undergraduate students); <b>Average</b> (for graduate courses)                                                                                                                                                                                |
| C+, C, C- | <b>Adequate performance</b> (for undergraduate courses); <b>Poor</b> (for graduate courses)                                                                                                                                                                                  |
| D+, D, D- | <b>Poor performance</b> (available for undergraduate courses only)                                                                                                                                                                                                           |
| F         | <b>Failing performance.</b> This grade is given for failure in a course; for unofficial withdrawal from a course after the deadline (see "W" grade); or, in some instances, when an Incomplete grade is not changed by the end of the next regular semester (see "I" grade). |

**P** **Pass.** This grade is given for satisfactory completion of a course that is graded on a Pass/Fail basis. This grade is not used in computing a student's cumulative grade point average (GPA).

**R** **Re-Registration Required.** This undergraduate grade is given when a student has made significant, but not sufficient, progress in a developmental course. (See section entitled Developmental Courses.) This grade is not used in computing a student's cumulative grade point average (GPA).

**S** **Satisfactory progress.** This grade is given at the end of the first semester when satisfactory progress has been made in a course, which is part of a sequence of courses that take more than one semester to complete.

**AU** **Audit.** This grade is given to a student who attends a class for the purpose of acquiring knowledge, without earned credits. The auditor is expected to attend classes, do assigned reading, and participate in class discussions, but is not required to take examinations.

**T** **Transfer.** This grade is given to incoming students for courses accepted for transfer by Monmouth University. This grade is not computed in the grade point average (GPA).

**W** **Withdrawal.** This grade is given for withdrawal from a course or courses up to five weeks before the last day of classes in a regular semester or its equivalent in a shorter term. See the academic calendar for the last date to withdraw in a given semester or term.

**I** **Incomplete.** This grade is given in cases where permission has been granted by the instructor to postpone completion of specific required work, such as a laboratory project or report or a missed final examination. This grade is not intended for situations where, in the judgment of the instructor, the student must retake the course for an entire semester in order to earn a passing grade. The Incomplete grade, therefore, should not be used in cases where a grade of "W" or "F" would be appropriate. The student must complete the work within the

time granted by the professor and no later than the end of the next regular semester. If the unfinished work is not completed within the specified time, an "F" grade will be recorded, unless the instructor indicates otherwise at the time the Incomplete was originally approved. Not available for thesis courses. For thesis courses that are graded on a Pass/Fail (P/F) scale, when the grade of "I" is assigned, the grade will be converted to "S." Similarly, in non-thesis courses graded on the P/F scale, when the grade of "S" is submitted, the grade will be converted to "I".

**NR** **No Report.** This temporary grade is given by the Registrar when no grade has been received from the instructor at the time that official grades are issued.

**X** **Credit by Exam.** Portfolio Credit.

**Q** **Waived.** This graduate grade is determined by the appropriate department to indicate that certain course requirements are waived. This grade is not computed in the student's grade point average (GPA).

## Undergraduate Grade Point Averages

Grade points are awarded for each credit on the basis of grades as follows:

| Grade | Value |
|-------|-------|
| A     | 4.0   |
| A-    | 3.7   |
| B+    | 3.3   |
| B     | 3.0   |
| B-    | 2.7   |
| C+    | 2.3   |
| C     | 2.0   |
| C-    | 1.7   |
| D+    | 1.3   |
| D     | 1.0   |
| D-    | 0.7   |
| P     | 0.00  |
| F     | 0.00  |

Thus, if a student completes a three-credit course with a grade of A, twelve (12) grade points are awarded. To calculate the grade point average (G.P.A.) for a given semester, a student should divide the number of grade points awarded by the number of credits attempted (excluding withdrawals and developmental courses). The official G.P.A. is rounded to two decimal places.

To calculate the cumulative G.P.A., the total number of grade points awarded is divided by the total number of credits attempted (excluding withdrawals) in all sessions at Monmouth University. Calculation of a major GPA includes all courses falling under the major/interdisciplinary portion of a program.

Grades received in developmental courses are not counted in the computation of the student’s semester or cumulative grade point averages. Refer to *Repeating a Course* for a discussion of repeating a course and its impact on the G.P.A.

## Grade Reports

A grade report is e-mailed to each student approximately 7-10 days after the end of each semester. Final grades are recorded on the student’s official academic record. Undergraduate midterm grades are only provided online.

## Repeating a Course: Impact on the G.P.A.

Students have one opportunity to repeat any regular course in which a grade of “F,” “D-,” “D,” “D+,” or “C-” has been assigned. On-demand or requested courses (independent studies, co-ops, special topics classes, etc.) are not grade repeatable, in that the second grade earned will not replace a prior grade. When a course is repeated, the second grade for the course will be used in calculating the cumulative grade point average, regardless of whether the second grade is higher or lower than the first. If both attempts of the course earned passing grades, only the most recent set of credits and grades will be applied to the student’s academic record. Students cannot repeat a scheduled course using an independent study for G.P.A. improvement.

## Student Complaints About Grades

A student who wishes to file a complaint about a course grade should attempt first to resolve the matter through a discussion with the faculty member who taught the course in question. If the faculty member is unable to resolve the matter, the student may contact the department chair in writing, stating the basis of the complaint. Such complaints should be sent to the appropriate department chair within six weeks following the receipt of final grades. Before changing a grade, a chair must, in a timely manner, attempt to discuss the grade with the faculty member who assigned it. A student who is not satisfied with the decision of the department chair may appeal the decision in writing to the dean of the school housing the course. The decision of the academic dean is final. A faculty member who disagrees with a chair’s change of grade may also appeal the chair’s decision in writing to the dean, whose decision is likewise final.

## Change of Grade Requests

In those rare cases where a faculty member determines that a change of grade is warranted, the request must be submitted and approved by the department chair and school dean. All changes must include specific reasons that support the proposed change. Changes beyond one year require the additional approval of the Academic Standards and Review Committee (ASRC). Students are not permitted to complete or submit additional work after a term/semester concludes in an effort to improve a grade, unless the original grade was an “I” (incomplete). Changes to grades after a student has graduated will not be considered.

## Undergraduate Graduation Rates

Graduation rates for the student cohorts of first-time, full-time freshmen are available at the Office of Institutional Research and Effectiveness located in Great Hall, room 206.

## Academic Definitions

### Undergraduate Student Classification

#### Regular (Matriculated)/Non-Matriculated

All students—those attending during the day, in the evening, or weekends—are classified as either regular (matriculated) or non-matriculated.

A regular (matriculated) student is one who has been admitted and who intends to earn a degree. The class standing is determined by the number of credits earned as follows:

| Year      | Credits               |
|-----------|-----------------------|
| Freshman  | 0–29.5 credits        |
| Sophomore | 30–59.5 credits       |
| Junior    | 60-89.5 credits       |
| Senior    | 90 credits or greater |

A non-matriculated student is one who is not a candidate for a degree. Non-matriculated students are subject to the same fees and regulations as regular students. See the Admission (p. 18) section of this catalog for further information about admission as a non-matriculated student.

#### Full-Time/Part-Time

Undergraduates who carry twelve (12) or more credits during a semester are classified as full-time students. The normal semester course load for full-time students is fifteen (15) to eighteen (18) credits. Those who carry fewer than twelve (12) credits are classified as part-time students.

#### Maximum Course Load

Undergraduate students who wish to carry nineteen (19) to twenty-one (21) credits in a regular term must obtain the permission of the department chair. Students wishing to enroll for more than twenty-one (21) credits need the permission of both their department chair and school dean. Undergraduate students are limited to twelve credits total for the summer without prior permission from the school dean. Students are strongly urged to avoid attempting more courses than they can complete satisfactorily.

## Auditor Classification

An auditor is a student who attends a class for the purpose of attaining knowledge but not to earn credits. The auditor is expected to attend classes, do assigned readings, and participate in class discussions but is not required to take examinations.

Students who wish to audit a class must complete a “Permission to Audit a Class” e-FORM, which is available from the Monmouth University portal, *myMU*. The permission form must be received prior to the third class meeting. Auditor registration is subject to course section availability. No more than two (2) courses may be audited per semester. Students may not change the status of their registration in a course to “audit” or to “for credit” during the term. Auditors may be removed from classes after registering if seats are needed for matriculating students.

Part-time students who audit classes will be charged at the audit rate regardless of their status (matriculated or non-matriculated); the audit rate is one-third of the regular per-credit tuition rate.

Full-time undergraduates whose total semester credits (including those in audited classes) are in the twelve (12) – eighteen (18) range will be billed at the full-time tuition rate. If a full-time undergraduate audits a class whose credits put the total credit load in excess of eighteen (18) credits, the credits beyond eighteen (18) will be billed at the audit rate.

The transcripts of auditors, who, in the judgment of faculty members, do not attend class or participate sufficiently, will not reflect the audited courses.

## Credit Hours Defined by Course Type

Information regarding credit hours by course type (<http://www.monmouth.edu/university/credit-hours-defined.aspx>) is available on the Monmouth University Web site.

This resource provides the following information for all lecture, seminar, laboratory, clinical, and art studio classes:

- Course-type definitions;
- Minimum contact time per week;
- Minimum instructional time total;
- Minimum out-of-class student work per week and total per semester;
- Total number of instructional contact hours and student work out-of-class hours.

Please visit the Monmouth University page to obtain the detailed information regarding this topic.

## Undergraduate Honors and Awards Dean's List

The Dean's List is the official recognition of outstanding academic achievement. Inclusion on the Dean's List is based on the comparative semester grade point average for that semester. Monmouth University students who fall within the top 20 percent of their major program by semester grade point average are recognized on the Dean's List for that semester. Undeclared students will be grouped as one major. Students pursuing multiple degrees will be eligible for the Dean's List if they fall within the top 20 percent of any major they are pursuing. In addition to the requisite class standing, a student must have a cumulative grade point average above 3.30 and must have completed all semester course work, except for the Honors Thesis Preparation and the Thesis. This list is compiled each spring and fall semester immediately after the conclusion of the semester. Students must have completed 12 credits in the specified term to be eligible. Classes graded with a "P" (Pass) do not count toward credit eligibility. Part-time students will be evaluated for inclusion on the fall or spring semester Dean's List each time twelve or more credits are accumulated in successive semesters. Credits utilized for inclusion on the Dean's List will not be considered for subsequent Dean's Lists.

## Graduation with Honors

To graduate with honors, a baccalaureate degree recipient must have earned at least fifty-three (53) credits at Monmouth University and have a cumulative GPA no lower than 3.50. Three levels of honors are distinguished and indicated on the diploma:

- *cum laude* for students earning a GPA between 3.50 and 3.64;
- *magna cum laude* for students earning a GPA between 3.65 and 3.84; and
- *summa cum laude* for students earning a GPA between 3.85 and 4.00.

Students who received academic amnesty (see *Academic Amnesty* for more information) are not eligible to graduate with honors.

## Department Honors

Department Honors are available for undergraduate students majoring in Art, Biology, Chemistry, English, Spanish, Sociology, or Political Science. Department Honors are noted on the student transcript, and a letter will be issued by the chair of the department.

## Curriculum of Record

A student's curriculum of record is the set of degree requirements associated with the student's particular major that is in effect at the time that major is declared. If major requirements are changed, students may elect to update to the newer version of the major requirements by sending written notification to both the major department and the Office of the Registrar.

The official curriculum of record is maintained in the Office of the Registrar. Students may review their curriculum requirements from their academic audit which is available through the University portal, *myMU*, under Self-Service, Student Planning, and locate My Progress.

## Undergraduate Developmental Courses

Developmental courses are defined as those that have pre-college-level content. Students are required to enroll in and successfully complete developmental courses that are specified as a result of the placement testing process. These courses are designed, and required of the students who place into them, in order to provide students with the skills needed to succeed in college-level work. Such courses carry institutional credit only, will not be used to satisfy degree requirements, will not be counted in the computation of the student's semester or cumulative grade point average, and will not be counted toward the total number of credits needed for graduation. However, successfully completed developmental courses will be considered in the calculation of

1. credit standing for priority registration,
2. credits earned for freshman athletes, and
3. credits completed for the determination of academic probation and eligibility for academic dismissal.

Students who successfully complete developmental mathematics will earn grades of "A" through "C-"; "D" grades are not used for developmental courses.

Students who are required to enroll in developmental courses, all of which carry the course number "050", must satisfactorily complete their developmental course work within one year following their initial registration. Students who, on the first attempt, make satisfactory progress but do not complete all course requirements will receive a grade of "R" (see "GRADING (p. 56)") and are required to re-register for that course during the following semester. Students who do not make satisfactory progress in developmental courses will receive a grade of "F" (see "GRADING (p. 56)"), are required to re-register for that course

during the following semester, and are on academic probation until the course is successfully completed.

Students who have not passed required developmental courses by the end of the second semester will be subject to review, and possible dismissal, by the Academic Standards and Review Committee.

## Academic Regulations

### Academic Amnesty

Academic amnesty provides former students of Monmouth University, who had been academically dismissed, an opportunity to improve their grade point averages and extends to them the privileges enjoyed by transfer students. In order to be eligible, a former student of Monmouth University must have been away from the University for at least three years. Academic Amnesty is granted when students are re-admitted, but only once and not for any subsequent re-admissions.

Under Academic Amnesty, courses previously taken at Monmouth with grades of C- or below will be excluded from GPA calculations and students will not receive credit for them. Students may opt to keep some of their low grades so that the courses do not have to be repeated, but they would then be included in their GPAs. These must be determined in consultation with the department chair, Dean, or Director of Undeclared Services and specified in writing.

Academic Amnesty will also apply to courses re-taken successfully at other institutions while away from Monmouth University. (In general, courses must have minimum grades of C to transfer, but some schools or departments may have more stringent requirements.) Those grades will transfer as T and will remove the prior grades from GPA calculations.

They will then be able to serve as prerequisite courses, as long as the grade obtained at the other institution was high enough to meet Monmouth's prerequisite specifications. (In some cases, this may have to be done by override.) Transfer courses will be subject to existing credit limits and other regulations specified in the Undergraduate catalog, as well as criteria that may be school or department specific.

Students who receive veterans' educational benefits who are approved for academic amnesty should be aware that they will not be entitled to VA benefits when taking courses that satisfy requirements that were satisfied prior to academic amnesty.

Academic amnesty will be posted after a student re-matriculates at the University. Students receiving Amnesty must meet the residency requirement by taking the last thirty (30) credits at Monmouth University with a minimum of fifteen (15) in the major field. A grade point average adjusted by amnesty shall not be used to determine general honors upon graduation.

Regardless of Academic Amnesty, none of the grades earned by a student at Monmouth University will be expunged from the student's permanent record or excluded from any transcript sent from Monmouth University. Courses that receive no credit under the grant of amnesty shall not be used later for fulfillment of any degree requirement. Any decision to accept Amnesty for a selected course is final and can not be revoked or changed.

Evaluation of applications for academic amnesty shall be made by the Academic Standards and Review Committee in consultation with the appropriate departments. The Committee will inform the Registrar of its decision and of courses affected by the granting of amnesty.

nt of amnesty shall not be offered later for fulfillment of any degree requirement, and a grade point average adjusted by amnesty shall not be used to determine general honors upon graduation.

Evaluation of applications for academic amnesty shall be made by the Academic Standards and Review Committee in consultation with the appropriate departments. The Committee will inform the Registrar of its decision and of courses affected by the granting of amnesty.

### Academic Honesty

Monmouth University encourages its students to grow intellectually as well as to become responsible citizens in our complex society. To develop their skills and talents, students are asked to conduct research, perform experiments, write papers, work individually, and cooperate in group activities. Academic dishonesty subverts the University's mission and undermines the student's intellectual growth. Dishonesty in such academic practices as assignments, examinations, or other academic work cannot be condoned. A student who submits work that is not original violates the purpose of Monmouth University and may forfeit their right and opportunity to continue at the University.

The University has an obligation as an educational institution to be certain that each student's work is their own. Note that Monmouth University faculty members have access to Turnitin (<http://www.turnitin.com>), a Web-based plagiarism-detection resource that compares the text of student papers to an extensive electronic database. This database includes current and archived Internet resources, periodicals, journals and other publications, and past student papers from Monmouth and other educational institutions. All student assignments may be subject to submission for textual similarity review to Turnitin (<http://www.turnitin.com>) for the detection of plagiarism. All submitted papers may be included as source documents in the Turnitin reference database (solely for the purpose of detecting plagiarism of such papers). Faculty are expected to inform students in advance about which assignments will be checked for originality using Turnitin. Use of the Turnitin service is subject to the Usage Policy posted on the Turnitin (<http://www.turnitin.com>) site.

### Academic Probation

A major concern of the University is to provide students with appropriate notice whenever their academic status is in jeopardy. Academic probation is designed to serve this purpose.

Any first-semester full-time freshman student, or part-time student with up to 19 credits completed, who fails to achieve a GPA of 1.50 will be placed on academic probation; such a student who fails to earn at least a 1.00 will be considered for academic dismissal. Any student who has earned a minimum of eighty (80) credits and who fails to achieve the minimum major GPA as established by the content major will be placed on academic probation until his or her major GPA reaches the graduation minimum.

All other students are placed on probation when the cumulative GPA falls below 2.00. Additionally, any student who receives a grade of "F" in a developmental course will be placed on probation and will remain on probation until the course is successfully completed.

Students on probation...

- should not be absent from any classroom exercise, scheduled class function, laboratory, or conference period.

- are not permitted to self-register using WEBRegistration, but instead must make all schedule changes with their academic advisor.
- are urged to seek academic counsel from their faculty advisors or department chairs to help them improve their academic standing.
- may be advised to curtail employment, change their major curriculum (see *Academic Probation*), reduce the number of credits attempted, or restrict participation in extracurricular activities.

In addition, any student determined to be on probation at the end of an academic term is not permitted to hold higher officer in any University Organization or to participate in a varsity sports competition. If a spring sport varsity athlete is determined to be on probation during their championship season (including post-season competition), the athlete is permitted to compete up until the Completion of their championship season (including post-season competition), provided they have met all other NCAA eligibility requirements. If a fall or winter sport varsity athlete is determined to be on probation during their championship season, the athlete is permitted to compete up until the start of the spring semester, provided they have met all other NCAA eligibility requirements.

### Good Academic Standing

- Any student who falls below a 1.5 cumulative GPA after completing 12 credits is no longer considered to be in Good Academic Standing.
- Any student who falls below a 1.8 cumulative GPA after completing 24 credits is no longer considered to be in Good Academic Standing.
- Any student-athlete deemed not in Good Academic Standing at any point is no longer permitted to participate in a varsity sports competition immediately, per NCAA Bylaw 14.01.2.1, until the student-athlete has regained a status of Good Academic Standing; and meets all other NCAA, conference, and institutional rules.
- All varsity sport student-athletes must meet all NCAA, conference, and institutional academic eligibility requirements above. In addition, a student must be in Good Academic Standing to compete in varsity competition.

The Monmouth University Registrar's office has up to 30 days after the first day of classes of the fall and spring semesters and the conclusion of summer terms to change the probation status of a student. Students who are placed on probation can appeal or reverse their probation in certain situations. The appeal must be made directly to the registrar's office no more than 30 days after the first day of classes in any semester. The student may appeal probation status if one of the three criteria exists:

- 1) A student who had an Incomplete Grade that was changed to a letter grade.
- 2) A student who had a letter grade changed due to professor miscalculation or submission error.
- 3) A student who had a letter grade changed based on the formal grade appeals process.

Appeals can be made by e-FORM, through the student's myMU student portal. In the absence of a successful appeal, probation status will either end or continue at the end of the next Fall or Spring semester, according to the published probation guidelines. Students not on probation may be placed on probation if a change of grade (Incompletes or other grade changes) result in the student dropping below into the probationary grade point average.

## Academic Dismissal

A student shall become subject to academic dismissal for any of the following conditions and may be dismissed without prior warning:

- For failing to meet these minimum standards:

| Credits Completed <sup>1</sup> | Minimum Cumulative GPA |
|--------------------------------|------------------------|
| 12–19 credits                  | 1.00                   |
| 19.5–35.5 credits              | 1.60                   |
| 36–56.5 credits                | 1.80                   |
| 57 and more credits            | 2.00                   |

<sup>1</sup>Credits completed include credits for all courses not officially withdrawn from, and all transfer credits accepted by, Monmouth University (though only credits earned at Monmouth are computed in the GPA).

- For failing to earn a semester GPA of at least 1.00 (if a full-time student), or a GPA of 1.00 in any combined consecutive semesters within which at least twelve credits have been attempted (if a part-time student);
- For failure to earn a passing grade in a required course after the maximum number of allowable repeats (see *Repeating a Course*);
- For failure to earn the minimum major GPA as set by the content major after three (3) consecutive semesters;
- For failure to successfully complete all required developmental courses within the first year of attendance;
- Upon the recommendation of the student's chair or school dean.

A student who has been dismissed for the first time has the right to appeal that decision in writing to the Academic Standards and Review Committee. Second dismissals are not subject to appeal except for factual error. A student may apply for readmission three years after the second dismissal. See *Readmission to the University after Academic Dismissal* for information on readmission following academic dismissal.

## Attendance

Monmouth University believes that attendance is essential to success in academic courses. Therefore, class attendance is required. The University believes that learning is an interactive process dependent in part on the student and is not just a matter of the passive absorption of information. The University also believes that to benefit fully from their respective courses, students need to participate in, and contribute constructively to, the classroom experience, and, secondly, that the success of any course depends as much on what students contribute to the class as on what the instructor presents.

Grades in courses are normally based on academic performance (participation, contribution, and examination). However, individual faculty members may adopt reasonable regulations that additionally relate grades to class attendance. All professors must state their specific attendance policies in a written statement containing the pertinent course requirements and give it to the students during the first week of the semester. A student who may not be present at a particular class or laboratory is, nevertheless, responsible for adhering to the attendance requirements of the course. A student absent from class due to inclement weather may not be penalized for that absence but are required to contact their faculty regarding the timely completion of assignments.

Students are not permitted to attend classes for which they have not officially registered (as determined by the Office of the Registrar). If students attend without prior registration, they are subject to disciplinary actions, inclusive of suspension and/or dismissal, and will not be permitted to "retroactively" enroll.

## Course Withdrawals

Students are expected to complete the courses for which they register. On occasion, however, withdrawals are warranted. (See section entitled "Grades (p. 56)" for a description of the "W" grade and associated procedures.) Students who do not intend to complete any course for which they are officially registered should execute an official withdrawal prior to the "W" deadline.

**Students who do not intend to complete one or more courses** for which they are registered should submit an official withdraw e-FORM, Withdraw from Course (<https://etcentral.monmouth.edu/>) by the stated deadline on the academic calendar (<https://www.monmouth.edu/registrar/academic-calendars/>). The Withdraw from Course (<https://etcentral.monmouth.edu/>) e-FORM should also be used when withdrawing from ALL courses and intending to return to Monmouth University in the future.

**Students withdrawing from ALL courses** with NO intention to return to the University must use the Total Withdraw from University (<https://etcentral.monmouth.edu/>) e-FORM.

Except under unusual circumstances, such as prolonged illness, a student will not be permitted to withdraw from course work past the stated deadline in the academic calendar. All students who do not complete courses and who have not executed an official withdrawal prior to the deadline indicated will receive "F" grades for such courses.

## Fourteenth Week Class Schedule

Fourteenth week classes shall be held during a time scheduled by the University.

Fourteenth week information is available on the "Registration Information ([http://www.monmouth.edu/registrar/registration\\_information/default.asp](http://www.monmouth.edu/registrar/registration_information/default.asp))" page of the Monmouth University Web site. A student who has three or more fourteenth week classes scheduled in one day may request that one of them be rescheduled to another day. It is normally the middle one of the three that is rescheduled. The class should be given at a time agreed upon by both the student and the faculty member on or before the end of the fourteenth week class period.

## Graduation

All undergraduate students are required to complete a minimum of 120 credits; some degrees require more credits. Individual program requirements are included on the applicable department page of this catalog. Additionally, all undergraduates must meet a minimum 2.00 overall grade point average (GPA), a minimum major GPA of 2.10 (except for Education majors who are held to a 3.00 minimum GPA, and Nursing majors who are held to a 2.75 minimum GPA), and, if applicable, a minimum 2.10 minor GPA. Calculation of a major GPA includes all courses fulfilled in the major and interdisciplinary areas of the audit.

Diplomas are mailed 2-3 weeks following the graduation date, provided that all University obligations have been met. In addition, Monmouth University provides a **Certified Electronic Diploma (CeDiploma)**, an official and verifiable PDF version of the diploma. A link to download the **CeDiploma** will be available for you to download on Commencement Day.

In those rare instances when a student has not met all degree requirements, but for whom a change to the academic record is received by the Office of the Registrar within one week following the graduation, the student will be considered for the earlier graduation. The

effective date of the change must be on or before the actual date of the graduation. Changes received later than one week beyond graduation will not be considered for prior graduation but will be part of the next graduation cycle.

Only students who have completed all graduation requirements, including, but not limited to, course work, credit requirements, GPA minimums, residency requirements, and the like, will be allowed to participate in Commencement.

## Independent Study

Independent Study courses permit a student to pursue a research project or guided readings in a subject area not substantially covered in the curriculum. Normally, no more than one Independent Study course may be scheduled during a single academic term.

A student's advisor must submit the appropriate e-FORM, Undergraduate or Graduate Independent Student Application, on the student's behalf. The form will be routed by the Registrar's Office to the supervising professor, department chair, and school dean for their approval prior to registration in the course. Generally, students are expected to complete no more than six (6) credits of independent study. Any exceptions must be approved by the dean of the school in which the student's major is housed. **Failure to process the Independent Study Application within the required timeframe may impact financial aid status and may jeopardize participation in Commencement.**

## Portfolio Assessment

Students interested in a portfolio assessment must have attained matriculated status and accumulated a total of at least six (6) college credits at Monmouth University. There is a non-refundable fee per area of assessment (please refer to the current catalog for the fees). Interested students should download, complete, and submit the Application for Portfolio Assessment to the Registrar's Office (which shows proof of payment), along with one copy of their portfolio. The form is available on the Registrar's forms page. (<http://www.monmouth.edu/registrar/forms.asp>)

## Repeat Policy: Repeating a Course\*

A course in which a grade of "C" or higher has been earned may not be repeated without the student first obtaining written permission from the appropriate department chair and the dean of the school in which the student is enrolled. If written permission is not received, the student may be administratively dropped from the course.

Students have one opportunity to repeat any regularly offered course in which a grade of "F," "D-," "D," "D+," or "C-" has been assigned. On-demand or requested courses (independent studies, co-ops, special topics, service learning, or certain experiential education courses) are not grade-repeatable in that the second grade earned will not replace a prior grade. When a course is repeated, only the second grade for the course will be used in calculating the cumulative grade point average, regardless of whether the second grade is higher or lower than the first. If both attempts of the course earned passing grades, only the most recent set of credits and grades will be applied to the student academic record. Students cannot repeat a scheduled course with an independent study for GPA improvement. The permanent academic record will contain a listing of all course registrations and grades. Students wishing to repeat a course ordinarily should do so no later than the next time that course

is offered at Monmouth University during the regular academic year. Exceptions must be approved by the advisor.

If, after repeating a course once, a grade of "C" or higher has not been earned, at the request of the student, a determination will be made upon recommendation of the department (course) chair to the school (course) dean, as to whether special circumstances exist to justify a second repeat (third attempt) of the course. When a course is repeated for the second time (third attempt), only the third grade for the course will be used in calculating the cumulative grade point average, regardless of whether the previous grades for that course are higher or lower than the third. A student found to be registered for a second repeat (third attempt) of a course, who has failed to obtain the dean's permission in advance, will be administratively dropped from the course.

### **\*Note:**

*Please consult with your department to determine if your program requires that a course(s) be completed with a grade higher than "C". A course repeat would be necessary if the minimum grade requirement set by the department has not been achieved. Students must also consult with their department to determine what impact course repeats may have on continuation in their program.*

## **Student (Biographical) Data**

Any currently enrolled student whose biographical data (e.g., name, address, or Social Security number) has changed must inform the Office of the Registrar in writing. Requests for name or Social Security number changes must be accompanied by legal documentation. Biographical information is not changed for previously enrolled students; alumni should contact the Office of Alumni Affairs to report biographical changes.

## **Permission to Take Courses at Another Institution**

It is expected that Monmouth University students, once enrolled, will complete all degree requirements at Monmouth University. However, in recognition that students may, on occasion (usually in the summer), have sound academic or personal reasons to take courses at other accredited institutions, they may request permission to do so. In evaluating such requests, consideration will be given to the relationship between the student's classification and the type of institution the student seeks to attend.

A student who requests permission (using e-FORMS) to take courses at another institution must be in good academic standing. The student should not be enrolled in classes at Monmouth during the semester or term in which permission is sought. The student must receive permission in advance from the chair of the department in which the student's major is housed, the school dean, and the Registrar. The student must present supporting evidence of course equivalency. Permission is granted for free elective courses and required courses in the "interdisciplinary requirements" portion of your program, but not for general education or major courses. Major courses include courses within the concentration, if any. Students may not repeat a course at another institution that they have previously attempted at Monmouth University.

Once a student attains junior status (completed sixty-one [61] or more credits), permission will not be given to take courses at any two-year institution. For credit to become part of the student's Monmouth

University transcript, a grade of "C" or higher must be earned at the other institution. For such courses, the grade earned at the other institution does not calculate in the Monmouth University grade point average; a "T" grade is posted to the student's academic record. In accordance with Monmouth University's residency requirement, students who are within thirty (30) credits of graduation are not eligible for this permission.

## **Graduate Courses for Undergraduates**

An undergraduate student at Monmouth University who has an outstanding academic record may apply for permission to take graduate courses while completing the work for a bachelor's degree. Please review the requirements listed below before submitting a request:

1. Students must have an overall GPA of 3.0.
2. Requests are subject to approval by the graduate program director and are subject to course availability and program policies.
3. Students must submit the "Undergraduate Request to Take a Graduate Course" e-FORM requesting that the course apply to either the current undergraduate program or a future graduate program.
4. Students seeking course substitutions for graduate coursework from the stated undergraduate degree requirements of their academic program should consult with their academic advisor. If the advisor recommends a substitution, the "Substitution of Undergraduate or Graduate Program Requirement" e-FORM will be submitted to their respective department for review.
5. Depending on the individual program and degree, credits in excess of 150 may count toward both the undergraduate and graduate degree if the plan sequence chart allows it and it is approved by the graduate program director, undergraduate major chair, and dean of both the undergraduate and graduate degree. The total credits of both degree programs must be equal to or greater than 150. A minimum of 120 credits must be applied toward an undergraduate degree, and a minimum of thirty (30) graduate credits (higher in some programs) must be applied toward a graduate degree.

## **Submission of the Same Paper or Computer Program for Two Courses**

The submission of the same (or essentially the same) paper or computer program for two separate courses without the expressed permission of all faculty members involved is against University policy. (Please refer to the *Academic Honesty* policy included in this catalog for more information.)

## **Time Limitation for Completion of Requirements**

The requirements of a particular baccalaureate curriculum must be satisfied within a period not exceeding **eight calendar years**. The Monmouth University catalog in effect at the time of admission, readmission, or change of major shall normally be the student's official catalog of record. However, faculty and curriculum changes may require related changes in a student's program. If after following a curriculum of record for eight calendar years a student has not completed the requirements of the curriculum, the student must update the curriculum of record (including general education requirements) to the most recent one that exists.

## Substitution of Requirements

Students seeking course substitutions or any deviations from the stated degree requirements of an academic program should first consult with their academic advisors. If the advisor recommends a substitution, the "Substitution of Undergraduate or Graduate Program Requirement" e-FORM should be submitted to their respective department for review. The department will forward their decision to the Office of the Registrar for processing. Students will receive an e-mail to their Monmouth University e-mail accounts after the substitution request has been completed, unless the substitution was initiated by their advisor. In that case, students should follow up with their advisors to make sure that their substitution has been completed. If the department chair does not approve the substitution, the student may appeal that decision to the school dean. If the school dean does not approve the substitution, the student may appeal that decision to the Provost. The Provost has final authority concerning the substitution.

Students should avoid processing substitution forms close to the time of graduation; instead, substitutions should be effected as warranted in academic planning sessions with academic advisors. Deadlines to submit substitutions for graduating students are provided on the "Registration Information" ([http://www.monmouth.edu/registrar/registration\\_information/default.asp](http://www.monmouth.edu/registrar/registration_information/default.asp)) page of the Monmouth University Web site.

## Academic Procedures

### Scheduling Information

#### Fall and Spring Semesters

Monmouth University schedules on-campus classes year-round. During the fall and spring semesters, in addition to the traditional schedule of daytime classes, Monmouth also offers non-traditional students other scheduling options. Courses are available in the evening and on weekends.

#### Winter Session

The University offers one Winter Session, occurring between the Fall and Spring semesters. Offerings are online, and the maximum credit load for the winter session is 3 credits.

#### Summer Sessions

Summer sessions provide a comprehensive program of day and evening courses and special workshops for Monmouth students and students in good standing at other colleges and universities. Summer session programming also provides a taste of college life and a head start for high school students who have completed either the junior or senior year. Because of Monmouth's location near the shore, summer sessions are well attended by visiting students as well as Monmouth's own students.

The University offers five regular summer sessions. The maximum course load for summer school is twelve (12) credits.

Students enrolled at other institutions should receive approval from that institution for courses for which credit is desired. Students must meet all course prerequisites. Admission into the summer program does not constitute acceptance into the University's regular programs.

Campus recreational and dining facilities are available to summer students. Residence halls will be open to resident students during the

summer. Inquiries regarding summer sessions and applications for admission should be addressed to the Director of Admission.

## The Monmouth University Student Portal, *myMU*

All currently registered and deposited Monmouth students have established student accounts for use in schedule preparation, grade and transcript look-up, and academic audits and should login to the student portal, *myMU*, to become familiar with this account so they can retrieve their academic information. Questions concerning the account can be answered by the Help Desk (732-923-4357), or by utilizing the documentation and tutorials that are linked from the student menu. Examples of information obtainable online include:

- Instructions and Links (e-FORMS)
- Personal Academic Information (Grades, GPA, Schedule)
- Registration (Academic audit, Search for Courses, Prerequisite Worksheet)
- Graduation (Apply to Graduate)
- Financial Information

## Withdraw from the University

Students who intend to withdraw from Monmouth University and plan not to return are requested to notify the University by completing a "Total Withdraw from University" e-FORM. Provided the e-FORM is received by the "W" deadline date (see academic calendar (<http://www.monmouth.edu/university/academic-calendars.aspx>)), students will be withdrawn from the current term; otherwise the total withdraw will not be effective until the next regular term.

## Application for Graduation

As you approach the completion of your program, students must review their academic audits through the Monmouth University portal, *myMU*, in order to monitor their degree progress. After the completion of seventy-five (75) credits you are required to submit an "Application for Graduation" form to the Office of the Registrar or you will be blocked from all future registration activity. A graduation fee will be assessed prior to your final semester, in accordance with the university Tuition and Fees (<https://www.monmouth.edu/tuition/>) schedule. The application is available in the student portal under the I NEED TO tab.

## Participation in Commencement

Only students who have completed all degree requirements are permitted to participate in Commencement exercises. All application deadlines for graduation, substitutions of program requirements, grade changes, waivers, transfer credits, and the like are outlined on the "Registration Information" ([https://www.monmouth.edu/registrar/registration\\_information/default.asp](https://www.monmouth.edu/registrar/registration_information/default.asp)) page of the Monmouth University Web site. Failure to meet any of the deadlines may impact inclusion in Commencement-related activities.

## Change of Major

The choice of a major can have dramatic impact on life and career goals. Undergraduates considering changing majors should be aware that academic advising, including interest testing, is available to them through the Center for Student Success.

Students who wish to change their majors should seek the advice of the chair of the proposed new department and make themselves familiar with the requirements of the new major. To make the change, students should submit a "Request to Change Curriculum" e-FORM. (Note: *Freshmen students must consult with their advisors in the First Year Advising Office in order to change their major.*) The Office of the Registrar will review the application and route it to all appropriate parties for their approval. Students will receive an e-mail once this form has been successfully processed. Students must fulfill the requirements of the new major that are in effect at the time of the change of major.

Undeclared majors are required to officially declare a major by the end of the sophomore year. Failure to do so will prevent registration for future semesters. An undeclared student who has maintained continuous matriculation under earlier general education requirements may elect to follow those general education requirements when declaring a major. See Curriculum of Record (p. 59) for additional information.

## Changing from Non-Matriculated to Regular (Matriculated) Status

An undergraduate student accepted to Monmouth University as a non-matriculated (non-degree-seeking) student may request to matriculate (seek a degree) by applying for admission as a regular (matriculated) student. If accepted as a regular student, he or she may declare a major (provided admission criteria, if any, of the particular major are met) or choose the undeclared status.

A non-matriculated undergraduate student who did not meet regular admission requirements when accepted in the provisional non-matriculated status must complete a minimum of twelve (12) credits and a maximum of eighteen (18) credits of college-level course work with a minimum grade point average of 2.00 before applying for admission as a regular student. The student will follow all curricular requirements in effect at the time of admission as a regular student.

Courses taken in the non-matriculated status will be considered for applicability toward degree requirements in the same way that courses taken in the matriculated status are considered. Undergraduate students wishing to change from non-matriculated to regular status should contact the Office of Undergraduate Admission.

## Course Changes (Add/Drop)

Students can add or drop classes at any time during the open registration period or until the conclusion of the Add/Drop period (as outlined in the Academic Calendar (<https://www.monmouth.edu/registrar/academic-calendars/>)) using Student Planning (<https://wlbsweb-01.monmouth.edu/Student/?hideProxyDialog=false>) or with the assistance of their academic advisor/department.

After the Add-Drop period, until the end of the 3<sup>rd</sup> week of the Fall and Spring semesters, students may request approval to add a course by submitting the Add Open Course or Add Closed Course e-FORM, as appropriate. NOTE: One course per form. Faculty, department chair, and dean (for closed course) approval required. Adding courses that impact tuition also require approval from the Bursar's Office before a student can be registered.

If, after add/drop week, due to extenuating circumstances, students need to switch between sections of the same course, they should consult with their advisor.

## Leave of Absence

A leave of absence (LOA) enables students to maintain the same curriculum of record if they intend to be away (no active registration) from the University for a full semester. Interested students should submit an LOA request e-FORM in order to be placed on a leave; e-FORMS are accessible through the Monmouth University student portal, *myMU*. The deadline to submit this request is by the conclusion of the course change (add/drop) period. Please consult the official University academic calendar (<http://www.monmouth.edu/university/academic-calendars.aspx>) for specific dates. All degree requirements must be completed as specified in the "*Time Limitation*" section of this catalog. Students on a LOA may not attend another institution and transfer credits back to Monmouth University.

## Registration

All current Monmouth University students and deposited "Applicants" are provided with access to the University's student portal, *myMU*. These students are provided with a unique User ID and password, which allows them to view their personal student information and to conduct their personal student business via the Web.

Continuing students who have met with their academic advisor and received permission to do so may self-register using the registration tools linked from the student portal during the registration period. Specific information for dates and times to register online will be distributed to each student in advance of this period. Other important information regarding registration is available on the "Registration Information" ([http://www.monmouth.edu/registrar/registration\\_information/default.asp](http://www.monmouth.edu/registrar/registration_information/default.asp)) page of the Monmouth University Web site. Online registration is not available to students who are on academic probation or whose current admission status is conditional.

Continuing students are strongly urged to complete "early registration" for upcoming semesters and terms. Early registration for the fall, spring, and summer semesters usually begins in April and concludes in August. Late registration is conducted during the first week of the fall and spring semesters; students are required to pay the "late registration" fee when registering during the late registration period. Registration after the conclusion of the late registration period requires the written approval of the appropriate faculty and department chairs. Students are not permitted to attend classes for which they are not officially registered (as determined by the Office of the Registrar). If students attend without prior registration, they are subject to disciplinary action, including suspension and dismissal, and will not be permitted to "retroactively" enroll.

New students are invited to register during special programs during the summer and in January as part of their orientation to the University. Late registration is available to new students, although it is less desirable than the mode described above.

Registration privileges are not extended to students who have significant unresolved financial or other obligations to the University. "Holds" are placed on the records of such students. Upon resolution of the obligation, registration privileges are restored. Course prerequisites are updated periodically. Students should confer with their advisors concerning the most recent prerequisites on record for courses they wish to take. Students should also confer with their advisors when they want to register for more than eighteen (18) credits per semester. Students must fulfill the most current prerequisite requirements prior to taking courses at Monmouth University.

## Transcript Requests

Currently enrolled students, former students and alumni may obtain official printed or electronic copies of their transcript by submitting a request to the National Student Clearinghouse (<https://tsorder.studentclearinghouse.org/school/select/>). These transcripts are considered official copies and can be produced on demand. ***If a transcript is immediately required, an electronic copy must be chosen by students, former students, and alumni.***

## University Emergency Closing

Monmouth University has established a Weather Emergency Information Line: 732-263-5900. During emergencies, including weather-related situations when the University may need to close or delay the start of the workday, this line will have a prerecorded message with necessary information for students and staff. If the University must close or cancel classes, a broadcast message will also be sent to all employees and resident students via the campus alert system. You may also find out about weather-related cancellations and closings by e-mail messages, the Monmouth University Web page (<http://www.monmouth.edu>), and social media posts.

## University E-mail

Monmouth University provides all students with a Monmouth University e-mail account. When communicating via e-mail with University offices, students should use their Monmouth e-mail account so as to easily establish identity. Official communications are sent exclusively to the student's Monmouth University e-mail account, such as:

- Grade reports
- Semester schedules
- Registration information
- Academic announcements
- Graduation deadlines
- Change-of-class notifications
- Academic standings

# THE WAYNE D. MCMURRAY SCHOOL OF HUMANITIES AND SOCIAL SCIENCES

---

Dean: David Hamilton Golland, Ph.D.

Interim Associate Dean: Kristin Bluemel, Ph.D.

The Wayne D. McMurray School of Humanities and Social Sciences prepares students for lifelong learning and effective engagement with a changing world. The humanities give critical insight into aspects of thought, values, and achievement in all times and places. The social sciences contribute an understanding of the structure and function of society. Both areas provide a foundation for major courses of study that prepare students for productiveness and responsibility in both their careers and civic life. Undergraduate and graduate curricula provide strong programs that prepare students for successful entry into professions and advanced study. The School of Humanities and Social Sciences fosters critical, social, political, and cultural thought by creating new knowledge, sound, and art. By doing so, the school creates an intentional active learning environment through which students can make a meaningful and long lasting impact.

The Wayne D. McMurray School offers twenty-three undergraduate degree programs in:

- Anthropology
- Art
- Art with a Concentration in Photography
- Communication
- Criminal Justice
- Criminal Justice with Social Work
- English
- English with a Concentration in Creative Writing
- Fine Arts with a Concentration in Animation
- Fine Arts with a Concentration in Graphic and Interactive Design
- Foreign Language/Spanish Concentration and Communication (Journalism Cluster)
- Foreign Language/Spanish Concentration and Communication (Media Studies and Production)
- History
- Homeland Security
- Music
- Music with a Concentration in Music Industry
- Music with a Concentration in Musical Theatre
- Political Science
- Political Science with a Concentration in International Relations
- Political Science with a Concentration in Legal Studies
- Psychology
- Sociology
- Spanish

Among our academic goals are proficiency in all forms of communication; an appreciation for the diversity of people and ideas and the ability to collaborate with others; stimulation of aesthetic sensitivity and creative expression; and the ability to think and react critically.

Interdisciplinary studies are encouraged. All majors provide options for minors, double majors, concentrations, and interdisciplinary studies.

# Anthropology

Chair: Maryanne Rhett, Department of History and Anthropology

The Anthropology curriculum is designed to provide a liberal arts education that emphasizes the scientific study of humanity. Three areas of Anthropology are covered:

- Cultural Anthropology, the comparative study of human beliefs and behavior with special attention to non-Western societies;
- Archaeology, the study of the human cultural heritage from its prehistoric beginnings to the recent past; and
- Biological Anthropology, the study of racial variation and the physical and behavioral evolution of the human species.

The goal of the Anthropology program is to provide students with a broad understanding of humanity that will be relevant to their professions, their daily lives, and their larger roles in the modern world.

**Student Honor Society: Lambda Alpha, Alpha Chapter**

## Programs

### Majors

- B.A. in Anthropology (p. 73)
- B.A. in Anthropology and Education with Endorsement in Elementary Education (p. 74)
- B.A. in Anthropology and Education with Endorsements in P-3 and Teacher of Students with Disabilities (p. 76)

### Minors

- Anthropology (p. 77)
- Archaeology (p. 77)

## Faculty

**Veronica Davidov**, Professor and Anthropology Graduate Program Director (Graduate Faculty). Ph.D., New York University. Areas of research interest include cultures of Latin America and ecotourism in the Amazon. Teaching focus includes anthropological theory, ethnographic methods, area studies (Latin American), political ecology, and globalization.  
vdavidov@monmouth.edu

**Hillary DelPrete**, Associate Professor and Undergraduate Program Director (Graduate Faculty). B.S., Tulane University; M.A., Ph.D., Rutgers University. Professor DelPrete is a biological anthropologist with a specialization in modern evolution. Teaching and research interests include human evolution, human variation, human behavioral ecology, and anthropometrics.  
hdelpret@monmouth.edu

**Adam Heinrich**, Associate Professor (Graduate Faculty). B.S., M.A., Ph.D., Rutgers University. Historical and prehistoric archaeology; historical and prehistoric zooarchaeology; cultural and environmental variation in husbandry and meat consumption; taphonomy, African and European diaspora and cultural contact; 17th-19th century commemoration; Osteology/Forensics, Archaeobotany (macrobotanicals); experimental archaeology; development of mercantile systems; consumerism in archaeology; material culture and social process.

aheinric@monmouth.edu

**Brooke A. Nappi**, Lecturer. B.A., Monmouth University; M.A., Montclair State University.  
bnappi@monmouth.edu

**Richard F. Veit**, (Graduate Faculty).

Provost and Senior V.P. for Academic Affairs. B.A., Drew University; M.A., College of William and Mary; Ph.D., University of Pennsylvania. Teaching areas include archaeology, historic preservation, North American Indians, and New Jersey history. Research interests include historical archaeology, industrial archaeology, and early American Material Culture. Author of *Digging New Jersey's Past: Historical Archaeology in the Garden State*.  
rveit@monmouth.edu

## Courses

**AN-103 Cultural Anthropology** **Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

Introduction to comparative study of human beliefs and behavior. Emphasis on the concepts used in studying human culture; analysis of non-Western societies with respect to ecology, economy, social and political organization, religion, and art; implications for American society.

**AN-104 Introduction to Biological Anthropology** **Credits: 3**

Term Offered: All Terms

Course Type(s): HE.EL, HEPE, SS.SV

Introduction to physical anthropology; racial variation and the evolutionary origins of the human species; concepts and principles used in the study of living and fossil evidence for human evolution and genetic diversity; unique influence of culture on human biology; human evolution in the present and future.

**AN-107 Introduction to Archaeology** **Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

Introduction to archaeological techniques, concepts, and principles; recovery and interpretation of evidence; examples from the prehistoric cultures of the Americas, Europe, Africa, and Asia.

**AN-113 Cultures of the World** **Credits: 3**

Term Offered: All Terms

Course Type(s): BI.EL, GU, SS.SV

Common and distinctive features of culture in each of several broad zones around the world, including native North America, native South America, northern Asia, southern Asia, and sub-Saharan Africa; descriptive overview with emphasis on the variety of human experience and achievement.

**AN-117 Great Excavations: Survey of World Archaeology** **Credits: 3**

Course Type(s): SS.SV

This course is a social science seminar that examines how archaeologists study and interpret the ancient world. Ancient societies from North America, South America, Africa, Asia, and Europe are examined. Students are introduced to the ethical challenges that face archaeologists and to how archaeologists separate fact from fiction.

**AN-198 Special Topics in Anthropology (100 Level)** **Credits: 1-3**

Course Type(s): None

An intensive study of a particular subject or problem in anthropology to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AN-220 History of Advertising****Credits: 3**

Term Offered: Spring Term

Course Type(s): GS, HSUS

Designed to develop a critical understanding of the historical evolution of advertising in the United States, with critical attention to race, class, gender, and sexuality. We will explore the economic, political, and cultural factors that have contributed to the development of advertising, and which have been affected by advertising. Some of the topics to be discussed include: the rise of national advertising; the relation of advertising to consumption; advertising to children; political advertising, the relationship between advertisers and the medium in which they appear (magazines, television, radio, etc.) and broadcast and internet advertising. Also listed as HS-220 and GS-220.

**AN-252 Human Variation****Credits: 3**

Term Offered: Spring Term

Course Type(s): TL

This course is designed to introduce students to the study of human variation. Each one of us is different from everyone else; even monozygotic twins, that share the same DNA, differ. These differences can occur from the genetic level to the epigenetic level. Some of this variation we can see, such as variation in height, eye color, etc. Other variation is less obvious such as variation in disease susceptibility and food sensitivities. Students will collect and examine data to assess this variability in humans while looking through the lens of evolutionary theory and natural selection.

**AN-262 Primate Behavior, Evolution and Ecology****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The study of primatology, which examines the lifeways, biology, and behavior of our closest living relatives. Various topics will be explored including taxonomy and classification, diet, behavior, grouping patterns, locomotion, and land usage patterns of monkeys, apes and prosimians. These topics will be explored within the frameworks of natural selection, sexual selection, and evolution. Also listed as BY-262.

**AN-263 Peoples and Cultures of South America****Credits: 3**

Prerequisite(s): AN-103 or AN-113

Term Offered: Spring Term

Course Type(s): RE

A social and cultural survey of representative peoples in South America and the Caribbean, emphasizing the comparative study of economic, political, social, and religious organization.

**AN-264 North American Indians****Credits: 3**

Term Offered: All Terms

Course Type(s): GU, RE

A survey of the cultural, social and linguistic diversity of Pre-Columbian North American societies; problems of contemporary Indian groups. Also listed as HS-264.

**AN-266 Historical Archaeology****Credits: 3**

Prerequisite(s): AN-103 or HS-201 and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

An introduction to historical archaeology, the archaeology of the modern world (c. 1492+). It focuses on archaeological sites in the United States. Students are introduced to the various written and material sources that historical archaeologists use to interpret the recent past, including artifacts, vernacular architecture, grave markers, documents, photographs, and other visual sources. Archaeological field methods are also introduced with a minimum of one class period spent excavating an archaeological site. Also listed as HS-266.

**AN-267 Tourism Around the World****Credits: 3**

Term Offered: All Terms

Course Type(s): BI.EL, GU, SUS

Introductory examination of the various factors that impact tourism in different parts of the world. Students will consider political, social, economic, cultural, and environmental factors that affect tourists, local populations, and the physical destinations. Also listed as GO-267.

**AN-268 Urbanization****Credits: 3**

Term Offered: All Terms

Course Type(s): CD, RE, SUS

An introduction to urbanization on a global scale. Historical and contemporary development of the world's cities using geographical approaches to urban analysis. Includes examination of urban forms and the local global, social, cultural, economic, political, and physical processes that shape and are shaped by cities, and the large and rapidly growing cities of the developing world that dominate and control the global economy. Also listed as GO-268.

**AN-272 Magic, Witchcraft, and Religion****Credits: 3**

Prerequisite(s): EN-101 and EN-102; or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Explores motivation of human behavior within the realm of religion and the supernatural with an emphasis on the role of gods and goddesses. A cross-cultural approach will be used while exploring cultures both past and present across the globe. Also listed as RS-272.

**AN-274 Anthropology of Sex and Gender****Credits: 3**

Term Offered: Spring Term

Course Type(s): GS, RE

Anthropological perspectives on sexuality and gender; emergence of human sexuality and gender differentiation in the context of species evolution; cross-cultural survey of social and ideological aspects of sexuality and gender.

**AN-275 Global Environmental Problems****Credits: 3**

Term Offered: All Terms

Course Type(s): GU, HE.EL, SUS

Focus on the complex relationship between human beings and their environments in an effort to build an ecological perspective in a global framework. Discussion of basic issues of ecological science in terms of impact on both the Western and non-Western worlds. Also listed as GO-275.

**AN-278 Maritime History/Underwater Archaeology****Credits: 3**

Term Offered: Summer Term

Course Type(s): MEBP

A mid-level seminar that examines maritime archaeology, with a focus on North America and particularly New Jersey. As part of this course, students will explore the world of maritime archaeology through readings, fieldwork, lectures, and hands-on exercises. It will include fieldwork on Monmouth's research vessel, work with a submersible, and lab work with shipwreck artifacts.

**AN-279 Culture, Health and Illness****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): CD, HE.EL, HEPE, WT

A cross-cultural examination of health and healing from the view of applied medical anthropology. Explores biological, sociocultural, political economic, and structural factors that affect health, illness, and disease both now and in the past. Cultural areas of study include: populations in the United States, Africa, Latin America, the Caribbean, and Southeast Asia.

**AN-280 Anthropology and Education****Credits: 3**

Prerequisite(s): EN-101 and EN-102; or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

The Anthropology of Education has a long and rich history of exploring intersections of learning and culture. This course is an introduction to the issues and approaches central to the study of education within the discipline of anthropology. Over the course of the semester, students will engage with classic and contemporary methods and readings in the field, including cross-cultural approaches to schooling and key issues in educational policy. This course is founded in anthropological approaches to education and how anthropologists address topics related to learning.

**AN-289 Anthropological Field Study****Credits: 1-3**

Prerequisite(s): 6 credits in Anthropology

Term Offered: All Terms

Course Type(s): EX1

Supervised field experience in various branches of anthropology, e.g., archaeological excavation, museum work, ethnography, and primate behavior. Departmental approval is required to take this course.

**AN-290 Popular Culture and the Middle East****Credits: 3**

Course Type(s): GU, HSNW

Examines recent events, traditional cultural practices, and the perceptions of the Middle East through the lens of popular media (film, graphic novels, journalism, etc.). Topics to be covered may include but are not limited to: religion, the Arab Spring (2011), the Iranian Revolution, the Arab-Israeli Conflict, women's rights/roles, Orientalism and racism, and common governing structures. Also listed as HS-290.

**AN-296 Cultures and Societies of Africa****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): CD, WT, HSAF, HSNW, RE

Examines the history, cultures, and societies of Africa from the precolonial to the contemporary period. Discusses the cultural, political, and economic changes that have taken place in Africa as a result of Western influence. Also listed as HS-296.

**AN-298 Special Topics in Anthropology (200 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in Anthropology to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AN-299 Independent Study in Anthropology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Students must be an Anthropology major and have at least a 2.50 G.P.A. to register for this course. Prior permission of the directing professor and department is required to take this course.

**AN-303 Archaeology of the Southeastern United States****Credits: 3**

Course Type(s): GU

This course offers an overview of the archaeology of the American Southeast. The course will focus on the region's prehistoric and contact periods, which is one of the richest in the US. Students will develop an understanding of the area's primary archaeological cultures and their geographic and temporal extents.

**AN-304 Monuments and Commemoration: Loss and Remembrance****Credits: 3**

Course Type(s): HSUS

Examines the evolution of American attitudes towards commemoration and remembrance from the colonial period to the present. Focuses on the analysis of landscapes and artifacts, e.g. monuments, grave markers, cemeteries, and historic sites. Topics discussed include: the evolution of American burial grounds from colonial burial grounds to the rural cemeteries of the Victorians and modern memorial parks. Changing grave marker designs and iconography are examined. Distinct ethnic, regional, and national memorial practices are also studied. Public memorials in the form of statuary, commemorative institutions, and historic sites will also be discussed. There will be field trips to select sites. Also listed as HS-304.

**AN-305 Caribbean Archaeology****Credits: 3**

Course Type(s): GU, RE

Students are introduced to the archaeology and ethnohistory of the Caribbean Islands; the region where the Old World violently encountered the New World in AD 1492. The general approach is historical and chronological. This course is divided into two broad sections covering the prehistoric and historic periods of the region. The encounter between Europe and the region's native inhabitants proved catastrophic for the later. The region then became central to the world economy through slave labor and the production of luxury for world markets.

**AN-306 Food and Culture****Credits: 3**

Prerequisite(s): EN-101 and EN-102; or permission of the instructor

Term Offered: Fall Term

Course Type(s): GU, WT

Augments the anthropology program's offerings in both archaeology and socio-cultural anthropology, and demonstrates the synergy of these approaches in the topical study of food. Through a combination of lecture, discussion, hands-on learning, and readings, students are introduced to the basic modes of human subsistence identified by the anthropological tradition. They also will explore the material and social challenges connected with these different subsistence strategies, and finish up by looking at current food-based problems facing the world today.

**AN-307 Forensic Anthropology****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Introduces students to the basic principles of forensic anthropology. Forensic anthropology is an application of biological anthropology (Skeletal understanding) to help solve criminal cases. Topics that will be covered in this course schedule include: methods of determining sex, nutrition, stature and ancestry from skeletal remains. We will also explore the cause of death, time since death and other relevant information. In addition we will examine the changing role of forensic anthropology in a larger global context.

**AN-311 Anthropology Internship Seminar****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Application of theory learned in the classroom in practice through actual work experience. Includes both academic and experiential learning. Eight to twelve hours per week in a public history or field work setting. Open only to anthropology majors. This course is repeatable for credit.

**AN-315 Field Research in Archaeology****Credits: 3**

Prerequisite(s): AN-103 or AN-107 or permission of the instructor

Term Offered: All Terms

Course Type(s): EX5, HSUS

Archaeological field methods, analysis of data, and anthropological interpretation; students will do supervised work on local sites. May be repeated for a maximum of six credits. Also listed as HS-315.

**AN-321 Qualitative Research Methods****Credits: 4**

Prerequisite(s): PY-103

Term Offered: Spring Term

Course Type(s): WT

An interdisciplinary overview of qualitative research methods employed in the social sciences and education. Qualitative methods are offered as an alternative way of knowing about individuals and groups. Topics covered include: theory, fieldwork, interviewing, observational studies, time sampling, writing field notes, questionnaires (survey research), archival research, and conducting qualitative research in various settings. Emphasis also placed upon the factors that affect the fieldwork process (e.g., gender, emotions, etc.) Also listed as PY-321.

**AN-322 Ethnographic Methods****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): WT

An overview of ethnographic research design and methods employed in anthropology. Students will practice research design and methods, data analysis and write-up techniques. Students will engage questions of ethics through research practice and theoretical discussion.

**AN-330 Zooarchaeology: The Archaeology of Animals****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Covers methods of faunal analysis and the application of the study of animal remains to broad topics of cultural study including subsistence, status, and ideology.

**AN-342 Children's Play and Culture****Credits: 3**

Prerequisite(s): PY-203

Term Offered: Spring Term

Course Type(s): None

An intensive examination of children's play. Theoretical and empirical contributions from psychology and anthropology as a developmental and cross-cultural foundation for the following topics: the historical development of the concept of childhood; theories of play; conceptions of play and work; the functions of play; play and child development; gender differences; cross-cultural forms of play; and children's peer cultures. Also listed as PY-342. Psychology majors should register for PY-342.

**AN-343 Anthropology and Children****Credits: 3**

Prerequisite(s): AN-103

Term Offered: Spring Term

Course Type(s): GU

An overview of the anthropological study of children. Addresses anthropology's inquiry into children's behavior, activities, artifacts, and their relationships with adults both past and present. Topics covered include: archaeology and children, childbirth, attachment, parenting, play, education, socialization, and child labor and welfare. Geographical areas include: the Middle East, Asia, and Central and South America. Europe and the United States are mentioned marginally.

**AN-355 Ancient Technology****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Provides an introduction to ancient technology/experimental archaeology. It examines the major theories and practices employed by experimental archaeologists. Students will develop skills in traditional technologies, e.g. flintknapping, pot firing, blacksmithing, and timber frame house construction.

**AN-363 The Amazon****Credits: 3**

Term Offered: Spring Term

Course Type(s): GU, RE

An anthropological seminar focused on the Amazon region, with emphasis on how expert and lay knowledge about the Amazon has been produced and circulated.

**AN-371 International Service Seminar****Credits: 3**

Prerequisite(s): PS-102

Term Offered: Spring Term

Course Type(s): PSIP

Students will learn to unite theory and practice by studying theories and policies based on human security, and learning about their applications through service-learning projects. Students will enhance their understanding of human security by volunteering in international community organizations and reflecting on the social, political, and economic factors and policies that affect them. Also listed as SW-371, PS-371, and SO-371.

**AN-377 Archaeology of African American Life****Credits: 3**

Course Type(s): CD, RE

Explores the rapidly growing subfield of historical archaeology which deals with the life and history of African Americans. The history and modern challenges facing this group is conditioned by the historical experience of individuals and communities of African descent with the United States. Unlike many European groups, the historical evidence documenting the experience of African Americans through time is sparse and incomplete. Archaeological investigations offer a primary method for recovering the everyday life experiences of this group. In addition, African American archaeology provides an important intersection for engaging the deep connection between the past and the present in socially meaningful ways. This course will review important case studies, key figure, major issues, and the overall development of African American archaeology.

**AN-378 Gender, Sex and Medicine****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): CD, GS, HE.EL, WT

Explores intersections of biological sex with cultural constructs of gender and medicine. Using cross-cultural examples, the course will employ an anthropological approach to explore how health, well-being and even medical belief systems operate in relation to different genders. Together as a class, we will examine how cultural constructs of gender frame ideals and norms regarding health, explore ways that biological sex is used to support gendered constructs, and demonstrate how these constructs eventually frame how healing takes place.

**AN-379 Globalization, Health and Healing****Credits: 3**

Term Offered: Spring Term

Course Type(s): GU, HE.EL, HEPE

Explores globalization through the lens of health and transnational movements. Through lectures, interactive seminar discussions, films, reflective analysis and research projects, students will examine globalization processes through the movement of disease and treatments, patients and healthcare workers.

**AN-380 American Cultural Diversity****Credits: 3**

Term Offered: All Terms

Course Type(s): RE

Explores the historical, social, and cultural backgrounds of immigrant groups found within the United States. Through lectures, readings, case studies, and discussions incorporated with service learning as fieldwork, students will be introduced to the complexity and diversity of American society.

**AN-382 Applied Anthropology****Credits: 3**

Term Offered: All Terms

Course Type(s): EX5

This course is anthropology put to use - meaning using anthropological research and methods to solve practical problems. This is an upper-level survey course that pays attention to cultural viewpoints, methods and results. While exploring different areas of applied anthropology through the history of the discipline and contemporary research projects, we will study methods unique to this subfield. Practical information, advice and resources on career preparation and development will be offered. By the end of the course, students should be able to answer the question "How can I use anthropology in my future career?"

**AN-383 Old World Prehistory****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

An intensive survey of the prehistoric cultures of Europe, Africa, and Asia, focusing on the period between the origins of modern humans to the rise of the first civilizations. Particular attention is paid to the development of art, religious belief systems, agriculture, urbanism, metallurgy, and writing. Early civilizations in Egypt, sub-Saharan Africa, Mesopotamia, Western Europe, and China are examined.

**AN-387 Visual Anthropology****Credits: 3**

Term Offered: Spring Term

Course Type(s): CD, COSS

Deals with aspects of visuality in culture and anthropology. A significant part of the course will be devoted to visual anthropology. We will learn about the development of visual anthropology as a discipline, the particular problems and challenges involved in practicing this type of ethnography, the evolution of ideas about accountability, representation, reflexivity and positioning in visual ethnographic methods. We will start with exploring the role of image in anthropology by considering the relationship between photography and ethnography, and continue to study ethnographic filmmaking, from Robert Flaherty's "Nanook of the North," (considered to be the first ethnographic documentary), to the development of Cinema Verite, to the emergence of indigenous media. Students will gain a nuanced understanding of the subject through weekly writing exercises, presentations, and in-class discussion. For a final project, students will write a long-form paper that will combine original research and visual analysis.

**AN-389 Anthropological Field Study****Credits: 3**

Prerequisite(s): 6 credits in Anthropology

Term Offered: All Terms

Course Type(s): EX1

Supervised field experience in various branches of anthropology, e.g., archaeological excavation, museum work, ethnography, and primate behavior. Departmental approval is required to take this course.

**AN-390 Archaeology Field Study****Credits: 3**

Course Type(s): None

An introduction to the practice of archaeology with a focus on fieldwork and limited laboratory analysis. This is a residential field school, meaning that students will live at or near the site for the majority of the semester. This might include living nearby during the week or for several weeks at a time, as in the case of an international archaeological field project. Students will learn traditional and advanced surveying methods, how to conduct pedestrian surveys, standard archaeological excavation techniques, and how to identify, catalogue, and analyze artifacts. There will be weekly lectures on the archaeology, history, and culture of the chosen archaeological site by project staff and visiting experts.

**AN-398 Special Topics in Anthropology (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in anthropology to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AN-399 Independent Study in Anthropology****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Students must be an Anthropology major and have at least a 2.50 G.P.A. to register for this course. Prior permission of the directing professor and department is required to take this course.

**AN-401 Anthropological Theory****Credits: 3**

Prerequisite(s): AN-103 or permission of the instructor

Term Offered: All Terms

Course Type(s): None

A survey of the major theories in anthropology from the nineteenth century to the present, focusing on contributions to our understanding of human society by some of the major figures of anthropology.

**AN-408 Cultural Psychology****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

An interdisciplinary course that utilizes theoretical, empirical, and methodological contributions from psychology and anthropology to discuss the position of culture in understanding human behavior and thought. Culture is viewed as a cognitive construct that is learned, lived, shared, and performed. A sample of topics include: the history of cultural and cross-cultural psychology, methodological approaches, aggression, education, development, play, language, social relationships, intelligence, emotion, motivation, and mental health issues. Also listed as PY-408.

**AN-425 Latin American Seminar****Credits: 3**

Prerequisite(s): AN-103 or permission of the instructor and EN-101 and EN-102

Course Type(s): RE, WT

An in-depth analysis of select groups in Native Latin America, through lectures, readings, case studies, film, and interactive panel discussions.

**AN-426 Research Seminar in Anthropology****Credits: 3**

Prerequisite(s): 90 credits completed or Senior standing

Term Offered: All Terms

Course Type(s): RD

The development, research, and writing of a BA paper on any aspect of anthropology, with special emphasis on scrupulous documentation, use of appropriate sources, clear expository writing, and oral presentation of research results. The course will be taught as a mixture of seminar and one-on-one meetings with the instructor. (It will also include a meeting with a librarian or bibliographer from the Monmouth University Library.)

**AN-489 Anthropological Field Study****Credits: 1-3**Prerequisite(s): 6 credits in Anthropology and permission of the instructor  
Course Type(s): EX1

Supervised field experience in various branches of anthropology, e.g., archaeological excavation, museum work, ethnography, and primate behavior. This course may be repeated once for credit.

**AN-498 Special Topics in Anthropology (400 Level)****Credits: 1-3**

Course Type(s): None

An intensive study of a particular subject or problem in anthropology to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AN-499 Independent Study in Anthropology****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum.

**B.A. in Anthropology (AN.BA)**

| Select 9 credits in any combination from the following subjects: <sup>1</sup>     |                                                             | 9       |
| History (HS)                                                                      |                                                             |         |
| Political Science (PS)                                                            |                                                             |         |
| Psychology (PY)                                                                   |                                                             |         |
| Sociology (SO)                                                                    |                                                             |         |
| Criminal Justice (CJ)                                                             |                                                             |         |
| <b>Free Electives (39 credits)<sup>2</sup></b>                                    |                                                             |         |
| Complete up to 39 credits of free electives. <sup>2</sup>                         |                                                             | 39      |
| <b>General Education Requirements (33 credits)<sup>3</sup></b>                    |                                                             |         |

Complete 33 credits as outlined on the General Education table.<sup>3</sup>

**Total Credits 120**

<sup>1</sup> If course selection satisfies a General Education requirement, additional free electives may be permitted. See advisor.

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.

<sup>1</sup> Minimum grade of "C" required for Education Courses

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- Early Childhood Endorsement P-3
- ESL - English as a Second Language - Elementary
- MID - Middle School Social Studies
- TSD- Teaching Students with Disabilities

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.

- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

<sup>1</sup> Minimum grade of "C" required for Education Courses.

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

Anthropology Majors can share up to 9 credits; 9 credits must be unique to the minor.

## Art and Design

Chair: Frederick McKittrick, Department of Art and Design  
Compliance Officer/Technical Specialist: Mark Ludak  
Director of Galleries and Collections: Scott Knauer

The Bachelor of Fine Arts Degree (B.F.A.) in Design and Animation (with concentrations in Animation and Graphic and Interactive Design) is a career-track program that prepares students for professional work in the fields of graphic design, computer graphics, Web design, and animation or for graduate school. Entering freshmen will be accepted as B.F.A. degree candidates. As sophomores, or in the fourth semester at Monmouth University, B.F.A. degree candidates will be required to pass the Art and Design Student Portfolio Review (AR-REV). Upon successful completion of the AR-REV, B.F.A. degree candidates will be officially accepted into the B.F.A. degree program. If a student fails to pass the AR-REV, he or she will be referred to a Student Review Committee, which will determine whether the student should change his or her major or be given a conditional semester or year. Transfer students can declare themselves a B.F.A. candidate upon acceptance to Monmouth University. Transfer students will also be required to pass the first given AR-REV.

The BA in Art is designed for students who seek a strong studio experience and the option of developing skills useful in several professional areas. The core of the degree is traditional studio work in foundations, drawing, painting, sculpture, printmaking, and ceramics. The B.A. in Art with a Concentration in Photography is a more focused program on photographic skills, both traditional and digital. All art and design majors are required to complete a one- to three-credit internship during their senior year. Additional internship and cooperative education opportunities are offered as electives starting in the junior year.

**Department Honors** will be earned based on the following criteria being met:

- An overall GPA of at least 3.3
- A major GPA of at least 3.5
- Completion of AR-410 Advanced Project I (1-3 cr.) and AR-411 Advanced Project II (1-3 cr.)
- Artifacts having been publicly presented with a reading and defense of research topic
- Project and paper to have a combined average of a "B" or better

## Programs Majors

- B.A. in Art (p. 87)
- B.A. in Art with a Concentration in Photography (p. 89)
- B.A. in Art and Education with Endorsements in K-12 Education in Art (p. 88)
- B.F.A. in Design and Animation with a Concentration in Animation (p. 90)
- B.F.A. in Design and Animation with a Concentration in Graphic and Interactive Design (p. 92)

## Minors

- Animation/Motion Design (p. 93)
- Art (p. 93)
- Art History (p. 93)
- Asian Studies (p. 93)

- Graphic and Interactive Design (p. 94)
- Interactive Media (p. 94)
- Photography (p. 94)

## Faculty

**Thomas Baker**, Associate Professor. B.F.A., Eastern Carolina University; M.F.A., University of Wisconsin-Madison. Professional experience includes work at collaborative print shops: Tandem Press and Winstone Press. He is a council member of the Society of American Graphic Artists in New York, and his prints have been shown and collected nationally and internationally.  
tbaker@monmouth.edu

**Kimberly Callas**, Associate Professor. B.F.A., University of Michigan; M.F.A., New York Academy of Art. Focus is on the 'ecological self'. Works collaboratively with individuals and organizations from a variety of fields, particularly poetry, biology and ecology. Focus is on the human body, patterns and symbols from nature that reoccur across cultures, and natural materials. Sculpt life-size figures in water-based clay, and then cast them into an architectural concrete. Ground pigments mixed with beeswax or shellac, and natural materials such as wasp paper, bark, roots, and seeds are often used to finish the work.  
kcallas@monmouth.edu

**Corey Dzenko**, Associate Professor. B.F.A., Central Michigan University; M.A., University of Alabama; Ph.D., University of New Mexico. Contemporary and modern art history specialist, with emphasis on photography, interactive media, and theory.  
cdzenko@monmouth.edu

**Wobbe Koning**, Associate Professor. B.F.A., The Netherlands Film and Television Academy; M.F.A., Ohio State University. Animation and interactive media specialization; also has video, sound, and television expertise.  
wkoning@monmouth.edu

**Mark M. Ludak**, Specialist Professor. Compliance Officer/Technical Specialist. B.A., Monmouth University; M.F.A., Hunter College. Professional work includes documentary, fine art, and editorial photography.  
mludak@monmouth.edu

**Frederick McKittrick**, Associate Professor (Graduate Faculty). Chair, Art and Design. B.A., M.A., Ph.D., Columbia University. Teaching areas include German history, French history, and modern European history. Current research is on German artisans of the Nazi and post-Nazi periods.  
fmckitri@monmouth.edu

**Susan Meyer**, Specialist Professor. B.A., Skidmore College; M.A., Tufts University. Sculptor and mixed media artist. Interests include utopian communities, scholar's rocks, and melding analog and digital tools and applications.  
smeyer@monmouth.edu

**Mike Richison**, Associate Professor. B.F.A., Calvin College; M.F.A., Cranbrook Academy of Art. Motion graphics and graphic design.  
mirichiso@monmouth.edu

**Jing Zhou**, Professor. B.A., Sichuan Fine Arts Institute; M.F.A., Georgia Southern University. Interests include graphic design, Web design, digital media art, flash animation, art direction, and fine arts.

jzhou@monmouth.edu

## Courses

### AR-REV Art and Design Student Portfolio Review

**Credits: None**

Term Offered: All Terms

Course Type(s): None

Required student portfolio review usually completed during the fourth semester. Transfer students need to schedule with an advisor. This is a pass/fail course.

### AR-SHO Senior Show

**Credits: None**

Term Offered: All Terms

Course Type(s): None

This is a pass/fail course.

### AR-101 Art Appreciation

**Credits: 3**

Term Offered: All Terms

Course Type(s): AT

A global survey of the cross-cultural evolution of art from the prehistoric period through the twentieth century. Emphasis will be placed on understanding the basic elements of art, the creative process, and the significance of art within the context of social, political, religious, and economic climate of its time. This course is not available to Art majors.

### AR-113 Basic Design and Composition

**Credits: 3**

Term Offered: Fall Term

Course Type(s): AT

An introduction to concepts fundamental to the two-dimensional plane, this course develops visual fluency through projects promoting artistic growth and critical thinking. Students learn to utilize compositional elements, including color, and research themes in contemporary art and art history. Issues of process are explored through experimentation with analog and digital methods, and with a range of media.

### AR-114 Basic Design and Color

**Credits: 3**

Prerequisite(s): AR-113

Term Offered: Spring Term

Course Type(s): None

A continuation of material covered in Basic Design and Composition (AR-113), this course explores color as a compositional element and a means of expression. Students become visually aware as they critically observe color, problem-solve within design projects, use analog and digital methods, and explore a variety of media.

### AR-116 Three-Dimensional Design

**Credits: 3**

Term Offered: Spring Term

Course Type(s): AT

An introduction to concepts fundamental to working in three dimensions, this course develops sensitivity to 3D media, processes, and concepts. Students learn to utilize 3D compositional elements, including mass, volume, and texture, and research themes in contemporary art and art history. Issues of process are explored through experimentation with analog and digital methods, and with a range of media.

### AR-172 Introduction to Digital Design

**Credits: 3**

Prerequisite(s): AR-113

Term Offered: All Terms

Course Type(s): TL

An introduction to basic graphic design and visual communication concepts. Builds on the skills learned in foundation courses in basic design and complements the introduction to the field in Graphic Design Studio I, AR-269. Students will become proficient in design concepts and computer skills later used in the Graphic Design field, including page layout, illustration, photography, and Web design. They will continue to develop creative problem-solving skills and the foundation theory of Graphic Design.

### AR-177 Introduction to Digital Design for Non-Art majors

**Credits: 3**

Term Offered: All Terms

Course Type(s): TL

Designed for students with little or no experience in computer graphics. Combines basic visual problem solving with hands-on, computer-based digital training. Projects are designed with the non-art/design major in mind and would be appropriate for students majoring in journalism, communications, marketing and music industry.

### AR-178 Web Studio

**Credits: 3**

Term Offered: Spring Term

Course Type(s): AT, IM, TL

An introduction to visual aesthetics, fundamental principles of user interface (UI) and user experience (UX), and technical skills required to create web graphics and media, digital presentations, and websites. Covers the use of current graphics software in addition to theoretical framework and training in content creation and management needed for the Web. Students will become proficient in visual design, concept development, information literacy, and digital programs.

### AR-181 Digital Photography I

**Credits: 3**

Term Offered: All Terms

Course Type(s): AT, IM

This foundational digital photography course introduces students to aesthetic, historic, and technical aspects of photographic image-making. Through a combination of lecture and hands-on projects, students will be introduced to principles of black-and-white and color photography as a means of expression and communication. Using digital cameras with manual controls and RAW image capture, students will explore a range of assignments designed to promote photographic seeing, critical thinking, aesthetic appreciation, and historical contexts.

### AR-183 Black and White Photography I

**Credits: 3**

Term Offered: All Terms

Course Type(s): AT

Technical proficiency in basic black and white photography, including exposure, developing, printing, and presentation. Photography is presented as a tool to understand the world and as a means of expression and communication. Students will learn how to interpret and discuss the visual language of photography.

### AR-191 Drawing I: Observation

**Credits: 3**

Term Offered: All Terms

Course Type(s): AT

An introduction to the fundamentals of observational drawing, this course develops the ability to translate 3-dimensional objects and space to the 2-dimensional plane. Students develop an understanding of basic drawing elements such as line, value, mass, proportion, and space, and are introduced to a variety of drawing techniques and materials. Subject matter will include both figurative and non-figurative forms; multiple sessions with the model may be included.

**AR-192 Drawing II****Credits: 3**

Prerequisite(s): AR-191

Term Offered: Spring Term

Course Type(s): None

A studio course that continues to develop the skills covered in Drawing I, AR-191. Students will be introduced to both traditional and nontraditional concepts and techniques of interpretive and subjective drawing and rendering. Drawing techniques and materials pertaining to the expression of both figurative and nonfigurative subject matter will be explored. The human figure will serve as the primary subject of study with an emphasis placed on the rendering skills. The complex nature of the figure provides students with problems that require serious attention to observational skills in order to correctly render the form. Drawing II utilizes the live, nude model. Six hours per week.

**AR-198 Special Topics in Art (100 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in art to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite it will be announced in the course schedule.

**AR-199 Independent Study in Art****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research - A studio project or art history topic. Weekly consultation. May be elected for a total of 6 credits. Prior permission of the directing professor and department chair is required to take this course.

**AR-216 Sculpture I and 3D Printing****Credits: 3**

Course Type(s): AT

Sculpture has an incredibly varied history of content, form, material, scale and intent. In this course you will become introduced to basic methods of 3D construction and fabrication, including hand modeling, digital modeling, mold-making, casting, carving and 3D printing. We will work from observation as well as conceptual models. We will explore current sculptural trends, funding and visibility/marketing models. We will also practice creating artist statements to support our work. Confidence in materials and form will lead to an ever-increasing level of craftsmanship and ability to communicate your ideas in 3D form.

**AR-217 Sculpture I****Credits: 3**

Prerequisite(s): AR-116, AR-191, and AR-192 for art majors

Term Offered: Fall Term

Course Type(s): None

Sculpture for beginners as well as intermediate students, including modeling from life, plaster, simple casting procedures, found object, installation, digital modeling and 3D printing. Students will be introduced to professional practices in sculpture. Six hours per week. Department chair approval is required for non-art majors.

**AR-221 Painting I****Credits: 3**

Prerequisite(s): AR-113, AR-114, AR-191, and AR-192 for art majors

Term Offered: Fall Term

Course Type(s): None

Techniques and craftsmanship to facilitate expression in acrylic or oil painting; still-life and landscape subjects. Art and Art Education students must have prerequisite. Six hours of studio work per week. Department chair approval is required for non-art majors.

**AR-222 Painting II****Credits: 3**

Prerequisite(s): AR-221

Term Offered: Spring Term

Course Type(s): None

A continuation of AR-221, Painting I, with emphasis on the further development of painterly ideas and creative thinking. Art and Art Education majors must have prerequisites. Six hours of studio work per week.

**AR-231 Eco Art****Credits: 3**

Term Offered: Spring Term

Course Type(s): AT

With the idea of the artist and non-artist in mind, this course focuses on building creativity, vision, and the ability to synthesize new ideas from across disciplines to form original ideas and solutions around the human/nature relationship. Through individual and collaborative problem-led investigations, students will utilize research, writing, and discussion to create 2D, 3D, and time-based art that engages a specific ecological topic. Particular focus will be placed on eco-artists' ways of working, eco-art materials, and transdisciplinary research.

**AR-241 History of Western Art I****Credits: 3**

Term Offered: Fall Term

Course Type(s): ARHIS, AT

Survey of the significant styles and periods in Western art and architecture from Prehistoric to Gothic periods. Weekly lectures and discussions assist students with developing their visual literacy and a critical understanding of the past.

**AR-242 History of Western Art II****Credits: 3**

Term Offered: All Terms

Course Type(s): ARHIS, AT

Survey of the significant styles and periods in Western art and architecture from the Renaissance to the present. Weekly lecture and discussions assist students with developing their visual literacy and a critical understanding of the past.

**AR-253 Digital Photography II****Credits: 3**

Prerequisite(s): AR-181

Term Offered: Fall Term

Course Type(s): None

Students develop knowledge of image development, construction, retouching, and collage techniques using traditional film, digital images, and drawing as source material. Students will learn a variety of camera skills, including shooting in RAW format. A critical examination of intent is stressed along with output options and color management. Introduces programs such as Aperture and/or Lightroom to further expand digital workflow skills.

**AR-265 Hand Built Ceramics****Credits: 3**

Term Offered: All Terms

Course Type(s): AT

An introduction to clay as a creative material for making both functional and sculptural 3-D forms using various hand-building techniques, including coils, slabs, carving, incising, and their combination. Basic glazing and firing methods will be covered. Slide presentations, group and individual critiques will be part of the curriculum.

**AR-266 Wheel Thrown Ceramics**

Term Offered: All Terms

Course Type(s): AT

An introduction to the potter's wheel as a tool for creating both functional and sculptural clay forms. In addition to throwing forms on the wheel, students will gain knowledge about glazing and firing techniques. Slide presentations, group, and individual critiques will be part of the curriculum.

**Credits: 3****AR-269 Graphic Design Studio I**

Prerequisite(s): AR-113 for Art majors only

Co-requisite(s): AR-114

Term Offered: All Terms

Course Type(s): None

An introduction to graphic design, including conceptual thinking, the making of signs, icons, and symbols, logo and brand identity, letterform design, layout, and design techniques. Students will also be introduced to design history and current issues regarding the profession. For students minoring in Graphic and Interactive Design, there are no prerequisites, however, approval of the department chair is required.

**Credits: 3****AR-270 Graphic Design Studio II**

Prerequisite(s): AR-172 or AR-177, and AR-269

Co-requisite(s): AR-273

Term Offered: Spring Term

Course Type(s): None

Introduces more advanced visual communications and typographic problem solving. Projects strategically test the students' understanding of design theory, research, writing, and thinking. Individual projects mimic those in a professional design environment and are developed following the traditional creative process. Projects include branding, corporate identity, information design, digital illustration, app design, and packaging.

**Credits: 3****AR-273 Digital Illustration**

Prerequisite(s): AR-172 or AR-177

Term Offered: All Terms

Course Type(s): None

A continuation of Introduction to Digital Design with primary emphasis on more advanced illustration software. Assignments build on previously learned software and concepts. Projects may include illustrative posters, booklets, interiors, and currency design.

**Credits: 3****AR-282 Web Design/Interactive I for Non-BFA Candidates**

Prerequisite(s): AR-172 or AR-177 or AR-178

Term Offered: Spring Term

Course Type(s): IM

An introduction to web design and development. Covers an overview of the creation of websites and the use of web graphics, web programming, and multimedia through web-based software programs. Other software tools including Photoshop and Illustrator are used to develop design concepts and web content. Fundamentals of graphic production, layout design, and web typography are discussed. Not available to BFA Candidates.

**Credits: 3****AR-283 Black and White Photography II**

Prerequisite(s): AR-183

Term Offered: All Terms

Course Type(s): None

Focuses on advanced technical skills as a means of gaining greater personal and aesthetic understanding. Advanced 35mm camera and printing techniques, basic studio lighting, and exploring different photographic formats including medium, large, and toy cameras, as well as experimental techniques of image making and printing.

**Credits: 3****AR-284 Web Design/Interactive II for Non-BFA Candidates****Credits: 3**

Prerequisite(s): AR-178 or AR-282

Term Offered: Spring Term

Course Type(s): IM

Integrates previously learned web design and development concepts. Students will create dynamic web content such as animation, audio/video using web-based software and programming languages. Other software tools including Photoshop, Illustrator, and sound editing programs are used to develop design concepts and web content. Not available to BFA candidates.

**AR-286 Principles of Animation for Non-BFA Candidates****Credits: 3**

Course Type(s): AT, IM

Students will learn the basic theories and principles of animation. An overview of the early history of animation will be given to put current practice into perspective. Students will be introduced to different animation techniques, such as 2D, Stop Motion, and 3D computer animation. They will apply these techniques to complete several short exercises and pick one to complete a final project. Not available to Fine Art majors. This is a hands on studio course: students will be drawing, and creating animations on the computer.

**AR-287 Typography****Credits: 3**

Prerequisite(s): AR-172 or AR-177, and AR-269

Term Offered: All Terms

Course Type(s): None

An introduction to the theory, function, history, and impact of typography in graphic design. This course is an analysis of the shape and form of letters. Investigation and comparison of existing typefaces, type specification and layout in relation to graphic design and the printed piece.

**AR-288 Cooperative Education: Art or Graphic Design****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX2

An on-site graphic design cooperative work placement. This course may be repeated for credit.

**AR-290 Motion Graphics for Non BFA Majors****Credits: 3**

Prerequisite(s): AR-172 or AR-177 or CO-145

Term Offered: All Terms

Course Type(s): IM

An introduction to the art of time-based, graphic storytelling for non-art/design majors. Emphasis will be placed on the creation of engaging digital environments through the thoughtful integration, manipulation, and orchestration of audio, video elements, typography, and animated logos. Meets six hours a week. Not available to BFA candidates.

**AR-298 Special Topics in Art (200 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in art to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AR-299 Independent Study in Art****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research - A studio project or art history topic. Weekly consultation. May be elected for a total of 6 credits. Prior permission of the directing professor and department chair is required to take this course.

**AR-306 Creative Book Arts**

Prerequisite(s): AR-114 and AR-192

Term Offered: Spring Term

Course Type(s): None

An introduction to bookbinding and papermaking. Traditional western-style papermaking and several non-adhesive binding structures will be covered. The students will produce a final bound book of sequential images (pages) in any media relevant to her/his discipline. The print lab will be available but not required. Department Chair for non-Art majors is required.

**Credits: 3****AR-311 Drawing III**

Prerequisite(s): AR-113, AR-114, AR-191 and AR-192

Term Offered: Fall Term

Course Type(s): None

Seeing the figure, objects, and the environment; exploring all possible avenues of expression resulting from the experience of seeing; drawing experiences in various media. Six hours per week.

**Credits: 3****AR-313 Lighting Techniques**

Prerequisite(s): AR-181

Term Offered: Spring Term

Course Type(s): None

A studio course that explores the photograph in contemporary art. Photography's integral tie to light serves as the backbone of this course as it investigates the alternative and contemporary spaces used by photographic artists. Digital and analog tools and skills blur as students are encouraged to experiment and challenge their ideas of what defines a photograph. Teaches studio lighting as it applies to fine art and commercial photography. Includes technical instruction in the lighting studio as well as on location with both portable lights and natural light. Defined by critiques and continues technical and conceptual advancement.

**Credits: 3****AR-316 Sculpture II**

Prerequisite(s): AR-217

Term Offered: Spring Term

Course Type(s): EX3

A direct continuation of AR-217, Sculpture I, processes along with multi-media contemporary practice of interdisciplinary collaboration, artist teams and social practice art. Students will develop professional practices in sculpture. Six hours per week.

**Credits: 3****AR-317 Sculpture III**

Prerequisite(s): AR-217 and AR-316

Course Type(s): None

A direct continuation of AR-218 students will develop a body of three-dimensional work exploring further skills learned in Sculpture II, expanding on content, form, material, scale and intent. Final artist talk required along with professional presentation of digital and actual art objects. Six hours per week.

**Credits: 3****AR-321 Painting III**

Prerequisite(s): AR-221 and AR-222

Term Offered: Spring Term

Course Type(s): None

The development of the student as a painter, with emphasis on the philosophy of painting. Six hours of studio per week.

**Credits: 3****AR-323 Documentary Photography**

Prerequisite(s): AR-181

Term Offered: Fall Term

Course Type(s): None

By investigating documentary-style photography, this course concentrates on using still images to tell stories. Working both independently and in small groups to produce documentary photographs, students explore the role of documentary photography in society. Prerequisite: AR-181

**Credits: 3****AR-325 Writing Supplement for Art and Design****Credits: 1**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

The writing component for co-registered studio classes which integrates a fifteen-page research paper. Emphasis is placed on the quality of writing and research.

**AR-326 Writing Supplement for Art and Design****Credits: 1**

Prerequisite(s): EN-101 or EN-102 or permission of the instructor; A 200, 300, or 400 level studio course is required as a corequisite

Term Offered: All Terms

Course Type(s): WT

The writing component for co-registered studio classes which integrates a fifteen-page research paper. Emphasis is placed on the quality of writing and research.

**AR-335 BFA Internship/Seminar****Credits: 3**

Prerequisite(s): AR-371 or AR-392 and Junior status

Term Offered: All Terms

Course Type(s): EX1

Internship experience with the development of occupational or professional competence in the career setting. Combines both internship work experience at an approved work location with a structured seminar class. The seminar component of this course will also guide students through the process of resume writing, interviewing techniques, and best business practice. On-site design or animation work internship (fifteen to twenty hours per week for a total of 150 hours) plus four three-hour long seminar sessions with faculty. This course may be repeated once for credit.

**AR-341 Art Theory and Writing****Credits: 3**

Prerequisite(s): AR-242, EN-101, and EN-102; or permission of the instructor

Term Offered: Fall Term

Course Type(s): ARHIS, WT

Designed to develop a critical understanding of theories of contemporary art and various types of art writing, including, but not limited to, art criticism, art historical writing, and artist statements.

**AR-342 History of New and Expanded Media in Art****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): ARHIS, IM, WT

A survey of computer-based new media and ephemeral expanded media in art with emphasis on the later twentieth century to the present. Topics could include the use of computing, robotics, biotech research, virtual reality, performance, and social practice in art while critically reflecting on the aesthetic, cultural, social, and political contexts within which these media emerged.

**AR-343 Renaissance, Mannerist, and Baroque Art****Credits: 3**

Prerequisite(s): AR-242

Course Type(s): ARHIS

Painting, sculpture, and architecture in Europe from 1400s-1800s.

Museum visits required.

**AR-345 Early to Late Modern Art****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): ARHIS, WT

A critical analysis of various meanings of "Modernism" in art. This course studies academic art to art of the present through U.S., European, and global case studies. Museum visits required.

**AR-346 History of Graphic Design****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): ARHIS, WT

A survey of graphic design with an emphasis on the twentieth century to the present. The course instructs students in researching areas of interest to broaden their knowledge of issues in the discipline while critically reflecting on the aesthetic, cultural, social, and political contexts within which graphic design emerged.

**AR-347 History of Photography****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): ARHIS, CD, WT

A topically arranged survey of world photography, this course takes as its central concern the multiple purposes to which photography has been adapted since its "discovery" in the early nineteenth century. Although the relationship between photography and fine art is considered, the many non-art uses of the medium are also discussed in an attempt to better understand the cultural contexts in which photography has been employed.

**AR-348 Art of India****Credits: 3**

Term Offered: All Terms

Course Type(s): ARHIS, AT, BI.EL, GU, RE

The visual art of India: how to look at it and how it might be best understood. The larger cultural context in which this art was produced, drawing upon history, religion, mythology, and literature will be discussed. Essentially, pre-modern Indian art is religious art. After studying the major monuments associated with Buddhism and Hindu art, the themes common to both traditions will be considered. The temple as an artistic expression and as a religious center will be explored. Because of the vastness of India art, this course will not include Mughal and later monuments.

**AR-349 Asian Art Survey****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): ARHIS, GU, WT

Important Artistic Monuments from India, China and Japan. Since Buddhism is a connecting link for Asian cultures, emphasis is placed on Buddhist art.

**AR-350 World Art Nineteenth-Twentieth Century****Credits: 3**

Term Offered: All Terms

Course Type(s): ARHIS, RE

A global investigation of the cross-cultural evolution of art in the nineteenth to mid-twentieth century. Non-Western art will be studied from the point of discovery through its influence on modern, Western, visual expression. Emphasis will be placed on the significance of the art work within the context of the social, political, religious, and economic climate of its time.

**AR-351 Methods of Teaching Art I****Credits: 3**

Prerequisite(s): AR-114, AR-116, AR-192, and ED-320 and a minimum G.P.A. of 3.00.

Term Offered: All Terms

Course Type(s): None

The history and philosophy of art education; the construction of art curricula and the exploration of teaching methods; media and tools appropriate for the educational level. Methods I deals with the needs of the elementary school child. The course includes research-based pedagogical strategies for teaching linguistically diverse students, those with diverse learning needs, incorporating instructional technology into the classroom and utilizing data to inform instruction. Clinical Hours required. Also listed as ED-351.

**AR-352 Methods of Teaching Art II****Credits: 3**

Prerequisite(s): ED-351 or AR-351 and Minimum G.P.A. of 3.0.

Term Offered: Spring Term

Course Type(s): None

The history and philosophy of art education; the construction of art curricula and the exploration of teaching methods; media and tools appropriate for the educational level. Methods II deals with the needs of the adolescent. The course includes research-based pedagogical strategies for teaching linguistically diverse students, those with diverse learning needs, incorporating instructional technology into the classroom and utilizing data to inform instruction. Clinical Hours required. Also listed as ED-352.

**AR-353 Digital Photography III****Credits: 3**

Prerequisite(s): AR-253

Term Offered: All Terms

Course Type(s): None

A strong foundation in the technical and aesthetic aspects of color photography through projects utilizing digital RAW files and analog negatives with instruction in color printing and studio lighting as it pertains to the nuances of color. Discussions and critical writings focus on the history and theory of color photography. Combines analog and digital techniques and focuses on more advanced file managing and color control both on the monitor and in the print.

**AR-366 Contemporary Art and Worldbuilding****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or instructor permission

Term Offered: All Terms

Course Type(s): CD, WT, ARHIS

Examines the history of contemporary art of various forms of worldbuilding. Topics may include, but are not limited to: the built environment and its impacts on communities, public monuments, immersive and virtual art/video games, artist utopias, design for good, art and education, art and mass incarceration, artist collectives, art and climate crisis, and community building through art. Class assignments will focus on research and writing within the arts.

**AR-367 African American Art****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor.

Term Offered: All Terms

Course Type(s): ADS, ARHIS, CD, RE, WT

Examines the history of "African American Art" from the 18th century to the present by analyzing a range of visual art media and the institutions of art that contribute to uneven power dynamics based on race. Class assignments will focus on research and writing within the arts.

**AR-368 Gender, Art, and Society****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Course Type(s): ARHIS, GS

A critical survey about the role of gender in the arts through a study of representational subjects, artists, and patronage. This course considers art's role in the construction of gender as a social structure by drawing from fields that include art history, gender studies, critical race studies, and queer theory.

**AR-370 Advanced Typography****Credits: 3**

Prerequisite(s): AR-287

Term Offered: Spring Term

Course Type(s): None

An advanced level course in the study of typography. This course will expand upon topics covered in AR-287 Typography by considering the emotional, expressive, and effective use of typographic elements pertaining to graphic design and visual messaging. Projects will be produced for a variety of applications including: broadsides (print media), original typeface design with Font Lab Studio (digital), and conceptual typography (experimental).

**AR-371 Graphic Design Studio III****Credits: 3**

Prerequisite(s): AR-270

Term Offered: All Terms

Course Type(s): None

Marks the transition from graphic design fundamentals to more complex visual problem solving. Projects focus on original exploration and design in corporate identity and branding. Course topics include: trademark and copyright, marketing research, brand strategy, and design briefs. Students implement concepts through creation of collateral, packaging, and interactive promotion. Professional preparation of work for commercial use is an integral part of this course.

**AR-374 Digital Imaging****Credits: 3**

Prerequisite(s): AR-273

Term Offered: All Terms

Course Type(s): None

Advanced concepts and creative techniques in digital imaging using Adobe Photoshop. Projects build on all previously learned software, specifically the Adobe Creative Suite. Assignments include varied aspects of graphic design including file preparation and creation for digital compositing and large format printing. This course also prepares students for work within the professional printing industry.

**AR-375 Illustration for Gaming****Credits: 3**

Prerequisite(s): AR-114, AR-172, and AR-192

Course Type(s): None

Introduction and application of illustration as a means toward effective visual communication in the gaming and animation industry. Emphasis on the development of the creative visual concept and its relationship to style, media, technique, and methods of reproduction. Introduction to a variety of traditional and non-traditional techniques.

**AR-381 Print: Intaglio/Relief****Credits: 3**

Prerequisite(s): AR-191 and AR-192

Term Offered: All Terms

Course Type(s): None

Introduction to the printmaking techniques of relief printing; linocut, woodcut, and etching; hard and soft ground, and aquatint. Six hours per week. Department chair approval is required for non-art majors.

**AR-382 Print: Lithography and Silkscreening****Credits: 3**

Prerequisite(s): AR-191 and AR-192

Term Offered: All Terms

Course Type(s): None

Introduction to the printmaking techniques of aluminum plate lithography and Photo Silkscreen, with an emphasis on multiple color and combination Litho/Silkscreen hybrid prints. Six hours per week. Department Chair approval for non-art majors is required.

**AR-383 Web Design/Interactive I****Credits: 3**

Prerequisite(s): AR-253 or AR-374

Term Offered: All Terms

Course Type(s): None

An introduction to web design and production. Covers an overview of the creation of websites and the use of web graphics, web programming, and multimedia through web-based software programs. Fundamentals of graphic production, layout design, web typography, and the principles of Interaction Design and UX Design are discussed.

**AR-384 Web Design/Interactive II****Credits: 3**

Prerequisite(s): AR-383

Term Offered: Spring Term

Course Type(s): None

An advanced class in web design and development. It extends the design principles and techniques introduced in Web Design/Interactive I. Students will create dynamic web content such as animation, audio/video using web-based software and programming languages. Emerging web technology will be discussed.

**AR-385 2D Animation****Credits: 3**

Prerequisite(s): AR-172

Term Offered: Spring Term

Course Type(s): None

Students will be exposed to the fundamental terminology, concepts, and techniques of creating 2D animations to broaden their skills as animators and enhance their overall creative ability. Using pencil and paper in conjunction with computer based techniques, students will gain experience in basic principles of animation including timing, expression of emotion, straight ahead action and pose to pose, key frames and in-betweens. In the assigned projects for this course, students are responsible for controlling and manipulating a subject's perceived volume, weight, proportion, and movement, thus gaining a more thorough understanding of the animation process.

**AR-386 Principles of Animation****Credits: 3**

Prerequisite(s): AR-114

Term Offered: Fall Term

Course Type(s): None

Students will learn the basic theories and principles of animation. An overview of the early history of animation will be given to put current practice into perspective. Students will be introduced to different animation techniques, such as 2D, Stop Motion, and 3D computer animation. They will apply these techniques to complete several short exercises and pick one to complete a final project.

**AR-387 3D Modeling, Lighting and Rendering****Credits: 3**

Prerequisite(s): AR-172

Term Offered: Spring Term

Course Type(s): None

Students will learn how to create virtual objects, both hard surface and organic models, apply materials and lighting, set up a camera, and render professional quality images. Special attention will be given to modeling for animation and real time rendering. The focus will be on the concepts, aesthetics, and practice of generating 3D computer imagery as a means of artistic expression.

**AR-389 Art and Photography Internship****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX1

An internship in any art and design disciplines with the development of professional competence in the career setting. The placement must enhance a student's knowledge of his or her chosen field of study. Students are required to complete 50 hours per credit. Sophomore status and permission of the instructor is required to register for this course.

**AR-390 Animation/Motion Graphics I****Credits: 3**

Prerequisite(s): AR-172 or AR-181

Term Offered: All Terms

Course Type(s): IM, RD

An introduction to the art of time-based, graphic storytelling. Emphasis will be placed on the creation of engaging digital environments through the thoughtful integration, manipulation, and orchestration of audio, video elements, typography, and animated logos.

**AR-391 Animation/Motion Graphics II****Credits: 3**

Prerequisite(s): AR-290 or AR-390

Course Type(s): IM

Explores the commercial and experiential nature of motion graphics. Projects for this advanced course expand upon established time-based narrative structures for film, video and television. Emphasis will be placed on the synergy of video, writing, storyboarding, editing, and three-dimensional graphic elements.

**AR-392 3-D Animation****Credits: 3**

Prerequisite(s): AR-116 or AR-387

Co-requisite(s): AR-386

Course Type(s): None

Building upon the Principles of Animation, students learn to create three dimensional animations, both virtual (3D Computer Animation) and physical (Stop Motion). Character Animation, Procedural animation and Simulation, and animation for Real Time applications will be introduced. Students will complete assignments for each of these different types of animation, and complete a final project with their choice of one of these techniques.

**AR-393 3-D Animation Production****Credits: 3**

Prerequisite(s): AR-387

Term Offered: Fall Term

Course Type(s): None

Concepts, tools and techniques employed in animated storytelling. Students will pre-visualize their projects through storyboarding, planning, and assembling shots in sequence. Students will learn how to combine sound with advanced 3D computer animation. Audio/visual synchronization as well as character lip syncing with phonemes will be explored. Students will construct complex 3D animated stories in Maya and complete a fully animated piece.

**AR-394 3-D Environments and Effects****Credits: 3**

Prerequisite(s): AR-393, or AR-387 and AR-392

Term Offered: Spring Term

Course Type(s): None

Concepts, tools, and techniques for creating realistic natural environments and phenomena (such as moving clouds, fire, and flowing water). Students will sculpt complex polygonal geometry into various terrains including landscapes and foliage. Students will learn to create realistic backgrounds incorporating natural light. Creating realistic shadows will be explored as well. Students will learn how to use particle emitters in order to simulate phenomena such as flowing water, flames, and snow.

**AR-395 Animation Production****Credits: 3**

Prerequisite(s): AR-386 and AR-390

Course Type(s): None

Students learn how to organize and plan an animation project, add sound and finish their final product. All the steps from concept to final product are covered: Storyboarding, Animatic, Sound, Post-production. While students will make use of computer technology for the practical side of this course, the main focus is on the professional animation process: workflow, planning, and best practices.

**AR-398 Special Topics in Art (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in art to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**AR-399 Independent Study in Art****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research - a studio project or art history topic. Weekly consultation. May be elected for a total of six credits. Prior permission of the directing professor and department chair is required to take this course.

**AR-401 Senior Portfolio****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

A seminar class that chronologically analyzes and refines graphic design and computer projects, which have been done throughout the student's coursework. Meetings with instructor to discuss and critique reworked and new projects that have been specifically assigned.

**AR-402 Photography Portfolio****Credits: 3**

Prerequisite(s): AR-353

Term Offered: Spring Term

Course Type(s): None

Equal parts seminar and studio in its approach, this senior-level course incorporates discussions and readings focused on contemporary photo-based artworks and the theoretical and critical developments in recent photographic art practices. In addition, this course helps prepare students to enter the professional art world and/or graduate school. Students develop a cohesive portfolio of photographic imagery and create a strategy for the presentation of their work.

**AR-403 Advanced Digital Imaging and Illustration****Credits: 3**

Prerequisite(s): AR-253 or AR-374

Term Offered: All Terms

Course Type(s): None

For student designers and fine artists with intermediate computer skills who are interested in more advanced concepts and creative techniques in digital illustration, photography, digital collage, printmaking and handmade techniques, digital book publishing, and large format printing. Programs to be explored are Adobe Photoshop and Wacom digital tablets.

**AR-404 Responsive Media****Credits: 3**

Prerequisite(s): CO-145 or AR-181

Term Offered: Spring Term

Course Type(s): COMCS, CORTP, IM

Students learn how to make interfaces for smart phones and tablets to create interactive audio and video. In addition, students will produce creative projects using data mapping, generative art and work collaboratively on a site-specific media project. Also listed as CO-404.

**AR-408 Senior Year Experience: Client/Thesis****Credits: 3**

Co-requisite(s): AR-383

Term Offered: Fall Term

Course Type(s): None

The first part of a two course, senior year capstone experience designed to provide students the opportunity to propose and research a thesis project, create entry-level, professional design work, and to work with clients all while under the direction of a faculty member. For BFA majors Graphic Design majors only.

**AR-409 Senior Year Experience: Thesis/Portfolio****Credits: 3**

Prerequisite(s): AR-408

Co-requisite(s): AR-384

Term Offered: Spring Term

Course Type(s): None

The second part of a two course, senior year capstone experience designed to provide students the opportunity to complete a thesis project, work with clients under the direction of a faculty member, successfully mount their senior exhibition for AR-SHO credit, and to create an entry-level, professional design portfolio. For BFA Graphic Design Majors only.

**AR-410 Advanced Project I****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Research, art making, and writing for Honors Project may be conducted for photography, painting, sculpture, printmaking, graphic design, Web design, or motion graphics and is determined by a student's particular discipline and medium of choice. The art to be made is informed by the student's research and is articulated in full through a final eighteen-twenty page research paper. The topic of research may include but is not limited to identity, gender roles in culture, feminism, religion, the occult, consumerism, politics, cultural diversity, war, personal experience, Renaissance vs. contemporary art, Greek vs. contemporary sculpture, etc. Alternatively, the student may also conduct a thorough exploration of the characteristics of a particular medium. Art and Design faculty must approve the topic. This is the first part of a two-semester class. To register for this course, students must have Junior standing or higher, permission of the department chair, a minimum G.P.A. of 3.00, a major G.P.A. of 3.50, and the student must be an art or fine arts major.

**AR-411 Advanced Project II****Credits: 1-3**

Prerequisite(s): AR-410, a minimum G.P.A. of 3.00, a major G.P.A. of 3.50, Junior status, EN-101 and EN-102 or permission of the instructor, and the student must be an Art or Fine Arts major and have permission of the department chair

Term Offered: Spring Term

Course Type(s): WT

Research, art making, and writing for Honors Project may be conducted for photography, painting, sculpture, printmaking, graphic design, Web design or motion graphics and is determined by a student's particular discipline and medium of choice. The art to be made is informed by the student's research and is articulated in full through a final eighteen to twenty-page research paper. The topic of research may include but is not limited to identity, gender roles in culture, feminism, religion, the occult, consumerism, politics, cultural diversity, war, personal experience, Renaissance vs. contemporary art, Greek vs. contemporary sculpture, etc. Alternatively, the student may also conduct a thorough exploration of the characteristics of a particular medium. Art and Design faculty must approve the topic. This is the second part of a two-semester class.

**AR-414 Group Project in 3D Animation****Credits: 3**

Prerequisite(s): AR-394 or AR-395

Term Offered: Fall Term

Course Type(s): None

Students will learn how to work on a production team for a 3D project. Students will work in a team environment to brainstorm, communicate effectively, develop project goals, and delegate responsibilities. Students will learn how to meet deadlines both individually and collectively. Student groups are expected to produce a 3D animated piece with an estimated three-minute duration.

**AR-415 Senior Animation Reel****Credits: 3**

Prerequisite(s): AR-414

Term Offered: Spring Term

Course Type(s): None

Students will create a reel between two to three minutes in duration of their animation work from previous animation projects and new animation projects. Includes lecture, discussion, demonstration, critiques and individual meetings with students to support the development of students' work. Students will research self-promotional opportunities such as competitions and festivals. Students will revise their resume to respond to their career interests. Emphasis will be placed on the development of a personal point of view.

**AR-488 Cooperative Education: Art or Graphic Design****Credits: 3**

Prerequisite(s): AR-335 or AR-337 and departmental approval

Term Offered: Spring Term

Course Type(s): EX2

An on-site graphic design cooperative work placement. This course may be repeated for credit.

**AR-489 Internship in Art and Design****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX1

An internship in either graphic design or fine arts at an off-campus work site. The placement must enhance a student's working knowledge of his or her chosen field of study. Students are required to complete a minimum of ten hours per week for a total minimum of 150 hours.

**AR-498 Special Topics in Art (400 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in art to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite it will be announced in the course schedule.

**AR-499 Independent Study in Art****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research - a studio project or art history topic. Weekly consultation. May be elected for a total of six credits. Students must have Senior standing and prior permission of the directing professor and department chair to take this course.

<sup>1</sup> Please consult with your advisor regarding the required number of free electives.

<sup>2</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

**Notes**

- 58 credits must be completed at the 200 level or higher.
- The Department of Art and Design awards departmental honors to graduating seniors who successfully complete AR-410 Advanced Project I (1-3 cr.) and AR-411 Advanced Project II (1-3 cr.), and maintain a 3.50 major GPA, and a 3.00 overall GPA.

<sup>1</sup> Minimum grade of "C" required for Education Courses.

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- ESL - English as a Second Language - K-12
- TSD - Teacher of Students with Disabilities - K12

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

<sup>1</sup> Recommended: Any Art (AR) course at 200+, 300+, or 400+ levels and/ or CO-272 Real People Reel Stories (3 cr.).

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

Notes

- 54 credits must be completed at the 200 level or higher.
- The Department of Art and Design awards departmental honors to graduating seniors who successfully complete AR-410 Advanced Project I (1-3 cr.) and AR-411 Advanced Project 2 (1-3 cr.), and maintain a 3.50 major GPA, and a 3.00 overall GPA.

<sup>1</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>2</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- The Department of Art and Design awards departmental honors to graduating seniors who successfully complete AR-410 Advanced Project I (1-3 cr.) and AR-411 Advanced Project 2 (1-3 cr.) with a "B" average, a 3.50 major GPA, and a 3.30 overall GPA.
- B.F.A. majors must pass the Art & Design Student Portfolio Review (AR-REV Art and Design Student Portfolio Review (0 cr.) given in the 4th semester of study.

<sup>1</sup> B.F.A. Majors must pass the Sophomore Review (AR-REV) given in the 4th semester of study.

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- The Department of Art and Design awards departmental honors to graduating seniors who successfully complete AR-410 Advanced Project I (1-3 cr.) and AR-411 Advanced Project 2 (1-3 cr.) with a "B" average, a 3.50 major GPA, and a 3.30 overall GPA.
- B.F.A. majors must pass the Art & Design Student Portfolio Review AR-REV Art and Design Student Portfolio Review (0 cr.) given in the 4th semester of study.

| Select 6 credits from courses designated with Course Type: IM |                                          | 6       |
| Total Credits                                                 |                                          | 18      |

## Notes

- Communication Majors can share up to 6 credits, **13 credits must be unique to the minor.**
- Art and Design Majors can share AR-181 Digital Photography I (3 cr.) plus substitute any two of the following required courses from their major for AR-178 Web Studio (3 cr.):

| Code   | Title                                            | Credits |
|--------|--------------------------------------------------|---------|
| AR-284 | Web Design/Interactive II for Non-BFA Candidates | 3       |
| AR-383 | Web Design/Interactive I                         | 3       |
| AR-384 | Web Design/Interactive II                        | 3       |
| AR-386 | Principles of Animation                          | 3       |
| AR-390 | Animation/Motion Graphics I                      | 3       |

10 credits must be unique to the minor.

## Minor in Photography (MIN.PHOTO)

| Code                                 | Title                         | Credits |
|--------------------------------------|-------------------------------|---------|
| AR-181                               | Digital Photography I         | 3       |
| AR-183                               | Black and White Photography I | 3       |
| AR-253                               | Digital Photography II        | 3       |
| AR-347                               | History of Photography        | 3       |
| Select 3 credits from the following: |                               | 3       |
| AR-313                               | Lighting Techniques           |         |
| AR-323                               | Documentary Photography       |         |
| AR-353                               | Digital Photography III       |         |
| Total Credits                        |                               | 15      |

## Note

- Not Available to Art Majors

## Graphic and Interactive Design Minor (MIN.GD)

| Code                                        | Title                                             | Credits |

| Select 9 credits from the following courses |                                                   | 9       |
| AR-181                                      | Digital Photography I                             |         |
| AR-270                                      | Graphic Design Studio II <sup>1</sup>             |         |
| AR-273                                      | Digital Illustration                              |         |
| AR-282                                      | Web Design/Interactive I for Non-BFA Candidates   |         |
| AR-287                                      | Typography                                        |         |
| AR-290                                      | Motion Graphics for Non BFA Majors                |         |
| AR-374                                      | Digital Imaging <sup>2</sup>                      |         |
| Total Credits                               |                                                   | 15      |

<sup>1</sup> This course has a corequisite of AR-273 Digital Illustration (3 cr.)  
<sup>2</sup> This course has a prerequisite of AR-273 Digital Illustration (3 cr.)

## Note:

This minor is not available to Bachelor of Fine Arts (BFA) candidates.

# Communication

Chair: Deanna Shoemaker, Department of Communication

In our commitment to students' personal, professional, and public success, the mission of the Department of Communication is to provide a rigorous, ethical, collaborative, and culturally responsive learning environment. We embrace civic participation ideals and provide rich opportunities for written, oral, and technological communication competence, research skills, intercultural appreciation, and professional readiness.

The Department serves this mission at the undergraduate level through its three concentrations:

- Communication, Culture, and Leadership,
- Journalism, Public Relations, and Sports Communication, &
- Media, Content Creation, and Sports.

**Student Honor Societies:** Alpha Epsilon Rho (Media Studies and Production), Lambda Pi Eta, the National Communication Honor Society.

## Programs Majors

- B.A. in Communication with a Concentration in Communication, Culture, and Leadership (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/communication/communication-ccl-ba/>)

- Sports Communication (p. 110)

## Faculty

**Richard Cox**, Associate Professor (Graduate Faculty). B.S., M.F.A., Virginia Commonwealth University. Research interests include creative coding, digital fabrication, open-source electronics,

physical computing, play, gaming, extended reality, interactive design, immersive experience design, animation, time-based media, and collaboration.

[rcox@monmouth.edu](mailto:rcox@monmouth.edu)

**Aaron Furgason**, Associate Professor. B.A., Monmouth University; M.A., Emerson College; Ph.D., Rutgers University. Radio Production, Radio Station Management, Radio Programming and Promotions, Topics in Film, Intro to Screen Studies, Media Literacy, Media Analysis. Research interests include radio and recording industries and film studies. Faculty advisor to the 1000-watt FM University radio station, WMCX.

[afurgaso@monmouth.edu](mailto:afurgaso@monmouth.edu)

**Matthew Harmon**, Senior Specialist Professor. B.A., M.A., Monmouth University. Areas of interest include sports broadcasting, sports history, issues in sports, performance practices, radio/tv/media broadcasting. Classes Taught include History of Sports Media, Live Sports TV, Sports Broadcasting, Issues in Sports Media, Performance for Broadcasting, Broadcast News, Sports Film, Voice Diction, and Public Speaking.

[mharmon@monmouth.edu](mailto:mharmon@monmouth.edu)

**Mary Harris**, Senior Specialist Professor. B.A., Rowan University; M.A., Monmouth University. Areas of interest include public relations, social media, digital marketing, media relations, crisis and reputation management, health communication, and event planning. Teaches Social Media, Strategic Digital Communication, Digital Fundraising Events, Principles of PR, and PR Writing.

[mcharris@monmouth.edu](mailto:mcharris@monmouth.edu)

**Shannon Hokanson**, Senior Lecturer. B.A., M.A., Monmouth University. Primary interests include Communication Pedagogy and Service Learning Pedagogy. Courses taught include Topics in Communication Theory Research, Small Group Communication, and Graduate Foundations in Communication.

[shokanso@monmouth.edu](mailto:shokanso@monmouth.edu)

**Nicholas Messina**, Specialist Professor. B.A., Ramapo College of New Jersey. Areas of interest include audio production and podcasting, media history and analysis, political communication and propaganda.

[nmessina@monmouth.edu](mailto:nmessina@monmouth.edu)

**John Morano**, Professor. B.A., Clark University; M.A., Pennsylvania State University. Research interests include environmental journalism. Publishing a fifth novel in his Eco-Adventure Book Series titled "An Incomplete Forest." Involved in entertainment journalism, film criticism, and journalism ethics. Senior writer and special projects producer for Forrest Galante, Host, on Discovery/Animal Planet Networks.

[morano@monmouth.edu](mailto:morano@monmouth.edu)

**Alexis M. Nulle**, Specialist Professor. B.A., Rutgers University; M.A., Monmouth University. Areas of interest include: Sports and Public Relations, Non-profit organizations and Digital Media Writing. Teaches Sports and PR, Digital Media Writing and Introduction to Public Relations. Public Relations Student Society of America and Public Relations Society of America.

[anulle@monmouth.edu](mailto:anulle@monmouth.edu)

**Michael Phillips-Anderson**, Associate Professor (Graduate Faculty). B.A., George Mason University; M.A., St. John's College; Ph.D., University of Maryland. Areas of interest include rhetoric, political communication, gender studies, and humor. Undergraduate courses include Rhetoric

and Persuasion, Fictional Politics, and Public Speaking. Graduate courses include Communication Theories for Professional Life and Presentation Design Delivery.  
mphilip@monmouth.edu

**Rebecca Sanford**, Associate Professor. B.A., University of Pittsburgh; M.A., Monmouth University; Ph.D., Temple University. Undergraduate courses taught include Interpersonal Communication, Family Communication, Nonverbal Communication, Communication Research Methods, and Communication Theory. Faculty advisor to Lambda Pi Eta, the National Communication Honor Society, and First Year Advisor in the Center for Student Success.  
rsanford@monmouth.edu

**Robert E. Scott**, Senior Specialist Professor, Arthur and Dorothy Greenbaum/Robert Ferguson/NJAR Endowed Chair in Real Estate Policy. B.A., Monmouth University; M.F.A., University of Miami. Professional experience and areas of interest include film and video production, entertainment media technologies, media history, news reporting, web development, corporate communication, scriptwriting, and media asset management.  
rescott@monmouth.edu

**Jennifer Shamrock**, Senior Lecturer. B.A., LaSalle University; M.A., University of Maine; Ph.D., Hugh Downs School of Communication, Arizona State University. Courses taught include Intercultural Communication, Gender, Race, and Media in Communication, and Research Methods in Communication. Research interests include qualitative interviewing, personal narrative, cultural representations of gender and race/ethnicity, and ethnographic research methods.  
jshamroc@monmouth.edu

**Deanna Shoemaker**, Professor (Graduate Faculty). Chair, Communication. B.F.A., Webster University; M.A., Ph.D., University of Texas at Austin. Areas of interest include Performance Studies, Cultural and Identity Studies, Critical Pedagogy, and Service Learning and community Engagement. Teaches Voice and diction; Multicultural Performance of Literature; Performance Theory and practice; Group Devise Performance; Public Speaking; Power of Story; Intercultural Communication; and Ethnographic Research Methods. Faculty advisor to CommWorks, Students Committed to Performance.  
dshoemak@monmouth.edu

**Kristine M. Simoes**, Senior Specialist Professor. B.A., M.A., Rowan University. Teaching focus on field-applicable curriculum that prepares students for careers in public relations professions. Courses developed include Public Relations Writing/Layout and Design, Public Relations Campaigns, and Public Relations Trends and Analysis. APR, Public Relations Society of America.  
ksimoes@monmouth.edu

**Amanda Stojanov**, Associate Professor (Graduate Faculty). B.F.A., Monmouth University; M.F.A., University of California, Los Angeles. Artist whose work resides between disciplines and technologies. Through installations and use of world-building techniques, she investigates how innovations in communication technologies affect perceptions of identity, agency, and visibility. Areas of expertise are new media, multi-media installations, design, interactivity, creative coding, and networked media. Research interests are physical computing, game-theory, mixed reality, and computer graphics.  
astojano@monmouth.edu

**Marina Vujnovic**, Professor (Graduate Faculty). B.A., University of Zagreb; M.A., University of Northern Iowa; Ph.D., University of Iowa. Primary fields of research are participatory journalism and new media studies, critical public relations, media history and gender. Research interests focus on international communication and global flow of information; journalism studies; public relations, and explorations of the historical, political-economic, and cultural impact on media, gender, and ethnicity.  
mvujnovi@monmouth.edu

**Sherry Wien**, Associate Professor. B.A., Lynchberg College; M.A., Penn State University; Ph.D., Rutgers University. Areas of disciplinary expertise are organizational and interpersonal communication. Teaching interests are business communication and listening skills. Research interests are how Prince Rogers Nelson demonstrated various functions of eye contact and how characters in tv shows and movies demonstrate various listening styles.  
swien@monmouth.edu

**Jake Yuzna**, Assistant Professor. B.A., Minneapolis College of Art and Design; M.A., American Film Institute.

## Courses

### ASL-101 American Sign Language I Credits: 3

Term Offered: All Terms

Course Type(s): None

This Learner-centered course is designed for students with little or no previous knowledge of American Sign Language (ASL). Students acquire basic grammar and lexical skills that will enable them to communicate in routine social or professional situations within an authentic cultural context.

### ASL-102 American Sign Language II Credits: 3

Prerequisite(s): ASL-101

Term Offered: All Terms

Course Type(s): None

Designed to continue development of American Sign Language (ASL) skills with primary focus on refining the use of basic ASL sentence types. Students will continue to be exposed foundational aspect of ASL classifiers, hand configuration, palm orientation, and signing space as well as transitioning body language. Students will engage in an expanded learning of Deaf culture and history.

### CO-100 Communication Foundations Credits: 3

Term Offered: All Terms

Course Type(s): None

An introduction to the Communication discipline and its central questions. Students will examine the applications of Communication knowledge in the world and explore key contemporary issues and debates within the field.

### CO-102 Radio Production Credits: 3

Term Offered: All Terms

Course Type(s): COSPT

Basic principles of radio broadcasting, with emphasis on pre-production, planning, and audio production techniques.

### CO-106 Listening Credits: 3

Term Offered: Fall Term

Course Type(s): COCL

Practice listening skills in a variety of personal, academic, and professional contexts. Applying current research in listening theory. Understanding and appreciating the importance of listening every day and for a lifetime.

**CO-120 Interpersonal Communication****Credits: 3**

Term Offered: All Terms

Course Type(s): None

The principles and fundamentals of human oral communication in person-to-person and small group environments; the process of encoding and decoding messages, language usage, listening, and feedback.

**CO-145 Introduction to Video Production****Credits: 3**

Term Offered: All Terms

Course Type(s): IM

Introduction to basic video production equipment, production processes, and approaches to the creation of time-based video content. No previous video course work or experience is required. This course will demonstrate a wide variety of practical and critical tools that will help you gain a meaningful understanding of how video products are made, how to work with others in production teams, and how to work in front of and behind cameras to create and produce content.

**CO-155 Media Literacy****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Introduces students to a range of critical thinking skills for use when encountering media materials, including television, radio, print, and Internet resources. Students will develop an understanding of the complex functions of the mass media industries and an understanding of the aesthetic, emotional, cognitive, and moral choices involved in interpreting media messages.

**CO-199 Independent Study in Communication****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided research on selected topics in Communication. Prior permission of the directing professor and department chair is required to take this course, along with demonstrated ability in the proposed area of concentration.

**CO-201 Producing Live Radio****Credits: 3**

Prerequisite(s): CO-102

Course Type(s): COMCS, CORTA

Principles of radio interviewing, storytelling, and live music production will be covered, with an emphasis on pre-production, planning, and on-air techniques. A central focus of this class is to prepare students for creative work in radio. This class will require on-air performance on WMCX.

**CO-204 Introduction to Media Writing****Credits: 3**

Term Offered: All Terms

Course Type(s): None

The course introduces the diverse field of media writing and integrates a comprehensive scope of the various skills required of today's effective writer. Class sessions will offer students practical and critical tools designed to develop a range of writing styles and techniques while introducing related applications and career opportunities. Lab assignments and writing projects will integrate the tools explored in class.

**CO-205 Topics in History of Sports and Media****Credits: 3**

Term Offered: Fall Term

Course Type(s): COJPS, COMCS, COSPT

Examines the development and evolution of selected sports and fields of athletic endeavor primarily in the United States. Students will gain knowledge of various sports, how media has covered and influenced these sports, and how those sports have impacted and influenced American culture and society. This course is repeatable for credit.

**CO-206 Issues in Sports Media****Credits: 3**

Term Offered: Spring Term

Course Type(s): COJPS, COMCS, COSPT

Students examine the way that the media covers, analyzes, and critiques sports and sports issues. Media and sport have become two powerful and influential forces in society today. This class will demonstrate how the two have become irrevocably intertwined.

**CO-210 Voice and Diction****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCSD, COMCS, CORTA

Analyzes voice, vocal production, articulation challenges, and cultural influences; Utilizes creative practices to improve vocal confidence, clarity, quality, variety, flexibility, and range.

**CO-211 Introduction to Journalism****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COSPT

Explores how concepts of news are changing and develops a hands-on understanding of the way news is created. Course covers basic journalism techniques and standards.

**CO-215 Newswriting****Credits: 3**

Prerequisite(s): CO-211; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Advanced theory and practicum involving newswriting and reporting.

**CO-216 Journalism/PR Career Preparation****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Instructs Communication majors how to effectively pursue opportunities for employment, professional training, and internships. It is designed specifically for Communication students emerging as professionals in the fields of Journalism and Public Relations.

**CO-217 Radio/Television Career Preparation****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Instructs Communication majors how to effectively pursue opportunities for employment, professional training and internships. It is designed specifically for Communication students studying Radio and Television.

**CO-218 Communication Studies Career Preparation****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Prepares Communication Studies concentration students how to effectively pursue opportunities for employment, career development and professional training in the field of Communication.

**CO-220 Public Speaking****Credits: 3**

Term Offered: All Terms

Course Type(s): None

An introduction to the principles and practices of effective public speaking, using traditional rhetorical principles as applied in the composition and delivery of various types of speeches.

**CO-221 Introduction to Digital Media****Credits: 3**

Term Offered: All Terms

Course Type(s): IM, TL

Provides the skills and theoretical context to produce, manage and optimize digital media to create dynamic and engaging websites, broadcast graphics and imagery for presentations. The course uses in class lectures, hands-on demonstrations, directed readings and discussions to help students understand the parameters of their digital tools and make high quality, socially engaged work.

**CO-222 User Experience and Interaction Design****Credits: 3**

Term Offered: All Terms

Course Type(s): COMCS, CORTW, IM

Guides students through research, planning, and designing of interactive, transmedia, web, mobile, and gaming formats and platforms. Topics covered include computer-mediated communication, transmedia storytelling, information architecture for digital experiences, human computer interfaces, wireframes, and web and mobile device prototyping.

**CO-223 Argumentation and Debate****Credits: 3**

Prerequisite(s): HU-201 or permission of the instructor

Term Offered: Spring Term

Course Type(s): COCSD

The principles of argumentation and their application in the debate situation; the nature and structure of reasoning, the types of evidence, the construction of briefs, and the researching of debate propositions.

**CO-224 Introduction to Mass Communication****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COJPS, COMCS

The historical development and functions of mass media, such as radio, television, print, and film.

**CO-225 Business and Professional Communication****Credits: 3**

Term Offered: All Terms

Course Type(s): COJPR, COJPS, COMCS, RD

Principles and techniques for oral and written communication skills within the business and professional situations; emphasis on job interviewing with resumes and cover letters, professional emails and social media posts, informative and persuasive presentations, and listening skills.

**CO-226 Intercultural Communication****Credits: 3**

Term Offered: All Terms

Course Type(s): BI.EL, CD, RE

The process of communication between people of different cultures; the influences of culture on communicative messages and meanings.

**CO-231 Multicultural Voices: From Page to Stage****Credits: 3**

Term Offered: Spring Term

Course Type(s): COCCL, COCSD

Explores contemporary multicultural voices through published short stories and poetry, including slam poetry/spoken word and new forms of digital literature. Using performance of literature as a method of analysis and presentation, students will also consider enactments of identity through diverse perspectives on race/ethnicity, gender, sexuality, class, ability, and nationality.

**CO-233 Rhetoric and Persuasion****Credits: 3**

Term Offered: All Terms

Course Type(s): COJPS

A humanistic examination of rhetorical communication. Surveys rhetorical theory from classical to modern times with particular application to its importance in civic life. Introduces the practice of rhetorical criticism of written, spoken, visual, and digital media texts.

**CO-234 Climate Communication****Credits: 3**

Course Type(s): RD

An examination of the role of communication in environmental science, activism, and policy. Topics include the challenges of communicating about science, risk communication, and environmental advocacy campaigns. These concepts will be put into practice through the study of argumentation practices and the performance of original, researched-based presentations.

**CO-235 Sports Broadcasting****Credits: 3**

Prerequisite(s): CO-102 or CO-145

Term Offered: All Terms

Course Type(s): COJPS, COMCS, COSPT

Prepares students for an internship at a public or commercial radio station or an entry-level position. Students will learn how to gather, organize, write, report, and broadcast radio sports.

**CO-236 Sports Reporting****Credits: 3**

Term Offered: Spring Term

Course Type(s): COJPS, COMCS, COSPT

Introduction to the field of sports journalism, which includes standardized news writing techniques as well as feature writing.

**CO-240 Smartphone Video Production****Credits: 3**

Term Offered: Fall Term

Course Type(s): COMCS, CORTP

Teaches students how to use their smartphones to produce high-quality videos which they can then share with a large and diverse online community. From the development of an idea and importance of pre-production planning to the final stages post-production and marketing, this class will guide students through the entire process of creating and sharing visual media.

**CO-241 Introduction to Screen Studies****Credits: 3**

Term Offered: All Terms

Course Type(s): COMCS, COSS, IM

Introduction to the disciplined study of the Screen Arts - motion picture film, television, video, and digital multimedia - with respect to the operation of the various elements of sound and image as they operate within the text of the visual work screened. Includes screening and discussion of various representative works.

**CO-242 Creating Good Radio****Credits: 3**

Prerequisite(s): CO-102

Term Offered: Spring Term

Course Type(s): COMCS, CORTP

Broadcasting as effective communication; practical experience in writing, producing, directing, and performing in radio programs; critical analysis of various professional broadcasts.

**CO-243 History of the Motion Picture****Credits: 3**

Term Offered: Spring Term

Course Type(s): COMCS, COSS

An introduction to the major phases of motion picture history from its origins to the present, including screenings and discussions of major film movements, technological innovations, and landmark directors.

**CO-246 Studio-Based Video Production****Credits: 3**

Prerequisite(s): CO-145

Term Offered: All Terms

Course Type(s): COMCS, CORTP

The application of aesthetic theory and production principles via video assignments produced in a production studio and control room. Emphasis is placed upon the professional crew positions to provide both a deep and wide-range of technical mastery. Experiences in this course prepare students for work in studio news, sports broadcasting, video podcasting, greenscreen work, Youtube channels, social media reels, and broadcast-style formats.

**CO-247 Live TV Sports Production****Credits: 3**

Term Offered: Fall Term

Course Type(s): COMCS, CORTP, COSPT

Hands-on introduction to the process of producing live television sports broadcasts. Students will examine each of the staff positions, and will serve in many of them as crew for the TV sports broadcasts on campus.

**CO-250 Global Communication****Credits: 3**

Course Type(s): BI.EL, COCCL, COJPR, COJPS, COJPT, GU, RE

Introduces students to the various aspects of global communication, primarily media communication, journalism, and public relations. Particular emphasis will be on the categories of difference such as gender, race, class, and ethnicity. Global communication is reshaping economic, social, cultural, and political aspects of our lives nationally and internationally. Hence, in this course students will explore essential components of global communication, emphasizing shifts in national, regional, and international media patterns and trends including production, distribution, and consumption.

**CO-262 Co-Curricular Practicum in Radio****Credits: 1**

Prerequisite(s): CO-378 or permission of the instructor

Term Offered: All Terms

Course Type(s): None

Credit for specified assignments at the University radio station, WMCX, is awarded after a term-end evaluation by the instructor of the project agreed upon with the student. May not count toward major requirements. May be repeated for a total of six credits; limited to students active at the radio station for at least one semester.

**CO-263 Co-Curricular Practicum in Television****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Credit for specified assignments at the University television station is awarded after a term-end evaluation by the instructor of the project agreed upon with the student. May not count toward major requirements. May be repeated for a total of six credits; limited to students active at HAWK TV for at least one semester. Instructor permission is required to take this course.

**CO-264 Co-Curricular Practicum in Journalism****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Credit for specified assignments at the University newspaper is awarded after a term-end evaluation by the instructor of the project agreed upon with the student. May not count toward major requirements. May be repeated for a total of six credits; limited to students active at The Outlook for at least one semester. Instructor permission is required to take this course.

**CO-265 Co-Curricular Practicum in Public Relations****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Credit for specified public relations assignments for the Public Relations Student Society of America (PRSSA), University Clubs and Associations, and/or the University Communication Department is awarded after a term-end evaluation by the instructor of the project agreed upon with the student. May not count toward major requirements; may be repeated for a total of six credits. Instructor permission is required; limited to students active with PRSSA for at least one semester; students may also gain entry with previous experience on a public relations event/project and provide tangible evidence to advisor.

**CO-266 Co-Curricular Practicum in CommWorks****Credits: 1**

Term Offered: All Terms

Course Type(s): COCCL

Credit for specified applied learning with "CommWorks: Students Committed to Performance" that will fulfill a practicum for Communication majors. Specified performance-based projects with "CommWorks" must be planned, completed, documented, and reflected on for a term-end evaluation by the instructor. May be repeated for a total of six credits. No prior experience is necessary. May not count toward major requirements. Students who are interested in public speaking, storytelling, performance, poetry, embodied and arts-based learning, creative writing, promotions, event planning, and collaborative teamwork are encouraged to register.

**CO-267 Co-Curricular Practicum in MOCC****Credits: 1**

Term Offered: All Terms

Course Type(s): None

One credit for specified assignments with MOCC and by extension the University Communication Department is awarded after a term-end evaluation by the instructor of the project agreed-upon with the student. The course may not count toward other major requirements. May be repeated for a total of six credits. Permission of the instructor is required to take this course.

**CO-268 Co-Curricular Practicum in HawkInteractive****Credits: 1**

Term Offered: All Terms

Course Type(s): None

This practicum serves as an opportunity for students to further develop their interactive media skills, work as part of a design team, and to grow their media portfolio with a focus on to the emerging media tools and platforms. Credit for specified assignments as part of Hawk Interactive Student Media Organization is awarded after a term-end evaluation by the instructor of the project agreed upon with the student. Hawk Interactive projects and activities make use of the IDM Research Lab, an experimental, digital media laboratory which is academically affiliated with and supported by the Department of Communication. The course may be repeated for a total of six credits; limited to students active in the Hawk Interactive Organization for at least one semester. Instructor permission is required to take this course.

**CO-271 Ethics, Justice and American Prisons****Credits: 3**

Prerequisite(s): SO-101 or higher or GS-225 or higher.

Term Offered: Fall Term

Course Type(s): SJS

Explores the rise of mass incarceration in the United States, with a critical look at the ethical, socio-cultural, political and economic factors that shape the American prison system today. The course is also the gateway course to The Monmouth University Academic Exchange Program, also referred to as MU-AEP, a collaborative effort between Monmouth University and the New Jersey Department of Corrections. This program, of which this course is a requirement, is offered by Monmouth University to help to facilitate a transformative exchange of ideas and perspectives between incarcerated students and non-incarcerated students and non-incarcerated students inside the New Jersey state prison. Also listed as SO-271.

**CO-272 Real People Reel Stories****Credits: 3**

Term Offered: Spring Term

Course Type(s): COMCS, CORTP, EX5

Learning to tell a story through video testimonies/interviews. Socially conscious topics will be chosen from quality of life issues being explored by our on-campus Polling Institute or those presented by community aid organizations. Instructor permission is required to take this course.

**CO-275 Performance for Broadcasting****Credits: 3**

Prerequisite(s): CO-102

Term Offered: All Terms

Course Type(s): CORTA

The fundamentals of radio announcing will be stressed along with station orientation. The student will develop strong vocal skills for a variety of radio personalities over the air.

**CO-289 Internship in Communication****Credits: 3**

Prerequisite(s): CO-216 or CO-217 or CO-218, departmental approval, and Junior standing

Term Offered: Summer Term

Course Type(s): EX1

Supervised, practical experience in communication (radio, television, public relations, journalism, and human communication); emphasis on the application of discipline specific technologies and theories in a professional environment directly related to one's course of study.

**CO-290 Media Law****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCST, COJPT, COMCS, CORTT, PSAL

How the mass media is constrained and protected by the law and court interpretation. Overview will focus on libel, copyright, obscenity, free press, and other legal/illegal aspects of mass communication. Also listed as PS-290.

**CO-292 Communication Research Methods****Credits: 3**

Prerequisite(s): CO-100 and at least 6 credits in Communication.

Term Offered: All Terms

Course Type(s): None

Introduction to the use of the scientific methods, various research approaches, and application of both qualitative and quantitative methods for application in the field of communication.

**CO-293 Social Media****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COJPR, COJPS, COJPT, COMCS, IM

An interactive, intensive study of social media with regard to the field of public relations. Students will be introduced to new contexts and forms of social media, an ever-growing area of study.

**CO-295 Introduction to Public Relations****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COSPT

A comprehensive survey of the field of public relations. Emphasis on the evolution, role, functions, and scope of public relations in American society.

**CO-296 Digital Fundraising and Events****Credits: 3**

Prerequisite(s): CO-295

Term Offered: Spring Term

Course Type(s): COJPR, COJPS, COJPT, COMCS, COSPT

Designed to provide an introduction to the practice, programs, and publics of fund raising. Development of a fund raising campaign will be produced for a nonprofit client. Written and oral communication skills essential to the professional fund raiser will be practiced in class and through assignments. May be offered in a hybrid format (partially online).

**CO-298 Special Topics in Communication (200 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in communication to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CO-299 Independent Study in Communication****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research on selected topics in Communication. Prior permission of the directing professor and department chair is required to take this course, along with demonstrated ability in the proposed area of concentration.

**CO-300 Co-Curricular Practicum in Service Learning****Credits: 1**

Prerequisite(s): Two 200+ level courses in Communication, permission of the instructor, and a minimum G.P.A. of 2.50

Term Offered: Spring Term

Course Type(s): None

Students will apply communication theory in dynamic community settings, working on impactful service learning projects while developing communication skills and engaging with industry professionals. The course may not count toward other major requirements. Permission of the instructor, and a minimum G.P.A. of 2.50 are required to take this course.

**CO-301 Topics in Communication Theory and Research****Credits: 3**

Prerequisite(s): CO-292, EN-101, EN-102, and eighteen credits in Communication; or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Explores a specialized topic or paradigm in Comm. Theory and Research. The course will include deep exploration of the discipline-specific theories and research methods for understanding an studying the focal topic.

**CO-303 Creating a Culture of Peace****Credits: 3**

Term Offered: Spring Term

Course Type(s): COCST, COJPT

An introduction to theories of nonviolent communication, the use of practical communication skills for nonviolent conflict resolution, and applications of nonviolent communication in historical and contemporary peace movements.

**CO-304 Onstage and in the Streets: Performance and Culture Credits: 3**

Course Type(s): CD, COCSD, COCST

Introduction to understanding diverse popular performance practices as unique and contested expressions of culture and identity. Studying human performances within everyday life, in public spaces, and through cultural rituals, street theatre, and professional productions, a variety of contemporary theories, methods, and critical issues are considered within the fields of communication, theatre, performance, and cultural studies. Students must be enrolled in the Study Abroad program in Cadiz, Spain. Also listed as FS-304.

**CO-306 Interactive Media Productions Credits: 3**

Prerequisite(s): CO-221

Course Type(s): COMCS, CORTA, IM

This course uses audio, video, augmented, and virtual reality technologies in creative and professional production contexts. Traditional techniques from Communication, Media, & Performance Studies will be applied to new technologies to develop a series of Mixed Reality Performances. Students will collaborate on solo and group exercises that will culminate in a final creative project. Narrative, storytelling, marketing and design, worldbuilding, and embodiment will be foundational topics in this course.

**CO-309 Family Communication Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCSP, COCST

Explores couple and family communication processes. Focuses on how individuals use interaction to establish, maintain, and change personal, romantic and family relationships.

**CO-311 Communication Ethics Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COJPS, COMCS

An introduction to communication ethics and related contemporary issues intended to support students in making principled communication decisions.

**CO-313 Digital Media Writing Credits: 3**

Prerequisite(s): CO-295

Term Offered: All Terms

Course Type(s): None

A study into the fundamentals of effective public relations writing, including production of media releases, position papers, and media kits. The course focuses on writing style and technique, along with form and distribution methods.

**CO-315 Making the Short Film Credits: 3**

Prerequisite(s): CO-145

Term Offered: Fall Term

Course Type(s): COMCS, CORTP

Students will be given the opportunity to study and apply both the technical and aesthetic principles of film and video production, in addition to examining the characteristics of successful short narrative films. Students will enhance their skills in visual storytelling by developing and producing three short films to screen on both the big and small screen.

**CO-317 Civic Journalism Credits: 3**

Prerequisite(s): CO-211

Term Offered: Spring Term

Course Type(s): COJPS, COJPW, EX5

News with a community service attitude. Gain hands-on experience through speakers, field trips, interviews, and involvement with local issues. Students write civic journalism news stories and host a community symposium to encourage dialogue among diverse community groups.

**CO-318 Topics in Film Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCST, COMCS, CORTT, COSS

Explores in-depth a specialized topic relevant to film and cultural studies. The topic changes each time the course is taught and may include a particular film director, genre or historical period. This course is repeatable for credit.

**CO-320 Small Group Communication Credits: 3**

Course Type(s): COCCL, COCST, EX3

Students explore academic perspectives on the process of group communication, leadership, conflict, decision-making, and problem solving, then reflect on and apply these perspectives outside the classroom in the context of a service learning project. Also listed as SO-320.

**CO-321 Nonverbal Communication Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCST

We constantly communicate without words. We interpret and respond to people around us based on their communication with or without words. How we dress, the eye contact we do or do not make and the reason(s) why, whether we meet "on time" or "noon-ish," how we greet and part company, and many more nonverbals provide numerous, simultaneous channels of information exchange. Nonverbal Communication explores a range of communication types and channels, including kinesic, haptic, proxemic, vocalic, and chronemic forms of communication. Students learn not only how we use and interpret meaning within the nonverbal realm, but also how to more effectively manage their own enactment and impression management across the vast array of signals being sent and received nonverbally. Application of nonverbal communication includes romantic relationships, careers, and media contexts.

**CO-323 Persuasion Credits: 3**

Prerequisite(s): CO-100 or CO-233, or permission of the instructor

Term Offered: Spring Term

Course Type(s): COCCL, COCSP, COCST, COJPS

Concepts and principles of communicative messages that influence thoughts, attitudes, and behavior; roles of source, message, channel, and receiver.

**CO-326 Advanced Sports Broadcasting Credits: 3**

Prerequisite(s): CO-235

Term Offered: Spring Term

Course Type(s): COJPS, COMCS, COSPT

Explores in-depth the role that a broadcaster takes on covering teams and events as a play by play announcer or sideline reporter.

**CO-327 Civic Participation Credits: 3**

Term Offered: Spring Term

Course Type(s): COCCL, COCSP, COCST

Explores how public communication shapes and reinvigorates civic participation, offering ways of understanding and resolving civic problems in democratic societies.

**CO-328 Sports and Public Relations**

Prerequisite(s): CO-295

Term Offered: All Terms

Course Type(s): COJPR, COJPS, COMCS, COSPT

Sports in Public Relations is designed to provide a comprehensive overview of public relations opportunities within the sports industry. This course will explore a detailed look at all elements of sports public relations including media relations, crisis management, ethics, events and promotions, and the internet and social media. Students will gain a thorough understanding of the work PR practitioners perform for colleges, second-tier sports, major professional teams and non-profit organizations.

**Credits: 3****CO-329 Sports and Film**

Term Offered: All Terms

Course Type(s): COJPS, COMCS, COSPT

Explores in-depth the role that sports and film play in society using different themes and teaching different life lessons. This course is repeatable for credit once.

**Credits: 3****CO-330 News Editing**

Prerequisite(s): CO-211 or CO-295

Term Offered: Spring Term

Course Type(s): COJPS, COJPW

Copy-editing techniques for reviewing and improving news writing.

**Credits: 3****CO-333 Multimedia Journalism**

Prerequisite(s): CO-211

Course Type(s): COJPR, COJPW, IM

Explore the world of electronic information from a journalist's perspective. Learn to use and evaluate electronic resources including search engines, e-mail, news groups, directories, and databases for reporting news. Covers reporting and composing news stories for online publication and the legal and ethical questions raised by online news.

**Credits: 3****CO-335 Group Techniques in Performance**

Term Offered: Spring Term

Course Type(s): COCCL, COCSD

Students will learn creative group-based practices and methods of inquiry to develop original performances based on pressing social issues. Collaborative approaches will include historical research, multicultural and critical perspectives, embodied devising, verbatim theatre techniques, and adaptations of texts for public presentation. Also listed as TH-335.

**Credits: 3****CO-337 Performance Theory and Practice**

Term Offered: Spring Term

Course Type(s): COCCL, COCST, COMCS

The study of performance offers students the opportunity to explore the power of performance in its diverse forms in both theory and practice. Students will experience a wide variety of performance contexts, including performances of self in everyday life, performances of cultural identity, performances of literature, and socially engaged original performance art.

**Credits: 3****CO-338 Video Post-Production**

Prerequisite(s): CO-145

Course Type(s): COMCS, CORTP, IM

Students will learn advanced techniques of video editing, sequencing, combining practical and special effects (SFX), color correction, metadata, and file preparation for distribution and release.

**Credits: 3****CO-339 Voiceover Workshop**

Prerequisite(s): CO-102 or permission of instructor.

Term Offered: Fall Term

Course Type(s): COMCS, CORTP

This course presents the announcing, production, and marketing skills needed for the professional voiceover industry. You will learn a variety of presentational styles of voiceover applicable to all mediums; expand on previous audio production knowledge; and develop skills to market oneself effectively to stand-out in a competitive pool of voiceover artists and actors.

**Credits: 3****CO-340 Writing the Review**

Prerequisite(s): CO-211 or permission of the instructor and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): COJPR, COJPS, COJPW, COSS, WT

The process of writing newspaper opinion pieces on film and theatre presentations.

**Credits: 3****CO-342 Editorial Writing**

Prerequisite(s): CO-211 or permission of the instructor and EN-101 and EN-102 or permission of the instructor

Term Offered: Fall Term

Course Type(s): COJPR, COJPS, COJPW, WT

Editorial writing is the style of persuasive writing found on a newspaper's editorial pages, in online and print magazines, and in scripting some radio and television talk shows. Students will gain experience in doing research into current trends and events, persuasive writing, and exploring the multiple sides to an argument.

**Credits: 3****CO-343 Performance and Social Activism**

Term Offered: Spring Term

Course Type(s): COCCL, COCSD, COMCS

Students survey the recent history, theories, and methods of creative activist performance and produce original performances that function as embodied visions of social change and/or resistance to social norms. Emphasis is placed on representations of gender, race/ethnicity, sexuality, class, ability, etc. as well as structural inequalities and social injustice.

**Credits: 3****CO-344 Games and Worldbuilding**

Prerequisite(s): CO-221

Course Type(s): COMCS, CORTT, IM

This course presents theories of interaction, narrative, and game play. Students will situate such theories in terms of the historical, business, and socio-cultural considerations of interaction and gaming as they learn theoretical tools for understanding interactive narrative structures. Students will learn to analyze and parse game content for storytelling devices, mise-en-scène, game mechanics, player motivations, interactivity, and playability facets. Students will also collaboratively conceptualize and describe characters, levels, and worlds and engage with design theories to analyze and prototype transmedia narratives, paratext, mechanics, and interactive exchanges.

**Credits: 3****CO-345 Producing & Directing Video**

Prerequisite(s): CO-145

Term Offered: Spring Term

Course Type(s): COMCS, CORTP

This course focuses on the executive roles of producers, directors, and showrunners in the crafting of film and video from concept to streaming distribution. Producers and directors lead projects through the various phases of completion forming agreements along the way. Students will delve into the various kinds of positions and crews that may be associated with visual projects. This course will prepare entry-level practitioners to read and prepare production documentation and have familiarity with the workflow and relationships within visual production.

**Credits: 3**

**CO-346 Documentary Film and Video****Credits: 3**

Term Offered: All Terms

Course Type(s): COMCS, CORTW, COSS

An introduction to the history and development of documentary film and video, with screenings and discussions of examples of works from the major movements in documentary, and small group production of an original documentary.

**CO-347 Advanced TV Sports Production****Credits: 3**

Prerequisite(s): CO-247

Course Type(s): COMCS, CORTP, COSPT

Hands-on advanced study of the process of producing live and live-on-tape television sports broadcasts. Students will study each of the crew positions, and will serve in many of them as crew for the TV sports broadcasts on campus.

**CO-348 Advanced Digital Media****Credits: 3**

Prerequisite(s): CO-221

Course Type(s): COJPS, COMCS, CORTP

Building on introductory digital skills, students will advance and expand their knowledge of digital media techniques and workflows while conceptualizing and producing transmedia digital projects. Topics and techniques covered in the course include: motion tracking for video production, drone videography, sound design for visual media, compositing special/practical effects, batch encoding for transmedia, computer scripting for media post-production, interactive visualizations, brand activation, and game asset design.

**CO-350 Broadcast Newswriting and Reporting****Credits: 3**

Prerequisite(s): CO-145

Term Offered: Spring Term

Course Type(s): COJPS, COMCS, CORTW

Writing and reporting techniques for broadcast news; the process of news preparation from leads or sources through copy preparation, to on-air delivery.

**CO-351 Broadcast Copywriting****Credits: 3**

Prerequisite(s): CO-102 or CO-145

Term Offered: All Terms

Course Type(s): COMCS, CORTW

Practical application of creative writing for radio and television.

**CO-352 Broadcast News Operation****Credits: 3**

Term Offered: All Terms

Course Type(s): COMCS, CORTP

Overview of TV studio and newsroom operations with an emphasis on news writing, field reporting and studio production. Students will produce news content, green screen commentaries and specialized packages. Class sessions will provide students with practical and critical tools that will help them gain a better understanding of how compelling, informative content is constructed for broadcast and online news. Open to all majors.

**CO-357 Acting for Television****Credits: 3**

Prerequisite(s): TH-154

Term Offered: Spring Term

Course Type(s): CORTA

Techniques that the on-camera performer uses in various TV situations, commercials, daytime drama, situation comedy, and serious drama. Also listed as TH-357.

**CO-360 Feature Writing****Credits: 3**

Prerequisite(s): CO-211 or permission of the instructor; Junior standing, and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): COJPR, COJPS, COJPW, WT

Upper level journalism/writing course that examines techniques in writing feature stories for magazines and newspapers. These articles tell true stories combining both journalistic and literary techniques. Personality profiles, issue stories, trend stories and how-to stories are included, among other forms. Readings include Pulitzer Prize winning features.

**CO-365 Screenwriting****Credits: 3**

Prerequisite(s): CO-155 or permission of the instructor

Term Offered: All Terms

Course Type(s): COMCS, CORTW, COSS

Writing techniques for film and television, with an emphasis on the process of screenwriting, from concept to completion and revision, as well as marketing scripts written for the screen.

**CO-367 Media Analysis****Credits: 3**

Prerequisite(s): CO-155; and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): COCCL, COJPS, COMCS, CORTT, WT

Analysis and critical examination of the content of mass media.

**CO-368 Applied Ethics in American Prisons****Credits: 3**

Prerequisite(s): SO-271 or CO-271

Term Offered: Spring Term

Course Type(s): SJS

The second in the sequence of the Monmouth University Academic Exchange Program, a collaborative effort between Monmouth University and the New Jersey Department of Corrections. This program, of which this course is a requirement, is offered by Monmouth University to help to facilitate a transformative exchange of ideas and perspectives on the topics of ethics and social issues between incarcerated students and non-incarcerated students inside a New Jersey prison. Also listed as SO-368.

**CO-372 Podcasting****Credits: 3**

Prerequisite(s): CO-102

Term Offered: Fall Term

Course Type(s): COJPS, COMCS, CORTP

A hands-on study of alternative broadcast mediums and their relation to social media and audience studies. Examples will include Podcasting specifically, with discussion on Internet radio, LPFM, Ham Radio and Pirate radio.

**CO-373 Music Promotion****Credits: 3**

Term Offered: Spring Term

Course Type(s): CORTT

A critical examination of the inner workings and business strategies that exist within the symbiotic relationship between the radio and music industry. Topics of discussion include: payola, marketing, promotion, indecency/obscenity, political economy theory, gate-keeping theory, subculture theory, and audience-making theories. Students must have Junior or higher standing to take this course.

**CO-374 Radio Programming and Promotion****Credits: 3**

Prerequisite(s): CO-102

Course Type(s): CORTP

Overview of the principles of radio programming and promotions: formats, FCC rules, ratings, on-air experience, theories, and music selection choice will all be stressed. The class will produce programming and promotions to be aired on Monmouth's radio station, WMCX.

**CO-375 Television Criticism****Credits: 3**

Prerequisite(s): CO-155; and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): COMCS, CORTT, WT

Analysis and critical examination of the content of television programs.

**CO-376 Radio Station Management****Credits: 3**

Prerequisite(s): CO-102

Term Offered: Spring Term

Course Type(s): COMCS, CORTT

Principles of management for radio stations. Discussions and practicum include: programming, promotions, sales, public relations, production, community relations, sports, and news.

**CO-377 Radio Operation Practice****Credits: 3**

Prerequisite(s): CO-102 and permission of the instructor

Course Type(s): None

Seminar offered in summer only.

**CO-378 Talk Radio****Credits: 3**

Prerequisite(s): CO-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): COMCS, CORTA

Introduction to the preparation of documentaries, interviews, and phone-in talk shows. Students will produce a weekly show on WMCX.

**CO-379 Advanced Radio Production****Credits: 3**

Prerequisite(s): CO-102.

Term Offered: Spring Term

Course Type(s): COMCS, CORTP

Advanced audio production techniques utilizing digital technology, with emphasis on the conception and realization of effective messages in radio broadcasting.

**CO-380 Organizational Communication****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): COCCL, COCSP, COCST, WT

Students will learn various techniques of understanding how people use communication to organize and coordinate their work. Sample discussion topics are: using social media for hiring decisions, dealing with workplace romances and sexual harassment, and managing conflict and emotions at work. Written assignments are decision-making case studies of real problems in actual organizations.

**CO-381 The Power of Story****Credits: 3**

Term Offered: Spring Term

Course Type(s): COCCL, COCSD, EX5

Storytelling is one of the oldest and most powerful means of human communication. This experiential education (EX ED) course explores cultural perspectives, aesthetic genres, and functions of storytelling. Methods may include ethnography, autoethnography, interviews, personal narratives, digital storytelling projects, and/or presentation of published stories. Students will analyze and develop a range of stories that apply to professional and personal goals. Stories will be presented on campus and in off-campus community settings. Junior standing or permission of the instructor is required to take this course.

**CO-383 Gender, Race, and Media****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): COCCL, COCSP, COCST, COJPR, COJPS, COJPT, COMCS, CORTT, GS, RE, WT

This course examines the social constructions of gender and race as represented across various forms of media. Learning how to recognize, evaluate, and critique representations of gender and race using an intersectional lens, students will analyze the cultural values and beliefs that inform these depictions and identify personal, social, political, and economic consequences.

**CO-384 Seminar in Leadership Communication****Credits: 3**

Prerequisite(s): CO-220 or CO-225 or HU-201.

Term Offered: All Terms

Course Type(s): COCCL, COCSP, COCST, COJPS

Students explore specific leadership topics utilizing theories and practices from a communication perspective. Students analyze their personal leadership styles and develop leadership skills through team projects and classroom exercises.

**CO-389 Internship in Communication****Credits: 1-3**

Prerequisite(s): CO-216 or CO-217 or CO-218, departmental approval, and Junior standing

Term Offered: All Terms

Course Type(s): EX1

Supervised, practical experience in communication (radio, television, public relations, journalism, and human communication); emphasis on the application of discipline specific technologies and theories in a professional environment directly related to one's course of study.

**CO-390 Washington Center Internship****Credits: 7-12**

Course Type(s): EX5

This internship allows students in all majors to intern at government agencies, public service organizations, and business associations located in Washington, DC. Under the supervision of Washington Center supervisors and faculty, students gain substantive entry-level professional experience along with academic credit over the course of one semester. In general, students are required to intern in a government agency or public organizations four and a half days per week and attend educational seminars and workshops and participate in professional forums conducted by the Washington Center. In addition, students must complete learning objectives and assignments specified by Monmouth University faculty sponsors. Also listed as PS-390 and SO-390.

**CO-392 Social Media****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COJPR, COJPS, COJPT, COMCS, IM, TL

This course teaches students how to use each of the major social media platforms to market and promote personal brands, organizations, and public figures. Students will learn how to develop a professional digital presence, create a comprehensive content calendar, design a blog, podcast, or YouTube channel, and create accompanying digital content on social media, including photos, short-form and long-form videos, storytelling pieces, written content, and promoted posts. An emphasis is placed on digital strategy, branding, content planning and development, audience cultivation and engagement, brand partnerships, influencer marketing, data analytics, SEO, AI tools, and leveraging social media trends.

**CO-393 Washington Center Course****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Students participating in a Washington Center Internship are required to enroll in a three credit seminar. A list of available courses is forwarded to all students prior to the beginning of the fall, spring, or summer term. Regular offerings include politics, professional communication, the fine and performing arts, and economics. Also listed as PS-393 and SO-393. Junior standing and a minimum G.P.A. of 2.50 is required to take this course.

**CO-398 Special Topics in Communication and Theatre (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in communication to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CO-399 Independent Study in Communication****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided research on selected topics in Communication. Prior permission of the directing professor and department chair is required along with demonstrated ability in the proposed area of concentration to take this course.

**CO-402 Audience Studies****Credits: 3**

Prerequisite(s): CO-155

Term Offered: Spring Term

Course Type(s): CORTW, WT

This course explores audience studies methods for analyzing audiences of popular music genres, television shows, films, and videogames. The class utilizes various theoretical traditions (ideological, semiotic, economic, sociological, psychoanalytic, cultural studies, etc.), with a focus on their utility for interpreting the meanings of the aforementioned media phenomena and its relationship to society and everyday life. These conceptual tools will provide the basis for analyzing media phenomena and its relationship with audiences and fans. Combining theory with practice, the course emphasizes critical thinking and writing about media texts in its varied dimensions and forms.

**CO-404 Responsive Media****Credits: 3**

Prerequisite(s): CO-145 or AR-181

Term Offered: Spring Term

Course Type(s): COMCS, CORTP, IM

Students learn how to make interfaces for smart phones and tablets to create interactive audio and video. In addition, students will produce creative projects using data mapping, generative art and work collaboratively on a site-specific media project. Also listed as AR-404.

**CO-409 Professional Media Writing****Credits: 3**

Term Offered: Spring Term

Course Type(s): COJPS, COMCS, CORTW

Provides an introduction to the diverse field of professional writing and integrates a comprehensive overview of the various skills required of today's freelance media writer. Class sessions will offer students practical and critical tools designed to develop a range of writing styles and techniques, while introducing related applications and career opportunities. Lab assignments and writing projects will integrate the tools explored in class. Students must have at least a Junior standing to take this course.

**CO-412 Project Greenlight****Credits: 3**

Term Offered: All Terms

Course Type(s): COCSD, COMCS, CORTT, COSS, IM

An orientation to career opportunities/advancement based on the successful pitch process necessary to achieve "greenlight" status for proposed media projects. Provides a comprehensive overview of new media formats, stages of media production, and related entertainment media technologies, products and services. Additionally, the course will examine the vital roles of producers and creative executives in these processes. Students will learn how to transform themselves from media consumers to media producers. No previous media-related training or experience is required. Students must have Junior standing to take this course.

**CO-413 Advanced Public Relations Writing Layout and Design****Credits: 3**

Prerequisite(s): CO-295 and CO-313

Term Offered: Spring Term

Course Type(s): COJPR, COJPS, COJPW

Simulates a field public relations agency or department by providing students "real world" or field-applicable skills. An emphasis on media tools and production enables students to work in a fast-paced, deadline-intensive environment. The principles of communicating with media and specialized public audiences are core along with the preparation, production, and presentation of messages for mass consumption.

**CO-414 Media Strategy****Credits: 3**

Prerequisite(s): CO-295 and CO-313, or permission of the instructor

Term Offered: All Terms

Course Type(s): COJPR, COJPS, COJPW

Application of public relations techniques to various communicative environments, communication problems, and crisis management.

**CO-415 Public Relations Shark Tank****Credits: 3**

Prerequisite(s): CO-295

Term Offered: Fall Term

Course Type(s): COJPR, COJPS, COJPT

Examines, reviews, and predicts how corporate leaders solve today's public relations challenges. Curriculum focuses on existing field trends and evaluates effective and ineffective corporate strategies. Students develop an integral understanding of the role of public relations in organizations, stressing the issues management process in order to plan crisis administration programs and implement public communication. Assignments include case statements, branding collateral, position papers, and publicity tools.

**CO-425 Political Communication****Credits: 3**

Prerequisite(s): CO-100 or CO-220 or permission of the instructor.

Term Offered: All Terms

Course Type(s): COCCL, COJPS

The impact of communication on political action. Persuasive strategies and mediated reality that affect political choices. Focus on the interpretation of political rhetoric and the role media plays in campaigns.

**CO-427 Crisis and Issues Management****Credits: 3**

Prerequisite(s): CO-295

Course Type(s): COJPS, COJPT

Students learn to assess, understand, and navigate today's organizational crises through the critical lens of a public relations professional. Projects include crisis communication strategies and tactics through the process of research, analysis, and planning. Course features an emphasis on work to control crisis, rumor, public perception, corporate image, and reputation. Use of case studies, simulations, group exercises, and projects to develop skills in crisis and issues management.

**CO-483 Communication Internship Seminar**
Credits: 3

Term Offered: All Terms  
Course Type(s): EX1  
Supervised, practical experience in communication (radio, television, public relations, journalism, and human communication); emphasis on the application of discipline- specific technologies and theories in a professional environment directly related to one's course of study. On-campus seminar attendance is required. May be repeated once for credit. Junior standing is required to take this course.

**CO-489 Internship in Communication**
Credits: 3

Term Offered: All Terms  
Course Type(s): EX1  
Supervised practical experience in communication (radio, television, public relations, and human relations) or journalism; emphasis on the programming, production, and transmission aspects of mass media. Repeatable for credit. Junior standing, departmental approval, and placement are required to take this course.

**CO-491 Seminar in Communication**
Credits: 3

Prerequisite(s): CO-301, Senior standing, at least thirty credits in communication, and EN-102 passed with a grade of C or higher  
Term Offered: All Terms  
Course Type(s): None  
Communication as an organized body of knowledge and skills; advanced problems assigned according to the special interests of the student. For Communication majors only.

**CO-492 Interactive Storytelling with Data**
Credits: 3

Prerequisite(s): CO-211 and CO-221 or CO-222  
Term Offered: All Terms  
Course Type(s): COJPS, COJPW, COMCS, CORTP, IM  
Designed to introduce students to the world of data journalism and teach them to tell interactive stories using raw data. We will start from asking what is data journalism and how we find stories in the data. Students will learn how to acquire data from the web, normalize the data into databases and finally use software to tell engaging, interactive stories with collected data. Students will also learn how to collect data from traditional sources that aren't necessarily found online. Students are expected to complete a data-driven journalism project as part of the course. Also offered as a graduate course, CO-592.

**CO-499 Independent Study in Communication**
Credits: 3

Term Offered: All Terms  
Course Type(s): None  
Guided research on selected topics in Communication. Prior permission of the directing professor and department chair is required to take this course. Demonstrated ability in the proposed area of concentration is required to take this course.

**HU-201 Critical Discourse**
Credits: 3

Prerequisite(s): EN-102  
Term Offered: All Terms  
Course Type(s): RD  
An introduction to basic principles of clear thinking and effective argument, combined with small group discourse and collaborative problem solving.

| CO-373 | Music Promotion          |   |
| CO-376 | Radio Station Management |   |
| CO-383 | Gender, Race, and Media  |   |

### Interdisciplinary Requirements (12 credits) <sup>3</sup>

|                                                                      |                                              |   |
|----------------------------------------------------------------------|----------------------------------------------|---|
| HU-201                                                               | Critical Discourse                           | 3 |
| <i>(Satisfies Reasoned Oral Discourse (RD) in General Education)</i> |                                              |   |
| MA-105                                                               | Mathematical Modeling in the Social Sciences | 3 |
| <i>(Satisfies Mathematics in General Education)</i>                  |                                              |   |

Select 6 credits from the following:

|                                                                                          |  |  |   |
|------------------------------------------------------------------------------------------|--|--|---|
| Select 6 credits from two of the following subjects: AR, CO, EN, HS, MU, PL <sup>4</sup> |  |  | 6 |
|------------------------------------------------------------------------------------------|--|--|---|

### Free Electives (2 credits) <sup>5</sup>

|                                                    |   |
|----------------------------------------------------|---|
| Select up to 2 free elective credits. <sup>5</sup> | 2 |
|----------------------------------------------------|---|

### General Education Requirements (33 credits) <sup>6</sup>

|                                                                              |    |
|------------------------------------------------------------------------------|----|
| Complete 33 credits as outlined in the General Education table. <sup>6</sup> | 33 |
|------------------------------------------------------------------------------|----|

**Total Credits** **120**

<sup>1</sup> 33 credits above the intermediate level. In courses numbered above 300 it is presumed that the student has taken 201-202 (Intermediate) or equivalent.

<sup>2</sup> A native speaker may substitute any FS-300+ course for FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) after consultation with the Chair of the Department.

<sup>3</sup> Can substitute a minimum of 9 credits of the same foreign language other than Spanish.

<sup>4</sup> Within Interdisciplinary Requirements, specific exclusions apply for English; contact the department for guidance.

<sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Note:

- 54 credits must be completed at the 200-level or higher.

## Sequence Chart

| First Year                                                                       |           |                                                                          |           |  |

<sup>1</sup> In courses number above 300 it is presumed that the student has taken 201-202 (Intermediate) or equivalent to assure adequate communicative facility in the foreign language

<sup>2</sup> A native speaker may be exempt from taking FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) upon consultation with the Chair of the Department. The student may substitute any FS-300+ course to fulfill the three credit requirement.

<sup>3</sup> Can substitute a minimum of 9 credits in the same foreign language other than Spanish

<sup>4</sup> Other than Spanish; in addition to the General Education requirements: (i.e. Italian, German, Irish, Latin, Chinese, Arabic, French)

<sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Note

- 54 credits must be completed at the 200 level or higher.

## Sequence Chart

| <b>Total Credits</b>                                              |                                       | <b>18</b> |

## Note:

Communication Majors can share up to 3 credits; 15 credits MUST be unique.

# Criminal Justice

Chair: Nicholas Sewitch, Department of Criminal Justice

## Bachelor of Arts in Criminal Justice

The Criminal Justice major is designed to provide a balanced and comprehensive overview of the nature and structure of the criminal justice system, with particular emphasis on preparation for careers in fields such as law, juvenile justice, corrections, criminal justice administration, and law enforcement. The program also provides a solid preparation for graduate study.

**Student Honor Societies:** Alpha Pi Sigma, Omega Theta Phi Chapter, Omicron Sigma Sigma

## Bachelor of Science in Homeland Security

The Homeland Security major incorporates core homeland security competencies in the areas of counter terrorism and intelligence, emergency management, strategic planning, and collaborative partnerships. This program also prepares students for graduate study.

## Programs Majors

- B.A. in Criminal Justice (p. 117)
- B.A. in Criminal Justice with Social Work (p. 117)
- B.S. in Homeland Security (p. 118)

## Minors

- Criminal Justice (p. 119)
- Homeland Security (p. 119)

## Faculty

**Thomas Carey**, Specialist Professor. B.S., M.A., Long Island University; Ph.D., Saint John Fisher College.  
tcarey@monmouth.edu

**John Comiskey**, Associate Professor (Graduate Faculty). M.S., Naval Post Graduate School, Ed.D., St. John Fisher College. Areas of interest include homeland security, intelligence nexus to local crime, and the role of local police in national intelligence.  
jcomiske@monmouth.edu

**Giuseppe Fazari**, Assistant Professor. B.A., M.P.A., Ph.D., Seton Hall University.  
gfazari@monmouth.edu

**Megan Forney**, Associate Professor (Graduate Faculty). B.S. Psychology, Temple University; M.A., Stockton University; Ph.D., Temple University. Interests include evaluation research, juvenile delinquency, juvenile justice policy, developmental life-course theories, and the school-to-prison pipeline.  
mforney@monmouth.edu

**James Kinard**, Specialist Professor. B.A., M.A., Farleigh Dickinson University.  
jkinard@monmouth.edu

**Peter Liu**, Professor (Graduate Faculty). B.A., M.A., Jilin University, China; Ph.D., Indiana University of Pennsylvania. Areas of interest include research methods, criminology, comparative criminal justice systems,

and criminal justice organizations administration and management. Current research projects include comparative delinquency, Chinese justice system, and environmental crime.  
pliu@monmouth.edu

**Brian Lockwood**, Professor and Graduate Program Director (Graduate Faculty). B.A., The College of New Jersey; M.A., Ph.D., Temple University. Research interests include the applications of Geographic Information Systems (GIS) in the study of offending, environmental criminology, and juvenile delinquency.  
blockwoo@monmouth.edu

**Nicholas Sewitch**, Specialist Professor and Chair. B.A., Franklin and Marshall College; J.D., Seton Hall University. Areas of interest include constitutional law, criminal law, criminal procedure, use of deadly force, and criminal justice career advising.  
nsewitch@monmouth.edu

## Courses

### CJ-101 Introduction to Criminal Justice Credits: 3

Term Offered: All Terms

Course Type(s): None

Basic constitutional limitations of criminal justice; the development of law enforcement from feudal times; law enforcement agencies; and the court system as it pertains to criminal justice and corrections.

### CJ-198 Special Topics in Criminal Justice (100 Level) Credits: 1-3

Course Type(s): None

An intensive study of a particular subject or problem in criminal justice to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

### CJ-201 Police Role in the Community Credits: 3

Prerequisite(s): CJ-101 or SO-101

Term Offered: All Terms

Course Type(s): None

Community perception of police, courts, and correction; concepts of community and public relations; community control; and problems of justice associated with racial and ethnic groups.

### CJ-204 Administration and Organization in Criminal Justice Credits: 3

Term Offered: Spring Term

Course Type(s): None

Criminal justice application of organizational theory and principles: administrative process; organizational factors; management techniques; and budgetary practices.

### CJ-205 Corrections Credits: 3

Term Offered: All Terms

Course Type(s): None

Current correctional theories and practices; historical development of the correctional system.

### CJ-210 Judicial Administration Credits: 3

Prerequisite(s): CJ-101

Term Offered: Spring Term

Course Type(s): None

Management of judicial processes; administrative relationships of courts with defendants, police, prosecutors, defense counsel, bail agencies, probation officers, and correctional agencies; and grand and petit jury procedures.

**CJ-211 Statistics for Criminal Justice****Credits: 3**

Prerequisite(s): MA-105 or a higher level Math course

Term Offered: All Terms

Course Type(s): None

Introduction to the basic methodological and statistical techniques used in criminal justice; introduction to statistical terminology as variables, unit of analysis, statistical significance, measurement, correlation, causation, and hypothesis testing.

**CJ-215 Environmental Security****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The protection and security of personal, company, and public property; measures intended to safeguard against theft, damage, assault, and sabotage.

**CJ-225 Law Enforcement****Credits: 3**

Prerequisite(s): CJ-101

Term Offered: All Terms

Course Type(s): None

The origin and development of law enforcement; police strategies, organizational factors, and problems.

**CJ-230 Criminal Investigation****Credits: 3**

Prerequisite(s): CJ-101

Term Offered: Spring Term

Course Type(s): None

Introduction to the principles of criminal investigations, the rules and procedures of preliminary and follow-up investigations, the art of interrogation, recording of statements, confessions, and the collection and preservation of physical evidence at the crime scene.

**CJ-240 Professional Writing in Criminal Justice****Credits: 3**

Prerequisite(s): CJ-101; and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Designed to help students develop the writing skills necessary for a career in criminal justice. Completion and revision of various internal and external forms of communication that are commonly used by criminal justice professionals are entailed. Students are also helped to improve their outlining, proofreading, editing, and organizational skills to better communicate effectively in writing.

**CJ-241 Criminology****Credits: 3**

Prerequisite(s): CJ-101 or SO-101 or SO-102; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Explanations of the causes of property and violent offenses. Discussion of white collar, professional and organized crime, and the problem of criminal statistics. Also listed as SO-241.

**CJ-280 Introduction to Forensic Science****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Introduction to concepts of forensic science with emphasis on the recognition, identification, individualization, and evaluation of physical evidence by applying the natural sciences to law-science matters.

**CJ-288 Cooperative Education: Criminal Justice****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX2

Professional work experience in a criminal justice-related position. May be repeated for credit. Departmental approval, a minimum G.P.A. of 2.00, and completion of thirty credits is required to take this course.

**CJ-298 Special Topics in Criminal Justice (200 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in criminal justice to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CJ-299 Independent Study in Criminal Justice****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Prior permission of the directing professor and department chair is required to take this course.

**CJ-301 Crime Control in the USA, Japan, and China****Credits: 3**

Course Type(s): BI,EL, GU

A comparative approach is used to examine formal, social control mechanisms that include law, police, courts corrections, and informal, social control mechanisms that contain values, beliefs, family, workplace, school, neighborhood, and other social organizations in three societies: the USA, Japan, and China.

**CJ-305 Criminal Law****Credits: 3**

Term Offered: All Terms

Course Type(s): None

The nature, purposes, principles, and doctrine of modern criminal law; landmark cases; and important issues.

**CJ-313 The Pre-Trial Prosecution System****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSAL, SJL

The pre-trial prosecution process as a political system. The roles, attitudes, and strategies of those authorities who allocate values within the system are examined. Also listed as PS-313. PS majors register for PS-313.

**CJ-315 Research Methods****Credits: 3**

Prerequisite(s): CJ-211 or MA-151, CJ-241 and EN-101 and EN-102

Term Offered: All Terms

Course Type(s): WT

Introduces students to the principles of scientific research in criminal justice and homeland security. It begins with a description of the importance of research by criminal justice and homeland security organizations and moves toward the tenets of sound research practices, including: the formulation of a research question, developing a hypothesis, collecting data, measurement, analysis, and evaluation. Special attention is devoted to practical, ethical, and political issues that can arise when conducting research. Also listed as HLS-315.

**CJ-317 Law of Evidence****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The history and development of the rules of evidence, including relevancy and materiality, competency, burden of proof, direct and circumstantial, examination of witnesses, hearsay rule, unconstitutionally obtained, and presenting and collecting.

**CJ-325 Criminal Procedure****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Examination of the criminal justice process and underlying public policy considerations.

**CJ-330 Crisis Intervention****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Practical everyday handling techniques for intervention in such crises as suicide, emotional disturbance, and family conflicts; theory and research pertaining to intervention in life-stress situations. Attempts to raise the student's level of empathy and interpersonal sensitivity via role playing and self-reflection.

**CJ-332 Advanced Police Administration****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Advanced supervisory and managerial practices, analysis of policy formulation, decision-making, budgeting, planning, and innovative administrative procedures.

**CJ-335 Juvenile Justice****Credits: 3**

Prerequisite(s): CJ-101 or SO-101 or SO-102

Term Offered: All Terms

Course Type(s): None

Introduction to the area of juvenile justice; the juvenile court; a review of juvenile justice procedures; the interaction of police and juveniles; dispositional alternatives; and delinquency prevention programs.

**CJ-340 The American Penal System****Credits: 3**

Prerequisite(s): CJ-205

Term Offered: All Terms

Course Type(s): None

History, philosophy, and organizational structure of the correctional system in the United States, including issues of race, gender, and morality.

**CJ-341 Occupational Crime****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Economic and fiscal implications of white-collar and blue-collar crime; definitions, explanations, control strategies, enforcement techniques, and the role of the criminal justice system.

**CJ-350 Ethical Issues in Criminal Justice****Credits: 3**

Prerequisite(s): CJ-101, and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): None

Explore various ethical issues inherent in policing, courts, and correctional work. Address ethical standards in social-science research and political correctness.

**CJ-351 Sentencing Practices****Credits: 3**

Prerequisite(s): CJ-101 and CJ-205

Term Offered: Spring Term

Course Type(s): None

History, philosophy, and rationale behind past and present sentencing schemes: the indeterminate and determinate sentences; the death penalty; and non-custodial sentences.

**CJ-359 Crime Prevention and Control****Credits: 3**

Prerequisite(s): 6 credits in Sociology or 6 credits in Criminal Justice

Term Offered: Spring Term

Course Type(s): None

Problems in the definition of crime; crime prevention as a social movement; and review and evaluation of major models of crime prevention and control.

**CJ-360 Comparative Criminal Justice Systems****Credits: 3**

Prerequisite(s): CJ-101

Term Offered: Spring Term

Course Type(s): None

Comparison of selected foreign justice systems with that of the United States.

**CJ-362 Community-Based Corrections****Credits: 3**

Prerequisite(s): CJ-101 or SW-105, and CJ-205

Term Offered: Spring Term

Course Type(s): None

Methods for dealing with the offender in the community; probation, parole, residential treatment, restitution, and the evaluation of each.

**CJ-365 Forensic Pathology****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Introduction to the concepts of forensic pathology with an emphasis on the recognition and interpretation of diseases and injuries in the human body that is the basis for medico legal investigations.

**CJ-370 Institutional Treatment of the Offender****Credits: 3**

Prerequisite(s): CJ-205, and either CJ-101 or SW-105

Term Offered: Spring Term

Course Type(s): None

Strategies employed in providing treatment and support services to the inmate; physical, psychological, and social environmental factors.

**CJ-375 Internship in Criminal Justice****Credits: 3**

Prerequisite(s): CJ-101 or HLS-101, EN-101, EN-102, and permission of the instructor

Term Offered: All Terms

Course Type(s): CJHLS, EX1, WT

Provides practical experiences in the administration of criminal justice and homeland security through assignments to criminal justice and homeland security agencies under the joint-supervision of agency officials and Monmouth University instructors. Course assignments include a resume and cover letter application for an internship; journaling of real-world professional experiences; and the evaluation of criminal justice/homeland security policies and practices.

**CJ-380 Forensic Psychology****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Criminal personalities in relationship to specific crimes; exposure to techniques of interviewing and interrogating these criminals.

**CJ-384 Crime Scene Investigation****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Understanding the nature of crime scene investigation and the basic principles necessary for a successful investigative outcome.

**CJ-386 Technology Crime****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Understanding the nature of technology crimes in terms of criminal investigation and collection of electronic evidence.

**CJ-387 Arson and Bomb Investigation****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Introduction to concepts of arson/bomb investigation with emphasis on reconstruction origin and cause analysis.

**CJ-388 Cooperative Education: Criminal Justice****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX2

Professional work experience in a criminal justice-related position. May be repeated for credit. Departmental approval, a minimum G.P.A. of 2.00, and completion of thirty credits is required to take this course.

**CJ-390 Forensic Science I****Credits: 4**

Course Type(s): None

Designed to explain the concepts of recognition, identification, individualization, and evaluation of physical evidence by application of basic scientific principles used in the practice of forensic science.

**CJ-391 Forensic Science II****Credits: 4**

Prerequisite(s): CJ-390

Course Type(s): None

Designed to explain the concepts of recognition, identification, individualization, and evaluation of physical evidence, such as blood and semen, firearms, gunshot residue, fire debris, and explosions, in the context of real-world situations.

**CJ-398 Special Topics in Criminal Justice (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in criminal justice to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CJ-399 Independent Study Criminal Justice****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Prior permission of the directing professor and department chair is required to take this course.

**CJ-401 Special Problems in Law Enforcement****Credits: 3**

Prerequisite(s): 9 credits in Criminal Justice

Term Offered: Spring Term

Course Type(s): None

Special problems that are not encountered in normal daily activities of police departments, including riots and emergency service functions, such as fire scenes, lost children, and crime prevention.

**CJ-402 Field Research in Criminal Justice****Credits: 3**

Prerequisite(s): 18 credits in Criminal Justice and permission of the coordinator

Course Type(s): None

Study, research, and specific projects in criminal justice under the supervision of a Criminal Justice faculty member; a written report is required.

**CJ-480 Criminal Justice Research Project****Credits: 3**

Prerequisite(s): CJ-315, Junior or Senior standing, and permission of the instructor and department chair

Course Type(s): None

Active participation in a research project chosen by and currently being pursued by the faculty sponsor. Student activities may include but are not limited to: literature search, data collection, data analysis, and preparation of a manuscript.

**CJ-488 Cooperative Education: Criminal Justice****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX2

Professional work experience in a criminal justice-related position. Departmental approval, a minimum G.P.A. of 2.00, and completion of thirty credits is required to take this course.

**CJ-489 Internship in Criminal Justice II****Credits: 1-3**

Course Type(s): EX1

Directed individual study of Criminal Justice in areas of special interest. Junior standing or higher is required to take this course. Departmental approval is required to take this course.

**CJ-490 Seminar in Criminal Justice****Credits: 4**

Prerequisite(s): CJ-315 and Senior standing in Criminal Justice

Term Offered: All Terms

Course Type(s): CJHLS

Selected topics in criminal justice; presentation and discussion of a research paper. Homeland Security majors should register for HLS-490.

**CJ-498 Special Topics in Criminal Justice (400 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in criminal justice to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CJ-499 Independent Study in Criminal Justice****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Senior standing, a minimum G.P.A. of 2.50 and prior permission of the directing professor and department chair is required to take this course.

**HLS-101 Introduction to Homeland Security****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Introduction to the fundamental components of homeland security. The course examines historic events that shaped homeland security policy and practice, as well as providing students with an understanding of the interdisciplinary, interagency, interjurisdictional, and all-hazards nature of homeland security. Homeland security hazards include adversarial/human caused threats (terrorism, crime), natural threats (hurricanes, tornadoes, earthquakes, storms), and technological/accidental threats (industrial/transportation). Homeland security policies and practices endeavor to prevent, mitigate, respond to, and help the Nation recover from all hazards.

**HLS-199 Independent Study in Homeland Security****Credits: 3**

Term Offered: Summer Term

Course Type(s): None

Independent study on a Homeland Security topic not substantially treated in a regular course. Prior permission of the directing professor and department chair is required to register for this course.

**HLS-235 GIS Applications in Homeland Security****Credits: 3**

Prerequisite(s): GIS-224

Term Offered: All Terms

Course Type(s): None

Introduces students to the basic theories in Geographic Information Systems (GIS). Provides students with a hands-on practical approach to analyze homeland security related data. Students will develop a skill set to map homeland security data and perform spatial analytical tasks. Also listed as GIS-235.

**HLS-245 Strategic Security Management****Credits: 3**

Prerequisite(s): HLS-101

Term Offered: All Terms

Course Type(s): None

Analysis of the post-September 11, 2001 strategic security environment. The course focuses on threat and vulnerability assessments, and the use of data to drive security strategy. Students will assess and evaluate current and evolving business practices to protect private sector and government architecture and critical infrastructure assets. The course explores current and evolving security technology, techniques, procedures, and risk-based resource allocation of personnel and security-technologies.

**HLS-285 Domestic and International Terrorism****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Provides students with an in-depth examination of terrorism and its implications for society. Examines terrorist ideologies, motivations, goals, strategies, and tactics. Focuses on issues related to the operational and organizational dynamics of terrorist organizations, state and political terrorism, religious-motivated terrorism, domestic terrorism, the relationship between the media and terrorism, terrorist tactics and targeting, and counter-terrorism methodologies.

**HLS-286 Principles of Emergency Management****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Introduces students to the background components and systems involved in the management of disasters and other emergencies. Focusing on the United States, the course will illustrate current practices, strategies and key players involved in emergency management.

**HLS-287 Theoretical Approaches to Homeland Security****Credits: 3**

Prerequisite(s): HLS-101, HLS-285, HLS-286, EN-101, and EN-102

Term Offered: All Terms

Course Type(s): WT

Examines the various theories that describe, explain, predict, and judge the causes of terrorism and crime, as well as the behaviors associated with natural, technological/ accidental, and adversarial/human caused disasters. Topical issues include terrorism, transnational crime, extreme weather, and emergent threats including climate, economic, energy, environmental, food, human, technology, and water security.

**HLS-298 Special Topics in Homeland Security****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

An intensive study of a particular subject or problem in Homeland Security to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**HLS-299 Introduction to Homeland Security****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent study on a Homeland Security topic not substantially treated in a regular course. Prior permission of the directing professor and department chair is required to register for this course.

**HLS-301 Homeland Security Intelligence****Credits: 3**

Prerequisite(s): EN-101, EN-102, and HLS-101

Term Offered: All Terms

Course Type(s): WT

Examines the role of intelligence in homeland security policy and practice. The course focuses on the duties and responsibilities of intelligence collectors, analysts, and policy makers in the intelligence cycle. Topical issues include intelligence policy, law and ethics; threat and vulnerability assessments; and interagency information-sharing processes.

**HLS-302 Advanced Homeland Security Intelligence****Credits: 3**

Prerequisite(s): HLS-301

Term Offered: Summer Term

Course Type(s): None

Examines the role of strategic intelligence in homeland security policy and practice. The course focuses on intelligence methodologies that bring a broad range of information to bear on difficult strategic questions, select that information which is most significant, and then tailor the information for decision makers. The course will examine recent terrorist attacks and other events with strategic implications as well as projected future threats.

**HLS-303 Open Source Intelligence****Credits: 3**

Prerequisite(s): HLS-301

Term Offered: Spring Term

Course Type(s): None

Open source intelligence is publically available information including academic and trade publications, court documents, news sources, business websites, and social networks, forums, and blogs that are collected, evaluated, and disseminated in a timely manner for the purposes of addressing specific intelligence requirements. The course examines the rapidly evolving open-source information landscape and the implications for U.S. homeland security. Students will apply the tenets of open-source intelligence to current homeland security issues.

**HLS-310 Transport Security****Credits: 3**

Prerequisite(s): HLS-101

Term Offered: All Terms

Course Type(s): None

Examines transportation security issues in the homeland security era. The course examines topics associated with the security of aircraft, airports, bridges, roadways, seaports, vehicles, trains, train stations, vessels, tunnels, waterways, and utilities (cable lines, telephone lines, pipelines, and powerlines), as well as border security, hazardous material risks, intermodal transportation, and supply chain resilience. The course also examines technological solutions employed to enhance transportation security.

**HLS-315 Homeland Security Research Methods****Credits: 3**

Prerequisite(s): CJ-211 or MA-151, EN-101 and EN-102

Term Offered: All Terms

Course Type(s): WT

Introduces students to the principles of scientific research in criminal justice. It begins with a description of the importance of research by criminal justice and homeland security organizations and moves toward the tenets of sound research practices, including: the formulation or a research question, developing a hypothesis, collecting data, measurement, analysis, and evaluation. Special attention is devoted to practical, ethical, and political issues that can arise when conducting research. Also listed as CJ-315.

**HLS-320 Critical Infrastructure Security****Credits: 3**

Prerequisite(s): HLS-101

Term Offered: All Terms

Course Type(s): None

Introduces students to the identification and protection of the Nation's sixteen critical infrastructure sectors, and their roles in homeland security. The course examines the roles of government and the private sector in identifying, mitigating, and protecting critical infrastructure from all-hazards. The course focuses on risk-based implementation of protective measures and practices.

**HLS-335 Advanced Geographic Information Systems and Homeland Security****Credits: 3**

Prerequisite(s): HLS-235 or GIS-235

Term Offered: Spring Term

Course Type(s): None

Students will build upon the skills and information learned in HLS-235 Geographical Information Systems and Homeland Security to demonstrate advanced techniques in the analysis of spatial data to help the homeland security enterprise prevent, mitigate, respond to, and recover from intentional, natural, and accidental threats. Also listed as GIS-335.

**HLS-375 Homeland Security Internship****Credits: 3**

Prerequisite(s): CJ-101 or HLS-101, EN-101, EN-102 and permission of the instructor

Term Offered: All Terms

Course Type(s): CJHLS, EX1, WT

Provides practical experiences in the administration of criminal justice and homeland security through assignments to criminal justice and homeland security agencies under the joint-supervision of agency officials and Monmouth University instructors. Course assignments include a resume and cover letter application for an internship; journaling of real-world professional experiences; and the evaluation of criminal justice/homeland security policies and practices.

**HLS-385 Cyber Security****Credits: 3**

Prerequisite(s): HLS-101

Term Offered: All Terms

Course Type(s): None

The internet and cyber technologies have created unparalleled opportunities for commerce, education, entertainment, and public discourse. Accompanying these opportunities are unprecedented criminal and terrorist threats. This course examines security issues related to securing the cyber space including information infrastructure maintenance, information assurance, continuity planning, cybercrime, cyber terrorism, privacy, and emerging technologies.

**HLS-386 Emergency Management Planning****Credits: 3**

Prerequisite(s): HLS-286

Term Offered: Spring Term

Course Type(s): CJHLS

This course provides students with a comprehensive overview of emergency management planning. The course examines the multifaceted inter-agency participatory processes inherent to emergency management planning and provides students with the opportunity to develop emergency operations plans with fellow students. Topical issues include the four phases of emergency management, continuity of operations planning (COOP), hazard vulnerability assessment, and business continuity.

**HLS-387 Emergency Management Table-Top Exercises****Credits: 3**

Prerequisite(s): HLS-286

Term Offered: Fall Term

Course Type(s): CJHLS

This course provides a comprehensive overview of emergency management scenario and exercises planning. The course focuses on the National Preparedness System and stakeholder preparedness. Topical issues include table-top exercises, field-exercises, computer generated simulations, assessment, preparedness, core capabilities, and media relations.

**HLS-398 Special Topics in Homeland Security****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in homeland security to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**HLS-399 Independent Study in Homeland Security****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent study on a Homeland Security topic not substantially treated in a regular course. Prior permission of the directing professor and department chair is required to take this course.

**HLS-489 Internship in Homeland Security****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX1

Supervised practical experience in homeland security. Repeatable for credit. Junior standing, departmental approval, and placement are required to register for this course.

**HLS-490 Senior Research Project in Homeland Security****Credits: 4**

Prerequisite(s): CJ-315 or HLS-315 and Senior standing

Term Offered: All Terms

Course Type(s): CJHLS

Provide the student with an opportunity to complete a senior thesis in the area of homeland security. By exploring and analyzing the practical as well as theoretical problems, the student will be able to recommend changes with homeland security based upon empirical study. Criminal Justice majors should register for CJ-490.

**HLS-498 Special Topics in Homeland Security****Credits: 1-3**

Prerequisite(s): HLS-385 or CS-104

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in homeland security to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis.

**HLS-499 Independent Study in Homeland Security****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent study on a Homeland Security topic not substantially treated in a regular course. Prior permission of the directing professor and department chair is required to register for this course.

| Select 29 or more credits of free electives <sup>1</sup>                     |                                                                            | 29         |
| <b>General Education Requirements (42 credits) <sup>2</sup></b>              |                                                                            |            |
| Complete 42 credits as outlined on the General Education table. <sup>2</sup> |                                                                            | 42         |
| <b>Total Credits</b>                                                         |                                                                            | <b>120</b> |

<sup>1</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>2</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.

## English

Chair: John P Hanly, Department of English  
Undergraduate Program Coordinator: Jeffrey Jackson  
Graduate Program Director: Mihaela Moscaliuc

The major in English is designed to serve various needs within the framework of traditional literary study, creative writing, and rhetoric. Sensitivity to texts and the attendant skills in writing and analysis are useful for a wide range of careers in today's changing workplace, including careers in law, teaching, editing, journalism, freelance writing, government service, marketing, management, and business. Combining the major with another minor is encouraged.

**Departmental Honors** will be earned based on the following criteria being met:

- An overall GPA of at least 3.3
- A major GPA of at least 3.5
- Fulfillment of the intermediate-level language requirement for English majors
- Two courses beyond those required for the English major as follows:
  1. complete one course from list of EN 300-400 courses chosen with thesis advisor
  2. complete a second course as an independent study/senior thesis with a grade of "B" or better

**Student Honor Society: Sigma Tau Delta, Delta Chapter**

## Programs Majors

- B.A. in English (p. 128)
- B.A. in English with Concentration in Creative Writing (p. 131)
- B.A. in English and Education with Endorsement in Elementary Education (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/english/english-education-endorsement-elementary-education/>)
- B.A. in English and Education with Endorsement in Secondary Education (p. 129)
- B.A. in English and Education with Endorsements in P-3 and Teacher of Students with Disabilities (p. 130)
- B.A. in English with a Concentration in Creative Writing and Education with Endorsement in Elementary Education (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/english/english-ba-concentration-creative-writing-education-endorsement-elementary-education-english/>)
- B.A. in English with a Concentration in Creative Writing and Education with Endorsement in Secondary Education in English (p. 132)
- B.A. in English with a Concentration in Creative Writing and Education with Endorsements in P-3 and Teacher of Students with Disabilities (p. 134)

## Minors

- Creative Writing (p. 135)
- English (p. 135)

- Irish Studies (p. 135)
- Professional Writing (p. 136)

## Faculty

**Noel C. Belinski**, Lecturer. B.A., Barnard College of Columbia University; M.A.T., Monmouth University. Specialties are composition pedagogy and General Education literature courses.  
nbelinsk@monmouth.edu

**Brittany Biesiada**, Lecturer. B.A., Seton Hall University; M.A., Columbia University; Ph.D., Purdue University.  
bbiesiad@monmouth.edu

**Stanley S. Blair**, Associate Professor. B.A., Gardner-Webb College; M.A., Marquette; Ph.D., Duke University. Specialty is American literature. Other interests are New Jersey literature, poetry, history of rhetoric, and popular culture.  
sblair@monmouth.edu

**Kristin Bluemel**, Professor and Wayne D. McMurray-Helen Bennett Endowed Chair in the Humanities (Graduate Faculty). Interim Associate Dean, School of Humanities and Social Sciences. B.A., Wesleyan University; M.A., Ph.D., Rutgers University. Specialty is twentieth-century British literature. Additional interests include literary criticism and theory, the novel, children's literature, World War II and the end of empire, and book history.  
kbluemel@monmouth.edu

**Frank Fury**, Senior Lecturer. Director of Writing Services. B.A., Boston College; Ph.D., Drew University. Specialty is nineteenth- and twentieth-century American literature with particular emphasis on representations of sport in American culture. Additional interests include the short story and Shakespeare.  
ffury@monmouth.edu

**Elizabeth Gilmartin-Keating**, Senior Lecturer and Career Advising Mentor. B.A., Georgian Court College; M.A., Seton Hall University; Ph.D., New York University. Areas of interest include the Irish language and Victorian Ireland. Coordinator of the Irish Studies Minor.  
egilmart@monmouth.edu

**Susan M. Goulding**, Associate Professor (Graduate Faculty). B.A., M.A., Adelphi University; Ph.D., New York University. Specialties are eighteenth-century British literature, women's studies, British history, and reception history.  
goulding@monmouth.edu

**Alena Graedon**, Associate Professor (Graduate Faculty). M.F.A., Columbia School of the Arts. Specialty is creative writing, fiction, with an emphasis on speculative fiction.  
agraedon@monmouth.edu

**John P. Hanly**, Associate Professor and Chair (Graduate Faculty). B.A., Georgetown College; M.A., University of Chicago; Ph.D., University of Louisville. Areas of specialty include composition theory and ethics.  
jphanly@monmouth.edu

**Jennifer Harpootlian**, Lecturer. B.A., Georgian Court University; M.A., Seton Hall University. Areas of specialty are composition pedagogy, and Romantic and Victorian Literature.  
jmantle@monmouth.edu

**Jeffrey Jackson**, Associate Professor (Graduate Faculty). B.A., Linfield College; M.A., Portland State University. Ph.D., Rice University. Areas of specialty include nineteenth-century British Romantic and Victorian literature.  
jejackso@monmouth.edu

**Lynn Kraemer-Siracusa**, Lecturer. B.A., M.A., Seton Hall University; Ed.D., Rowan University. Specialty is composition pedagogy.  
lsiracus@monmouth.edu

**Patrick Love**, Associate Professor and Associate Director First Year Composition (Graduate Faculty). B.A., Western Michigan University; M.A., Ph.D., Purdue University. Research interests include Rhetoric and Composition, Professional and Technical Writing, Digital Rhetoric and Game Studies, Writing Program Administration and Writing Across the Curriculum.  
plove@monmouth.edu

**Mihaela Moscaliuc**, Professor and Graduate Program Director (Graduate Faculty). B.A., M.A., A.I.I. Cuza University; M.A., Salisbury University; M.F.A., New England College; Ph.D., University of Maryland. Areas of specialty include immigrant literature, postcolonial studies, translational studies, and poetry writing.  
mmoscali@monmouth.edu

**Linda Sacks**, Lecturer. M.A.T., Monmouth University. Specialty is composition pedagogy.  
lsacks@monmouth.edu

**Abha Sood**, Senior Lecturer. B.A., M.A., University of Delhi; Ph.D., Indian Institute of Technology. Areas of interest include twentieth-century American fiction, popular literature, and Victorian literature.  
apatel@monmouth.edu

**Sue Starke**, Associate Professor and Undergraduate Program Coordinator (Graduate Faculty). B.A., Wellesley College; Ph.D., Rutgers University. Specialties are Renaissance literature and culture, medieval literature, and genre theory.  
sstarke@monmouth.edu

**Beth S. Swanson**, Lecturer. B.A., Monmouth University; M.A., M.A.T., Monmouth University.  
bswanson@monmouth.edu

**Joseph Torchia**, Lecturer. B.A., M.A., Rutgers University. Student-teacher power sharing in the composition classroom. The (in)balance of logic and emotion in our everyday speech and commonly used phrases.  
jtorchia@monmouth.edu

**John Vercher**, Assistant Professor. B.A., M.A., University of Pittsburgh.  
jvercher@monmouth.edu

**Lisa Vetere**, Associate Professor and Department Advising Coordinator. B.A., Siena College; M.A., St. Bonaventure University; Ph.D., Lehigh University. Specialty is Antebellum American literature and culture, with an emphasis on cultural studies and feminist and psychoanalytical theory.  
lvetere@monmouth.edu

**Kenneth Womack**, (Graduate Faculty). B.A., Texas AM University; M.A., Texas AM University/Moscow Institute of Communication, U.S.S.R.; Ph.D., Northern Illinois University.  
kwomack@monmouth.edu

**Courtney Wright-Werner**, Associate Professor and Associate Director of First Year Composition (Graduate Faculty). B.A., Moravian College and Theological Seminary; M.A., Texas State University; Ph.D., Kent State University. Specialties are composition and rhetoric, new media, and multi-modal learning.  
cwerner@monmouth.edu

## Courses

### EN-100 Writing Workshop Credits: 3

Term Offered: Summer Term

Course Type(s): None

Development of skills useful for essay writing; opportunity to write in other forms; and projects to fit individual student needs. Offered in summer only; restricted to EOF students.

### EN-101 College Composition I Credits: 3

Term Offered: All Terms

Course Type(s): None

A college-level writing course designed to prepare students to make the transition from high school to college by familiarizing them with the standards for academic writing they will encounter throughout their educational and professional careers. Students will gain intense experience in writing academic prose that demonstrates knowledge, understanding, analysis, and application of ideas from a variety of progressively sophisticated and interrelated texts.

### EN-102 College Composition II Credits: 3

Prerequisite(s): EN-101

Term Offered: All Terms

Course Type(s): None

Reinforces and expands the reading and writing activities taught in English 101 (academic writing demonstrating knowledge, understanding, analysis, and application of ideas). In addition to sustaining what has already been learned in other writing courses, EN 102 focuses on the academic "research" essay as a fundamental written form needed across the disciplines.

### EN-201 Literature I: Ancient Through Renaissance Credits: 3

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Works from the Ancient, Medieval, and Renaissance periods.

### EN-202 Literature II: Neoclassical to the Present Credits: 3

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Works from the Renaissance to the present.

### EN-209 Literature and the Environment Credits: 3

Course Type(s): LIT

Ecocriticism, also called environmental criticism, examines the ways in which literary texts represent the natural world and human relationships with it. This course examines literary works from the pre-modern period through the twenty-first century, from anglophone and other traditions, to investigate how they represent natural and constructed environments, humans and non-human animals, how humans have interacted with the environment, and how constructed human categories such as race, gender, religion, and disability interact with various environments.

**EN-211 Environment and Pre-Modern Literature****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Environmental criticism, sometimes called "ecocriticism", examines the ways in which literary texts represent the natural world and human relationships with it. Looks at several works from the Ancient and Medieval periods, considering how people from different times and places before the modern era think about "nature" and natural resources.

**EN-212 Literature of Oppression****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): ADS, LIT

Selected works of the eighteenth, nineteenth, and twentieth centuries are covered, with attention to representations of oppression as displayed in slavery, colonialism, imperialism, and post-colonial responses.

**EN-213 Tragedy and the Tragic****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Explores the nature of literary tragedy by having students consider the conventions of both classical and Shakespearean tragedy and decide whether literary narratives that are merely sad - particularly those in contemporary times and from genres other than drama - may similarly be termed "tragedy".

**EN-214 The Irish: Home and Abroad****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

A comparison of the Irish epic *The Tain* to *The Odyssey* and exploration of the literature and culture of Ireland and the Irish diaspora, which may include writers of Irish descent from Canada, the U.S., Australia, South America, and other parts of the world.

**EN-215 Vampire Literature: Bite Me****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Literature about vampires starting with nineteenth-century European texts and moving into the twentieth and twenty-first centuries in the Americas. These texts involve themes of vampirism representative to cultural, ethical, and political issues for their times.

**EN-216 Illness in Literature****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): HE.EL, HEPE, LIT

An examination of illness in literature.

**EN-217 Rebirth in Comedy****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): LIT

Selected texts of the tradition of comedy, from Ancient Greece to the present, including plays, novels, and movies.

**EN-218 Here Be Dragons: Heroic Journeys****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Explores representative heroic journeys in literature. These heroes follow an archetypal path outlined by mythologist Joseph Campbell. The diverse heroes arrive to understand and engage ethical, moral, political, gender, social, economic, and ethnic challenges. They must learn to develop beyond their limitations and flaws in order to face the dragon, danger and evil, and to lead and save a people, place, and/or idea.

**EN-219 Science Fiction****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or equivalent

Term Offered: Spring Term

Course Type(s): LIT

This LIT course on the literature of Science Fiction (SF) from works that were written between the mid-nineteenth century and the late twentieth. As a uniquely modern form of literature, it is important to contextualize the genre historically, politically, and culturally, as it reflects attitudes about science, progress, and the human condition that dominated at the time the works were written and, often, provide clues to cultural orientations that persist to this day. We will examine both SF short stories and novels to more clearly understand how this genre of literature has become one of the most popular forms of social commentary on the past, present, and future of humanity.

**EN-220 Literature of the Sea****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Literature of the sea since the Enlightenment with major texts representing diverse nations and global contexts.

**EN-221 Literature and the Environment****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT, OL

Ecocriticism, also called environmental criticism, examines the ways in which literary texts represent the natural world and human relationships with it. This course examines literary works from the pre-modern period through the twenty-first century, from anglophone and other traditions, to investigate how they represent natural and constructed environments, humans and non-human animals, how humans have interacted with the environment, and how constructed human categories such as race, gender, religion, and disability interact with various environments.

**EN-222 Superheroes: Echoes of Epic****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Close reading and analysis of narratives based on epic myths from Ancient through Contemporary periods in order to develop students' critical judgement of the texts and their knowledge of relevant historical, aesthetic, cultural, and ethical backgrounds. Development of writing and research abilities, building on skills learned in EN-101 and EN-102 (prerequisites) This course fulfills the General Education LIT requirement.

**EN-223 The Campus Novel****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Explores literature depicting the college experience, campus life, and scholarly pursuits. Novels, short stories, and plays from the early 20th century to the present will be considered, as well as essays on campus related issues and controversies.

**EN-224 Ghost Stories and Other Haunting Tales****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Close reading and analysis of ghost stories from ancient through contemporary periods in order to develop students' critical judgement of the texts and their knowledge of relevant historical, aesthetic, cultural, and ethical backgrounds. Development of writing and research abilities, building on skills learned in EN-101 and EN-102.

**EN-225 Legal Fictions: Literature and the Law****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): LIT

Close reading and analysis of literary narratives about the law and justice from Ancient through Contemporary periods in order to develop students' critical judgment of the texts and their knowledge of relevant historical, aesthetic, cultural, and ethical backgrounds. Development of writing and research abilities, building on skills learned in EN-101 and EN-102 (prerequisites). This course fulfills the General Education LIT requirement.

**EN-226 Literary Studies for English Majors****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

An introduction to literary studies. Close study of representative texts in fiction, poetry, drama, the essay, and literary theory and criticism; writing of analytical essays, integrating close reading of text with theoretical critical approaches.

**EN-227 Foundations of British Literature****Credits: 3**

Prerequisite(s): EN-101 and EN-102; or permission of the instructor

Term Offered: All Terms

Course Type(s): LIT, ENCWU

A British and Irish literature survey from the Middle Ages through the late eighteenth century, emphasizing close analysis of texts and fundamental approaches to critical writing.

**EN-228 Foundations of American Literature****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): LIT, ENCWU

An American literature survey from the Colonial period to the Civil War, emphasizing fundamental critical terms and concepts and the use of writing to explore relationships between literature and criticism.

**EN-229 Non-European Literature in English****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): GU, LIT, ENCWU

Survey of national literature from the non-western, non-European world. Literary analysis and class reading of selected prose, poetry and dramatic literature.

**EN-251 Creative Writing: Introduction****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): None

Students analyze in a workshop setting readings in two or more genres of literature (poetry, fiction, drama, non-fiction) to observe techniques in craft, and present their own creative writings for intensive examination by workshop participants.

**EN-252 Creative Writing: Fiction****Credits: 3**

Prerequisite(s): EN-251 or permission of the instructor

Term Offered: All Terms

Course Type(s): ENCWU

Short-story writing with critiques. This course is repeatable once for credit, with departmental permission.

**EN-253 Creative Writing: Poetry****Credits: 3**

Prerequisite(s): EN-251 or permission of the instructor

Term Offered: Spring Term

Course Type(s): ENCWU

Experiment with a variety of verse forms and techniques for the purpose of developing creativity and deepening the appreciation of poetry. Repeatable once for credit, with departmental permission.

**EN-254 Creative Writing: Drama****Credits: 3**

Prerequisite(s): EN-251 or permission of the instructor

Term Offered: All Terms

Course Type(s): ENCWU

The writing of one-act plays; development of comic and dramatic techniques. Repeatable once for credit with departmental permission.

**EN-255 Creative Writing: Non-Fiction****Credits: 3**

Prerequisite(s): EN-251 or permission of the instructor

Term Offered: Spring Term

Course Type(s): ENCWU

Development of advanced writing skills to explore a variety of personal essay forms, such as the memoir, travel writing, and the lyric essay. Repeatable once for credit, with departmental permission.

**EN-271 Professional Writing****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): TL

An advanced writing workshop introducing the rhetorical principles and writing practices necessary for producing appropriate workplace writing; emphasis on a wide range of audiences, genres, ethical issues and contexts that professional writers commonly encounter.

**EN-298 Special Topics in English (200 Level)****Credits: 1-3**

Prerequisite(s): EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in English to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis.

**EN-299 Independent Study in English****Credits: 3**

Prerequisite(s): EN-101 and EN-102, three credits from any course with a designation of LIT, and permission of the instructor

Term Offered: All Terms

Course Type(s): None

Independent Study in English: Reading, writing, and research on a selected topic under the direction of an English department faculty member. For the CW or any of the Writing Minors, development of a major writing project under the guidance of a faculty member.

**EN-305 Shakespeare I****Credits: 3**

Prerequisite(s): EN-101 and EN-102, and three credits from any course with a course designation of LIT

Term Offered: All Terms

Course Type(s): WT

Shakespeare's life and times; theatrical conventions of the Elizabethan stage; close reading of dramatic poetry in representative early comedies, histories and tragedies.

**EN-306 Shakespeare II****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): WT

Shakespeare's life and times, his dramatic technique, and the conventions of the Elizabethan stage, with emphasis on the later tragedies and romances.

**EN-307 Middle English Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Fall Term

Course Type(s): None

Arthurian legends, dream visions, and the beginnings of English drama, from the twelfth through fifteenth centuries, in translation or in Middle English.

**EN-309 Renaissance in England****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

Poetry, prose, and drama from the reign of Elizabeth I through the Protectorate, excluding Shakespeare. Authors may include: Spenser, Marlowe, Webster, Sidney, Bacon, Donne, Milton, and Marvell.

**EN-310 Restoration and Augustan Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: All Terms

Course Type(s): None

Survey of British poetry, prose and drama from the Restoration to the late eighteenth century, with special attention to genre and the development of the novel. Authors may include: Behn, Defoe, Swift, Pope, Johnson, Burney, Gray, Leapor, Austen, and Cowper.

**EN-312 British Romantic Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: All Terms

Course Type(s): None

The romantic involvement with self, including major poets and prose writers from Blake through Shelley.

**EN-315 British Victorian Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

The post-romantic literature of crisis among the Victorians. Authors may include: Carlyle, Tennyson, the Brontes, and Browning.

**EN-316 Modern British and Irish Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

British and Irish writers from the 1890's through the Second World War, including W.B. Yeats, James Joyce, Virginia Woolf, and Stevie Smith.

**EN-318 Contemporary British and Irish Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

British and Irish writers since the Second World War, including Samuel Beckett, Philip Larkin, and Seamus Heaney.

**EN-319 Modern and Contemporary Irish Drama****Credits: 3**

Prerequisite(s): EN-101, EN-102, and 3 credits from any course with a course type of LIT.

Course Type(s): None

A study of Irish drama from the turn of the twentieth century to the present day. Authors may include Yeats, O'Casey, Beckett, and McPherson.

**EN-324 Literature of Colonial America****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: All Terms

Course Type(s): None

Major genres, texts, and narratives of the early Americas, from exploration and conquest to colonization. May include Native American narrative and poetry as well as the following writers: Cabeza de Vaca, John Smith, Mary Rowlandson, William Bradford, Anne Bradstreet, Jonathan Edwards, Edward Taylor, Benjamin Franklin, William Byrd, and Sarah Kemble Knight.

**EN-327 Mid-Nineteenth Century American Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: All Terms

Course Type(s): None

Literature of the United States from the rise of transcendentalism to the Civil War. Authors may include: Poe, Emerson, Thoreau, Whitman, Stowe, Douglass, Melville, and Hawthorne.

**EN-329 American Realism****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

American literature from 1870 to 1910, emphasizing developments in realistic fiction and poetry.

**EN-331 Twentieth Century African American Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: All Terms

Course Type(s): ADS

An overview of African American poetry, drama, fiction and non-fiction in the context of the Harlem Renaissance, the Civil Rights movement, the African American feminist movement, and the new African American Renaissance, while considering the contemporary events and literary movements that affected the writers. Authors include McKay, Hurston, Hughes, Baldwin, Morrison, Walker, Angelou, Wilson.

**EN-332 Modern American Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

American writers from World War I to World War II, including Willa Cather, William Faulkner, Robert Frost, and Richard Wright.

**EN-334 Contemporary American Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Spring Term

Course Type(s): None

American writers from World War II to the present, including Arthur Miller, James Baldwin, John Updike, and Elizabeth Bishop.

**EN-342 Children's and Young Adult Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102 and three credits from any course with a course type of LIT

Term Offered: All Terms

Course Type(s): WT

Examines contemporary chapter books, pre-adolescent illustrated texts, and young adult literature, including realism, fantasy, and science fiction, as well as poetry. Through an exploration of representative authors, works, genres, and criticism, the course emphasizes trends and developments in literature written for children and youth. An introduction to basic bibliographic tools and review media is included. Authors studied may include: Maurice Sendak, Roald Dahl, E.B. White, J.K. Rowling, Jack Prelutsky, Lemony Snicket, Sandra Disneros, and winners of the Caldecott and Newberry Medals. EN-342 does not fulfill the 300-level English elective requirement for English majors.

**EN-352 Craft of Writing****Credits: 3**

Prerequisite(s): EN-251 or permission of the instructor

Term Offered: All Terms

Course Type(s): ENCWU

An in-depth study of the creative writing process, either single - or multi - genre. Students may develop a craft workbook that focuses on both traditional and contemporary literary forms and strategies. Students write by assignment and develop techniques of reviewing in order to compare and contrast major authors' aesthetics with their own creative gestures. A final portfolio may consist of approximately thirty pages of revised fiction, nonfiction, or drama, or approximately fifteen pages of revised poetry, or twenty to twenty-five pages, revised, of some combination of genres agreed upon between the student and the professor. The collection should be titled and given a cohesive arrangement. Repeatable once for credit, with departmental permission. Open only to students with a creative writing concentration and minor only.

**EN-373 The Art and Practice of Persuasion****Credits: 3**

Prerequisite(s): EN-101, EN-102, and three credits from any course with a designation of LIT

Term Offered: Fall Term

Course Type(s): None

Classical and contemporary perspectives on the nature, functions, and scope of persuasion and rhetoric. Potential print and visual texts for analysis include but are not limited to non-fiction prose, novels, short fiction, speeches, films, video clips, and Web sites.

**EN-384 Language and Community****Credits: 3**

Term Offered: All Terms

Course Type(s): EX5

This course helps students explore a broad range of career options. Through readings, interviews, guest speakers, and outside-the-classroom experiences, students will take ownership of their own professional identities and career trajectories. This course does not qualify as a 300+ English elective.

**EN-388 Cooperative Education: English****Credits: 1-3**

Prerequisite(s): Completion of all required 100- and 200-level EN courses and at least two EN electives at the 200-level or higher; permission of department chair may also be required.

Course Type(s): EX2

Integration and application of knowledge gained in the academic setting with career-related or community experiences. Work in an external setting, meeting at least three times in the semester with a faculty sponsor from the English department to establish reasonable goals and expectations for the experience, to determine progress at or near the mid-term and to make the final presentation-oral and written-for evaluation. This course may be repeated for credit.

**EN-389 Internship in English****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in English; repeatable for credit. Departmental approval and Junior standing are required to take this course.

**EN-398 Special Topics in English (300 Level)****Credits: 1-3**

Prerequisite(s): three credits from any course with a designation of LIT or permission of the instructor

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in English to be announced prior to registration.

**EN-399 Independent Study in English****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Reading and research on a selected topic under the direction of an English department faculty member. Prior permission of the directing professor and department chair is required to take this course.

**EN-405 Chaucer****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Fall Term

Course Type(s): None

Selections from the Canterbury Tales, Troilus and Criseyde, and short poems in Middle English.

**EN-410 What is a Book?****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

A study of texts and codices in the transitions from manuscript to print and from print to digital which serves as a basis for exploring what can be both lost and gained in our current movement to digital transmission.

**EN-414 Place and Space in American Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, and EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): None

Defines and differentiates spaces and places in various genres of American literature and explores how select texts reflect aspects of American regions, time periods, literary groups, culture, politics, history, aesthetics, identity, and/or mores. Students will analyze and interpret what diverse places and spaces represent and will apply theory about space and place in their evaluation of select literature.

**EN-415 New Jersey Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): None

An advanced survey of New Jersey literary history from the Colonial period to the present.

**EN-416 Secret Gardens: Classic Children's Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): None

English-language children's literature, focusing on "Golden Age" illustrated narratives by authors such as Nesbit, Burnett, Milne, and Grahame, but also including poetry and earlier prose fiction by Carroll and Alcott.

**EN-417 Writing World War II in Britain****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from courses with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): None

Major poems and prose of World War II Britain that treat the Battle of Britain, the Blitz, the Holocaust, and the North Africa campaign.

**EN-421 African Diaspora Literatures****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, 3 credits from any course with a designation of LIT, and one course from either EN-227, EN-228, EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): ADS, RE

The study of the twentieth century literatures of worldwide African Diaspora. Primary texts will be drawn from different genres - prose, poetry, and drama - and will represent the different shores and locations of African Diasporas worldwide.

**EN-424 Postmodern Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): None

Explores the works of key figures in postmodern American and/or British literature and includes a study of theoretical structures and cultural changes that help define literary postmodernism.

**EN-425 Postcolonial Literature****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): ADS, RE

Selected literary representations of colonial and postcolonial discourses in literature, theory, and criticism. Focus on creative representation from African nations, the Caribbean, and the Indian Subcontinent.

**EN-426 The Short Story in English****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Fall Term

Course Type(s): None

Development of the short story genre in English from the eighteenth century to the present, including critical readings.

**EN-427 Contemporary Poetry****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Fall Term

Course Type(s): None

Analysis of selected, recent poets to evaluate developments in contemporary verse.

**EN-428 Novel in English****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Course Type(s): None

The development of long prose fiction from the eighteenth century to the present, with consideration of criticism that defines the novel as a genre.

**EN-430 Nature of Tragedy****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226 three credits from any course with a designation of LIT and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): None

Tragic literature in various genres and periods from the ancient Greeks to the present.

**EN-431 Contemporary Women Novelists****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits for any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): GS

Critical analysis of selected novels in English by women from both literary, gender, and feminist perspectives.

**EN-441 Criticism and Theory****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from EN-227, EN-228, or EN-229, or written permission of the instructor.

Term Offered: Spring Term

Course Type(s): WT

Classic literary criticism and/or contemporary critical theory from Aristotle to Coleridge, Marx to Derrida, addressing how, why, and what we read. This course does not and cannot satisfy the Monmouth University LIT requirement.

**EN-442 Language and Linguistics****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT and one course from EN-227 or EN-228 or EN-229, or written permission of the instructor

Term Offered: Spring Term

Course Type(s): TL

A grounding in the structural aspects of general linguistics: morphology, syntax, semantics, phonology, and pragmatics. Examines the structure of the English language, including nouns and noun classes, ways of talking about actions and states, how ideas are combined into complex sentences, and how context and purpose affect how we use language. Also considers differences between learning a first and second language.

**EN-443 History of the English Language****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): WT

The development of the English language from its Indo-European roots to the present, including both linguistic and cultural factors in language change.

**EN-451 Advanced Creative Writing****Credits: 3**

Prerequisite(s): EN-226 and EN-251 or permission of the instructor

Term Offered: All Terms

Course Type(s): ENCWU

Students analyze in a workshop-setting longer works (long poems and/or poetic-sequences; novellas; plays; creative nonfiction) in American and World literature to observe techniques in craft, and present their own capacious, sustained, and at times self-generative creative writings for intensive full-revised and cohesive final portfolio of a length appropriate to the genre. Open only to students with a creative writing concentration or minor only. This course may be repeated once for credit.

**EN-470 Theory and Practice of Writing****Credits: 3**

Prerequisite(s): EN-101, EN-102, three credits from any course with a designation of LIT, or written permission of the instructor.

Term Offered: All Terms

Course Type(s): HY, WT

Instruction in theories of expressive and expository writing and integration of language skills, with a focus on writing process research and its applications. Cannot be taken as an English 300+ elective. Limited to Elementary Education, ISEE, and ECEE majors only.

**EN-474 Approaches to Composition Theory****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: Fall Term

Course Type(s): WT

Instructions in the foundations of composition theory, with a focus on writing process research and its applications. Cannot be taken as an English 300+ elective. Limited to Secondary Education majors only.

**EN-475 Writing for Digital Audiences****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-271; or permission of the instructor.

Term Offered: All Terms

Course Type(s): None

A study of theories and concepts of writing and rhetoric in digital media with emphasis on the uses of verbal and visual media in digital spaces, such as web sites, blogs, web articles, and social media. Topics examined include authorship and copyright, digital rhetoric, digital composition processes, multimodal composition theory, theories of new media, and theories of systemic oppression in digitally composed spaces and content.

**EN-488 Cooperative Education: English****Credits: 1-3**

Prerequisite(s): Completion of all required 100- and 200-level EN courses and at least two EN electives at the 200-level or higher; permission of department chair may also be required.

Course Type(s): EX2

Integration and application of knowledge gained in the academic setting with career-related or community experiences. Work in an external setting, meeting at least three times in the semester with a faculty sponsor from the English department to establish reasonable goals and expectations for the experience, to determine progress at or near the mid-term and to make the final presentation- oral and written-for evaluation. This course may be repeated for credit.

**EN-489 Internship in English****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in English; repeatable for credit. Departmental approval and Junior standing are required to take this course.

**EN-491 Seminar in English****Credits: 3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): None

A concentrated study on a single author, a related group of authors, or a single topic or theme, which includes the production of a scholarly paper based on substantial, independent research. This course is repeatable for credit.

**EN-498 Special Topics in English (400 Level)****Credits: 1-3**

Prerequisite(s): EN-101, EN-102, EN-226, three credits from any course with a designation of LIT, and one course from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in English to be announced prior to registration.

**EN-499 Independent Study in English****Credits: 1-3**

Prerequisite(s): EN-101, EN-102, EN-226, EN-201 or EN-202, and two courses from either EN-227, EN-228, or EN-229, or written permission of the instructor

Term Offered: All Terms

Course Type(s): None

Reading and research on a selected topic under the direction of an English Department faculty member. Prior permission of the directing professor and department chair is required to take this course.

<sup>1</sup> EN/ED majors MUST take EN-470 or EN-474 to fulfill the above credits.

<sup>2</sup> See advisor for information on substitutions

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- The English Department awards Departmental Honors to those graduating seniors who successfully completes a senior thesis, two designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and a fulfillment of the language requirement for English majors.

## Sequence Chart

### General Education Requirements (30 credits) <sup>5</sup>

|                                                                              |    |
|------------------------------------------------------------------------------|----|
| Complete 30 credits as outlined on the General Education table. <sup>5</sup> | 30 |
|------------------------------------------------------------------------------|----|

|                      |            |
|----------------------|------------|
| <b>Total Credits</b> | <b>120</b> |
|----------------------|------------|

<sup>1</sup> EN/ED-Secondary majors MUST take EN-474 Approaches to Composition Theory (3 cr.) to fulfill the above credits.

<sup>2</sup> Minimum grade of "C" required for Education Courses

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- ESL - English as a Second Language - Secondary
- TSD - Teacher of Students with Disabilities - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).
- The English Department awards Departmental Honors to those graduating seniors who successfully complete a thesis, two designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and fulfillment of the World Languages requirement for English majors.

| <b>General Education Requirements (30 credits) <sup>5</sup></b>                                                |                                                                                              |          |

Complete 30 credits as outlined on the General Education table.<sup>5</sup> 30

**Total Credits 120-123**

<sup>1</sup> EN/ED majors **MUST** take EN-470 Theory and Practice of Writing (3 cr.) or EN-474 Approaches to Composition Theory (3 cr.) to fulfill the above credits.

<sup>2</sup> Minimum grade of "C" required for Education Courses

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score **PRIOR** to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).
- The English Department awards Departmental Honors to those graduating seniors who successfully complete a senior thesis, two designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and fulfillment of the World Language requirement for English majors.

<sup>1</sup> EN/ED majors **MUST** take EN-470 Theory and Practice of Writing (3 cr.) or EN-474 Approaches to Composition Theory (3 cr.) to fulfill the above credits.

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

Notes

- 54 credits must be completed at the 200 level or higher.
- The English Department awards Departmental Honors to those graduating seniors who successfully completes a senior thesis, two designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and fulfillment of the World Language requirement for English majors.

<sup>1</sup> EN/ED-Secondary majors MUST take EN-474 Approaches to Composition Theory (3 cr.) to fulfill the above credits.

<sup>2</sup> Minimum grade of "C" required for Education Courses.

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major

or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- ESL - English as a Second Language - Secondary
- TSD - Teacher of Students with Disabilities - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).
- The English Department awards Departmental Honors to those graduating seniors who successfully complete a thesis, 2 designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and fulfillment of the World Language requirement for English majors.

### General Education Requirements (30 credits)<sup>4</sup>

|                                                                              |    |
|------------------------------------------------------------------------------|----|
| Complete 30 credits as outlined on the General Education table. <sup>4</sup> | 30 |
|------------------------------------------------------------------------------|----|

**Total Credits 120**

<sup>1</sup> Minimum grade of "C" required for Education Courses.

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to maintain a cumulative GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).
- The English Department awards Departmental Honors to those graduating seniors who successfully complete a senior thesis, two designated courses beyond the standard major requirements, a 3.50 major GPA, a 3.30 overall GPA, and fulfillment of the World Language requirement for English majors.

## History

Chair: Maryanne Rhett, Department of History and Anthropology

The History curriculum is designed to provide an understanding of the complex forces and values that have shaped the modern world and to prepare students for graduate school or for careers in teaching, museums and historical societies, the law, politics, public service, journalism, or business.

The Interdisciplinary History and Political Science curriculum is designed to provide training in both history and politics for students who wish greater breadth of understanding of contemporary society in preparation for careers in business, law, politics, public service, or journalism.

**Student Honor Society: Phi Alpha Theta**

## Programs

### Majors

- B.A. in History (p. 144)
- B.A. in History and Education with Endorsement in Elementary Education (p. 145)
- B.A. in History and Education with Endorsement in Secondary Education in Social Studies (p. 147)
- B.A. in History and Education with Endorsements in P-3 and Teacher of Students with Disabilities (p. 148)
- B.A. in History/Political Science Interdisciplinary (p. 150)
- B.A. in History/Political Science Interdisciplinary and Education with Endorsement in Elementary Education (p. 151)
- B.A. in History/Political Science Interdisciplinary and Education with Endorsement in Secondary Education in Social Studies (p. 152)

### Minors

- African Diaspora Studies (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/history/africandiasporastudies-minor/>)
- Geography (p. 153)
- Geographic Information Systems (p. 153)

**Manuel Chavez**, Assistant Professor. B.A., Truman State University; M.A., Ph.D., Binghamton University – S.U.N.Y. Teaching fields include philosophy, religion, ethics, and logic. Research interests include social and political philosophy, philosophy of race and gender, Latinx and Latin American philosophy, decolonial theory, and critical thinking pedagogy.  
mchavez@monmouth.edu

**Christopher DeRosa**, Associate Professor (Graduate Faculty). B.A., Columbia University; Ph.D., Temple University. Teaching fields include military history, the Civil War Reconstruction, World War II, and the Cold War. Research interests include the political roles of soldiers in the 19th and 20th-century U.S. armies.  
cderosa@monmouth.edu

**Maureen Dorment**, Senior Lecturer. B.S., Georgetown University; M.S., Monmouth University; Ph.D. candidate, Drew University. Research interests include the history of print culture and intellectual history. Teaching areas include Western Civilization, propaganda, and censorship.  
mdorment@monmouth.edu

**William Gorman**, Lecturer. B.A., Villanova University; M.A., Monmouth University. Interests include politics, current issues, reading, writing, the beach, and the shore.  
wgorman@monmouth.edu

**Frederick McKittrick**, (Graduate Faculty).  
Chair, Art and Design. B.A., M.A., Ph.D., Columbia University.  
fmckitri@monmouth.edu

**Katherine Parkin**, Professor and Jules Plangere Jr. Endowed Chair in American Social History (Graduate Faculty). B.A., Lake Forest College; Ph.D., Temple University. Major areas of interest include U.S. history and American women.  
kparkin@monmouth.edu

**Maryanne Rhett**, Professor and Chair (Graduate Faculty). B.A., University of South Carolina; M.A., University of Arizona; Ph.D., Washington State University. Areas of teaching are Islam and the Middle East. Research focuses on the Balfour Declaration of 1917.  
mrhett@monmouth.edu

**Richard F. Veit**, Professor (Graduate Faculty).  
Provost and Senior V.P. for Academic Affairs. B.A., Drew University; M.A., College of William and Mary; Ph.D., University of Pennsylvania. Teaching areas include archaeology, historic preservation, North American Indians, and New Jersey history. Research interests include historical archaeology, industrial archaeology, and early American Material Culture. Author of *Digging New Jersey's Past: Historical Archaeology in the Garden State*.  
rveit@monmouth.edu

**Dane Ward**, Assistant Professor. B.S., Ph.D., Drexel University.  
daward@monmouth.edu

**Hettie Williams**, Associate Professor (Graduate Faculty). B.A., Rowan University; M.A., Monmouth University; Ph.D., Drew University. Scholarly interests include African American intellectual history, gender in U.S. history; and race studies.

hwilliam@monmouth.edu

**Melissa Suzanne Ziobro**, Specialist Professor.

Curator for the Bruce Springsteen Archives and Center for American Music. B.A., M.A., Monmouth University. Interests include public history. Serves as the faculty advisor of the History and Anthropology Club and the coordinator of the Student Veteran Oral History Project and the fledgling Monmouth Memories Oral History Project. She also coordinates the Department's visiting exhibit series and edits the Department newsletter, and is the department's social media coordinator.  
mziobro@monmouth.edu

## Courses

### HS-101 Western Civilization in World Perspective I Credits: 3

Term Offered: All Terms

Course Type(s): HS.SV

An introduction to the major historical developments in the history of Western society and its intellectual tradition. Secondly, it is also an introduction to the uses of history itself. Our survey will consider ancient Greece and Rome, Medieval Europe, the Renaissance, the Reformation, and the rise of nation-states in Europe. To understand the history of the West in a larger context, we will examine it in relation to the history of the Middle East, particularly at points of contact such as the Crusades.

### HS-102 Western Civilization in World Perspective II Credits: 3

Term Offered: All Terms

Course Type(s): HS.SV

A readings-based introduction to Western history, from the seventeenth century to the present, in the perspective of a major non-Western civilization. Topics include the Enlightenment, the Industrial Revolution, the Great Depression, the World Wars, the Cold War, and Globalization.

### HS-107 Love and Marriage in Historical Perspective Credits: 3

Term Offered: All Terms

Course Type(s): HS.SV

Love and Marriage in Historical Perspective is a reading-and-discussion-based thematic history course. This course is designed to expose students to the history of love and marriage from classical antiquity to the present in global perspective. Marriage is one of the oldest social institutions in human culture: and, as an institution, it has not always been associated with the concept of love. This course considers the transformation of marriage as both a public, private, political, economic, social, and emotional institution that has been fundamental to the development of human societies. This includes a discussion of the Greco-Roman world, the Middle Ages, the Romantic era and marriage in the global village at the present. Why is traditional marriage on the decline in Western societies? What is traditional marriage? When, why, and how did the idea of love get tangled up with marriage and how successful has the love-marriage connection been over time? Why is marriage in crisis? What does love have to do with it? What are the revolutionary implications of the rise and fall of marriage as a love-match? These are some of the questions we will contemplate in this course as associated with issues related to sex, gender, sexuality, race and class by examining love and marriage in literature, poetry, music, and in philosophical treatises on the subject utilizing the historical method as the primary approach.

**HS-108 Human Gods: Science, Technology, and Culture in History****Credits: 3**

Term Offered: All Terms

Course Type(s): HS.SV

This is a readings and discussion based history course on the interplay between science, technology, and culture in history from the global scientific revolution to the human genome project. The overarching theme of the course is "Human Gods" because we will pay close attention to how scientists in their attempts to manipulate nature in a sense "play god" and how playing god may have devastating consequences for marginalized groups in particular and humanity more generally. Some various arenas of science and technology including medicine, military technology, and computer technology are examined in the course to demonstrate how individuals, industries, and governments have harnessed science and technology to control nature (such as with disease control, other nations in warfare, and general human activity via computer technologies).

**HS-110 Historical Studies****Credits: 3**

Term Offered: All Terms

Course Type(s): HS.SV

Through a deep study of a single historical topic, students will learn how historians draw and revise conclusions about the past. They will examine the uses and abuses to which history is put, and they will practice advancing historical arguments of their own.

**HS-198 Special Topics in History (100 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in history to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar-basis. If a prerequisite is required it will be announced in the course schedule.

**HS-201 United States History I****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

The development of the multi-ethnic American nation. Colonial origins, the Revolution, the Age of Jackson, slavery, the Civil War, and Reconstruction.

**HS-202 United States History II****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The development of the multi-ethnic American nation. The emergence of modern industrial America, domestic reform and civil rights, world conflict, and leadership.

**HS-203 New Jersey History: A Mirror on America****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): HSUS, WT

An introduction to and overview of New Jersey history (1600-1950). Various trends in local history are tied to national developments. Important people, events, and trends in the state history are examined.

**HS-204 Popular Culture in East Asia****Credits: 3**

Term Offered: All Terms

Course Type(s): GU, HSAS, HSNW

This course will examine the history and culture of East Asia through the lens of popular culture (film, television, novels, manga, music, etc.). Topics to be covered may include but are not limited to: empire, World War II, gender, globalization, etc.

**HS-209 The History of African-Americans****Credits: 3**

Term Offered: Spring Term

Course Type(s): ADS, CD, HSUS, RE

The study of African-Americans from their first contacts with Europeans through the rise of the Black Power movement in the 1960's; the status of African-American society and contributions to American culture.

**HS-212 Introduction to Public History****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Defines public history, explains its past, and explores its intricacy to the future of the historical profession. Topics covered will include oral history, museums and archives management, history's influence on public policy, teaching history, history and the media, cultural tourism, the politics of memory, and digital history. Students will put what they have learned in the classroom to work in the field via a capstone service learning project. All students will, throughout the course of the semester, produce portfolio items suitable for presentation to future employers.

**HS-219 United States Military History****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSUS

Surveys the American experience of war, from the first Native American-European contact through the military interventions at the dawn of the twenty-first century; examines not only the major conflicts in this period, but also the evolution of strategy, military institutions, civil-military relations, and the American way of war.

**HS-220 History of Advertising****Credits: 3**

Term Offered: All Terms

Course Type(s): GS, HSUS

Designed to develop a critical understanding of the historical evolution of advertising in the United States, with critical attention to race, class, gender, and sexuality. We will explore the economic, political, and cultural factors that have contributed to the development of advertising, and which have been affected by advertising. Some of the topics to be discussed include: the rise of national advertising; the relation of advertising to consumption; advertising to children; political advertising, the relationship between advertisers and the medium in which they appear (magazines, television, radio, etc.), and broadcast and Internet advertising. Also listed as AN-220 and GS-220.

**HS-227 History in the Movies****Credits: 3**

Prerequisite(s): EN-101 and EN-102.

Term Offered: All Terms

Course Type(s): WT

Moviemakers began interpreting historical subjects on screen even before they had established audiences willing to pay to watch. This wildly popular form of mass entertainment has been shaping public memory ever since: not only at the height of its power in the 20th century, but even as it competes with other story-telling media today. In this course, we will look at movies' peculiar influence over what we believe about history, be it how nations were founded, how wars were waged, how people related to one another, and even what different historical milieu looked and sounded like. Please see the "notes" section to see the topical focus of the current semester's course.

**HS-233 Classical Civilizations****Credits: 3**

Term Offered: All Terms

Course Type(s): HSEU, HSPRE

Mediterranean civilizations from the Ancient Near East through Classical Greece and Rome, to the close of the Western Roman Empire.

**HS-243 Medieval Europe I (300-1400)****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSEU, HSPRE

Europe from the decline of Rome through the fourteenth century.

Semester I (to 1100): barbarian invasions, rise of the Church, early medieval culture, Byzantium and Islam, feudalism and manorialism.

Semester II: Empire vs. Papacy, the Church at its height, the flowering of medieval culture.

**HS-244 Medieval Europe II (300-1400)****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSEU, HSPRE

Europe from the decline of Rome through the fourteenth century.

Semester I (to 1100): barbarian invasions, rise of the Church, early medieval culture, Byzantium and Islam, feudalism and manorialism.

Semester II: Empire vs. Papacy, the Church at its height, the flowering of medieval culture.

**HS-251 History of the British Isles I****Credits: 3**

Term Offered: Fall Term

Course Type(s): HSEU, HSPRE

Roman, Anglo-Saxon, and Celtic cultures; consolidation of the Anglo-Norman Feudal Monarchy; the impact of the Reformation and Tudor absolutism; and constitutional crisis and revolution to 1688.

**HS-252 History of the British Isles II****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSEU

Union between England and Scotland, Parliamentary reform, Industrial Revolution, Empire and Commonwealth, Ireland and Home Rule, democracy and the welfare state, and contemporary Britain and Ireland.

**HS-253 History of Ireland****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSEU

Selected themes in Irish history from prehistoric times to the present, including Celtic Christianity, Norman Conquest and Gaelic Recovery, Protestant Ascendancy, Rebellion and Revolution, the Famine and Emigration, Home Rule, the Irish Republic, the Troubles in Northern Ireland and the European Union.

**HS-261 History of Russia I****Credits: 3**

Term Offered: Fall Term

Course Type(s): BI.EL, GU, HSAS, HSEU, HSNW, HSPRE

Russia from ancient times to the Nuclear Age. Semester I: the consolidation and decline of the Kievan state, the Muscovite and Imperial eras, the impact of the West to about 1855.

**HS-262 History of Russia II****Credits: 3**

Term Offered: Spring Term

Course Type(s): ARHIS, CD, HSAS, HSEU, HSNW

Russia from ancient times to the Nuclear Age. Semester II: the reform era, revolutionary movements, the Soviet state, and the evolution and collapse of the communist regime.

**HS-264 North American Indians****Credits: 3**

Term Offered: All Terms

Course Type(s): GU, HSPRE, HSUS, RE

Survey of the cultural, social, and linguistic diversity of pre-Columbian North American societies and problems of contemporary Indian groups. Also listed as AN-264.

**HS-266 Historical Archaeology****Credits: 3**

Prerequisite(s): AN-103 or HS-201; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): HSPRE, HSUS, WT

Provides an introduction to historical archaeology, the archaeology of the modern world (c.1492+). Focuses on archaeological sites in the United States. Students are introduced to the various written and material sources that historical archaeologists use to interpret the recent past, including artifacts, vernacular architecture, grave markers, documents, photographs and other visual sources. Archaeological field methods are also introduced with a minimum of one class period spent excavating an archaeological site. Also listed as AN-266.

**HS-271 Europe, 1914-1939****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Course Type(s): BI.EL, GU, HSEU, WT

Europe during and after World War I: the consequences of that war, the crisis of European democracy, Communism and the Soviet Union, the rise of Fascism in Italy and National Socialism in Germany, and the failure of collective security.

**HS-272 Europe Since 1939****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): GU, HSEU, WT

World War II and post-war Europe: the Cold War, European recovery, economic integration, Communism in Eastern Europe, the Soviet Union as a major power, and Europe's changing role.

**HS-283 The Civilizations of Asia (India, China, Japan)****Credits: 3**

Term Offered: All Terms

Course Type(s): HSAS, HSNW, HSPRE

A survey of Asia's great cultural traditions through literature, art, science, religion and institutions, and the interplay of these traditional cultures with Western civilization.

**HS-284 Modern East Asia****Credits: 3**

Term Offered: Spring Term

Course Type(s): GU, HSAS, HSNW

This course is a broad introduction to modern East Asian history from the mid-19th century to the end of the 20th. Through three spatial modules-Japanese archipelago, Chinese mainland, and Korean peninsula-we will explore the interconnections and divisions between these different spaces during a time of rapid change. By diving deeply into a selection of primary and secondary sources (both visual and in translation) from this period, we will examine the major social, cultural, and political shifts over the 19th and 20th centuries in East Asia. We will in particular explore what modernity means in the context of East Asia.

**HS-285 Modern China****Credits: 3**

Course Type(s): GU, HSAS, HSNW

This course will explore the last two centuries of Chinese history, including the opium wars and the fall of the Qing dynasty, the rise of the Chinese Communist Party and founding of the People's Republic of China, post-1949 attempts at socialist transformation, as well as the evolution and consequences of economic reform since the early 1980s. We will draw upon historical writing, memoirs, reportage, and fiction, as well as translations of original documents.

**HS-290 Popular Culture and the Middle East****Credits: 3**

Course Type(s): GU, HSNW, RE

Examines recent events, traditional cultural practices, and the perceptions of the Middle East through the lens of popular media (film, graphic novels, journalism, etc.). Topics to be covered may include but are not limited to: religion, the Arab Spring (2011), the Iranian Revolution, the Arab-Israeli Conflict, women's rights/roles, Orientalism and racism, and common governing structures. Also listed as AN-290.

**HS-291 Introduction to Islamic History****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): BI.EL, GU, HSAS, HSEU, HSNW, HSPRE, RE, WT

Examines the history and development of the Islamic umma (the community of Muslim believers) across time and space. Traces the development of Islam, taking care to understand the environment into which it was first introduced, and follow its development in terms of philosophy and spirituality to the present day. Takes into account variation within the religion as it spread out of the Arabian Peninsula and across the world.

**HS-292 The Middle East and the Rise of the Gunpowder Empires****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): BI.EL, GU, HSAS, HSNW, WT

Examines the history of the Middle East from the 1200s through the end of the 1700s. In the West this era is typically known as the high-water mark for Islamic Civilization, an era marked by a height for Islamic art, architecture, and political organization, this era also marks the time during which Islamic governments held power over the largest swath of territory. To understand this time period students will examine Persian, Ottoman, Egyptian, Indian, and Magrabi/Andalusian history.

**HS-293 The African Diaspora in the Americas****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): ADS, GU, HSNW, HSUS, RE, WT

The dispersion of African people across the world was a seminal event in the history of humankind. African people have profoundly influenced the development of human history from this dispersion. Includes a comprehensive historical overview of the African Diaspora in the Caribbean, Latin America, and North America, from the height of the Atlantic Slave Trade in the eighteenth century to the present.

**HS-295 History of Africa****Credits: 3**

Term Offered: All Terms

Course Type(s): ADS, GU, HSAF, HSNW, RE

Africa in modern times, emphasizing the sub-Saharan part of the continent; traditional African civilizations; European colonization and its impact on Africa; economic, social, and political transformation; and the problems of nation-building.

**HS-296 Cultures and Societies of Africa****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): ADS, CD, HSAF, HSNW, RE, WT

Examines the history, cultures, and societies of Africa from the precolonial to the contemporary period. Discusses the cultural, political, and economic changes that have taken place in Africa as a result of Western influence. Also listed as AN-296.

**HS-297 History of West Africa****Credits: 3**

Prerequisite(s): HS-101, HS-102, EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): ADS, CD, HSAF, HSNW, HSPRE, RE, WT

An examination of the history of West Africa from AD 1000 to the present. Special topics include: the sources of West African history, the peoples and empires of West Africa, agriculture and the trans-Saharan trade, the introduction of Islam, the coming of the Europeans, and the post-independent period of West Africa.

**HS-298 Special Topics in History (200 Level)****Credits: 1-3**

Course Type(s): None

An intensive study of a particular subject or problem in history to be announced prior to registration. The course may be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**HS-299 Independent Study in History****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided study of a selected topic in history not substantially treated in a regular course, under the direction of a member of the History faculty. Extensive reading and at least one written report are required. Prior permission of the directing professor and department chair is required to take this course.

**HS-303 American Colonial and Early National Period****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSUS

The evolution of the British colonies from their establishment to the American Revolution. The first problems in the development of the new nation to the era of Andrew Jackson.

**HS-304 Monuments and Commemoration: Loss and Remembrance****Credits: 3**

Course Type(s): HSUS

Examines the evolution of American attitudes towards commemoration and remembrance from the colonial period to the present. Focuses on the analysis of landscapes and artifacts, e.g., monuments, grave markers, cemeteries, and historic sites. Topics discussed include the evolution of American burial grounds from colonial burial grounds to the rural cemeteries of the Victorians, and modern memorial parks. Changing grave marker designs and iconography are examined. Distinct ethnic, regional, and national memorial practices are also studied. Public memorials in the form of statuary, commemorative institutions, and historic sites will also be discussed. There will be field trips to select sites. Also listed as AN-304.

**HS-305 Women in US History****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): GS, HSUS, WT

Surveys women's historical experience in the US. The emphasis of the course will be on how women of different socio-economic backgrounds, races, and ethnic groups have shaped and been affected by US History. Also listed as GS-305.

**HS-306 Jazz Age and Harlem Renaissance****Credits: 3**

Term Offered: All Terms

Course Type(s): ADS, HSUS, RE, WT

Focus will be on race, gender, class and sexuality in Jazz Age America as related to the development of the Harlem Renaissance. Harlem was the center of black culture in the 1920s; but this "New Negro Movement" stretched far beyond Harlem. In this course, we will explore both the national and transnational dimensions of the Harlem Renaissance and how the culture of the Harlem Renaissance helped to shape modern American culture more broadly. This course will include an examination of the Harlem Renaissance in American history from multiple perspectives including literary, artistic, cinematic, economic and philosophical aspects of the Renaissance in American history.

**HS-307 History of Sexuality in America****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): CD, GS, HSUS, RE, WT

Explores the social and cultural history of sexuality in the United States. How race, class, and gender have influenced ideas about sexuality, morality, and power. Major topics include: reproduction, gay and lesbian sexualities, sexually transmitted diseases, and sexual representation and censorship. Also listed as GS-307.

**HS-308 The American Civil Rights Movement****Credits: 3**

Term Offered: All Terms

Course Type(s): ADS, HSUS, RE

Includes a historical examination of the major personalities, groups, and organizations central to the development of the American Civil Rights Movement in the 1960s. Students will be introduced to important scholarship and participant histories crucial to the Movement through an examination of both primary and secondary source material.

**HS-309 Readings in African-American Intellectual History****Credits: 3**

Term Offered: Spring Term

Course Type(s): ADS, CD, HSUS, RE

Examines some of the major themes and thinkers in the development of the African-American intellectual tradition from the black abolitionists to the present. Major topics of the course include the formation of black oppositional leadership in the Reconstruction south, Booker T. Washington and racial accommodation, W.E.B. DuBois and integration, along with Black Nationalism and contemporary, black-feminist theory.

**HS-310 Business and Economic Development of the United States****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): HSUS, WT

The impact of political and economic decisions on the structure of society: agrarianism, merchant capitalism, laissez-faire industrialism, neomercantilism, and the social welfare state.

**HS-312 Oral History****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Students will learn about oral history by reading about it, researching it, and actually doing it. Students will end the semester with a solid understanding of when, why, and how to conduct oral history interviews, as well as an awareness of the logistical, ethical, and legal considerations involved in doing so. All students will, throughout the course of the semester, produce portfolio items suitable for presentation to future employers.

**HS-313 History of the Book in America****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): HO, HSUS, WT

Examines the impact of printed text in America historical development from the colonial era to the present day. It will cover selected topics that will demonstrate that the printed text in all of its various manifestations was shaped by a nascent and evolving American culture and, in turn, was instrumental in shaping this culture.

**HS-314 Exploring History and Heritage Sites****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The days of whitewashed, feel good history; staid curators; dusty, static museum displays; and musty, hushed archives are fading. Today, the public history community is constantly reassessing what constitutes a history or heritage site, and how traditional sites like museums and archives should operate in the 21st century. In this class, we will consider what history and heritage sites look like, and what they can do to stay relevant while still honoring their core values. In addition to reading the latest in the historiography, students will spend several class sessions visiting local sites, which will act as case studies related to designated readings.

**HS-315 Field Research in Archaeology****Credits: 3**

Prerequisite(s): AN-103 or AN-107 or permission of the instructor

Course Type(s): EX5, HSUS

Archaeological field methods, analysis of data, and anthropological interpretation; students will do supervised work on local sites. May be repeated for a maximum of six credits. Also listed as AN-315.

**HS-317 Museum and Archives Management Basics****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Introduces students to the best practices and procedures of museum and archives management. Topics covered will include the basics of museum and archives administration, as well as the basics of records management, collections care, exhibition, and interpretation.

**HS-325 Digital Humanities****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): CD, WT

Students will learn the history of and think critically about the field and methodologies known as "Digital Humanities." We will investigate what the digital humanities are, how they have changed over time, their role in academia, their accessibility to the public, the systemic biases and issues within digital humanities and technology, and the possibilities of digital humanities to bring about change in the humanities and the public understanding of the humanities more broadly.

**HS-330 The Civil War and Reconstruction****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): HSUS, RE, WT

Covers the military, political, and social history of the American Civil War, and the rise, the fall, and the legacies of the postwar Reconstruction.

**HS-331 World War II****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Course Type(s): HSEU, HSUS, WT

Considers the military, economic, and political characteristics of the Allied and Axis powers and the strategies they produced; examines the military campaigns, the wartime economies, life on the home fronts, the experience of combat, the dynamics of occupation, and the roles of morality and immorality in the conduct of the war.

**HS-332 The Cold War****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): HSEU, HSUS, WT

Examines the rivalry between the United States and the Soviet Union that organized global politics for forty-five years; the roles of ideology, economy, and security that fueled it; and the diplomacy, propaganda, and the armed might use to wage it; and the impact it had on participants' politics and culture.

**HS-333 The Vietnam Era****Credits: 3**

Term Offered: Spring Term

Course Type(s): HSUS, RE

The Vietnam Era, which grew out of America's longest war, was a major influence on American society at home and abroad. Explores the military and political role the U.S. played in this conflict, its influences on American society, and the living legacy of this turbulent era.

**HS-344 French Revolution and Napoleon****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): CD, HSEU, WT

Study of France and French influence on Europe between 1789 and 1815; the causes and changing aims of the Revolution, the conflict of ideologies, the failure of the First Republic, and the Napoleonic Empire.

**HS-349 Slavery in the Atlantic World****Credits: 3**

Prerequisite(s): AN-380 or GS-252 or SO-252

Course Type(s): ADS

The emergence and decline of racial slavery in the Atlantic World from 1492 to 1888 is the primary focus of this course. Students will learn to understand and articulate the major forces that facilitated the development and collapse of modern slavery in the Atlantic World and how the residual impact of this system continues to shape contemporary race relations and systems of power at the present. There will be an emphasis on the interrelationship between race, gender, and class in New World plantation societies as evolving systems of power in North America, Latin America, and the Caribbean over time including some discussion of the Black Atlantic. The class serves as a required course for students minoring in race and ethnic studies.

**HS-351 Victorian Culture****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): CD, HSEU, WT

Victorian England was the first nation to experience the full force of the societal upheaval caused by industrialization. This course will focus on selected aspects of this culture to demonstrate the complexity of the problems faced by Victorians and the ensuing debates in all theaters of life on proposed solutions to these problems. Specific emphasis will be placed on Victorianism, the middle class ethos, which was both product and agent of Victorian culture.

**HS-352 Militant Nationalism****Credits: 3**

Term Offered: All Terms

Course Type(s): HSEU, HSNW, RE, WT

Examines the development of militant nationalist groups and the ideologies behind militant nationalism over the course of the twentieth century. Several case studies will be examined including, but not necessarily limited to: the Irish Republican Army (IRA), the National Liberation Front of Algeria (FLN), the Euskadi Ta Askatasuna (ETA), and the Tamil Tigers (LTTE).

**HS-357 Blood & Iron: Germany in the Nineteenth Century****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): CD, HSEU, WT

Prussian militarism, legacy of the French Revolution, 1848, Bismarck and Unification, social tensions in the Empire, industrialization, nationalism and racism, and causes of World War I.

**HS-358 Modern Germany, 1914-Present****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): CD, HSEU, WT

World War I, Revolution of 1918-19, Weimar Republic, origins of Nazism, the Third Reich, World War II, the Occupation, post-war Germanys, and Unification.

**HS-359 The Holocaust****Credits: 3**

Term Offered: All Terms

Course Type(s): HSEU, RE

An examination of the Holocaust with special emphasis on the historical background in European political, social, economic, and religious institutions; the implications of the planned extermination of European Jewry for world civilization; and the question of responsibility.

**HS-361 Revolution and Reaction: Jews of the Russian Empire and the Soviet Union (1772-1939)****Credits: 3**

Course Type(s): CD, HSEU

This cultural, social, religious, economic and political history of the Jews of the Russian Empire in the 19th and early 20th centuries. Who were they and where did they come from? What was their place in society and what policies were invoked in the Russian Empire to deal with the "Jewish problem?" How did their lives change after the Bolshevik revolution and the establishment of the Soviet Union?

**HS-391 The Modern Middle East****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Course Type(s): GU, HSNW, RE, WT

Covers the history of the geographic Middle East, North Africa and some of South and Central Asia (largely the heartland of the Islamic world) from 1798 to the present. Particularly interested in examining the fall of empires and monarchies and the rise of modern nationalist movements in addition to the rise of religious fundamentalist and socialist movements across the region as well.

**HS-392 History of the Arab-Israeli Conflict****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): BI.EL, CD, HSAS, HSEU, HSNW, RE, WT

Examines the development of the conflict over a region known as Palestine (post-1948: Israel) from the late 1800s to the present. Special emphasis will be placed on themes related to imperialism, nationalism, cultural definition, religion, ethnicity, gender, militancy, and the environment.

**HS-396 Colonial Africa**

Term Offered: All Terms

Course Type(s): ADS, GU, HSAF, HSNW

Examines the process of European colonization of Africa in the second half of the nineteenth century. The main issues include: the scramble for and partition of Africa; African resistance to European imperialism and colonization; colonial political, economic, and social policies; the rise of nationalism, and the process of decolonization.

**Credits: 3****HS-397 Globalization and Africa**

Term Offered: All Terms

Course Type(s): ADS, GU, HSAF, HSNW, RE

Globalization has profoundly influenced and transformed Africa in multi-dimensional ways-economically, politically, and socially. While globalization is not a new development, it has had a significant impact on Africa since the late nineteenth century. Africa has been connected to the world market thereby leading to opportunities for economic growth and development. Although African states are still grappling with sustainable economy, they remain strongly attached to the world economic system. Politically, there has been a transition from the monarchical to the parliamentary/presidential systems. This course will examine the concept of globalization, how it has impacted Africa, how Africa has responded to the economic, political, and social changes and challenges. We will also discuss the ways Africa can become more relevant in global affairs.

**Credits: 3****HS-398 Special Topics in History (300 Level)**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in history to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 1-3****HS-399 Readings and Research in History**

Term Offered: All Terms

Course Type(s): None

Guided study of a selected topic in history not substantially treated in a regular course, under the direction of a member of the History faculty. Extensive reading and at least one written report are required. Senior standing; status as a History, History and Political Science, or History and Education major with a 3.00 or higher G.P.A. in major coursework; and prior permission of the directing professor and department chair are required to take this course.

**Credits: 1-3****HS-410 American Music History Internship**

Prerequisite(s): HS-212.

Term Offered: All Terms

Course Type(s): EX1

Supervised, professional experience in public history at the Bruce Springsteen Archives and Center for American Music. Emphasis on the development of professional skills in areas such as the care and management of historical collections, public education and outreach programming, collections research and analysis, and grant research and writing.

**Credits: 1****HS-435 The Renaissance**

Prerequisite(s): HS-101 and HS-102

Course Type(s): HSEU, HSPRE

Europe in transition from the fourteenth to the sixteenth century; the crisis of the Church, humanism and art, politics, diplomacy, exploration and discovery, science and the occult.

**Credits: 3****HS-436 The Reformation**

Prerequisite(s): 12 credits in History or Junior standing

Term Offered: All Terms

Course Type(s): HSEU, HSPRE

A study of sixteenth- and early seventeenth-century religious and political developments in Europe; causes of the Reformation, its political and social institutionalization, ideas of reformers, wars of religion, and the Counter-Reformation. Also listed as RS-436.

**Credits: 3****HS-437 Power and Enlightenment: Europe 1648-1789**

Course Type(s): HSEU, HSPRE

A study of European history from the Treaty of Westphalia to the French Revolution, emphasizing the contrast between political and military developments, and cultural and intellectual trends. Special emphasis on the development of absolutism in France, Prussia, Austria, Spain, and Russia; the struggle against absolutism in Britain, Sweden, and the Netherlands; the ideals and goals of the European enlightenment, developing social and political tensions, and enlightened despotism.

**Credits: 3****HS-453 Tudor - Stuart England**

Prerequisite(s): 12 credits in History of Junior standing, and EN-101 and EN-102, or permission of the instructor

Term Offered: Summer Term

Course Type(s): HSEU, HSPRE, WT

Focus will be on society, politics, and religion in sixteenth- and seventeenth-century England. Major topics for discussion will include the English Reformation, the Age of Elizabeth and Shakespeare, the British Civil Wars, the Restoration, and the Revolution of 1688. Each topic will be discussed with reference to the social and economic changes that helped to mold this period.

**Credits: 3****HS-461 Research Seminar in History**

Prerequisite(s): Senior standing and 18 credits in History above HS-202

Term Offered: All Terms

Course Type(s): RD

The development, research, and writing of a research paper in history, with special emphasis on scrupulous documentation, use of primary sources, clear expository writing, and oral presentation of research results. Country or region of study is open.

**Credits: 3****HS-489 History Internship**

Term Offered: All Terms

Course Type(s): EX1

Supervised, professional experience in public history programs and institutions (e.g., museums, archives, historical societies, preservation agencies). Emphasis on the development of professional skills in areas such as the care and management of historical collections, public education and outreach programming, collections research and analysis, and grant research and writing. This course is repeatable for credit. Junior standing, departmental approval, and placement are required to take this course.

**Credits: 1-3****HS-498 Special Topics in History (400 Level)**

Course Type(s): None

An intensive study of a particular subject or problem in history to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 1-3**

**HS-499 Readings and Research in History**

Term Offered: All Terms

Course Type(s): None

Guided study of a selected topic in history not substantially treated in a regular course, under the direction of a member of the History faculty. Extensive reading and at least one written report are required. Senior standing; status as a History, History and Political Science, or History and Education major with a 3.00 or higher G.P.A. in major coursework; and prior permission of the directing professor and department chair are required to take this course.

<sup>1</sup> At least HS 6 credits at the 300-400 level, excluding HS 461.

<sup>2</sup> Excluding HS-201 United States History I (3 cr.) and HS-202 United States History II (3 cr.)

<sup>3</sup> Minimum grade of "C" required for Education Courses. Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> May be fulfilled within the major/interdisciplinary requirements; see your academic adviser.

<sup>5</sup> Please consult with your advisor regarding the required number of free electives.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- P-3 Early Childhood Endorsement
- ESL - English as a Second Language - Elementary
- TSD- Teaching Students with Disabilities
- MID-SS - Middle School Social Studies and/or Humanities

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have maintain a cumulative GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

|----------------------|------------|
| <b>Total Credits</b> | <b>120</b> |
|----------------------|------------|

<sup>1</sup> Minimum grade of "C" required for Education Courses.

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major

or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - Secondary
- ESL - English as a Second Language - Secondary

Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

<sup>1</sup> Excluding HS-201 United States History I (3 cr.) and HS-202 United States History II (3 cr.). Among these requirements, at least 6 credits must be from the 300-400 level excluding HS-461 Research Seminar in History.

<sup>2</sup> Minimum grade of "C" required for Education Courses.

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

*(Satisfies Technological Literacy (TL) and Cultural Diversity (CD) in General Education)*

Select 3 credits from Anthropology (AN) or Sociology (SO) with Course Type SS.SV 3

*(Satisfies Social Science (SS.SV) in General Education)*

### Education Interdisciplinary Requirements (6 credits)

|        |                                                |   |
|--------|------------------------------------------------|---|
| MA-205 | Number Systems                                 | 3 |
| MA-206 | Algebraic Thinking, Probability and Statistics | 3 |

*(MA-205 and MA-206 satisfy Mathematics (MA) in General Education)*

### Free Electives (9 credits) <sup>3</sup>

Select up to 9 free elective credits. <sup>3</sup> 9

### General Education Requirements (27 credits) <sup>4</sup>

Complete 27 credits as outlined on the General Education table. <sup>4</sup> 27

**Total Credits** 120

<sup>1</sup> Minimum grade of "C" required for Education Courses

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- P-3 Early Childhood Endorsement
- ESL - English as a Second Language - Elementary
- TSD - Teaching Students with Disabilities
- MID-SS - Middle School Social Studies and/or Humanities

## Notes

- 54 credits must be completed at the 200 level or higher.
- All education majors must have and maintain a 3.00 cumulative GPA to enter and throughout the program per state guidelines.

## Sequence Chart

| PS-102                                                               | International Relations, World Politics | 3       |

or PS-103 American National Government

*(Satisfies Social Science (SS.SV) in General Education)*

Select 12 credits from FOUR of the following Course Types: PSAM (American Politics), PSAL (American Legal System), PSPA (Public Policy), PSIP (International Relations), PSCG (Comparative Politics)

Select 3 additional credits from Political Science (PS)

Pre-Modern History: Select 3 credits from Course Type: HSPRE

Non-Western History: Select 3 credits from Course Type: HSNW, HSAS, HSLA, or HSAF

European History: Select 3 credits from Course Type: HSEU

US History: Select 3 credits from Course Type: HSUS

Select 3 additional credits in History (HS)

PS-401 Seminar in Political Science

or HS-461 Research Seminar in History

*(HS-461 satisfies Reasoned Discourse (RD) in General Education)***Major Requirements/Education (24 credits) <sup>1</sup>**

ED-250 Psychological and Philosophical Foundations of Education

EDS-330 Foundations of Special Education: Child & Adolescent Development and Transition to Adulthood

EDS-336 Classroom Management

ED-319 Content Literacy and Assessment

ED-320 Teaching Emergent Multilinguals in an Inclusive Classroom

*(Satisfies Reasoned Oral Discourse (RD) in General Education)*

ED-402 Content Area Literacy and Assessment II

ED-406 Clinical Practice NEW

**Education Methods Requirements (6 credits) <sup>2</sup>**

ED-315 Digital Media and Instructional Technology Skills for Teachers

ED-371 Methods of Teaching Social Studies at the Secondary Level

**HS/PS Interdisciplinary Requirements (6 credits)**

GO-100 People, Places, and Environments: Introduction to Geography

*Satisfies Technological Literacy (TL) and Cultural Diversity (CD) in general education*

Select 3 credits from Anthropology (AN) or Sociology (SO) with Course Type SS.SV

Satisfies Social Science (SS.SV) requirement in general education

**Education Outside Interdisciplinary Requirements (3 credits)**

MA-105 Mathematical Modeling in the Social Sciences

*(Satisfies Mathematics in General Education)***Free Electives (18 credits) <sup>3</sup>**

Complete 18 credits of free electives. <sup>3</sup>

**General Education Requirements (27 credits) <sup>4</sup>**

|                                                                              |            |
|------------------------------------------------------------------------------|------------|
| Complete 27 credits as outlined on the General Education table. <sup>4</sup> | 27         |
| <b>Total Credits</b>                                                         | <b>120</b> |

<sup>1</sup> Minimum grade of "C" required for Education Courses

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- ESL - English as a Second Language - Secondary
- TSD - Teacher of Students with Disabilities - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

# Music and Theatre Arts

Chair: Joseph Rapolla, Department of Music and Theatre Arts

The Music curriculum is designed to provide specific knowledge and skills in music and a basic education in the liberal arts. Students entering the Department of Music are required to present evidence of proficiency in their major area of performance.

The Music Industry concentration is designed to prepare students for careers in the music business in areas of specialization, such as music publishing, marketing, talent acquisition, concert production, media relations, and merchandising. Students will also be required to take courses that deal with popular music history and complete an internship program.

## Programs Majors

- B.A. in Music (p. 165)
- B.A. in Music and Education with Endorsement in K-12 Education in Music (p. 165)
- B.A. in Music with a Concentration in Music Industry (p. 167)
- B.A. in Music with a Concentration in Musical Theatre (p. 168)

## Minors

- Music (p. 169)
- Musical Theatre (p. 169)
- Podcasting (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/music-theatre-arts/podcasting-minor/>)
- Popular Music (p. 169)
- Theatre (p. 170)

## Faculty

**Sheri R. Anderson**, Senior Specialist Professor. B.A., William Jewel College; M.F.A., University of California, San Diego; M.A., Monmouth University. Ms. Anderson has extensive Broadway, off-Broadway, and regional experience as both a director and stage manager. To date, she has done thirteen Broadway productions, two national tours, and numerous regional and off-Broadway shows. Highlights include the Broadway productions of *Phantom of the Opera*, *Little Me*, and *The Full Monty*. She has been privileged to work with such theatrical legends as Neil Simon, Cy Coleman, Jerry Herman, Marvin Hamlisch, Terence McNally, John Guare, Chita Rivera, Rob Marshall, and Horton Foote, as well as Hollywood heavyweights Martin Short, John Lithgow, John Ritter, Henry Winkler, Kevin Spacey, and Madeline Kahn. She spent much of 2003 at Oxford University studying Shakespeare in performance. Fields of interest include theatre history, postcolonial drama, and musical theatre. She is a member of Actors' Equity Association and Mensa.  
shanders@monmouth.edu

**Jeffrey Cook**, Lecturer.

Pep Band Director. B.A., M.A., University of Miami; A.B.D., University of Kentucky.  
jcook@monmouth.edu

**Jonathan McElroy**, Assistant Professor. B.A., M.A., William Paterson University; Ph.D., New York University.

jmcclroy@monmouth.edu

**Joseph Rapolla**, Specialist Professor and Chair. M.B.A., Monmouth University. A recognized music industry innovator, who built and led Award Winning Marketing departments at both Universal and Warner Music Group. Professor Rapolla has directed programs for top talent, such as Madonna, Bon Jovi, Michael Jackson, U2, and Sting, and has partnered with the world's leading entertainment and media companies. He has earned multiple Gold Records for his work. He is also a songwriter, musician, and producer. He has released three studio CD's and a film soundtrack, collaborates with top writers and artists in NYC and Nashville, and continues to perform internationally.  
jrapolla@monmouth.edu

**David Tripold**, Professor. B.M., M.M., Westminster Choir College of Rider University; Ph.D., Drew University. Field of interest is American sacred music. He is a composer, choral director, vocal teacher, and organist. Dr. Tripold is a nationally recognized choral conductor, singer, voice teacher, organist, and liturgical scholar who oversees Monmouth University's music education degree program and directs the concert chorus and chamber choir. For over thirty years he has been engaged as a church organist and choir director and has performed as a baritone soloist and organist in the United States and Europe. His present scholarship focuses on American church music, especially pertaining to the origins of church choirs, church music collections known as tune books, and patterns and developments in contemporary American worship.  
dtripold@monmouth.edu

**Kenneth Womack**, Professor (Graduate Faculty). B.A., Texas AM University; M.A., Texas AM University/Moscow Institute of Communication, U.S.S.R.; Ph.D., Northern Illinois University. Professional interests include the Beatles, twentieth-century British literature, and creative writing. He serves as Editor of *Interdisciplinary Literary Studies: A Journal of Criticism and Theory*, published by Penn State University Press, and Co-Editor of the *English Association's Year's Work in English Studies*, published by Oxford University Press.  
kwomack@monmouth.edu

**George Wurzbach**, Specialist Professor. B.A., Brooklyn College, C.U.N.Y.; M.A., Hunter College C.U.N.Y. Professor Wurzbach is a multi-award-winning composer, performer, and producer. His work with the music comedy group *Modern Man* earned a *BackStage Magazine* Bistro Award and several MAC Award nominations. His recent contribution to the album *Comedians and Angels* earned a 2009 Grammy Award nomination for folk music legend Tom Paxton. As a composer he recently scored theme and segment music for the PBS series *Real Simple* and created the sound design for the "Roaring Mountain" with composer John Deak and librettist Bill Gordh, debuted by the New York Philharmonic at Lincoln Center. During the past four theater seasons as Music Director at Monmouth University he has composed and conducted original scores that were premiered by the Music and Theatre Arts student.

## Courses

**MU-REC Senior Recital - Music Major**

**Credits: None**

Term Offered: All Terms

Course Type(s): None

Senior Recital - Music Major. This is a pass/fail course.

**MU-101 Music Appreciation**

Term Offered: All Terms

Course Type(s): AT

Development of insights into historically significant examples of Western vocal and instrumental music.

**Credits: 3****MU-121 Fundamentals of Musicianship**

Term Offered: All Terms

Course Type(s): AT

MU-121 is a prerequisite for MU-221. Students have the option to test-out of MU-121 if they pass the Music Theory I, MU-221, placement assessment. MU-121 is a course requirement for Music Majors who do not pass the Music Theory I, MU-221, placement assessment. This is a pre-music theory course designed to introduce and develop students' fundamental understanding of musical concepts, terminology, and music reading abilities. Topics of discussion include clefs, key signature, time signatures, notation, rhythm, scales, intervals, chords, and the circle of fifths. Three hours per week. Requirement for Music Majors who do not pass the Music Theory I, MU-221, placement assessment. This course cannot be used to satisfy graduation requirements.

**Credits: 3****MU-140 The Music Industry Landscape**

Term Offered: All Terms

Course Type(s): AT

Students will be introduced to the modern music business ecosystem, find out how all facets of the evolving business function, and learn about the skills needed for a variety of diverse careers in the industry.

**Credits: 1****MU-142 Monmouth University Pep Band**

Course Type(s): AT

The Monmouth University Pep Band is a campus-wide ensemble that is open to all students, and performs a wide array of music in varied styles. Attendance is required for all scheduled athletic events throughout the semester. Students may take this course up to eight semesters.

**Credits: 1****MU-145 Band I**

Course Type(s): AT

Instrumental experience in concert and stage band combinations to improve one's musicianship; public performances on campus and in the community; two concerts a year. May be taken for as many as eight semesters.

**Credits: 1****MU-146 Band II**

Term Offered: Spring Term

Course Type(s): AT

Instrumental experience in concert and stage band combinations to improve one's musicianship; public performances on campus and in the community; two concerts a year. May be taken for as many as eight semesters.

**Credits: 1****MU-147 Chorus**

Term Offered: All Terms

Course Type(s): AT

Training in choral music of various styles, in vocal technique, and in aspects of expressive performance; concert participation required. Each semester, new repertoire is advanced, making each course unique in its new content. May be taken for as many as eight semesters.

**Credits: 1****MU-148 Chorus II**

Term Offered: Spring Term

Course Type(s): AT

Training in choral music of various styles, in vocal technique, and in aspects of expressive performance; concert participation required. Each semester, new repertoire is advanced, making each course unique in its new content. May be taken for as many as eight semesters.

**Credits: 1****MU-150 Introduction to Piano**

Term Offered: All Terms

Course Type(s): AT

Group instruction in piano with an emphasis on developing beginning skills in keyboard technique, music reading, harmonization, and performance of repertoire. Designed for students with little or no previous musical experience.

**Credits: 3****MU-151 Group Piano I**

Term Offered: All Terms

Course Type(s): AT

Group instruction in piano with an emphasis on music reading, music theory, piano technique, harmonization, improvisation, and performance of repertoire. Designed for music majors and students with some previous musical experience.

**Credits: 3****MU-152 Group Piano II**

Prerequisite(s): MU-151

Term Offered: Spring Term

Course Type(s): AT

Group instruction in piano with an emphasis on more advanced music reading, music theory, piano technique, harmonization, improvisation, and performance of repertoire. Designed for students who would like to continue to develop the skills acquired in MU-151.

**Credits: 3****MU-154 Blue Hawk House Band**

Term Offered: All Terms

Course Type(s): AT, HY

The Blue Hawk House Band is a pop music recording ensemble reinterpreting classic songs from seminal albums. House Band members select songs, analyze, arrange, create and record their individual parts culminating in live performances and in web-streamed music videos.

**Credits: 1****MU-156 Chamber Orchestra**

Term Offered: All Terms

Course Type(s): AT

The Monmouth University Chamber Orchestra is a small orchestral ensemble of strings with woodwinds, brass, and percussion that is designed to meet the needs of the Music and Theatre Department and public performances on campus and in the community. Each semester, new repertoire is advanced, making each course unique in its new content. May be taken for as many as eight semesters.

**Credits: 1****MU-157 Chamber Choir**

Term Offered: Fall Term

Course Type(s): None

The Monmouth University Chamber Chorus is an ensemble of sixteen to twenty-four auditioned singers who wish to extend their knowledge and skills in choral arts in a challenging musical setting. The repertoire for this ensemble requires a moderate/high degree of individual musicianship and mastery of specific singing techniques and period music interpretation. The group functions as a concert-ready and portable ensemble that responds to requests for particular types of venues, such as: sporting events, concert tours as a vehicle for a wider public performance experience with regard to public relations, meaningful connections with other academic institutions, and university recruitment. Each semester, new repertoire is advanced, making each course unique in its new content. Audition is required and registration is by the instructor. This course is repeatable for credit.

**Credits: 1**

**MU-158 Chamber Choir II**

Prerequisite(s): MU-157

Term Offered: Spring Term

Course Type(s): None

A continuation of MU-157, the Monmouth University Chamber Chorus is an ensemble of sixteen to twenty-four auditioned singers who wish to extend their knowledge and skills in choral arts in a challenging musical setting. The repertoire for this ensemble requires a moderate/high degree of individual musicianship and a mastery of specific singing techniques and period music interpretation. The group functions as a concert-ready and portable ensemble that responds to requests for particular types of venues, such as: sporting events, lecture/presentations, dedications, special events, and graduation ceremonies. Additionally, the group will undertake periodic concert tours as a vehicle for a wider, public performance experience and with regard to public relations, meaningful connections with other academic institutions, and university recruitment. Each semester, new repertoire is advanced, making each course unique in its new content. Audition is required and registration is by instructor. This course is repeatable for credit.

**Credits: 1****MU-161 Group Instrument I**

Course Type(s): None

Designed to develop instrumental technique and repertoire; open to students who have some proficiency in strings, woodwinds, brass, or percussion.

**Credits: 2****MU-162 Group Instrument II**

Term Offered: Spring Term

Course Type(s): None

Designed to develop instrumental technique and repertoire; open to students who have some proficiency in strings, woodwinds, brass, or percussion.

**Credits: 2****MU-163 Group Strings**

Term Offered: All Terms

Course Type(s): AT

Designed especially for music education students who are required to have some proficiency in group strings to meet state certification guidelines. Open to beginners only. Non-music majors may enroll by permission of the Department of Music and Theatre Arts.

**Credits: 1****MU-164 Group Woodwinds**

Term Offered: Spring Term

Course Type(s): AT

Designed especially for music education students who are required to have some proficiency in group woodwinds to meet state certification guidelines. Open to beginners only. Non-music majors may enroll by permission of the Department of Music and Theatre Arts.

**Credits: 1****MU-165 Group Brass**

Term Offered: All Terms

Course Type(s): AT

Designed especially for music education students who are required to have some proficiency in group brass to meet state certification guidelines. Open to beginners only. Non-music majors may enroll by permission of the Department of Music and Theatre Arts.

**Credits: 1****MU-166 Group Percussion**

Term Offered: Spring Term

Course Type(s): AT

Designed especially for music education students who are required to have some proficiency in group percussion to meet state certification guidelines. Open to beginners only. Non-music majors may enroll by permission of the Department of Music and Theatre Arts.

**Credits: 1****MU-167 Introduction to Electronic Music**

Course Type(s): None

Fundamentals of electronic music acquired through lectures, recordings, and hands-on use of electronic synthesizers.

**Credits: 3****MU-170 Electronic Music Composition**

Course Type(s): None

A course designed for musicians who wish to compose and record music in a soundtrack, avant-garde, or classical genre. Students will be required to use university recording facilities.

**Credits: 3****MU-171 Group Voice**

Term Offered: All Terms

Course Type(s): AT

Fundamentals of technique and performance of song literature; voice production and principles of singing, including breath control, resonance, tone quality, diction, and pronunciation. Each semester, new repertoire is advanced, making each course unique in its new content.

**Credits: 3****MU-172 Group Voice II**

Term Offered: Spring Term

Course Type(s): AT

Fundamentals of technique and performance of song literature; voice production and principles of singing, including breath control, resonance, tone quality, diction, and pronunciation. Each semester, new repertoire is advanced, making each course unique in its new content.

**Credits: 3****MU-180 Applied Music: Jazz Piano**

Term Offered: Spring Term

Course Type(s): None

Weekly, fifty-minute private lessons in jazz piano; may be repeated for additional credits.

**Credits: 1****MU-181 Applied Music: Bass**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in bass; may be repeated for additional credits.

**Credits: 1****MU-188 Fundamentals of Guitar**

Term Offered: Spring Term

Course Type(s): None

General music skills as applied to guitar playing; students develop left- and right-hand technique; introduction to basic repertoire and history of repertoire.

**Credits: 3****MU-190 Applied Music: Percussion**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in percussion; may be repeated for additional credit

**Credits: 1****MU-191 Applied Music: Voice**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in voice; may be repeated for additional credit.

**Credits: 1****MU-192 Applied Music: Piano**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in piano; may be repeated for additional credit.

**Credits: 1**

**MU-193 Applied Music: Upper Brass****Credits: 1**

Term Offered: Spring Term

Course Type(s): None

Weekly, fifty-minute private lessons in upper brass; may be repeated for additional credit.

**MU-194 Applied Music: Lower Brass****Credits: 1**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in lower brass; may be repeated for additional credit.

**MU-195 Applied Music: Woodwinds****Credits: 1**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in woodwinds; may be repeated for additional credit.

**MU-196 Applied Music: Guitar****Credits: 1**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in guitar; may be repeated for additional credit.

**MU-197 Applied Music: Strings****Credits: 1**

Term Offered: All Terms

Course Type(s): AT

Weekly, fifty-minute private lessons in strings; may be repeated for additional credit.

**MU-198 Special Topics in Music (100 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in music to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**MU-199 Applied Music: Private Instruction****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Private instrumental and vocal instruction. The instructor is selected by the student with the approval of the Music faculty. Students must consult the Music Department.

**MU-216 From Blues to Rap: The African-American Music Tradition****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Contributions of African-Americans to American music: slave songs, spirituals, blues, rhythm and blues, soul, and rap music.

**MU-217 The American Music Tradition****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

A survey of American music from the colonial period to the present, including folk and ethnic music, military and parade music, war songs, Tin Pan Alley pop, Broadway show tunes, and composers, such as Stephen Foster, Woody Guthrie, and Irving Berlin.

**MU-218 History and Literature of Music I****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Fall Term

Course Type(s): WT

Survey of musical idioms and forms from Ancient Greek to the Baroque periods. Primary focus on Western music in Western culture; some time will be spent exploring the music of Asia, Africa, and South America; exploration of the great musical literature that has survived from antiquity through 1700 AD.

**MU-219 History and Literature of Music II****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Survey of musical forms and idioms from the Classical period until the present. Primary focus is to expose the student to the vast body of musical masterworks created in the modern era, as well as exploration of "world music."

**MU-221 Theory I****Credits: 3**

Prerequisite(s): MU-151 or departmental approval

Term Offered: All Terms

Course Type(s): None

Basic knowledge of the procedures of harmony and melody.

**MU-221L Ear Training I****Credits: 1**

Term Offered: Fall Term

Course Type(s): None

The development of sight singing, dictation, and rhythmic skills is the objective of this course. Alto and tenor clefs are introduced during the first level.

**MU-222 Theory II****Credits: 3**

Prerequisite(s): MU-221 or departmental approval

Term Offered: Spring Term

Course Type(s): None

The rudiments of music writing, from the harmonization of simple melodies to the writing of more complex music. Emphasis on more advanced compositions.

**MU-222L Ear Training II****Credits: 1**

Prerequisite(s): MU-221L

Term Offered: Spring Term

Course Type(s): None

The development of sight singing, dictation, and rhythmic skills is the objective of this course. Topics, skills, and abilities introduced in Ear Training I are further developed.

**MU-223 Musical Cultures of the World****Credits: 3**

Course Type(s): AT, GU

Provides an introductory survey of music in selected traditions and cultures in global perspective. It explores music both as a phenomenon of sound and a phenomenon of culture. It aims to familiarize students with music sound and music structure of different peoples, to help them appreciate music in its cultural context, to guide them in listening to music on a basic analytical level, and to give them a broad global view of music as a human activity/behavior with social functions and as artistic expression. Special attention is placed on how political, economic, social, and religious factors influence musical aesthetics and notions of identity among performers and audiences-all concerns of Ethnomusicology.

**MU-224 Global Popular Music**

Term Offered: Spring Term

Course Type(s): AT, GU

In the age of globalization and the Internet, popular music (music produced for commercial purposes and transmitted through mass media to a large audience) is an increasingly global phenomenon and can provide a unique perspective into the social, political, and economic conditions of various cultures around the world. This course introduces students to some of the popular musics from around the world through the perspective of ethnomusicology, the study of music and culture and the ways that they intersect and influence one another. Emphasis is placed on analyzing musical innovations, trends, and movements in relation to location, culture, counter-culture, and the social/geo-political climate. In doing so, this course draws upon geographical case studies of popular music (for example, Algerian Rai, K-Pop, Bollywood, Indonesian dangdut, or the Afrobeat of Fela Kuti) to view how historical, social, and political factors have influenced their development. These issues will be explored through directed reading and listening assignments, response papers, a mix tape project, and focused class presentations and discussions.

**Credits: 3****MU-227 Introducing the Beatles!**

Term Offered: Fall Term

Course Type(s): AT, HY

This course addresses the Beatles' musical career in terms of their wide-ranging cultural and artistic influence. Particular attention will be devoted to examining their songs within the context of their composition and in terms of their place (and placement) on the band's albums. In addition to investigating their biographical lives, we will discuss the Beatles' overtly literary and textual intentions, especially their various attempts at irony, parody, and satire. This course's chronological design is arranged in order to capture the band's artistic trajectory from two-track recording and the relatively primitive Please Please Me album through the sonic heights of Revolver, Sgt. Pepper's Lonely Hearts Club Band, The White Album, and Abbey Road. The thrust of this course is interpretive in nature, with the Beatles' songs and albums receiving considerable scrutiny in terms of their composition, production, and attendant musicianship. Developments in recording and instrument technology are germane to our understanding of the Beatles' evolving aesthetic, as is the bandmates' development as songwriters who eventually eschew issues associated with romance in order to address larger and more prescient subjects in their music such as loneliness, oppression, nostalgia, ethics, and redemption.

**Credits: 3****MU-240 Record Label Strategies**

Prerequisite(s): MU-140 and MU-301.

Term Offered: All Terms

Course Type(s): None

Students will be introduced to a variety of skills needed in the music industry. Each student will be required to complete specific, hands-on projects in preparation for a major internship off campus.

**Credits: 1****MU-241 Advanced Record Label Strategies**

Prerequisite(s): MU-140, MU-240, and MU-301

Term Offered: All Terms

Course Type(s): None

Students will be introduced to a variety of skills needed in the music industry. Each student will be required to complete a specific hands-on project as preparation for a major internship off campus. Limited to Music majors.

**Credits: 1****MU-254 Arts Administration and Concert Promotion**

Term Offered: Fall Term

Course Type(s): None

Explore in-depth arts administration and management for a major Performing Arts Center, including concert promotion, operations and fundraising.

**Credits: 3****MU-290 Rock and Roll in American Culture**

Term Offered: All Terms

Course Type(s): WT

Impact of rock and roll on American culture and music history; rock genres, including rockabilly, protest rock, blues-rock, punk, heavy metal, and rock and roll as a global phenomenon.

**Credits: 3****MU-291 Jazz in America**

Term Offered: Spring Term

Course Type(s): RE, WT

Musical and cultural overview of the jazz tradition in America, with special emphasis on Dixieland, swing, bop, and jazz fusion, and artists such as Louis Armstrong, Count Basie, Duke Ellington, Charlie Parker, and John Coltrane.

**Credits: 3****MU-292 Roots, Rock, Reggae**

Term Offered: Spring Term

Course Type(s): RE

A survey of Jamaican reggae music from its inception to the present. The music form's political, religious, and cultural connections will also be examined, as will the major works of reggae composers, such as Bob Marley, Jimmy Cliff, and Peter Tosh.

**Credits: 3****MU-298 Special Topics in Music (200 Level)**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in music to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 1-3****MU-299 Independent Study in Music**

Term Offered: Spring Term

Course Type(s): None

Reading and research on a selected topic under the direction of a faculty member.

**Credits: 3****MU-301 The Business of Music**

Term Offered: All Terms

Course Type(s): None

An introduction to the inner workings and business strategies of the music industry. In addition to an analysis of the recording arm of the industry, other areas such as concert production, management, media relations, and talent acquisition will also be examined.

**Credits: 3****MU-321 Music Theory III**

Prerequisite(s): MU-221 and MU-222

Term Offered: Fall Term

Course Type(s): None

Music Theory III is the third semester of a sequential, two-year music theory curriculum. After a brief review of the material covered in Music Theory I (MU-221) and Advanced Theory and Harmony (MU-222), an introduction to the music materials and stylistic practices associated with nineteenth-century music is provided. Procedure will entail examining and working with melodic, rhythmic, harmonic, and structural elements found in the music being studied.

**Credits: 3**

**MU-322 Music Theory IV**

Prerequisite(s): MU-221, MU-222, and MU-321

Term Offered: Spring Term

Course Type(s): None

Music Theory IV is the fourth semester of a sequential, two-year music theory curriculum. After a brief review of the material covered in Music Theory I (MU-221), Advanced Theory and Harmony (MU-222), and Music Theory III (MU-321), an introduction to the music materials, stylistic practices and the unique forms and approaches associated with twentieth-century music is provided. Procedure will entail examining and working with the melodic, rhythmic, harmonic, and structural elements found in the music being studied.

**Credits: 3 MU-329W Workshop in the Techniques of Composing Music Credits: 2**

Prerequisite(s): MU-222

Term Offered: Spring Term

Course Type(s): None

Explores problems in melody, rhythm, and harmony, including texture and the elements of musical form, presented in line with the needs of individual students as revealed in their original composition.

**MU-326 Life and Work of Bruce Springsteen****Credits: 3**

Term Offered: Spring Term

Course Type(s): AT, HY

The course explores Bruce Springsteen's musical career in terms of his wide-ranging cultural and artistic influence. Particular attention will be devoted to examining his songs within the context of their composition and in terms of their place (and placement) on his albums. In addition to investigating his biographical life, we will discuss his overtly literary and political intentions as they evolve across the decades. This course's chronological design is arranged in order to capture Springsteen's artistic trajectory from his Greetings from Asbury Park, NJ and The Wild, The Innocent, and the E Street Shuffle albums through the creative heights of Born to Run, Darkness on the Edge of Town, The River, and Nebraska. The thrust of this course will be interpretive in nature, with Springsteen's songs and albums receiving considerable scrutiny in terms of their composition, production, and attendant musicianship. Particular attention will also be devoted to Springsteen's interactions with the music business, especially involving his management and the development of his career.

**MU-331 Music for the Child****Credits: 2**

Prerequisite(s): MU-151 and MU-218

Term Offered: All Terms

Course Type(s): None

Focus on methods and materials of teaching in the elementary school (K-8): singing, rhythmic expression, listening, use of simple instruments, and correlating music with other areas of learning. It will include pedagogical strategies related to teaching linguistically diverse students, students with diverse needs, using instructional technology and using data to inform instruction. For Music majors only. Also listed as ED-331. Clinical Hours required.

**MU-333 The Teaching of Music in the Secondary School****Credits: 2**

Prerequisite(s): MU-151 and MU-218

Term Offered: Spring Term

Course Type(s): None

Study and application of appropriate concepts, methods, skills, and materials for secondary-school music teachers. It will include pedagogical strategies for teaching linguistically diverse students, those with special needs using instructional technology and using data to inform instruction. For Music majors only. Clinical Hours required. Also listed as ED-333.

**MU-327 Instrumental Arranging and Basic Orchestration****Credits: 3**

Prerequisite(s): MU-222

Term Offered: All Terms

Course Type(s): None

Practical problems of orchestration, including transposition, characteristics and limitation of various band, orchestral, keyboard, and electronic instruments; arranging for instrumental ensembles of various sizes.

**MU-328 Conducting****Credits: 2**

Prerequisite(s): MU-218 and MU-151, and MU-145 and MU-146 or MU-147 and MU-148

Term Offered: All Terms

Course Type(s): None

Basic choral and instrumental conducting techniques with emphasis on the physical problems of coordination and control, as well as interpretation, rehearsal, performance, and program planning. Each student will function as an assistant to the choral/instrumental conductors.

**MU-329 Conducting II****Credits: 2**

Prerequisite(s): MU-328.

Term Offered: Spring Term

Course Type(s): None

A continuation of MU-328. Basic choral and instrumental conducting techniques with emphasis on the physical problems of coordination and control, as well as interpretation, rehearsal, performance, and program planning. Each student will function as an assistant to the choral/instrumental conductors.

**MU-335 Music Technology in Music Education****Credits: 2**

Term Offered: All Terms

Course Type(s): None

Music Technology in Music Education will prepare and equip students in the use of technology in the music classroom. This includes identifying and using Digital Audio Workstations in the music creation process; using MIDI; setting up and running a sound system, as well as how to lead a music technology course at the K-12 level.

**MU-340 Music and Music Publishing for TV, Radio, and Film****Credits: 3**

Course Type(s): None

Defines and examines the many opportunities available to the musician in the mass media, including theme composition, post scoring, jingle production, news music, production libraries, music editing, soundtrack production, on-air and cable network yearly campaigns, EFX and usage, available orchestrational sources, client relations, timings and conversations, on-air and theatrical publishing, professional societies (ASCAP, BMI, SESAC), budgeting, and union relations and affiliations.

**MU-341 Songwriting I****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Designed to analyze and study the many components of songwriting, focusing on today's contemporary music featured on radio, film, and television. Various styles will be studied and developed, from rap to country music. Nashville style group writing will be used as will Writer in the Round type performances. Ability to play an instrument is recommended but not required.

**MU-342 Songwriting II**

Term Offered: All Terms

Course Type(s): None

A continuation of Songwriting I and will focus on final arrangements and production of songs to be presented to publishers, record labels, etc. Also covered will be how to properly present works to producers and session musicians in the form of basic lead sheets and music notation.

**Credits: 3****MU-345 Record Production**

Term Offered: All Terms

Course Type(s): IM

Examines all of the aspects of record production, from choice of artist and material to the actual art of recording itself. Will meet in a fully equipped recording studio and will be co-taught by the lecturing professor and a professional sound engineer. The recording techniques to be taught will be applicable to all forms of music, including classical jazz, rock, and mass/multimedia. The student will have hands-on instruction on the use of analog and digital recording machines, sound boards, and outboard gear.

**Credits: 3****MU-353 Contemporary Rock Ensemble I**

Term Offered: All Terms

Course Type(s): None

Designed to run as a professional touring band would in preparation for a major tour and/or recording session. Covers many different genres with varying instrumentation. Taught by a seasoned road veteran with twenty years of experience in major tours/acts.

**Credits: 3****MU-354 Contemporary Rock Ensemble II**

Term Offered: Spring Term

Course Type(s): None

A continuation of Rock Ensemble I, which is designed to run as a professional touring band would in preparation for a major tour and/or recording session. It will cover many different genres with varying instrumentation. Taught by a seasoned road veteran with twenty years of experience in major tour/acts.

**Credits: 3****MU-398 Special Topics in Music (300 Level)**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in music to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 3****MU-399 Independent Study in Music**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in music to be announced prior to registration. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 1-3****MU-401 Music Business Internship Seminar**

Prerequisite(s): MU-301, departmental approval, Junior standing, and proof of internship prior to enrollment.

Term Offered: All Terms

Course Type(s): EX5

Practical experience in the music industry in fields such as concert production, promotion, publicity, music publishing, and management. This course is repeatable for credit.

**Credits: 3****MU-402 Music Internship Seminar II**

Prerequisite(s): MU-401

Term Offered: All Terms

Course Type(s): EX5

Practical experience in the music industry in fields such as concert production, promotion, publicity, music publishing, and management. Limited to Music majors only.

**Credits: 3****MU-403 Music Internship Seminar III**

Prerequisite(s): MU-402

Term Offered: Spring Term

Course Type(s): EX5

Practical experience in the music industry in fields such as concert production, promotion, publicity, music publishing, and management. Limited to Music majors only.

**Credits: 3****MU-405 Composition**

Prerequisite(s): MU-218, MU-219, MU-221, and MU-222

Term Offered: Spring Term

Course Type(s): None

Using the technique of Replicate-Generate From-Generate, this course combines the student's knowledge of traditional styles, form, and analysis in order to replicate music in many styles. The student will then begin to combine his or her own musical ideas into these compositions. The second half of the semester will be devoted to the original compositions of the student while employing the disciplines previously studied. Classical as well as contemporary motifs will be explored in this lecture-discussion-workshop course.

**Credits: 3****MU-406 Composition II**

Prerequisite(s): MU-405

Course Type(s): None

Using the technique of Replicate-Generate From-Generate, this course combines the student's knowledge of traditional styles, form, and analysis in order to replicate music in many styles. The student will then begin to combine his or her own musical ideas into these compositions. The second half of the semester will be devoted to the original composition of the student while employing the disciplines previously studied. Classical as well as contemporary motifs will be explored in this lecture-discussion-workshop course.

**Credits: 3****MU-453 Advanced Record Production**

Prerequisite(s): MU-345

Term Offered: All Terms

Course Type(s): None

Addresses the aesthetics of record production. Studio techniques, pre-production approaches, actual recording and final mixing are at the heart of this course. Students will learn microphone techniques as well as control room techniques. The full responsibilities of the producer will be taught and discussed in the class, as well as practiced outside of the studio/classroom. Lectures and demonstrations will precede the students' practical application and final product.

**Credits: 3****MU-489 Internship in Music**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in music; repeatable for credit. Departmental approval and Junior standing are required to register for this course.

**Credits: 1-3**

**MU-498 Special Topics in Music (400 Level)**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in music to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 1-3****MU-499 Independent Study in Music**

Term Offered: Spring Term

Course Type(s): None

Reading and research on a selected topic under the direction of a Music Department faculty member. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 1-3****TH-101 Theatre Appreciation**

Term Offered: All Terms

Course Type(s): AT

Introduction to the elements of theatre, including film and TV as theatre media. Study of plays from script to stage through readings, lectures, and theatre-going experiences.

**Credits: 3****TH-150 Introduction to the Theatre**

Course Type(s): AT

Introduction to the elements of theatre, including cinema and television as theatre media; the study of a representative group of plays from script to stage.

**Credits: 3****TH-154 Acting I (Non-Major)**

Term Offered: All Terms

Course Type(s): AT

An introduction to acting the dramatic situation through guided improvisation based on material from dramatic literature.

**Credits: 3****TH-155 Acting I (TH Major)**

Course Type(s): None

Designed to enable students to explore the use of their imagination, instrument, and sense of playing to work within an ensemble. Basic skills, such as playing with intuition and listening and responding openly to a partner within given circumstances, will be the primary goals.

**Credits: 3****TH-156 Acting II (TH Major)**

Prerequisite(s): TH-155

Term Offered: Spring Term

Course Type(s): None

Builds from the previous exercise work with working on assigned scenes. Work will begin on open scenes and finish the term working on a scene from important plays of American theatre. Students will study the breakdown of a scene, structure, both verbal and non-verbal, and effective communication of intent.

**Credits: 3****TH-190 Applied Theatre Techniques I**

Term Offered: All Terms

Course Type(s): AT

First-year students are required to take this hands-on, practical course in building, painting, and crewing a department production.

**Credits: 1****TH-191 Applied Theatre Techniques II**

Term Offered: All Terms

Course Type(s): AT

Second semester in Applied Theatre requires students to take a more responsible position in the hands-on practical building, painting, and crewing of a department production.

**Credits: 1****TH-199 Independent Study in Theatre**

Course Type(s): None

Directed individual study of theatre in areas of special interest. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 1-3****TH-230 Acting II (non-Major)**

Prerequisite(s): TH-154

Term Offered: Spring Term

Course Type(s): None

Roles as an integral part of play production; the basic principles of acting through lectures, discussions, and the rehearsal and performance of a variety of scenes.

**Credits: 3****TH-231 Acting III (Major)**

Prerequisite(s): TH-155 and TH-156

Course Type(s): None

Study of "styles". Beginning work on classic texts, such as Shakespeare, Moliere, or Restoration Comedy. Text analysis, scansion, and speaking with authority will be emphasized. Text work in sonnets and scenes.

**Credits: 3****TH-232 Acting IV (Major)**

Prerequisite(s): TH-155, TH-156, and TH-231

Term Offered: Spring Term

Course Type(s): None

The fourth semester will be an extension of styles of work. Advanced work in characterization, the development of physical and emotional involvement, and working with objectives, obstacles, and actions, with emphasis on classic "styles".

**Credits: 3****TH-240 Actors' Equity Workshop I**

Term Offered: Summer Term

Course Type(s): None

An introduction to the basic rules and regulations of Actors' Equity Association's Small Professional Theatre Agreement and to basic stage management principles. Lectures will be supplemented with extensive, practical "lab" hours in which the students put into practice in a professional setting those elements learned in the class.

**Credits: 3****TH-242 Introduction to Improvisation**

Term Offered: Fall Term

Course Type(s): AT

An introduction to Improvisational Acting/Performance. No prior experience in theatre is required. Acting training and stage performance is a plus. Students should be prepared to go through a series of exercises that are designed to teach and hone the ability to perform an improvisational performance.

**Credits: 3****TH-245 Theatre Performance Practicum I**

Term Offered: All Terms

Course Type(s): None

Involves actual experience performing in a University production. Credit can be specified for a student's acting, singing, and/or dancing in a department-sponsored production. The Performance Practicum can be taken in any combination simultaneously or consecutively for a total of three credits toward the Musical Theatre Concentration, Theatre Minor, or Musical Theatre Minor. Any credits for Practicum courses beyond that go towards free electives. This course is repeatable for credit.

**Credits: 1**

**TH-246 Theatre Performance Practicum II****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Involves actual experience performing in a University production. Credit can be specified for a student's acting, singing, and/or dancing in a department-sponsored production. The Performance Practicum can be taken in any combination simultaneously or consecutively for a total of three credits towards the Theatre or Musical Theatre Minor. Any credits for Practicum courses beyond that go towards free electives. This course is repeatable for credit.

**TH-247 Theatre Performance Practicum III****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Involves actual experience performing in a University production. Credit can be specified for a student's acting, singing, and/or dancing in a department-sponsored production. The Performance Practicum can be taken in any combination simultaneously or consecutively for a total of three credits towards the Theatre or Musical Theatre Minor. Any credits for Practicum courses beyond that go towards free electives. This course is repeatable for credit.

**TH-251 Introduction to Theatre Production and Design****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Introduction to scenic, costume, lighting, and sound design and technology, including: the problems involved in executing the technical aspects of a theatrical production; preparation of working drawings, light plots, scale models; ability to hang, focus, and program theatrical lighting; solutions of make-up and costuming problems.

**TH-290 Applied Theatre Design****Credits: 1**

Prerequisite(s): TH-190 and TH-191

Term Offered: All Terms

Course Type(s): AT

Students will work intensely with a designer for a department production. Student will be responsible for the design and construction of one facet of a total design: namely, a prop, a costume, lights, or some integral part of a production design.

**TH-291 Applied Theatre Management****Credits: 1**

Prerequisite(s): TH-190 and TH-191

Term Offered: All Terms

Course Type(s): AT

Students will work intensely with a management office concerning a department production. Students will be involved with hands-on production of publicity, company management, box office, public relations, casting, historical records, and/or dramaturgy.

**TH-298 Special Topics in Theatre (200 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in theatre to be announced prior to registration. If there is a prerequisite for this course it will be announced in the course schedule.

**TH-299 Independent Study in Theatre****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Directed, individual study of theatre in areas of special interest. Prior permission of the directing professor and department chair is required to take this course.

**TH-301 Theatre History I****Credits: 3**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

The development of theatre from the Classical Greek through the Elizabethan period. Examination of plays, playwrights, architecture, scenery, costumes, mechanics, technology, historical, and sociological influences.

**TH-310 Musical Theatre History****Credits: 3**

Term Offered: All Terms

Course Type(s): AT

The Broadway musical is considered by many to be America's greatest contribution to the world of theatre. Examines the history and evolution of American musical theatre. Special attention will be paid to composers, lyricists, directors, choreographers, and performers who have made significant contributions to the genre. Material will be discussed chronologically from minstrelsy to the contemporary mega-musical.

**TH-335 Group Techniques in Performance****Credits: 3**

Term Offered: Spring Term

Course Type(s): COCCL, COCSD

Students will learn creative group-based practices and methods of inquiry to develop original performances based on pressing social issues. Collaborative approaches will include historical research, multicultural and critical perspectives, embodied devising, verbatim theatre techniques, and adaptations of texts for public presentation. Also listed as CO-335.

**TH-340 Actors' Equity Workshop II****Credits: 3**

Prerequisite(s): TH-240

Term Offered: Summer Term

Course Type(s): None

Builds upon the basic knowledge gained in TH-240 through the in-depth study of Actors' Equity Association's two most widely used contracts, the LORT (League of Resident Theatres) and Production (Broadway, Off-Broadway, National Tour) agreements. Lectures will be supplemented with extensive, practical "lab" hours in which the students put into practice in a professional setting those elements learned in the class.

**TH-342 Improvisation II****Credits: 3**

Prerequisite(s): TH-242

Term Offered: Spring Term

Course Type(s): None

A continuation of exercises in Improvisational Acting/Performance. No prior experience in theatre is required, however students should take Introduction to Improvisation first. Acting training and stage performance is a plus. Students should be prepared to go through a series of exercises that are designed to teach and hone the ability to perform an improvisational performance.

**TH-349 Postcolonial Drama and Film****Credits: 3**

Term Offered: All Terms

Course Type(s): BI, EL, GU, RE

Study of postcolonial plays and films from Ireland, Australia, Africa, and India, including such postcolonial themes as language, religion, and race. Students will discuss the ways in which the theatrical and cinematic media are used to express the loss of, and quest for, national and individual identity in the aftermath of empire. The students will not only become versed in postcolonial theory, but also in the individual dramatic styles/structures of each of the nations discussed.

**TH-355 Dramatic Literature**

Prerequisite(s): TH-150

Course Type(s): None

Analysis of representative plays of the major forms of the drama-tragedy, comedy, tragicomedy, and romance. Emphasis on the literary and performance aspects.

**Credits: 3****TH-357 Acting for Television**

Prerequisite(s): TH-154

Term Offered: Spring Term

Course Type(s): None

Techniques that the on-camera performer uses in various TV situations, commercials, daytime drama, situation comedy, and serious drama. Also listed as CO-357.

**Credits: 3****TH-361 Play Direction**

Prerequisite(s): TH-230

Term Offered: Spring Term

Course Type(s): None

Play analysis, casting procedures, composition, movement, stage business, backstage organization, rehearsal routine, and theatre management from the standpoint of the creative director.

**Credits: 3****TH-389 Internship in Theatre**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in theatre; repeatable for credit.

Departmental approval and Junior standing are required to take this course.

**Credits: 1-3****TH-390 Applied Theatre Techniques III**

Term Offered: All Terms

Course Type(s): AT

Students will work hands-on with an appropriate faculty member on an advanced project in theatre, musical theatre, or music production. An alternative possibility would be to do a pre-internship assignment with a local theatre.

**Credits: 1****TH-391 Applied Theatre**

Prerequisite(s): TH-190, TH-191, and either TH-290, TH-291, or TH-390

Term Offered: All Terms

Course Type(s): AT

Students will work hands on with an appropriate faculty member on an advanced project in theatre, musical theatre, or music production. An alternative possibility would be to do a pre-internship assignment with a local theatre.

**Credits: 1****TH-398 Special Topics in Theatre (300 Level)**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in theatre to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 3****TH-399 Independent Study in Theatre**

Course Type(s): None

Directed individual study of theatre in areas of special interest. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 3****TH-401 Theatre History II**

Prerequisite(s): TH-301 and EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): WT

The development of theatre from the Restoration through the Modern Period. Examination of plays, playwrights, architecture, scenery, costumes, mechanics, technology, historical, and sociological inferences.

**Credits: 3****TH-441 Summer Theatre Workshop I**

Course Type(s): None

Basic technical theatre, theatre management, elements of acting, children's theatre, costuming and make-up, lighting and set design; four dramatic productions.

**Credits: 3****TH-442 Summer Theatre Workshop II**

Course Type(s): None

Basic technical theatre, theatre management, elements of acting, children's theatre, costuming and make-up, lighting and set design; four dramatic productions.

**Credits: 3****TH-453 Creative Dramatics**

Term Offered: Spring Term

Course Type(s): None

The goal of Creative Dramatics is to equip teachers with the ability to use creative dramatics, creative play, and theatre games in the classroom as a tool for teaching all subjects. Also useful for actors and recreation or community leaders who work with children and want to learn new and creative techniques. The emphasis in this class is on the participant and participation. Students should attend comfortably dressed.

**Credits: 3****TH-480 Problems in Theatre Practice**

Term Offered: Spring Term

Course Type(s): None

Independent projects and intensive research under the guidance of one or more members of the department; creative work in acting, costuming, creative dramatics, directing, lighting, scenic design, and playwriting.

**Credits: 3****TH-498 Special Topics in Theatre (400 Level)**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in theatre to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 3****TH-499 Independent Study in Theatre**

Course Type(s): None

Directed individual study of theatre in areas of special interest. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 1-3**

<sup>1</sup> Only required for MU/ED majors must also complete MU-329 Conducting II (2 cr.). See Education Methods Requirements.

<sup>2</sup> Combinations of instruction must be approved by an advisor

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.

## Sequence Chart

| First Year                   |         |                                 |         |

**Free Electives (0 credits) <sup>5</sup>**

The number of free electives, if any, will be determined in consultation with your advisor <sup>5</sup> 0

**General Education Requirements (36 credits) <sup>6</sup>**

Complete 36 credits as outlined on the General Education table. <sup>6</sup> 36

**Total Credits** 120

<sup>1</sup> MU-329 Conducting II (2 cr.) required for MU/ED majors. See Education Methods Requirements

<sup>2</sup> Combinations of instruction must be approved by an advisor

<sup>3</sup> Minimum grade of "C" required for Education Courses

<sup>4</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- ESL - English as a Second Language - Secondary
- TSD - Teacher of Students with Disabilities - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

## Political Science and Sociology

Chair: Kenneth Mitchell, Department of Political Science and Sociology  
Sociology Program Director: Johanna Foster

The political science curriculum offers a variety of courses that strengthen understanding of traditional and contemporary issues in American politics, legal studies, international affairs, comparative politics, and public policy. The curriculum assists students in preparing for leadership and careers in business, journalism, law, politics, public service, and teaching.

### Political Science National Student Honor Society: Pi Sigma Alpha

**Political Science Departmental Honors:** will be earned based on the following criteria being met:

- Two additional 300+ level Political Science courses beyond those required for the Political Science major
- Students should apply to the chair of the Political Science and Sociology Department at the start of their junior year
- Overall G.P.A. 3.5 or higher; Political Science G.P.A. must be 3.75 or higher

### Sociology National Student Honor Society: Alpha Kappa Delta

**Sociology Departmental Honors:** will be earned based on the following criteria being met:

- Two additional 300+ level Sociology courses beyond those required for the Sociology major
- Students should apply to the chair of the Political Science and Sociology Department at the start of their junior year
- Overall G.P.A. 3.5 or higher; Sociology G.P.A. 3.75 or higher

**Student Clubs: Debate Team, Global Service Club (Model UN), Moot Court, Mock Trial, Political Science Club, Pre-Law Club, and Sociology Club**

- B.A. in Political Science with a Concentration in Legal Studies (p. 188)
- B.A. in Sociology (p. 189)
- B.A. in Sociology with a Concentration in Applied Research and Community Organizing (p. 190)

## Minors

- Gender and Intersectionality (p. 191)
- Political Science (p. 191)
- Pre-Law (p. 191)
- Public Policy (p. 191)
- Social Justice (p. 192)
- Sociology (p. 192)

## Faculty

**Melissa Alvare**, Lecturer. B.A., Temple University; M.A., Ph.D., University of Delaware.  
malvare@monmouth.edu

**Stephen J. Chapman**, Associate Professor. B.A., M.A., East Stroudsburg, University; M.A., Ph.D., S.U.N.Y. Binghamton. Specializes in American politics. His research interests include representation strategies of elected officials, the impact of continued partisan control of state governments, and public opinion. Dr. Chapman also possesses a strong research methods background and regularly teaches the undergraduate- and graduate-level methods courses.  
schapman@monmouth.edu

**Rekha Datta**, Professor and Freed Endowed Chair in the Humanities. B.A., M.A., Presidency College, University of Calcutta, India; Ph.D., University of Connecticut. Specialization in political theory, international relations, comparative politics of South Asia, East Asia, the United Nations, and women and the world. Research interests focus on issues of gender and development, traditional and human security issues, and child labor. In 2003 Dr. Datta received the Distinguished Teacher of the Year Award, the highest recognition for teaching at Monmouth University. She served on the county board of the American Association for University Women as Vice President for Public Policy until 2013. Since 2013, she has served on the Board of Big Brothers Big Sisters of Monmouth and Middlesex Counties. Founder of Women and Girls' Education (WAGE) International, a New Jersey-based 501 (c) (3) not-for-profit organization. Member of the Committee on Status of Representation and Diversity, International Studies Association. Author of: *Beyond Realism: Human Security in India and Pakistan in the Twenty-First Century* (2008, 2010); *Why Alliances Endure: The United States-Pakistan Alliance, 1954-1971* (1994); co-editor, with Judith Kornberg, *Women in Developing Countries: Assessing Strategies for Empowerment* (2002). Advisor of Pi Sigma Alpha National Political Honor Society. Founder of the Institute for Global Understanding.  
rdatta@monmouth.edu

**Kevin Dooley**, Professor. B.A., Monmouth University; M.A., Ph.D., Rutgers University. Research interests focus on globalization, comparative public policy, the politics of language, and comparative European governments. In addition to a wide array of scholarly articles, he is the author/co-author of two books, *Politics Still Matter: Globalization, Governance, and the Revival of Regional Minorities* (2008) and *Why Politics Matter: An Introduction to Political Science* (2012).  
kdooley@monmouth.edu

**Johanna Foster**, Professor, Sociology Program Director, and Helen McMurray Bennett Endowed Chair in Social Ethics. B.A., Interdisciplinary/Women's Studies, M.A., Applied Sociology/Social Policy, American University; Ph.D., Rutgers University. Dr. Foster has taught sociology and gender studies for over twenty years at a range of academic institutions, from private universities to urban

community colleges, and with many of those years on the faculty at Monmouth University. She most enjoys sharing her love of sociology with students, and regularly teaches such courses as Introduction to Sociology, Introduction to Gender Studies, Race and Ethnicity, and Social Stratification. For many years, she combined her teaching and research efforts in social inequalities with work to restore higher education to prison communities, co-founding The College Bound Consortium for incarcerated women in New Jersey, and the college connections program for incarcerated women in New York.  
jfooster@monmouth.edu

**Scott Hofer**, Assistant Professor. B.A., Augustana University; M.A., Ph.D., University of Houston.  
shofer@monmouth.edu

**Peter Jaques**, Professor/Rechnitz Endowed Chair in Marine Environmental Law and Policy. B.A., Montana State University; M.P.A., Ph.D., Northern Arizona University  
pjaques@monmouth.edu

**Jennifer McGovern**, Associate Professor. B.S., Sacred Heart University; M.S., Central Connecticut State University; M.S., Ph.D., Temple University. Specializes in understanding how sport both reflects and challenges social inequalities, such as social class, race, ethnicity, nationality, gender, and sexuality. Her previous research focused on the ways that professional baseball's institutional structures have grown and changed and how local baseball fans tell narratives about baseball players as the game has grown more global in scope.  
jmcgover@monmouth.edu

**Kenneth Mitchell**, Professor and Chair. B.A., University of California; M.S., London School of Economics; D.Phil., Oxford University, United Kingdom. Specializes in Latin-American and Caribbean politics and policy (public sector reform, democratization, and state-society relations); and international political economy (capacity building in public sector, community development, and politics of market-based reform). Authored: *State-Society Relations in Mexico* (2001); "Don't Cry for Argentina, They Will Survive This" (2014); "Models of Clientelism and Policy Change: the Case of conditional Cash Transfer Programmes in Mexico and Brazil" (co-authored with Aaron Ansell, 2011); "An Institutional Anomaly, Longevity and Competition in the Dominican Party System" (2009); "Bridging the Convergence-Divergence Policy Diffusion Divide, Mid-range Theorizing and Devolving Food Aid in Mexico and the Dominican Republic" (2007); "Building State Capacity: Reforming Mexican State Food Aid Programs in the 1990's" (2005). In 2015, he received the Monmouth University Distinguished Teacher of the Year Award.  
kmitchel@monmouth.edu

**Joseph Patten**, Professor. B.A., Kean University; M.A., Ph.D., West Virginia University. Teaches courses in politics and public policy. Received Monmouth University's Distinguished Teaching Award in 2009. Coach of the Monmouth University Policy Debate Team and University advisor for the Washington Semester Internship Program. He also served as president of the New Jersey Political Science Association in 2012 and 2013. Co-author of "Why Politics Matter: An Introduction to Political Science (Wadsworth Cengage Publisher) in 2012.  
jpatten@monmouth.edu

**Saliba Sarsar**, Professor. B.A., Monmouth University (Monmouth College); Ph.D., Rutgers University. Specialties are international relations, comparative government (Middle East), and American foreign policy. He is the co-author of two books: *Ideology, Values, and Technology*

in Political Life (1994) and World Politics: An Interdisciplinary Perspective (1995); the editor of two books: Education for Leadership and Social Responsibility (1996) and Palestine and the Quest for Peace (2009); and the co-editor of three books: Principles and Pragmatism – Key Documents from the American Task Force on Palestine (2006), Patriarch Michel Sabbah – Faithful Witness: On Reconciliation and Peace in the Holy Land (2009), and Democracy in Africa: Political Changes and Challenges (2012). He guest edited a special issue of the International Journal of Politics, Culture, and Society (2004), focusing on Palestinian-Israeli relations. Dr. Sarsar's articles have appeared in Peace and Conflict Studies; Holy Land Studies; Palestine-Israel Journal of Politics; Economics and Culture; This Week in Palestine; Columbia University Middle East Studies Internet Resources; Clio's Psyche; Peace Review: A Journal of Social Justice; Middle East Quarterly; Jerusalem Quarterly File; Scandinavian Journal of Development Alternatives and Area Studies; Journal of South Asian and Middle East Studies; International Journal of Leadership; Journal of Leadership Studies; and Leadership and Organization Development Journal. Dr. Sarsar also has two published books of poetry: Crosswinds (1999) and Seven Gates of Jerusalem (2010). A third book of poetry, Portraits: Poems of the Holy Land, is awaiting publication.  
sarsar@monmouth.edu

## Courses

### PS-102 International Relations

**Credits: 3**

Term Offered: All Terms

Course Type(s): GU, PSIP, SS.SV

The major theoretical concepts and issues of international relations, emphasizing theories, actors, structures, ideologies, and environment of international politics.

### PS-103 American National Government

**Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

A survey of United States government, emphasizing the Constitution, functions of political parties, pressure groups, the relationships of citizens to the government, the development of administrative control, and problems unique to each of the three branches of government.

### PS-104 Introduction to Policy Debate

**Credits: 3**

Term Offered: Fall Term

Course Type(s): PSPA

This course is designed to introduce students to the activity of policy debate competition. Students will develop research and organizational skills, learn how to deliver and refute arguments, and will participate in classroom debate scrimmages in preparation for weekend long off campus debate tournaments against students from other universities.

### PS-105 Introduction to Public Policy

**Credits: 3**

Term Offered: All Terms

Course Type(s): PO, PSPA, SS.SV

Analysis of policy-making processes in American society, including health care, the environment, education, crime, and employment; application of competing perspective and value orientation to policy areas; impact on specific groups within American society and the global community.

### PS-107 Introduction to Social Justice

**Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

Provides a conceptual and practical basis to understand, interpret, and solve social problems in fair, equitable, and just ways. Also listed as SO-107.

### PS-108 Model United Nations

**Credits: 3**

Term Offered: All Terms

Course Type(s): RD

International relations is a subfield of political science that examines the nature of power and its distribution around the world. Scholars interested in international relations have developed a variety of simulations to seek greater understanding of state behavior. This course will simulate the policies and procedures of the dominant organs of the United Nations in order to gain a greater understanding of international issues like climate change, terrorism, humanitarian aid, international trade and commerce, and war and peace.

### PS-109 Civic Engagement and Leadership

**Credits: 1**

Term Offered: Spring Term

Course Type(s): None

Civic responsibility, engagement, and leadership are encouraged through active student involvement in a community or campus organization. Students will perform twelve hours of public service over the course of the semester working for an organization that addresses a particular issue of public concern. Also listed as SO-109.

### PS-198 Special Topics in Political Science (100 Level)

**Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in political science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

### PS-199 Reading and Research in Political Science

**Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided study of a topic in political science not substantially treated in a regular course, under the direction of a member of the political science faculty. Extensive reading and at least one written report are required. Prior permission of the directing professor and department chair is required to take this course.

### PS-202 State and Local Government

**Credits: 3**

Prerequisite(s): PS-102 or PS-103; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): PSAM, WT

A comparative study of state, local, and suburban politics in the United States with special emphasis on New Jersey and the New Jersey-New York metropolitan area.

### PS-211 Legal Analysis and Writing

**Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Fall Term

Course Type(s): PSAL

This course focuses on the fundamentals of legal analysis and writing. Effective legal analysis and writing are key skills required to succeed in law school and the legal profession. Students will understand the role of an attorney, analyzing their client's legal issue, drafting various pieces of legal writing, including legal memorandum and briefs, and arguing their client's case orally. Students will learn both objective legal analysis and persuasive legal writing and arguing skills.

**PS-212 Workshop in NJ's County Pre-Trial Prosecution System: Legal and Political Aspects** **Credits: 3**

Term Offered: Spring Term

Course Type(s): PSAL, PSAM

Legal and political analysis of New Jersey's pretrial prosecution process. The roles, pressures, attitudes, and strategies of the county prosecution system personnel will be subjects for field research seminar study.

**PS-221 Early Political Thought** **Credits: 3**

Prerequisite(s): PS-102 or PS-103; and EN-101 and EN-102 or permission of the instructor

Term Offered: Fall Term

Course Type(s): WT

Consideration of the major political theories of the Western world and their relevance to contemporary politics. Semester I: Plato to Marx.

Semester II: later nineteenth-and twentieth-century political thinkers, with special emphasis on the behavioral school.

**PS-222 Modern Political Thought** **Credits: 3**

Prerequisite(s): PS-102 or PS-103; and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Consideration of the major political theories of the Western world and their relevance to contemporary politics. Semester I: Plato to Marx.

Semester II: later nineteenth- and twentieth-century political thinkers, with special emphasis on the behavioral school.

**PS-223 Introduction to Global Sustainability** **Credits: 3**

Term Offered: Fall Term

Course Type(s): MEBP, SUS

Introduces students to the global, environmental, economic and social foundations of sustainability and the policy and scientific challenges involved with accommodating population growth, development, and resources used while assuring that future generations will have the natural and economic resources to support an enhanced quality of life. An emphasis will be placed on understanding of sustainability principles from multiple perspectives and cross-disciplinary application of sustainable practices. Also listed as BY-221.

**PS-224 Theories of Political Economy** **Credits: 3**

Prerequisite(s): EN-101 and EN-102 and PS-102 or PS-103

Course Type(s): WT

Theories of political economy studies the intersection of the state (politics) and markets (economy) to explain policy outcomes (student loans, sin taxes, agricultural subsidies, trade rules, etc.) as well overall economic development of nations. Economists assume a world of rational individuals pursuing their self-interest through markets - i.e., Adam Smith's "invisible hand" - while political scientists assume a world of rational actors seeking to maximize their political power. Combined, political economy presents a world in which political actors are influenced, guided and constrained by markets, budget constraints, and resource scarcity while economic markets reflect political power relationships surrounding property rights, contract enforcement, regulations, and tax rules. Drawing the line between state/public and market/private is a political process yet one with clear economic consequences. Take the example of healthcare. Two possibilities exist - private (market-based) or public (state-based) - and the choice boils down to a political process (i.e., executive, legislative and judicial branches plus interest groups) occurring in a context influenced by market constraints (i.e., costs, budget constraints, scarcity, taxes, and insurance).

**PS-240 Environmental Ethics** **Credits: 3**

Term Offered: All Terms

Course Type(s): PSIP

This course will examine the ethical arguments/repercussions related to the environment. Topics will include the principles involved in combatting environmental problems such as pollution, loss of species and habitats, climate change, environmental justice, food insecurity, and economic and political impacts. As the environment faces a growing number of threats from human activities these core issues are becoming increasingly important. The purpose and importance of this course is to create a learning environment that stresses the understanding of ethics, its development as a major field, and its necessary role in understanding the environment.

**PS-250 Fundamentals of Social Science Research** **Credits: 3**

Term Offered: All Terms

Course Type(s): TL

An introduction to the different ways in which social scientists study the social world. Designed to develop students' understanding of the major purposes of social research as well as the major types of quantitative and qualitative research designs. Students will learn the research process itself, from conceptualization and measurement to operationalization, sampling, ethics, and the analysis and presentation of their proposed study. As part of the research process, students will use spreadsheet, presentation, and word processing software to build datasets, analyze data, and design and present research. Also listed as SO-250. Sociology majors should register for SO-250. This course is for Political Science majors only or other majors with instructor consent.

**PS-274 Global Inequalities** **Credits: 3**

Prerequisite(s): SO-101 or PS-102

Term Offered: All Terms

Course Type(s): BI, EL, GLS, GU, RE, SJS, SUS

A sociological and political look at global inequalities. Explores diverse themes and aspects of a global society, including the forces that are causing and perpetuating global inequalities. It also looks at the social, political, economic, and cultural consequences of those inequalities. Also listed as SO-274.

**PS-275 Politics and Policy of Latin America** **Credits: 3**

Term Offered: All Terms

Course Type(s): PSCG, PSPA, RE

Introduces students to the critical political issues and challenges in Latin America, a geographic region that includes Mexico, Central America, the Caribbean and South America. Hemisphere integration continues to accelerate, and political developments south of the border increasingly impact the United States. Immigration, trade, drugs, and the environment require hemisphere collaboration among a diverse set of peoples and governments. Surveys contemporary politics and economics, as well as the basic regional history in a way that invites comparison and the development of regional (Southern Cone, Andean Region, Central America, Caribbean) and hemispheric perspectives on the challenges linked to hemispheric integration.

**PS-277 Gender and Politics** **Credits: 3**

Term Offered: Spring Term

Course Type(s): GS, PSAM

The study of gender and how it relates to politics. Includes an analysis of the women's movement through historical literature by and about women. Also includes feminist and gender theories, the mass behavior of women, elite women, and public policy as it relates to women's issues.

**PS-278 International Political Economy****Credits: 3**

Prerequisite(s): PS-102

Term Offered: All Terms

Course Type(s): GLS, PSIP, RE

The role that international institutions, transnational actors, and foreign governments play in the production, distribution, and consumption of resources will be investigated. Since much of international political economy has to do with various thinkers and schools of thought, an appropriate emphasis will be given to some of the important works in the field. For example, we will be analyzing the contributions of Liberal, Marxist, and Statist thinkers and the various perspectives that have been used to analyze the way policies are made, agreements are reached, and resources distributed. Following the establishment of this theoretical framework, we will focus on the growth of regional integration, the role of hegemony in maintaining the stability of international systems, strategies of economic development, and the role of multinational and transnational companies in both the industrial and developing world. In essence, this course is concerned with looking at the relationship between power and wealth and the balance between the state and the market. Also listed as SO-278.

**PS-288 Cooperative Education: Political Science****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): EX2

Through actual work experience, connects classroom learning and real-world practice. Under the guidance of a faculty advisor, students select a cooperative placement. Students will spend ten to fifteen hours per week at their placement. Departmental approval is required to take this course. Repeatable for credit.

**PS-289 Political Science Internship****Credits: 3**

Prerequisite(s): PS-102 or PS-103 and the completion of sixty credits

Term Offered: Spring Term

Course Type(s): EX1

An internship in a political office. The student will keep a daily log and develop a research topic on the basis of the log and experience. By working an eight-hour day from Monday through Friday, the intern will develop firsthand knowledge of a state or local office and will secure an experience rating for future positions after graduation. Departmental approval is required to take this course.

**PS-290 Media Law****Credits: 3**

Term Offered: All Terms

Course Type(s): COCCL, COCST, COJPT, COMCS, CORTT, PSAL

How the mass media is constrained and protected by the law and court interpretation. Overview will focus on libel, copyright, obscenity, free press, and other legal/illegal aspects of mass communication. Also listed as CO-290.

**PS-298 Special Topics in Political Science (200 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in political science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**PS-299 Reading and Research in Political Science****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided study of a topic in political science not substantially treated in a regular course, under the direction of a member of the political science faculty. Extensive reading and at least one written report are required. Prior permission of the directing professor and department chair is required to take this course.

**PS-301 Political Parties and Elections****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSAM

Historical and functional analysis of United States political parties; the workings of party machinery and practical politics, including national, state, and local party activities, election procedures, third party movements, interest groups, and public opinion.

**PS-302 Data Analysis for the Social Sciences****Credits: 3**

Prerequisite(s): PS-250 or SO-250

Term Offered: Spring Term

Course Type(s): None

Introduces students to techniques used to evaluate social science data; addresses strategies for analyzing qualitative data and presents social science applications of quantitative techniques such as cross tabulation, t-test, and regression. Students will learn to apply procedures to test hypotheses. Also listed as SO-302.

**PS-304 Public Opinion and Propaganda****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Course Type(s): None

The effects of mass communications upon political opinion, control of news, dissemination agencies, propaganda techniques, and pressure groups; the role of opinion polls and survey techniques.

**PS-305 The American Congress****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAM

An analysis of the structure, organization, and functioning of Congress; the relationship between Congress and the executive and judicial branches of government, the importance of the Congressional investigative powers and of quasi-legislative agencies, boards and commissions.

**PS-306 The American Presidency****Credits: 3**

Prerequisite(s): PS-102 or PS-103, and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): PSAM, WT

The various theories of the presidency; the president's relationship with Congress, the public, the party structure, the administration, and the vice-president; and the president's powers and responsibilities in foreign and military affairs.

**PS-307 The American Judiciary**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAL, PSAM, SJL

Systematic study of the judiciary at the federal and New Jersey level, including an analysis of the jurisdictional limits of courts and the procedural rules for actions in each respective system; an intensive study of institutions of law (legal systems, federal courts, state courts) and interpreters and consumers of law (judges, lawyers, litigants, interest groups) as well as a study of the impact of court decisions on federal and state public policy.

**Credits: 3****PS-308 Resistance and Revolution: Exploring Social Movements & Social Change****Credits: 3**

Term Offered: All Terms

Course Type(s): SJS

Social movements are sustained efforts through which people act collectively to create or resist changes in political, social, economic, legal, and/or cultural systems, as well as specific institutions. Through a combination of theoretical exploration and case studies, this course is designed to generate an in-depth understanding of social movements of the past and the present. We will address questions such as: What events precipitate movements? How do political, social, economic and cultural forces shape movements and influence their outcomes? How have artistic works and creative tactics been used for pursuing social change? In what ways have social media changed the landscape of social action? How have social scientists researched and participated in movements? The course will also explore the work of organizing, strategizing, recruiting participants, leadership development, and tactical decision-making, in addition to the other forms of "on the ground" work within movements. Also listed as SO-308

**PS-309 Political Science Internship Seminar****Credits: 3**

Term Offered: All Terms

Course Type(s): EX5

Practical experience in the operation of a legal, political campaign, or government position to guide the intern's future professional development. The student will keep a journal and produce a report analyzing the intern's experience and/or work environment. Repeatable for credit.

**PS-311 Introduction to Constitutional Law****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAL

Examination of United States constitutional law by the case method: the federal government and the relative powers of Congress, the President, and the Supreme Court.

**PS-312 Constitutional Law: Civil Rights****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Course Type(s): PSAL, RE, SJL

Examination of United States constitutional law by the case method: Constitutional, civil, and political liberty with special emphasis on the First, Fifth, and Fourteenth Amendments.

**PS-313 The Pre-Trial Prosecution System****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAL, SJL

The pre-trial prosecution process as a political system. The roles, attitudes, and strategies of those authorities who allocate values within the system are examined. Also listed as CJ-313. CJ majors register for CJ-313.

**PS-315 Urban Politics****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSAM, PSPA, RE

The problems of urban life as they are manifested in the political process, the interaction of cities with other levels of government, and the performance of political functions within the urban environment.

**PS-324 American Political Thought****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSAM

The development of political thought in the United States with emphasis on the late nineteenth- and twentieth-century philosophers and statesmen, along with the development of ideology of groups in American politics. Also listed as PL-324.

**PS-325 Survey Research Consulting****Credits: 3**

Prerequisite(s): PS-250 or SO-250 or CO-292 or SW-409 or PY-220 or CJ-315 or HLS-315 or HE-290 or NU-355 or permission of the instructor

Term Offered: All Terms

Course Type(s): None

Provides students with real-world experience in the application of social science methodology, specifically survey research. The course is designed to strengthen social science research methods skills as well as competencies in professional communication and collaboration. Students, as a class, will work on a small-scale project (e.g. needs assessment, program evaluation, marketing study, etc.) for a "client" - a non-profit organization, government agency, small business, or academic institute - who has agreed to collaborate as a service learning opportunity. The client is not paying for this service and understands the limitations of working with consultants-in-training. However, the course will strive to adhere to the highest standards in both survey research practice and the client-consultant relationship. Also listed as SO-325.

**PS-330 Environmental Policy****Credits: 3**

Term Offered: All Terms

Course Type(s): MEBP, PSAM, PSPA, SUS

Introduces social, political, and organizational processes that influence and shape environmental and natural resource policy. Focuses on the political arena and examines how citizens and community groups influence legislative initiatives. Also listed as PS-330.

**PS-332 Climate Change Adaptation and Policy****Credits: 3**

Term Offered: Spring Term

Course Type(s): MEBP, SUS

Climate Change Adaptation and Policy provides a survey of the global engagements surrounding climate change adaptation and policy that currently affects billions around the globe. The subject matter covered includes understanding how to evaluate the proxies and impacts of climate change, the geography of climate change, and the policies and planning tools that are used in addressing the current and forecasted effects of climate change. The class includes local, regional, national, and international examples within a mixed-methods approach that simultaneously uses a scientific, natural processes understanding that is juxtaposed with policy-based initiatives that deal with the real-life costs and procedures in addressing climate change. Also listed as GO-332.

**PS-350 American Political Economy****Credits: 3**

Prerequisite(s): PS-103

Term Offered: Spring Term

Course Type(s): PO, PSAM, PSPA

Examines the institutional, economic, and political factors that influence the economic decision-making process at all levels of government.

Analysis of the theories, processes, principles, and concepts of public budgeting and governmental management of the economy. Also listed as PO-350.

**PS-351 Public Administration****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSPA

The administration, organization, management, financial, and personnel problems within the various governmental agencies; problems arising from the interrelations of the three branches of government.

**PS-352 Public Personnel Administration****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Course Type(s): PSPA

The nature of the career service in government, effective tools in personnel administration, and the changing role of the Civil Service Commission.

**PS-353 Public Budgeting Process****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSPA

A treatment of the budget as an instrument of public policy and marginal control of public programs.

**PS-355 Administrative Law and Regulation****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSAL, PSPA, SJL

The federal and state regulatory agencies, commissions, and boards; how they function, the legal procedures they employ, to what extent they are successful in serving and protecting the community, and efforts to effect their reform.

**PS-360 Political Economy in the Developing World****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSIP, SJS

This course introduces undergraduate students to the core concepts, theories and debates of political economy in the context of developing world countries. The primary unit of analysis will be the national case study (i.e., Brazil or Indonesia) rather than the international system or international institutions (for example, World Bank, IMF or global financial markets.) The aim is to provide the intellectual tool set to evaluate questions and challenges of political and economic development and modernization across a range of national case studies from Latin America, the Caribbean, Africa, the Middle East and Asia. Also listed as SO-360.

**PS-361 Comparative European Governments****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSCG

A comparative analysis of political processes in Western-European governments, with special emphasis on the methodology of comparative politics.

**PS-364 Law and Society****Credits: 3**

Prerequisite(s): SO-101 or PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAL, SIN, SJL

The evolution of law, social forces influencing law, social impact of law, and law as an instrument of social control and social change. Also listed as SO-364.

**PS-365 Sports Law I: Governance and Regulation****Credits: 3**

Term Offered: All Terms

Course Type(s): PSAL

Sports law is a subfield of law and political science that examines a broad mixture of laws that apply to athletes and the sports they play.

Many legal scholars argue that the term "sports law" is a misnomer because "sports" represent the convergence of activity and entertainment that is governed by the legal system in its entirety. Accordingly, this course provides an overview of many areas of the law, particularly in the realm of governance and regulations. Through the assigned readings and research projects, students will gain valuable insight as to how "sports" are regulated by the laws of our country but also by the governing bodies and institutions that oversee the formation, activity, and "entertainment" of each sport. This course is related to Sports Law II: The Business of Sports Law in that both courses provide student with in-depth analysis of law as it relates to sports but also how "sports law" impacts society, business and the economy. However, the courses are non-sequential and students can be successful in each course independent from the other as they are both designed to be introductory courses related to governance and regulation, and legal implications in the business of sports, respectively.

**PS-366 Sports Law II: The Business of Sports Law****Credits: 3**

Course Type(s): PSAL

Sports law is a subfield of law and political science that examines a broad mixture of laws that apply to athletes and the sports they play.

Many legal scholars argue that the term "sports law" is a misnomer because "sports" represent the convergence of activity and entertainment that is governed by the legal system in its entirety. Accordingly, this course provides an overview of many areas of the law, particularly in the realm of governance and regulations. Through the assigned readings and research projects, students will gain valuable insight as to how "sports" are regulated by the laws of our country but also by the governing bodies and institutions that oversee the formation, activity, and "entertainment" of each sport. This course is related to Sports Law I: The Business of Sports Law in that both courses provide student with in-depth analysis of law as it relates to sports but also how "sports law" impacts society, business and the economy. However, the courses are non-sequential and students can be successful in each course independent from the other as they are both designed to be introductory courses related to governance and regulation, and legal implications in the business of sports, respectively.

**PS-371 International Service Seminar****Credits: 3**

Prerequisite(s): PS-102

Term Offered: Spring Term

Course Type(s): PSIP

Students will learn to unite theory and practice by studying theories and policies based on human security, and learning about their applications through service-learning projects. Students will enhance their understanding of human security by volunteering in international community organizations and reflecting on the social, political, and economic factors and policies that affect them. Also listed as SW-371, AN-371, and SO-371.

**PS-372 Democracy in Asia and South Asia****Credits: 3**

Term Offered: Spring Term

Course Type(s): PSCG, RE

Explores the prospects of democracy in Asia and South Asia with a focus on Japan, South Korea, Taiwan, India, Pakistan, Afghanistan, Nepal, Bangladesh, and Sri Lanka. Provides the historical depth, cultural complexity, and comparative context in which to understand historical legacies and contemporary issues challenging democracy in Asia and South Asia.

**PS-373 Comparative Politics in Asia****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSCG, RE

Comparative study of the political processes of selected Asian nations with emphasis on problems arising as a result of the transition from traditional societies to modern nation states.

**PS-375 Islam and Politics****Credits: 3**

Course Type(s): PSCG, RE

Examination of the interrelationship between Islam as a religion and a way of life and politics in different regions of the world. Following a quick survey of the belief and practice of Islam since its inception, the focus will be placed on the past 100 years, particularly the Muslim responses to the challenges of colonialism, modernization, and globalization and Islam's reassertion in public affairs and society. Concludes with ways for improving Islam-West relations in the hope that these will generate better understanding and peace. Also listed as RS-375.

**PS-376 Comparative Politics of the Middle East****Credits: 3**

Term Offered: All Terms

Course Type(s): PSCG, RE

Comparative study of the political processes of selected Middle-Eastern nations with an emphasis on problems arising as a result of the transition from traditional societies to modern nation states.

**PS-377 A Comparative Study of Women in the World****Credits: 3**

Prerequisite(s): GS-225 or SO-225

Term Offered: All Terms

Course Type(s): BI.EL, GS, GU, PSCG

A comparative study of the political, cultural, social, and economic statuses of women in the United States, Western Europe, Russia, Japan, Israel, and Third-World nations. Also listed as GS-377. Prerequisites: GS-225 or SO-225

**PS-378 Ethics in International Relations****Credits: 3**

Prerequisite(s): PS-102

Term Offered: All Terms

Course Type(s): PSIP

Create a learning environment that stresses the understanding of ethics and its necessary role in the contemporary world. Through an evaluation of peace theories, patterns of diplomacy, and conflict in international relations, the learner will realize that ethical considerations are essential to the human experience.

**PS-382 International Organizations****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSIP, PSPA

The nature, functions, and development of international organizations with particular emphasis on the United Nations and its role in international relations.

**PS-383 Model UN Conference****Credits: 4**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSIP

Introduces students to how the United Nations works and will give them real-life experience in how countries bargain, negotiate, and resolve conflicts. It is a blend of theoretical/historical knowledge and practical/experiential components. The practical/experiential components will include taking part in actual negotiations at a collegiate-level Model United Nations conference. Experiential Education credit will only be given upon completion of the model UN conference. Repeatable for credit at the discretion of the department.

**PS-385 American Foreign Policy****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSIP, PSPA

A study of American foreign policy with emphasis on the theoretical framework and institutional setting of the contemporary policymaking process.

**PS-388 Cooperative Education: Political Science****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: All Terms

Course Type(s): EX2

Classroom learning and real-world practice are connected through actual work experience. Under the guidance of a faculty advisor, students select a cooperative placement. Students will spend ten to fifteen hours per week at their placement. Repeatable for credit. Departmental approval is required to take this course.

**PS-389 Political Science Internship****Credits: 3**

Prerequisite(s): PS-102 or PS-103 and completion of sixty credits

Term Offered: All Terms

Course Type(s): EX1

An internship in a political office. The student will keep a daily log and develop a research topic on the basis of the log and experience. By working an eight-hour day from Monday through Friday, the intern will develop firsthand knowledge of a state or local office and will secure an experience rating for future positions after graduation. Departmental approval is required to take this course.

**PS-390 Washington Center Internship****Credits: 7-12**

Term Offered: All Terms

Course Type(s): EX5

This internship allows students in all majors to intern at government agencies, public service organizations, and business associations located in Washington, DC. Under the supervision of Washington Center supervisors and faculty, students gain substantive entry-level professional experience along with academic credit over the course of one semester. In general, students are required to intern in a government agency or public organizations four and a half days per week and attend educational seminars and workshops and participate in professional forums conducted by the Washington Center. In addition, students must complete learning objectives and assignments specified by Monmouth University faculty sponsors. Also listed as CO-390 and SO-390.

**PS-393 Washington Center Course****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Students participating in a Washington Center internship are required to enroll in a three credit seminar. A list of available courses is forwarded to all students prior to the beginning of the fall, spring, or summer term. Regular offerings include: politics, professional communication, the fine and performing arts, and economics. Also listed as CO-393 and SO-393. Junior standing and a minimum G.P.A. of 2.50 is required to take this course.

**PS-398 Special Topics in Political Science (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in political science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**PS-399 Independent Study in Political Science****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided study of a topic in political science not substantially treated in a regular course, under the direction of a member of the political science faculty. Extensive reading and at least one written report are required. Prior permission of the directing professor and department chair is required to take this course.

**PS-401 Seminar in Political Science****Credits: 3**

Prerequisite(s): EN-101, EN-102, PS-250, 15 credits in Political Science, and Junior Standing.

Term Offered: All Terms

Course Type(s): WT

Review of research methods and significant developments in political science. An individual research project, assigned according to the interest and needs of the student, is required.

**PS-431 Public International Law****Credits: 3**

Prerequisite(s): PS-102 or PS-103, EN-101 and EN-102

Course Type(s): GU, PSAL, PSIP, SJL, WT

Detailed examination of the system of rules governing relations among states including in-depth review of the sources of public international law, transnational entities involved in applying international law, domestic application of international law including jurisdiction and extraterritoriality, the validity of state action vis-a-vis public international legal restrictions, and enforcement of international law as to states and individuals.

**PS-488 Cooperative Education: Political Science****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): EX2

Classroom learning and real-world practice are connected through actual work experience. Under the guidance of a faculty advisor, students select a cooperative placement. Students will spend ten to fifteen hours per week at their placement. Repeatable for credit. Departmental approval is required to take this course.

**PS-489 Political Science Internship****Credits: 3**

Prerequisite(s): PS-102 or PS-103 and completion of sixty credits

Course Type(s): EX1

An internship in a political office. The student will keep a daily log and develop a research topic on the basis of the log and experience. By working an eight-hour day from Monday through Friday, the intern will develop firsthand knowledge of a state or local office and will secure an experience rating for future positions after graduation. Departmental approval is required to take this course.

**PS-498 Special Topics in Political Science (400 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in political science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**PS-499 Readings and Research in Political Science****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided study of a topic in political science not substantially treated in a regular course, under the direction of a member of the political science faculty. Extensive reading and at least one written report are required. Senior standing; status as a Political Science or History and Political Science major with a 3.00 or higher G.P.A. in major coursework; and prior permission of the directing professor and department chair are required to take this course.

**SO-101 Introduction to Sociology****Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

A systematic introduction to the major questions, perspectives, and methods of sociology; basic conceptual vocabulary; analysis of individual and group behavior within special areas.

**SO-102 Social Problems****Credits: 3**

Term Offered: Spring Term

Course Type(s): SS.SV

An analysis of social problems in contemporary society; poverty, race, gender and age inequality; work; urbanization; crime; mental illness; and drug use.

**SO-107 Introduction to Social Justice****Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

Provides a conceptual and practical basis to understand, interpret, and solve social problems in fair, equitable, and just ways. Also listed as PS-107.

**SO-109 Civic Engagement and Leadership****Credits: 1**

Term Offered: Spring Term

Course Type(s): None

Civic responsibility, engagement, and leadership are encouraged through active student involvement in a community or campus organization. Students will perform twelve hours of public service over the course of the semester working for an organization that addresses a particular issue of public concern. Also listed as PS-109.

**SO-198 Special Topics in Sociology (100 Level)****Credits: 1-3**

Course Type(s): None

An intensive study of a particular subject or problem in sociology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**SO-201 Global Social Problems****Credits: 3**

Course Type(s): GLS, RE

Leading areas of tension, crisis, and debate in the contemporary world with emphasis on global population trends, global poverty and hunger, and inequality among nations in the world's economic system and their social policy implications.

**SO-203 Career Course in Sociology****Credits: 1**

Term Offered: Spring Term

Course Type(s): None

An introduction to various career opportunities with an undergraduate degree in sociology. It will cover some of the skills necessary for successfully seeking employment and gaining acceptance into graduate school. It will provide sociology and related majors with the opportunity to reflect on professions that use the skills gained through a B.A. program in sociology and to consider their future interests and direction. Students will experience opportunities to prepare for career situations and develop materials to present their abilities to potential employers. This is a one-credit hour course meeting once a week.

**SO-207 Principles of Community Organizing****Credits: 3**

Prerequisite(s): SO-101 or higher or GS-225 or higher.

Term Offered: Fall Term

Course Type(s): SJS

Explores the basic principles of community organizing through the lens of sociological theory. Students are introduced to the history of community organizing in the United States, and to the major community organizing traditions that have been used in social justice and social movement work past and present. The course includes focus on central skills of organizing, including but not limited to issue identification, recruitment, actions, and research, as well as movement-building, popular education and training as related to core sociological concepts. Across the term, the course pays particular attention to the ways that race, class, gender, sexuality, indigeneity and other forms of difference shape privilege and power.

**SO-225 Introduction to Gender Studies****Credits: 3**

Term Offered: All Terms

Course Type(s): CD, GS, SJS, SS.SV

Examines gender inequalities and the pervasiveness of gender as a way of structuring/organizing social life. Emphasizes how gender as a social structure intersects with other social structures such as race, class, and sexuality to legitimize power and privilege and/or constrain diverse groups of people. Critiques conventional theories of gender and sociology and covers a broad spectrum of topics using feminist and sociological perspectives. Also pays attention to the connection between social structure and human agency - how people's experiences are both shaped by social forces and shaped through human action. Also listed as GS-225.

**SO-231 Urban Sociology****Credits: 3**

Prerequisite(s): SO-101

Course Type(s): RE

Theoretical analysis of the modern, urban community, including the history of the city and analysis of urban institutions and behavior patterns; problems relating to metropolitan and suburban areas, community planning, and urban renewal. Also listed as GO-231.

**SO-234 Sports and Society****Credits: 3**

Prerequisite(s): SO-101 or higher or GS-225 or higher.

Term Offered: All Terms

Course Type(s): COSPT, GS, HE.EL, HEPE

The increasingly important role of sports as an institution in modern society. Sports in relation to racism, sexism, education, values, and stratification systems.

**SO-241 Criminology****Credits: 3**

Prerequisite(s): CJ-101 or SO-101 or SO-102; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Explanations of the causes of property and violent offenses. Discussion of white collar, professional and organized crime, and the problem of criminal statistics. Also listed as CJ-241.

**SO-243 Juvenile Delinquency****Credits: 3**

Prerequisite(s): SO-101

Course Type(s): SJS

History of the concept of delinquency; extent and nature of delinquent behavior; explanations of delinquent behavior; police and court responses to juveniles; and a review of rehabilitative and treatment modalities.

**SO-244 Deviance****Credits: 3**

Prerequisite(s): SO-101 or SO-102 or CJ-101

Term Offered: Spring Term

Course Type(s): None

How society creates and responds to deviant behavior, ranging from violations of courtesy to homicide. Analysis of the system of social control, including the police, education, psychiatry, and the state.

**SO-245 Theories of Society I****Credits: 3**

Prerequisite(s): EN-101, EN-102, and SO-101

Term Offered: All Terms

Course Type(s): WT

The wide range of theoretical paradigms that characterized the discipline of sociology from the emergent period of industrialization to the rise of modernity are investigated. More specifically, the major foundations of classical sociology theory as it emerged in the mid-nineteenth century, moving beyond the narrowly constructed cannon of Marx, Weber and Durkheim, toward a more accurate and inclusive look at our intellectual roots as manifested in the works of Gilman, Simmel, DuBois and Mead are explored. Throughout the course, we critically engage in a kind of "sociology of knowledge" as we situate these central ideas and schools of thought in the social, political and economic contexts of the larger society, as well as their specific social history of the discipline. Finally, we engage the course with a preview of the ways in which the wide range of theoretical paradigms that characterized the nascent years of the discipline of sociology set the stage for the development of the modernist and postmodernist traditions, including, but not limited to critical theory; structural functionalism; symbolic interactionism; and feminist and critical race theories.

**SO-250 Fundamentals of Social Science Research****Credits: 3**

Term Offered: All Terms

Course Type(s): TL

An introduction to the different ways in which social scientists study the social world. Designed to develop students' understanding of the major purposes of social research as well as the major types of quantitative and qualitative research designs. Students will learn the research process itself, from conceptualization and measurement to operationalization, sampling, ethics, and the analysis and presentation of their proposed study. As part of the research process, students will use spreadsheet, presentation, and word processing software to build datasets, analyze data, and design and present research. Also listed as PS-250. Political Science majors should register for PS-250. This course is for Sociology majors only, or other majors with instructor permission.

**SO-252 Race and Ethnicity**

Term Offered: All Terms

Course Type(s): CD, GS, RE, SIAR, SJS

Introduces students to the sociological study of race and ethnicity in the United States as interrelated social systems of power that grant a range of material and non-material advantages to different groups of people based on socially constructed definitions of race and ethnicity, particularly as race and ethnicity intersect with a variety of other social structures such as gender and class. Focuses on the historical legacy and current practices of institutionalized racism that have and continue to shape social relations in the U.S. Also listed as GS-252.

**Credits: 3****SO-261 Sociology of Family**

Prerequisite(s): SO-101 or higher or GS-225 or higher.

Term Offered: All Terms

Course Type(s): GS, SJS

Analysis of the institution of marriage and family in contemporary America with cross-cultural, sub-cultural, and historical references, including mate selection, family roles and relationships, parenthood, and childhood.

**Credits: 3****SO-271 Ethics, Justice and American Prisons**

Prerequisite(s): SO-101 or higher or GS-225 or higher.

Term Offered: Fall Term

Course Type(s): SJS

Explores the rise of mass incarceration in the United States, with a critical look at the ethical, socio-cultural, political and economic factors that shape the American prison system today. The course is also the gateway course to The Monmouth University Academic Exchange Program, also referred to as MU-AEP, a collaborative effort between Monmouth University and the New Jersey Department of Corrections. This program, of which this course is a requirement, is offered by Monmouth University to help to facilitate a transformative exchange of ideas and perspectives between incarcerated students and non-incarcerated students and non-incarcerated students inside the New Jersey state prison. Also listed as CO-271.

**Credits: 3****SO-272 Economic Inequality**

Prerequisite(s): SO-101

Term Offered: Spring Term

Course Type(s): CD, SI, SJS

Status, power, authority, and social mobility are the key concepts that sociologists use to study the role of social classes in contemporary, American society. The course covers notable studies of the American class system. It provides a close look at the power relations and lifestyles of various classes and considers the pervasive influence of class identity on social institutions.

**Credits: 3****SO-274 Global Inequalities**

Prerequisite(s): SO-101 or PS-102

Term Offered: All Terms

Course Type(s): BI, EL, GLS, GU, RE, SJS, SUS

A sociological and political look at global inequalities. Explores diverse themes and aspects of a global society, including the forces that are causing and perpetuating global inequalities. It also looks at the social, political, economic, and cultural consequences of those inequalities. Also listed as PS-274.

**Credits: 3****SO-278 International Political Economy**

Prerequisite(s): PS-102

Term Offered: Spring Term

Course Type(s): GLS, PSIP, RE

The role that international institutions, transnational actors, and foreign governments play in the production, distribution, and consumption of resources will be investigated. Since much of international political economy has to do with various thinkers and schools of thought, an appropriate emphasis will be given to some of the important works in the field. For example, we will be analyzing the contributions of Liberal, Marxist, and Statist thinkers and the various perspectives that have been used to analyze the way policies are made, agreements are reached, and resources distributed. Following the establishment of this theoretical framework, we will focus on the growth of regional integration, the role of hegemony in maintaining the stability of international systems, strategies of economic development, and the role of multinational and transnational companies in both the industrial and developing world. In essence, this course is concerned with looking at the relationship between power and wealth and the balance between the state and the market. Also listed as PS-278.

**Credits: 3****SO-280 Peer Tutoring**

Course Type(s): None

Peer tutoring experience. Students will prepare course-related information for presentation to students in courses at the 100- or 200-levels. Peer tutors will meet weekly with a faculty supervisor and assigned students. Permission of the instructor required.

**Credits: 1****SO-298 Special Topics in Sociology (200 Level)**

Prerequisite(s): SO-101

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in sociology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**Credits: 1-3****SO-299 Independent Study in Sociology**

Term Offered: Spring Term

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum. Student must have a least a 2.50 cumulative G.P.A. Prior permission of the directing professor and department chair is required to take this course.

**Credits: 1-3****SO-302 Data Analysis for Social Sciences**

Prerequisite(s): SO-101 or higher and MA-105 or higher.

Term Offered: Spring Term

Course Type(s): None

Introduces students to techniques used to evaluate social science data; addresses strategies for analyzing qualitative data and presents social science applications of quantitative techniques such as cross tabulation, t-test, and regression. Students will learn to apply procedures to test hypotheses. Also listed as PS 302.

**Credits: 3**

**SO-307 Practicum in Applied Social Research****Credits: 3**

Prerequisite(s): SO-101 or higher.

Co-requisite(s): PS-250 or SO-250; or PS-302 or SO-302; or permission of the instructor.

Term Offered: Spring Term

Course Type(s): SJS

An advanced introduction to the principles and methods of conducting social science research for the express purpose of solving social problems. Informed by sociological theories in the tradition of public sociology, students will explore a wide range of applied research strategies, including: community-based research (CBR); participatory action research (PAR); policy research; evaluation research; and power analyses for community organizing. The course also addresses key ethical, political and logistical challenges that shape the work of applied social scientists in the field.

**SO-308 Resistance and Revolution: Exploring Social Movements & Social Change****Credits: 3**

Term Offered: All Terms

Course Type(s): SJS

Social movements are sustained efforts through which people act collectively to create or resist changes in political, social, economic, legal, and/or cultural systems, as well as specific institutions. Through a combination of theoretical exploration and case studies, this course is designed to generate an in-depth understanding of social movements of the past and the present. We will address questions such as: What events precipitate movements? How do political, social, economic and cultural forces shape movements and influence their outcomes? How have artistic works and creative tactics been used for pursuing social change? In what ways have social media changed the landscape of social action? How have social scientists researched and participated in movements? The course will also explore the work of organizing, strategizing, recruiting participants, leadership development, and tactical decision-making, in addition to the other forms of "on the ground" work within movements. Also listed as PS-308

**SO-309 Sociology Internship Seminar****Credits: 3**

Term Offered: All Terms

Course Type(s): EX5

Provides an opportunity for students to apply classroom theory in practice through actual work experience. Includes both academic and experiential learning. The experiential part involves a minimum of 120 hours of work experience during the semester for three credit hours. The academic aspect includes maintaining a journal log and writing a final report.

**SO-316 Policy Research****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The principles of social research, with emphasis on an understanding of the policy-making or planning process; development of applied research skills, combining policy-making, implementation, and scientific or empirical research.

**SO-320 Small Group Communication****Credits: 3**

Term Offered: Spring Term

Course Type(s): EX3

Students explore academic perspectives on the process of group communication, leadership, conflict, decision-making, and problem solving, then reflect on and apply these perspectives outside the classroom in the context of a service learning project. Also listed as CO-320.

**SO-325 Survey Research Consulting****Credits: 3**

Prerequisite(s): PS-250 or SO-250 or CO-292 or SW-409 or PY-220 or CJ-315 or HLS-315 or HE-290 or NU-355 or permission of the instructor  
Term Offered: All Terms

Course Type(s): None

Provides students with real-world experience in the application of social science methodology, specifically survey research. The course is designed to strengthen social science research methods skills as well as competencies in professional communication and collaboration. Students, as a class, will work on a small-scale project (e.g. needs assessment, program evaluation, marketing study, etc.) for a "client" - a non-profit organization, government agency, small business, or academic institute - who has agreed to collaborate as a service learning opportunity. The client is not paying for this service and understands the limitations of working with consultants-in-training. However, the course will strive to adhere to the highest standards in both survey research practice and the client-consultant relationship. Also listed as PS-325.

**SO-331 Political Sociology****Credits: 3**

Prerequisite(s): SO-101

Course Type(s): None

Analysis of the interplay among political and social behavior, bureaucracies, voluntary associations, and government. The social basis of democracy; emphasis on conflict and consensus models of power.

**SO-332 Gender and Sexual Identities****Credits: 3**

Prerequisite(s): SO-101

Term Offered: Spring Term

Course Type(s): CD, GS, SI, SJS

Draws on sociological and feminist theories of identity to question the definitions, constructions, deconstructions, ambivalences, and socially constructed nature of gender and sexual identities. In questioning such identities, this course aims at helping students understand the connections between gender and sexuality, and how those two social forces shape people's individual identities and the identities of others. Examines how structures of race, class, gender, and sexuality, and social institutions such as family and work shape gender and sexual identities. It pays particular attention to how ones' social location within power structures shapes personal identities. Also listed as SW-332.

**SO-360 Political Economy in the Developing World****Credits: 3**

Prerequisite(s): PS-102 or PS-103

Term Offered: Spring Term

Course Type(s): PSIP, SJS

This course introduces undergraduate students to the core concepts, theories and debates of political economy in the context of developing world countries. The primary unit of analysis will be the national case study (i.e., Brazil or Indonesia) rather than the international system or international institutions (for example, World Bank, IMF or global financial markets.) The aim is to provide the intellectual tool set to evaluate questions and challenges of political and economic development and modernization across a range of national case studies from Latin America, the Caribbean, Africa, the Middle East and Asia. Also listed as PS-360.

**SO-364 Law and Society****Credits: 3**

Prerequisite(s): SO-101 or PS-102 or PS-103

Term Offered: All Terms

Course Type(s): PSAL, SIN, SJL

The evolution of law, social forces influencing law, social impact of law, and law as an instrument of social control and social change. Also listed as PS-364.

**SO-368 Applied Ethics in American Prisons****Credits: 3**

Prerequisite(s): SO-271 or CO-271

Term Offered: Spring Term

Course Type(s): SJS

The second in the sequence of the Monmouth University Academic Exchange Program, a collaborative effort between Monmouth University and the New Jersey Department of Corrections. This program, of which this course is a requirement, is offered by Monmouth University to help to facilitate a transformative exchange of ideas and perspectives on the topics of ethics and social issues between incarcerated students and non-incarcerated students inside a New Jersey prison. Also listed as CO-368.

**SO-369 Feminist Theories****Credits: 3**

Prerequisite(s): SO-225 or GS-225

Course Type(s): GS

Advanced exploration of the major currents of feminist social theory as they have emerged from feminist movement histories in the U.S. and globally. Students will critically examine competing feminist explanations for the history and persistence of gender inequality, as well as deconstruct sex, gender, sexuality from a range of feminist perspectives. The course will also invite students to consider what it means to be "feminist" and how these meanings are connected to the relations and tensions between gender, sexuality, race/ethnicity, class, ability, and nation. In particular, students will compare and contrast key concepts and theoretical assumptions of major feminist theories with a commitment to intersectional analyses. Students will also apply feminist theory to better understand social relationships, organizations, and politics, and self-reflect on how course content applies to their lives as people situation within multiple social contexts and identities. Also listed as GS-369.

**SO-371 International Service Seminar****Credits: 3**

Prerequisite(s): PS-102

Term Offered: Spring Term

Course Type(s): PSIP

Students will learn to unite theory and practice by studying theories and policies based on human security, and learning about their applications through service-learning projects. Students will enhance their understanding of human security by volunteering in international community organizations and reflecting on the social, political, and economic factors and policies that affect them. Also listed as SW-371, AN-371, and PS-371.

**SO-375 Social Movements and Social Change****Credits: 3**

Prerequisite(s): 9 credits in Sociology

Course Type(s): None

Overview of major contemporary and classical theories of social change within an international and historical context; the social impact of change; effects of social variables on change processes; and assessment of predictive models of change.

**SO-379 Work and Society****Credits: 3**

Prerequisite(s): 3 credits in Sociology

Term Offered: Spring Term

Course Type(s): SIN

An examination of the individual experience of work: socialization, occupational choice, career development, worker (dis)satisfaction, and unemployment; the organization of work: bureaucracy, professionalism, racism and sexism, theories of motivation, and the reward structure.

**SO-390 Washington Center Internship****Credits: 7-12**

Term Offered: Spring Term

Course Type(s): EX5

This internship allows students in all majors to intern at government agencies, public service organizations, and business associations located in Washington, DC. Under the supervision of Washington Center supervisors and faculty, students gain substantive entry-level professional experience along with academic credit over the course of one semester. In general, students are required to intern in a government agency or public organizations four and a half days per week and attend educational seminars and workshops and participate in professional forums conducted by the Washington Center. In addition, students must complete learning objectives and assignments specified by Monmouth University faculty sponsors. Also listed as CO-390 and PS-390. Junior standing and a minimum G.P.A. of 2.50 is required to register for this course.

**SO-393 Washington Center Course****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Students participating in a Washington Center Internship are required to enroll in a three credit seminar. A list of available courses is forwarded to all students prior to the beginning of the Fall, Spring, and Summer term. Regular offerings include: politics, professional communication, the fine and performing arts, and economics. Also listed as CO-393 or PS-393. Junior standing and a minimum G.P.A. of 2.50 is required to take this course.

**SO-396 Sociology of Education****Credits: 3**

Prerequisite(s): SO-101 or higher level course OR Permission of the Instructor.

Term Offered: Spring Term

Course Type(s): SIAR

This course encourages students to study education as a social institution using a sociological lens. The course introduces students to the study of education as a social institution, particularly examining how social inequalities such as race, class, gender, and sexuality shape educational experiences of youth today. Students will also examine the cultural, social, economic, and political structures that shape education as a social institution. The course will focus on education in the United States with an emphasis on racism and anti-racism, along with other forms of oppression.

**SO-397 The Sociology of Aging****Credits: 3**

Prerequisite(s): EN-101 and EN-102

Term Offered: All Terms

Course Type(s): EX5, WT

A service learning course that encourages students to become involved with the elderly population in the area. It introduces students to the sociological study of social gerontology or, more specifically, aging. Students will examine the cultural, social, and political structures that define the aging process and will study and practice ethnographic, life history in order to conduct life histories of seniors within the local community.

**SO-398 Special Topics in Sociology (300 Level)****Credits: 1-3**

Prerequisite(s): PY 103 or GS-225 or SO-101

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in sociology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite it will be announced in the course schedule.

**SO-399 Independent Study in Sociology****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum.

Students must have at least a 2.50 cumulative G.P.A. and prior permission of the directing professor and department chair to take this course.

**SO-403 Theories of Society II****Credits: 3**

Prerequisite(s): EN-101, EN-102 and 9 credits in Sociology

Course Type(s): WT

The wide range of theoretical paradigms that characterized the discipline of sociology from the emergent period of modernity to our current postmodern era is investigated. In the first half of the course, the traditions of critical theory; structural functionalism; symbolic interactionism; and phenomenology as key schools of thought in the modernist period are examined. In the second half, the most contemporary, and overlapping, additions to the theoretical landscape in sociology in our study of feminist and gender theories; critical race theories; post-modernism; and global theoretical perspectives are examined. Throughout the course, there will be critical engagement in a kind of "sociology of knowledge" as we situate these central ideas and schools of thought in the classic theoretical traditions from which they may intellectually descend, as well as in the more current political and economic contexts that influenced the emergence of these contemporary perspectives.

**SO-490 Sociology Thesis Proposal****Credits: 3**

Prerequisite(s): SO-101, 9 credits in Sociology and completion of fifty-seven credits

Term Offered: Spring Term

Course Type(s): None

Provides students with the opportunity to begin the process of conducting original research in sociology in which they will ultimately produce primary research, analyze data, and write up their findings, discussion, and conclusions. This course allows students to begin the work that they will complete in Sociology Thesis class (SO-491), thus ultimately resulting in a final Senior thesis. Students will write a comprehensive thesis proposal including an introduction and statement of purpose, theory section, literature review, and preliminary methods section.

**SO-491 Sociology Thesis****Credits: 3**

Term Offered: Fall Term

Course Type(s): RD

Provides students with the opportunity to complete an original research project in sociology in which they will conduct primary research, analyze their data, and write up their findings, discussion, and conclusion. This course will also allow students to combine the work conducted in their proposal class (SO-490) with the work conducted in this semester, thus resulting in a complete Senior thesis. Students will present their work two times: once as practice for the class and a second time for members of the Department of Political Science and Sociology and invited guests. Hence, the goal of this course is to present a holistic perspective to students and serve as their gateway to future studies and plans.

**SO-498 Special Topics in Sociology (400 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in sociology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**SO-499 Independent Study in Sociology****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided readings on a topic not otherwise covered in the curriculum.

Student must have at least a 2.50 cumulative G.P.A. and prior permission of the directing professor and department chair to take this course.

<sup>1</sup> Minimum grade of "C" required for Education Courses

<sup>2</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education courses must be completed.

## Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - Secondary
- ESL - English as a Second Language - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

| Complete 33 credits as outlined on the General Education table. <sup>2</sup> | 33         |
| <b>Total Credits</b>                                                         | <b>120</b> |

<sup>1</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>2</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes:

\*54 credits must be completed at the 200-level or higher.

## Sequence Chart

# Psychology

Chair: Christine J. Hatchard, Department of Psychology

The psychology curriculum focuses on the scientific study of behavior and mental processes. Majoring in psychology can lead to employment in business and industry (in fields such as human resources and applied research), social agencies, hospitals, and various other mental health settings. The curriculum provides excellent preparation for graduate school and a wide variety of career paths within and outside of psychology.

**Student Honor Society: Psi Chi**

## Programs Major

- B.A. in Psychology (p. 199)

## Minor

- Childhood Studies (p. 200)
- Psychology (p. 200)

## Faculty

**Natalie Ciarocco**, Professor. B.A., M.A., Ph.D., Case Western Reserve University. General area of interest in social psychology. Within social psychology, specializes in self-regulation and how it impacts interpersonal relationships.  
nciarocc@monmouth.edu

**Megan Delaney**, Associate Professor (Graduate Faculty). Ph.D., Montclair State University. Research explores the influence of natural world on mental health and the use of ecotherapy in everyday clinical practice. Her other research interests include feminism and relational-cultural therapy and grant writing competencies in counselors and counselor educators. Dr. Delaney worked for over ten years as the Grants Coordinator for the College of Education and Human Services at Montclair State University where she helped faculty and staff submit over \$150 million in grant proposals to federal, state agencies, foundations and corporations.  
mdelaney@monmouth.edu

**Lisa Dinella**, Professor. B.A., The College of New Jersey; M.S., Ph.D., Arizona State University. Licensed Marriage and Family Counselor. Interests include how gender development impacts individuals' life decisions and development, particularly in terms of education and career trajectories.  
ldinella@monmouth.edu

**Jamie Goodwin-Uhler**, Specialist Professor. B.A., Susquehanna University; M.S., Loyola University; Ph.D., Ball State University. Research interests include attachment theory, friendships and relational aggression/victimization, gender issues and feminism, couples and family counseling, human sexuality, and sexual assault. Additional interest includes the psychological and sociocultural aspects of Internet fandom.  
jgoodwin@monmouth.edu

**Christine J. Hatchard**, Associate Professor and Chair. B.A., Monmouth University; M.S., Psy.D., Chestnut Hill College. Specialization in object relations therapy and emotion, personality assessment, eating

disorders, human sexuality, and therapeutic considerations in the context of mother-daughter sexual abuse.  
chatchar@monmouth.edu

**Robyn Holmes**, Professor. B.A., M.A., Ph.D., Rutgers University. Specialization is in child development with a primary interest in children's play and ethnographic methods. Current research focuses upon relationship play and culture, play and learning, and recess, most recently in the Pacific Rim. Teaching and research interests include interdisciplinary and cross-cultural approaches.  
rholmes@monmouth.edu

**Gary Lewandowski**, Professor. B.A., Millersville; M.A., Ph.D., State University of New York at Stony Brook. General area of interest is social psychology. Within social psychology, specializes in close romantic relationships, involving such topics as interpersonal attraction, love, relationship maintenance, and relationship dissolution. Specifically, research focuses on how entering, maintaining, and losing romantic relationships influences the self.  
glewando@monmouth.edu

**Lindsay Mehrkam**, Associate Professor. B.A., Franklin and Marshall College; M.S., Ph.D., University of Florida. Primary areas of interest include animal behavior, behavior analysis, and human-animal interactions with an emphasis on how the environment influences play, aggression, and stereotypic behavior in companion and exotic animals, how to promote behavioral choices and welfare of captive animals, and how to best conduct formal evaluations of training and enrichment practices in a variety of animal settings, as well as the assessment of human-animal interactions in therapeutic applications and in broader society.  
lmehrkam@monmouth.edu

**Michele Van Volkom**, Senior Lecturer. B.A., Seton Hall University; M.A., Ph.D., State University of New York at Albany. Current research interests include intergenerational and gender differences in communication and technology use. Research interests include family relationships, especially the relationship between siblings, as well as the link between tomboyism in childhood and gender roles in adulthood.  
mvanvolk@monmouth.edu

## Courses

**PY-103 Introduction to Psychology** **Credits: 3**

Term Offered: All Terms

Course Type(s): SS.SV

The scientific study of behavior and mental processes, including motivation, emotion, intelligence, maturation, learning, personality, perception, and thinking.

**PY-202 Career Preparation in Psychology** **Credits: 1**

Term Offered: All Terms

Course Type(s): None

An orientation to career opportunities available with a background in psychology as well as preparation for employment and graduate/professional training in psychology. For Psychology majors only.

**PY-203 Child Psychology**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): NU.EL

Physical and mental development from conception to early adolescence; motor, emotional, and social behavior; intelligence and language development; personality formation; play and other imaginative activities.

**Credits: 3****PY-204 Adolescent Psychology**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): NU.EL

Students are given up-to-date knowledge of the field of developmental psychology in general but particularly focuses on issues that are relevant to individuals as they transition from being children to young adolescents; as they go through the physical, emotional, cognitive, and social changes of adolescence; and finally as they experience emerging adulthood. It will enable students to understand, contrast, and critically evaluate various developmental theories that apply to adolescent development. Both the normative patterns of adolescent development and individual variability within these norms are covered.

**Credits: 3****PY-205 Psychology of Adulthood and Aging**

Prerequisite(s): PY-103

Term Offered: Spring Term

Course Type(s): None

Development from mid-life to old age; physical, intellectual, social, emotional, and personality changes, interests, attitudes, and maladjustments with emphasis on later life.

**Credits: 3****PY-207 Social Psychology**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

A survey of human behavior and mental processes in their social context. Addresses interpersonal processes, including social influence, relationships, prosocial and antisocial behavior, prejudice, and group dynamics. Also addresses intrapersonal processes, including the self, social perception, social cognition, cognitive dissonance, and attitudes.

**Credits: 3****PY-208 Psychopathology**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

An examination of the theoretical and clinical perspectives underlying various psychological disorders, including etiology, symptoms and presentation, therapeutic recommendations, and an introduction to the diagnostic process.

**Credits: 3****PY-220 Research I: Methods and Basic Data Analysis Laboratory**

Prerequisite(s): PY-103 and MA-101, or MA-105 or higher; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): TL, WT

Introduces students to the essence of the scientific method and the use of empirical inquiry. Students will be introduced to various issues concerning data collection and other method procedures used in psychology. Students will learn to appropriately summarize, describe, and analyze obtained data to test research hypotheses.

**Credits: 4****PY-230 History of Psychology**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

The historical development of psychology, including its relationship to other disciplines; the contributions of philosophy and the growth of scientific methodology.

**Credits: 3****PY-298 Special Topics in Psychology (200 Level)**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in psychology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite for this course it will be announced in the course schedule.

**Credits: 1-3****PY-301 Psychology of Learning**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

Basic issues and methods in the scientific study of learning, with attention to major theories about mental and neural processes in conditioning, skill learning, and various types of cognitive learning and memory.

**Credits: 3****PY-302 Memory and Cognition**

Prerequisite(s): PY-103 and PY-220

Term Offered: Spring Term

Course Type(s): None

Scientific study of mental processes, especially pertaining to the acquisition, retention, and use of knowledge and mental skills. Emphasis on memory, imagery, and natural language, with limited attention to developmental and individual differences.

**Credits: 3****PY-302L Memory and Cognition Thesis Laboratory**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Co-requisite(s): PY-302 and PY-491

Course Type(s): None

Techniques for the experimental study of memory, thought, and language processes. Includes pattern recognition, serial recall, memory organization, imagery, decision-making, and story schematization.

**Credits: 1****PY-304 Applied Behavior Analysis**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

This course is an introduction to the field of applied behavior analysis (ABA), which is dedicated to the application of behavioral principles and procedures to real-world problems and settings. The topics covered will include: the basic principles and techniques used in ABA, the application of these principles to a diverse range of clients (e.g., individuals with disabilities and addictions, industry workers, children in classrooms, captive animals) based on scientific literature, training caregivers to conduct treatments based on the science of behavior, and legal and ethical issues in the treatment of clients in a diverse society. Prerequisite: PY-103

**Credits: 3**

**PY-305 Theories of Personality**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

An introduction to methods for studying personality and building personality theories; psychodynamically oriented theories as well as biosocial, behavioristic, cognitive, humanistic, and existential approaches.

**Credits: 3****PY-305L Social and Personality Thesis Lab****Credits: 1**

Prerequisite(s): PY-207 or PY-305, and PY-311 and PY-320 all passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Research strategies used in the scientific study of personality and social psychology. Deals with the following topics: constructing surveys, writing quality question items, correlational design, two-group design, multigroup design, factorial design, within-subjects design, and the use of statistical methods in research. These topics will be covered in the context of student projects. Each student will design and carry out his or her own research project. Three hours per week.

**PY-306 Introduction to Neurosciences****Credits: 3**

Prerequisite(s): PY-103 and 3 credits in Biology

Term Offered: All Terms

Course Type(s): None

The organization of the nervous system in terms of its anatomy, physiology, neurochemical correlates, and evolution; behavioral processes, such as attention, sleep, motivation, instinct, learning, and language.

**PY-306L Neurosciences Thesis Laboratory****Credits: 1**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Co-requisite(s): PY-306 and PY-491

Course Type(s): None

Human and animal neuroanatomy; surgical techniques, including lesion, stimulation, and perfusion; histology; drug and hormone administration; and physiological recording techniques. Three hours per week.

**PY-310 Psychology Internship****Credits: 3**

Prerequisite(s): PY-208, PY-220, and completion of fifty-seven credits

Term Offered: All Terms

Course Type(s): EX5

Supervised, volunteer work in approved facilities, professional development and training and supervision provided by the agency in consultation with the psychology department.

**PY-311 Research II: Behavioral Statistics and Laboratory****Credits: 4**

Prerequisite(s): PY-220 passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): TL

A continuation in statistical concepts and application, including analysis of variance, nonparametric techniques, regression equations, correlations. Laboratory: Instruction in data analysis using SPSS (Statistical Package for the Social Sciences), training in software tools for formatting and presenting research findings.

**PY-320 Research III: Experimental Methods and Laboratory****Credits: 4**

Prerequisite(s): PY-220 passed with a grade of C or higher; and EN-101 and EN-102, or permission of the instructor

Co-requisite(s): PY-311

Term Offered: All Terms

Course Type(s): WT

An introduction to theory and application of experimental methods in psychology. Three hours of lecture, two hours of individual laboratory work per week.

**PY-321 Qualitative Research Methods****Credits: 4**

Prerequisite(s): PY-103

Term Offered: Spring Term

Course Type(s): WT

An interdisciplinary overview of qualitative research methods employed in the social sciences and education. Qualitative methods are offered as an alternative way of knowing about individuals and groups. Topics covered include: theory, fieldwork, interviewing, observational studies, time sampling, writing field notes, questionnaires (survey research), archival research, and conducting qualitative research in various settings. Emphasis also placed upon the factors that affect the fieldwork process (e.g., gender, emotions). Also listed as AN-321.

**PY-322 Industrial Organizational Psychology****Credits: 3**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

The application of psychological principles to human problems in business and industry: personnel psychology, counseling, motivation, supervision, organizational structure, efficiency, and engineering psychology.

**PY-331 Psychology of Women****Credits: 3**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): GS

The current state of knowledge about the psychology of women based on theoretical and empirical contributions from psycho-biology, personality, social and life-span psychology.

**PY-331L Psychology of Women Thesis Lab****Credits: 1**

Prerequisite(s): PY-311, PY-320, both passed with a grade of C or higher; and either PY-331 or GS-225 or SO-225

Term Offered: All Terms

Course Type(s): GS

Research strategies used in the study of the psychology of women. Deals with the following topics: constructing surveys, writing quality question items, two-group design, multigroup design, factorial design, within-subject design, correlational design, and the use of statistical methods in research. These topics will be covered in the context of student projects. Each student will design and carry out his or her own research project. Three hours per week.

**PY-332 Psychology of the Male Experience****Credits: 3**

Prerequisite(s): PY-103

Term Offered: Spring Term

Course Type(s): GS

Examines stereotypes about men in Western society, many of which are challenged in the light of empirical research; theoretical and empirical contributions from personality, social and life-span psychology, and psychobiology; consideration of methods and sources of bias in research used in gender studies.

**PY-335L Gender and Sex Roles Thesis Laboratory****Credits: 1**

Prerequisite(s): PY-103; and PY-311 and PY-320, both passed with a grade of C or higher

Co-requisite(s): PY-331 or PY-491 or PY-332

Term Offered: Spring Term

Course Type(s): GS

Research strategies used in the study of gender and sex roles. Projects include: methods of archival research, interview and survey techniques, naturalistic observation, and correlational and experimental procedures. Students also design and carry out their own research project, and prepare written and oral reports of the findings. Three hours per week.

**PY-342 Children's Play and Culture****Credits: 3**

Prerequisite(s): PY-203

Term Offered: Spring Term

Course Type(s): None

An intensive examination of children's play. Theoretical and empirical contributions from psychology and anthropology as a developmental and cross-cultural foundation for the following topics: the historical development of the concept of childhood, theories of play, conceptions of play and work, the functions of play, play and child development, gender differences, cross-cultural forms of play, and children's peer cultures. Also listed as AN-342. Anthropology majors should register for AN-342.

**PY-350 Evolutionary Psychology****Credits: 3**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

The role of evolutionary thinking in human psychology, including ideas and evidence from animal behavior; topics include a brief history of socio-political resistance to Darwinian ideas, basic principles of evolutionary (population) biology, behavioral strategies affecting cognitive and social psychology, especially survival issues (feeding, predator avoidance), mating systems (attraction, mate retention, reproduction and rearing offspring), and social exchange issues. Exploration of potential application in other disciplines (medicine, law, history, marketing and economics).

**PY-350L Evolutionary Psychology Thesis Laboratory****Credits: 1**

Prerequisite(s): PY-103; and PY-311 and PY-320 passed with a grade of C or higher

Co-requisite(s): PY-350 and PY-491

Term Offered: Spring Term

Course Type(s): None

Research strategies used in studying the role of evolution in human psychology. Projects include: methods of archival research, interview and survey techniques, naturalistic observation, correlational and experimental procedures. Students will design and carry out their own research project and prepare written and oral reports of the findings. Three hours per week.

**PY-360 Intimate Relationships****Credits: 3**

Prerequisite(s): PY-207

Term Offered: All Terms

Course Type(s): None

Provides an overview of current theory and research in the field of intimate relationships. Focuses on topics such as: our need for relationships, interpersonal attraction, love, attachment, communication, relationship maintenance, relationship trajectories, relationship dissolution, jealousy, and extra-dyadic relationships. Special attention will be given to understanding these topics through the use of scientific journal articles.

**PY-360L Intimate Relationships Thesis Laboratory****Credits: 1**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Research strategies used in the study of intimate relationships. Deals with the following topics: constructing surveys, writing quality question items, two-group design, multi-group design, factorial design, within-subject design, and the use of statistical methods in research. These will be covered in the context of student projects. Each student will design and carry out his or her own research project. Three hours per week.

**PY-370 Sensation and Perception****Credits: 3**

Prerequisite(s): PY-103 and PY-220

Course Type(s): None

Evolution of animal and human sensory systems and perceptual mechanisms and processes; current research data and person-machines comparisons.

**PY-370L Sensation and Perception Thesis Laboratory****Credits: 1**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Co-requisite(s): PY-370 and PY-491

Course Type(s): None

Basic laboratory techniques for the study of perceptual experiences. Includes sensory thresholds, intensity scaling, color judgments, visual shape and depth, visual illusions, brain lateralization, interactions among sensory modalities, and attention. Three hours per week.

**PY-388 Cooperative Education: Psychology****Credits: 3**

Prerequisite(s): Thirty completed credits and a minimum G.P.A. of 2.00

Term Offered: Spring Term

Course Type(s): EX2

Provides students with an opportunity to apply classroom theory in practice through actual work experience. Placements are selected to forward the student's career interest through experiential education. Repeatable for credit. Departmental approval is required to take this course.

**PY-389 Independent Internship in Psychology****Credits: 1-3**

Prerequisite(s): 21 credits in Psychology, Junior standing, overall GPA of 3.00, approval by the Psychology Department

Term Offered: All Terms

Course Type(s): EX1

Students apply the psychological concepts they have learned in the classroom and laboratory to work-related experiences. Working with the cooperation of the Life Career Advising Center and a faculty sponsor, the student will secure an internship site. On a volunteer basis, students will work 50 hours per credit per term at their internship sites. Students are required to develop learning objectives at the start of their internship, keep a journal of their internship experience throughout their placement, and write a final paper that includes an integrated review of the literature and reports their progress in meeting their learning objectives. Limited to Psychology majors.

**PY-398 Special Topics in Psychology (300 Level)****Credits: 1-3**

Prerequisite(s): PY-103

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in psychology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite for this course it will be announced in the course schedule.

**PY-398L Special Topics in Psychology Thesis Laboratory Credits: 1-3**

Co-requisite(s): PY-491

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in psychology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis.

**PY-399 Independent Study in Psychology Credits: 1-3**

Term Offered: Fall Term

Course Type(s): None

Guided study of a selected topic in psychology not substantially treated in a regular course, under the direction of a member of the Psychology faculty. Prior permission of the directing professor and department chair is required to take this course.

**PY-401 Introduction to Clinical Psychology Credits: 3**

Prerequisite(s): PY-208 and PY-305

Term Offered: All Terms

Course Type(s): None

The application of psychological approaches to the study and treatment of behavior problems, diagnosis, therapeutic techniques, and the professional role of the clinical psychologist in society.

**PY-401L Clinical Psychology Thesis Laboratory Credits: 1**

Prerequisite(s): PY-208; and PY-311 and PY-320 both passed with a grade of C or higher

Co-requisite(s): PY-401 and PY-491

Course Type(s): None

A practicum in assessment and therapeutic techniques, incorporating standard research procedures used in clinical psychology. The scientific study of individual differences and their impact on behavior.

**PY-404 Animal Behavior Credits: 3**

Prerequisite(s): PY-103 or BY-103 or above passed with a grade of C- or higher

Course Type(s): None

Why and how animals (vertebrates and invertebrates) do the things they do. Emphasizes rules governing the evolution of behavior rather than mere description of how animals behave. Focus includes behavioral ecology, habitat selection, feeding strategies, predator-prey tactics, mating systems and strategies, social behavior (conflict and cooperation) and population dynamics. The course begins with a historical overview and ends with the evolution of human behavior. Also listed as BY-404.

**PY-404L Animal Behavior Thesis Laboratory Credits: 1**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C- or higher

Co-requisite(s): PY-404 or BY-404

Course Type(s): None

Methods in the study of animal behavior. Projects on instinctive behavior, early experience, learning, dominance relationships, territoriality, behavioral ecology, and sociobiology. One all-day field trip and an independent project will be required.

**PY-407 Social Cognition Credits: 3**

Prerequisite(s): PY-103

Term Offered: Spring Term

Course Type(s): None

Focus on social cognition, a research area within social psychology that studies the social and cognitive processes through which individuals notice, interpret, remember, and use information about their social world. Exploration of past and present social research, current theoretical understanding, and potential applications of important social-cognitive processes.

**PY-407L Social Cognition Thesis Laboratory Credits: 1**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Co-requisite(s): PY-407 and PY-491

Course Type(s): None

Study and evaluation of empirical methods used in social cognition research. Students will critique published research and learn to identify and avoid common threats to the validity of their own research. Three hours per week.

**PY-408 Cultural Psychology Credits: 3**

Term Offered: Fall Term

Course Type(s): None

An interdisciplinary course that utilizes theoretical, empirical, and methodological contributions from psychology and anthropology to discuss the position of culture in understanding human behavior and thought. Culture is viewed as a cognitive construct that is learned, lived, shared, and performed. A sample of topics include: the history of cultural and cross-cultural psychology, methodological approaches, aggression, education, development, play, language, social relationships, intelligence, emotion, motivation, and mental health issues. Also listed as AN-408.

**PY-409 Leadership and Group Processes Credits: 3**

Prerequisite(s): PY-103 and PY-207

Term Offered: All Terms

Course Type(s): None

An introduction to the study of group dynamics, particularly with regard to leadership and power. Exploration of past and present research on groups; current theoretical understanding of important group processes, such as group formation, changes over time, group decision-making and performance, social influence, and intermember relations.

**PY-409L Leadership and Group Processes Laboratory Credits: 1**

Prerequisite(s): PY-103, PY-311, and PY-320 all passed with a grade of C or higher

Co-requisite(s): PY-409 and PY-491

Course Type(s): None

Study and evaluation of empirical methods used in group-dynamics research. Students will critique published research and learn to identify and avoid common threats to the validity of their own research. Three hours per week.

**PY-411 Field Experience in Animal Behavior Credits: 3**

Prerequisite(s): PY-103; and PY-220 passed with a grade of C or higher or permission of the instructor.

Term Offered: Spring Term

Course Type(s): EX1

Covers psychological principles that are relevant to the psychology of animal behavior, animal training, and learning, memory, and cognition. Students are exposed to - and engage in- research on animal behavior management and watch demonstrations of these principles on-site at Six Flags Safari with a selection of exotic animals. Students will explore careers in applied animal behavior and apply what they have learned to other vocations with humans, such as teaching and therapy, in weekly discussions. Students gain public speaking experience via facilitating educational outreach events and developing and executing training and enrichment plans to promote animal welfare. Instructor permission required. Students of other majors with permission of instructor. PY-103; and PY-220 passed with a grade of C or higher or permission of the instructor.

**PY-423 Social Justice Journeys: Psychological Identity and Museum Exhibits****Credits: 3**

Prerequisite(s): PY-103.

Term Offered: All Terms

Course Type(s): GS, SIAR

By combining field trips to museums and classroom learning, students learn how we construct our psychological identities (e.g., gender, race and ethnic identities) and how images and exhibits in our society influence the cognitive processes underlying our identity development. Students will reflect on the impact of how historical events are retold on how we value ourselves and others. An intersectionality framework is employed. Career opportunities for psychology majors that overlap with museum science will be introduced.

**PY-426 Theories of Childhood and Development****Credits: 3**

Prerequisite(s): PY-203, PY-320, and PY-321

Term Offered: Spring Term

Course Type(s): None

An overview of and evaluative approach to developmental theories and conceptions of childhood. The theoretical frameworks covered include: constructivism, learning theory, psychoanalysis, psychosocial, and ethological/evolutionary approaches. Theorists discussed include: Bowlby, Dewey, Erikson, Freud, Montessori, Piaget, Skinner, and Vygotsky.

**PY-431 Psychological Tests and Measurements****Credits: 3**

Prerequisite(s): PY-103 and PY-220, both passed with a grade of C or higher

Term Offered: Spring Term

Course Type(s): None

Introduction to theory of measurement; its application to psychological and educational testing and exposure to frequently used tests with ethical and practical considerations. Prerequisites: PY-103 and PY-220, both passed with a grade of C or higher

**PY-488 Cooperative Education: Psychology****Credits: 3**

Term Offered: All Terms

Course Type(s): EX2

Provides students with an opportunity to apply classroom theory in practice through actual work experience. Placements are selected to forward the student's career interest through experiential education. Repeatable for credit.

**PY-489 Independent Internship in Psychology****Credits: 1-3**

Prerequisite(s): PY-208 and PY-220, and a minimum G.P.A. of 3.00

Term Offered: All Terms

Course Type(s): EX1

Working with the Department of Psychology's Field Placement Coordinator, the student will secure an internship site and be assigned a faculty sponsor. Students will intern fifty hours per credit per term in their placements. In collaboration with their faculty sponsor, students will develop learning objectives, maintain a journal and log of their hours, and submit assignments that demonstrate an advanced application of psychological concepts to their internship experiences. Weekly meetings with faculty sponsors are required. Limited to Psychology majors.

**PY-490 Senior Seminar in Psychology****Credits: 3**

Prerequisite(s): PY-320 passed with a grade of C or higher and 18 credits in Psychology

Term Offered: Spring Term

Course Type(s): None

Readings, invited speakers, student presentations, and discussion of current and review topics in psychology. Course emphasis to vary with orientation of directing professor.

**PY-491 Research IV: Thesis in Psychology****Credits: 2**

Prerequisite(s): PY-311 and PY-320 both passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Study and research in psychology under the supervision of a psychology faculty member, leading to the preparation of a senior thesis.

**PY-498 Special Topics in Psychology (400 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in psychology to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**PY-498L Special Topics in Psychology Thesis Laboratory****Credits: 1**

Course Type(s): None

An intensive study of a particular subject or problem in psychology to be announced prior to registration. If a prerequisite is required it will be announced in the course schedule.

**PY-499A Independent Study in Psychology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Independent study in psychology (experimental) research under supervision of a faculty member. May be taken for a maximum of six credits. Junior standing and prior permission of the directing instructor and department chair are required to take this course.

**PY-499B Independent Study in Psychology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Independent study in psychology (reading and theoretical) special project under supervision of a faculty member. May be taken for a maximum of six credits. Junior standing and prior permission of the directing instructor and department chair are required to take this course.

| Complete 33 credits as outlined on the General Education table. <sup>2</sup>             |                                                        | 33         |
| <b>Total Credits</b>                                                                     |                                                        | <b>120</b> |

<sup>1</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>2</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major

or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 58 credits must be completed at the 200 level or higher.

## World Languages and Cultures

Chair: Julia Riordan Goncalves, Department of World Languages and Cultures

**Student Honor Societies:** Hispanic Honor Society: Sigma Delta Pi, Eta Pi Chapter; Italian Honor Society: Alpha Gamma Kappa

The World Language curriculum provides the opportunity to concentrate in Spanish, to minor in Italian, and to study in Arabic, Chinese, French, German, Irish, and Latin.

## World Language Placement Policy <sup>1</sup>

- 101 – No more than two years of the language in high school<sup>2</sup>
- 102 – Three years of that language in high school or having completed 101<sup>2</sup>
- 201 – Four years of that language in high school or having completed 102, or AP with a score of "2" or lower<sup>2</sup>
- 202 – Having completed 201, or AP with a score of "3"<sup>2</sup>
- 300+ – Five or more years of that language, or AP with a score of "4" or higher
- Native speakers (students who speak Spanish, Italian, etc. as their first language) may not register in a class below the 201 level and should consult with the chair of the Department of World Languages and Cultures or the department advising coordinator for placement.
- Heritage speakers (students who verbally interacted with at least one parent in Spanish, Italian, etc.) may register in any course from 101 on upon consultation with the chair of the Department of World Languages or Cultures or the Department Advising Coordinator.

<sup>1</sup> Any student who registers for a language class and does not follow the policies will be administratively dropped and placed into the appropriate level.

<sup>2</sup> Foreign Language courses 101, 102, 201, 202 are sequential and may not be taken out of order.

For any questions or concerns regarding this policy, please call the Chair of the Department of World Languages and Cultures, Dr. Mirta Barrea-Marlys, at extension 5390 or the Department Advising Coordinator, Dr. Alison Maginn, extension 3612.

**Note:** FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) is intended for non-native speakers of Spanish<sup>1</sup> and is a co-requisite for FS-300B Advanced Spanish: Composition and Conversation II (3 cr.), and a prerequisite for all other 300- and 400-level courses in Spanish. FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) is designed to bridge the gap between lower- and upper-division courses by providing students with optimal opportunities to practice their oral language skills at the high intermediate/low advanced level. The course provides practice in all four language skills while placing special emphasis on conversation, listening, and oral presentation skills.

<sup>1</sup> Prerequisite: permission of instructor

**Note:** FS-300B Advanced Spanish: Composition and Conversation II (3 cr.) is a prerequisite for all 400-level courses in Spanish and should ideally be taken in the fifth or sixth semester of Spanish studies. The course is intended for both native and non-native speakers of Spanish and should be taken before or simultaneously with other 300-level courses in literature and culture. Non-native speakers of Spanish are required to

take FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) in the same semester as FS-300B Advanced Spanish: Composition and Conversation II (3 cr.).

## Language Study Abroad

Students who wish to take language courses abroad are referred to the pertinent information appearing under *Study Abroad* in this catalog. Those who wish to participate in a Study Abroad program should begin making plans before their sophomore year and consult with their advisors in the department, where the necessary information is available.

**Note:** In courses numbered above 300, it is presumed that the student has taken 201-202 (Intermediate) or equivalent to assure adequate reading facility in the foreign language. These courses are conducted wholly in the foreign language, so that FS-300B Advanced Spanish: Composition and Conversation II (3 cr.) is regularly scheduled as a prerequisite or co-requisite to these courses. For courses numbered above 400, permission of the instructor may also be required. Please consult the departmental office.

**Note:** All Spanish majors must complete the Oral Proficiency Interview (OPI) coordinated by the department. For any questions concerning the OPI, please contact the Chair of the Department of World Languages and Cultures, Dr. Barrea-Marlys, extension 5390 or the Oral Proficiency Coordinator, Dr. Gac-Artigas, extension 3406.

**Departmental Honors** will be earned based on the following criteria being met:

- Overall GPA of at least 3.3.
- Major GPA of at least 3.5.
- Fulfillment of the intermediate level language requirement for Spanish majors.
- Two courses beyond those required for Spanish majors
  - One course chosen from a list of Spanish 300-400 level per thesis advisor.
  - One independent study (FS-499 Independent Study in Spanish (3 cr.)) to include writing of a thesis in consultation with a full-time World Languages and Cultures Department faculty member. Thesis will be orally presented and defended to a committee of at least three faculty members (two from the World Languages and Cultures Department full-time faculty).
- Thesis
  - Thesis will be orally presented and defended to a committee of at least three faculty members (two from the World Languages and Cultures full-time faculty).
  - Length: for students of the BA in Spanish, thesis must be fifteen pages in Spanish; and for students with Honor in Spanish and Honor School, thesis must be twenty-five pages in Spanish.
  - Thesis must earn a "B" or better.

## Programs Majors

- B.A. in Spanish (p. 212)
- B.A. in Spanish with a Concentration in Communication (Journalism Cluster) (p. 213)
- B.A. in Spanish with a Concentration in Communication (Media Studies & Production Cluster) (p. 214)

- B.A. in Spanish and Education with Endorsement in Elementary Education (<https://catalog.monmouth.edu/undergraduate-catalog/wayne-d-mcmurray-humanities-social-sciences/world-languages-cultures/spanish-education-ba-endorsement-elementary-education-spanish/>)

- B.A. in Spanish and Education with Endorsement in K-12 Education in Spanish (p. 215)

## Minors

- Italian (p. 217)
- Spanish (p. 217)
- Spanish for Business (p. 217)

## Certificates

- Certificate in Africana Studies (p. 217)
- Spanish Language (p. 217)

## Faculty

**Mirta Barrea-Marlys**, Associate Professor. B.A., Rutgers University; M.A., Villanova University; Ph.D., Romance Languages/Literature, University of Pennsylvania. Areas of specialization include Medieval through Eighteenth-Century Spanish Literature, Linguistics, Latin-American Theatre, and Latin-American Women Authors. Teaching and research interests include Linguistics, Methodology of foreign language teaching, second language acquisition, and Spanish and Italian language and culture.  
mbarrea@monmouth.edu

**Frank Domenico Cipriani**, Specialist Professor. M.A., Applied Linguistics, S.U.N.Y. Stony Brook. Interests include Communication and Ethnomusicology, Interviews of Latin Grammy winners for the Grammy Museum, Pedagogy of Uncommonly Taught Languages, promotion of the Spanish Language in the community through radio and teaching Spanish Language/Linguistics.  
fciprian@monmouth.edu

**Aned Ladino**, Lecturer. B.A, M.A., University of Central Florida; M.S., Georgetown University.

**Julia Riordan-Goncalves**, Associate Professor and Chair. B.A., Dickinson College; M.A., Ph.D., University of North Carolina at Chapel Hill. Area of specialization is the twentieth-century Spanish novel, especially the novel written under the Franco dictatorship. Additional research interests are a Transatlantic approach to the novel written under dictatorship in Spain and Spanish America, sociological theory and the novel, women writing the Social Novel in Spain, and pedagogical approaches to teaching Spanish for Business.  
jriordan@monmouth.edu

## Courses

### FA-101 Elementary Arabic 1

**Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Elements of language structure through oral and written practice in the classroom, supplemented by work in the language laboratory with emphasis on everyday Arabic and easy Arabic prose.

**FA-102 Elementary Arabic 2****Credits: 3**

Prerequisite(s): FA-101 or at least three years of high school Arabic or permission of the department chair.

Term Offered: Spring Term

Course Type(s): None

Elements of language structure through oral and written practice in the classroom, supplemented by work in the language laboratory with emphasis on everyday Arabic and easy Arabic prose.

**FA-298 Special Topics in Arabic****Credits: 1-3**

Course Type(s): None

Students study text in the original language at an advanced level. Course content will vary from semester to semester. If a prerequisite is required it will be announced in the course schedule.

**FA-299 Independent Study in Arabic****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of the Arabic language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FC-101 Elementary Chinese I****Credits: 3**

Term Offered: All Terms

Course Type(s): None

An elementary-level communicative based language course in standard Chinese, which is called Mandarin to distinguish it from regional dialects, with simplified characters, the standard script in China. This course is an introduction to basic Mandarin Chinese grammar, vocabulary, and communicative structures, and students participate in pair, small group, and whole-class conversation, listening, comprehension and writing activities that focus on the meaningful and accurate conveying of information. This course is intended for students who have no previous knowledge of Mandarin Chinese or have placed into FC-101 through the World Languages placement exam; or Zero to one year of high school study of Chinese; No more than 4 years of high school study of Chinese.

**FC-102 Elementary Chinese II****Credits: 3**

Prerequisite(s): FC-101 or Placement into FC-102 through the World Languages placement exam.

Term Offered: All Terms

Course Type(s): None

A continuation of Elementary Chinese I, this course is an elementary-level communicative based language course in standard Chinese, which is called Mandarin, to distinguish it from regional dialects with simplified characters, the standard script in China. A continuation of the introduction to basic Mandarin Chinese grammar, vocabulary, and communicative structures, this course is intended for students who have completed Elementary Chinese I or have placed into FC-102 through the World Languages placement exam. Students participate in pair, small group, and whole-class conversation, listening, comprehension and writing activities that focus on the meaningful and accurate conveying of information.

**FC-199 Independent Study in Chinese****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of Chinese language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FC-398 Special Topics in Chinese****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Elements of language structure through oral and written practice in the classroom, supplemented by work in the language laboratory with emphasis on everyday Chinese and easy Chinese prose. If a prerequisite is required it will be announced in the course schedule.

**FF-LAB Conversation Practice****Credits: None**

Co-requisite(s): FF-201 or FF-202

Term Offered: All Terms

Course Type(s): None

Separate lab component from intermediate course(s). This is a pass/fail course.

**FF-101 Elementary French I****Credits: 3**

Term Offered: All Terms

Course Type(s): None

An elementary-level, communicative-based language course, intended for students with no previous study of French or placement into the FF-101 level through the World Languages placement exam. Students with four or more years of high school study of French may not enroll in FF-101. FF-101 is to be taken before FF-102.

**FF-102 Elementary French II****Credits: 3**

Prerequisite(s): FF-101

Term Offered: Spring Term

Course Type(s): None

An elementary-level, communicative-based language course, intended for students who have completed FF-101 or placed into FF-102 through the World Languages placement exam. FF-101 through FF-202 are sequential.

**FF-199 Independent Study in French****Credits: 1-3**

Term Offered: Summer Term

Course Type(s): None

Guided readings and research on an area or topic of the French language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FF-201 Intermediate French I****Credits: 3**

Prerequisite(s): FF-102 or four years of high school French or placement into FF-201 through the World Languages placement exam.

Term Offered: Fall Term

Course Type(s): None

An intermediate-level, communicative-based language course. The FF-201/FF-202 course sequence emphasizes skill development in speaking, listening comprehension, reading, and writing in French through oral and written practice in the classroom and in small groups in the language laboratory. Through communicative and proficiency-building activities, students learn and review French grammar, vocabulary, and communicative structures. Students will also be introduced to Francophone literature and cultures through short literary and non-literary texts. Students who register for FF-201 must also register for a weekly session of conversation practice. FF-101 through FF-202 courses are sequential.

**FF-202 Intermediate French II****Credits: 3**

Prerequisite(s): FF-201

Term Offered: Spring Term

Course Type(s): None

An intermediate-level, communicative-based language sequence. A review of French grammar, vocabulary and communicative structures, this course sequence (FF-201 and FF-202) emphasizes skill development in speaking, listening comprehension, reading, and writing in French through oral and written practice in the classroom and in the language laboratory. Students will also be introduced to French literature and culture through short literary and non-literary texts. FF-201 and FF-202 are sequential. Students who register for FF-202 must also register for a weekly session of conversation practice in the World Languages and Cultures Resource Center, coordinated by the Department of World Languages and Cultures.

**FF-299 Independent Study in French****Credits: 3**

Course Type(s): None

Guided readings and research on an area or topic of the French language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FF-301 Survey of French Literature****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Survey of French Literature up to 1800.

**FF-303 Advanced French Composition and Conversation****Credits: 3**

Prerequisite(s): twelve credits in French

Term Offered: Spring Term

Course Type(s): None

Oral and written use of correct, idiomatic French vocabulary building, oral discussion, composition, and instruction in the presentation of material.

**FF-309 French Culture and Civilization****Credits: 3**

Course Type(s): None

Political, social, and other developments in France from the Middle Ages to 1800.

**FF-312 Independent Readings in French****Credits: 1-3**

Course Type(s): None

Supervised readings in the original language for students who wish to do intensive work in their major field; materials are selected in consultation with the student's advisor from the major field, and the student confers regularly with an instructor from the language staff. This course is repeatable for credit.

**FF-398 Special Topics in French****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Students study text in the original language. Course content will vary from semester to semester.

**FF-399 Independent Study in French****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of the French language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FF-499 Independent Study in French****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of the French language, culture and/or literature selected in consultation with the instructor.

Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FG-LAB Conversation Practice****Credits: None**

Co-requisite(s): FG-201 or FG-202

Term Offered: Spring Term

Course Type(s): None

Separate lab component from intermediate course(s).

**FG-101 Elementary German I****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Elements of language structure through oral and written practice in the classroom, with emphasis on everyday German and easy German prose.

This course is intended for students with no previous knowledge of German or who have placed into FG-101 through the World Languages placement exam.

**FG-102 Elementary German II****Credits: 3**

Prerequisite(s): FG-101 or placement into FG-102 through the World Languages placement exam

Term Offered: Spring Term

Course Type(s): None

Elements of language structure through oral and written practice in the classroom, with emphasis on everyday German and easy German prose.

This course is intended for students who have completed FG-101 or have placed into FG-102 through the World Languages placement exam.

**FG-199 Independent Study in German****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of the German language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports.

Prior permission of the directing professor and department chair is required to take this course.

**FG-201 Intermediate German I****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

Review of grammar, vocabulary, and idiomatic expressions; skill development in reading and writing German through exercises in composition and the reading of modern German texts. Students who register for FG-201 must also register for a weekly session of conversation practice in the World Languages and Cultures Resource Center, coordinated by the Department of World Languages and Cultures.

**FG-202 Intermediate German II****Credits: 3**

Prerequisite(s): FG-101

Term Offered: Spring Term

Course Type(s): None

Review of grammar, vocabulary, and idiomatic expressions; skill development in reading and writing German through exercises in composition and the reading of modern German texts. Students who register for FG-202 must also register for a weekly session of conversation practice in the World Languages and Cultures Resource Center, coordinated by the Department of World Languages and Cultures.

**FG-299 Independent Study in German****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided readings and research on an area or topic of the German language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FG-499 Independent Study in German****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Guided readings and research on an area or topic of the German language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FH-101 Elementary Modern Hebrew I****Credits: 3**

Course Type(s): None

Elements of language structure through oral and written practice, supplemented by work in the language laboratory, with emphasis on everyday Hebrew.

**FH-102 Elementary Modern Hebrew II****Credits: 3**

Prerequisite(s): FH-101 or some knowledge of the language

Term Offered: Spring Term

Course Type(s): None

Elements of language structure through oral and written practice, supplemented by work in the language laboratory, with emphasis on everyday Hebrew.

**FH-299 Independent Study Hebrew****Credits: 1-3**

Course Type(s): None

Guided readings and research on an area or topic of the Hebrew language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FI-LAB Conversation Practice****Credits: None**

Co-requisite(s): FI-201 or FI-202

Term Offered: All Terms

Course Type(s): None

Separate lab component from intermediate course(s). This is a pass/fail course.

**FI-101 Elementary Italian I****Credits: 3**

Term Offered: All Terms

Course Type(s): None

An elementary-level, communicative-based language course. This course is intended for students with no Italian or who have placed into FI-101 through the World Languages Placement exam. FI-101 and FI-102 are sequential.

**FI-102 Elementary Italian II****Credits: 3**

Prerequisite(s): FI-101 or placement into FI-102 through the World Languages placement exam

Term Offered: All Terms

Course Type(s): None

An elementary-level, communicative-based language course, intended for students who have completed FI-101 or placed into FI-102 through the World Languages placement exam. FI-101 through FI-202 courses are sequential.

**FI-199 Independent Study in Italian****Credits: 1-3**

Term Offered: Summer Term

Course Type(s): None

Guided reading and research on an area or topic. Prior permission of the directing professor and department chair is required to take this course.

**FI-201 Intermediate Italian I****Credits: 3**

Prerequisite(s): FI-102 or placement into FI-201 through the World Languages placement exam

Co-requisite(s): FI-Lab

Term Offered: All Terms

Course Type(s): None

An intermediate-level, communicative-based language course. The FI-201/FI-202 course sequence emphasizes skill development in speaking, listening comprehension, reading, and writing in Italian through oral and written practice in the classroom and in small groups in the language laboratory. Through communicative and proficiency-building activities, students learn and review Italian grammar, vocabulary, and communicative structures. Students will also be introduced to Italian literature and culture through short literary and non-literary texts. Students who register for FI-201 must also register for a weekly session of conversation practice. FI-101 through FI-202 courses are sequential.

**FI-202 Intermediate Italian II****Credits: 3**

Prerequisite(s): FI-201 or placement into FI-202 through the World Languages placement exam

Co-requisite(s): FI-LAB

Term Offered: All Terms

Course Type(s): None

An intermediate-level, communicative-based language course. The FI-201/FI-202 course sequence emphasizes skill development in speaking, listening comprehension, reading, and writing in Italian through oral and written practice in the classroom and in small groups in the language laboratory. Through communicative and proficiency-building activities, students learn and review Italian grammar, vocabulary, and communicative structures. Students will also be introduced to Italian literature and culture through short literary and non-literary texts. Students who register for FI-202 must also register for a weekly session of conversation practice. FI-101 through FI-202 courses are sequential. Prerequisite: FI-201 or placement into FI-202 through the World Languages placement exam

**FI-299 Independent Study in Italian****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings and research on an area or topic of the Italian language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FI-301 Introduction to Italian Literature****Credits: 3**

Prerequisite(s): FI-202

Term Offered: Spring Term

Course Type(s): None

Introduction to the most important periods of Italian literature. Organized through a selection of fundamental texts, from Medieval to contemporary, the course will also analyze the main genres of Italian literature: theatre, essay, short story, and poetry. Taught in Italian.

- FI-303 Advanced Italian: Composition and Conversation I** Credits: 3  
Prerequisite(s): FI-202  
Term Offered: All Terms  
Course Type(s): None  
Oral and written use of correct, idiomatic Italian vocabulary building, oral discussion, and instruction in the presentation of material.
- FI-304 Advanced Italian: Composition and Conversation II** Credits: 3  
Prerequisite(s): FI-303  
Term Offered: Spring Term  
Course Type(s): None  
Oral and written use of correct, idiomatic Italian vocabulary building, oral discussion, composition, and instruction in the presentation of material.
- FI-398 Advanced Conversation and Composition Through Contemporary Italian Cinema and Literary Texts Literary Texts** Credits: 1-3  
Term Offered: All Terms  
Course Type(s): None  
Taught in Italian: This course examines various aspects of contemporary Italian language and culture through the discussion of contemporary Italian films and literary texts. This course advances students' knowledge of contemporary Italian society, culture, and language as well as their ability to comprehend rapid spoken Italian. Students will demonstrate an understanding of the relationship between the practices and the perspectives of Italian culture and language through written and oral analysis to communicate multifaceted social and cultural ideas in standard oral and written Italian thereby advancing their cultural and linguistic communicative skills and proficiencies.
- FI-399 Independent Study in Italian** Credits: 1-3  
Term Offered: All Terms  
Course Type(s): None  
Guided readings and research on an area or topic of the Italian language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.
- FI-499 Independent Study in Italian** Credits: 3  
Term Offered: Spring Term  
Course Type(s): None  
Guided readings and research on an area or topic of the Italian language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.
- FIR-199 Independent Study in Irish** Credits: 3  
Term Offered: Fall Term  
Course Type(s): None  
Guided readings and research on an area or topic of Irish language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.
- FL-101 Elementary Latin I** Credits: 3  
Term Offered: All Terms  
Course Type(s): None  
Elements of language structure and translation through oral and written exercises in the classroom, in addition to exploration of relevant cultural and historical context.
- FL-102 Elementary Latin II** Credits: 3  
Prerequisite(s): FL-101 or 3 years of high school study in Latin  
Term Offered: Spring Term  
Course Type(s): None  
Elements of language structure and translation through oral and written exercises in the classroom, in addition to exploration of relevant cultural and historical context. This course is intended for students who have completed FL 101 or have had 3 years of high study in Latin.
- FL-199 Independent Study in Latin** Credits: 3  
Term Offered: All Terms  
Course Type(s): None  
Guided readings and research on an area or topic selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.
- FL-299 Independent Study in Latin** Credits: 3  
Term Offered: Spring Term  
Course Type(s): None  
Guided readings and research on an area or topic selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.
- FO-COL Colloquium in Professional and Leadership Development** Credits: None  
Course Type(s): None  
University administrators, as well as student participants, will present topics of interest to include mentoring students on professional interview preparation, resume review, and leadership experience. Students will network with other students, professors, and speakers from various branches of interest in the field of global volunteerism. This is a zero credit course with pass/fail grading.
- FO-LTIOPI Oral Proficiency Interview - UG** Credits: None  
Term Offered: All Terms  
Course Type(s): None  
Language Testing International Examination for undergraduate students; requires one hour preparation a week. This is a pass/fail course.
- FO-SSE Sector Specific Experience** Credits: None  
Course Type(s): NOSRCH  
Students must accumulate a minimum of 50 hours of volunteer or work experience in their specific sector (Agriculture, Community Economic Development, Education, Environment, Health, Youth in Development). This is a zero credit course with pass/fail grading.
- FO-198 Special Topics in World Languages and Cultures** Credits: 3  
Course Type(s): None  
This is a special topics course offered through the World Languages and Cultures Department. Course content will vary from semester to semester. If a prerequisite is required it will be announced in the course schedule.
- FO-199 Independent Study in Foreign Language** Credits: 1-3  
Term Offered: All Terms  
Course Type(s): None  
Guided readings and research on an area or topic selected in consultation with the instructor. Prior permission of the directing professor and department chair is required to take this course.

**FO-298 Special Topics in Foreign Literature****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Reading in English translation of works by foreign authors. Topics may center on works by a single author or be chosen from a period or genre, and will vary from semester to semester. If a prerequisite is required it will be announced in the course schedule.

**FO-299 Independent Study in Foreign Language****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings and research on an area or topic selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FO-311 Independent Readings****Credits: 1-3**

Course Type(s): None

Supervised readings in the original language for students who wish to do intensive work in their major field; materials are selected in consultation with the student's advisor from the major field, and the student confers regularly with an instructor from the language staff.

**FO-312 Independent Readings****Credits: 1-3**

Prerequisite(s): FO-311

Course Type(s): None

Supervised readings in the original language for students who wish to do intensive work in their major field; materials are selected in consultation with the student's advisor from the major field, and the student confers regularly with an instructor from the World Languages and Cultures staff.

**FO-389 Experiential Learning Internship****Credits: 1**

Term Offered: Fall Term

Course Type(s): EX1

An opportunity to apply classroom theory in practice through actual work experience with a World Language. Departmental approval is required to take this course.

**FO-398 Special Topics in Foreign Literature****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Students study text in the original language. Course content will vary from semester to semester. Some knowledge of the language is required to take this course. If a prerequisite is required it will be announced in the course schedule.

**FO-399 Independent Study in Foreign Language****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Guided readings and research on an area or topic selected in consultation with the instructor. Prior permission of the directing professor and department chair is required to take this course.

**FO-427 The Teaching of World Languages****Credits: 3**

Term Offered: All Terms

Course Type(s): None

This course is designed to prepare the World Language teacher candidate's understanding of the ACTFL performance guidelines and standards together with their application and assessment in the classroom. Various modes of teaching language will be explored including meaningful integration of the ACTFL 5 C's and Integrated Performance Assessments into each lesson. Professional development is explored and students must complete a professional Development Plan that includes joining professional affiliations. Preparation for the edTPA is included in this course with one lesson in the target language to be presented and videotaped in class for self and group assessment. This course will include pedagogical strategies related to teaching linguistically diverse students, students with diverse needs, using instructional technology and using data to inform instruction. These components provide the students with valuable pre-teaching experiences that will strengthen understanding of teaching strategies and capabilities. Also listed as ED-427. Clinical hours are required.

**FO-498 Special Topics in Foreign Languages****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Students study text in the original language at an advanced level. Course content will vary from semester to semester. If a prerequisite is required it will be announced in the course schedule.

**FO-499 Independent Studies in the Teaching of World Languages****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Curriculum development in foreign languages at the elementary and secondary level; the study and application of teaching methods and materials. Prior permission of the directing professor and department chair is required to take this course.

Guided readings and research on an area or topic of the Spanish language, culture and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FS-300A Advanced Spanish Conversation and Oral Discourse Credits: 3**

Prerequisite(s): FS-202 or placement into FS-300 through the World Languages placement exam

Co-requisite(s): FS-LAB

Course Type(s): None

Intended for non-native speakers of Spanish and is a pre and/or co-requisite for FS-300B Advanced Conversation and Composition and a pre-requisite for all other 300 and 400-level courses in Spanish. This course is designed to bridge the gap between lower and upper division courses by providing students with optimal opportunities to practice their oral language skills at the high intermediate level. The course provides practice in all four language functions while placing special emphasis on conversation, listening, and oral presentation skills. Students who register for FS-300A must also register for a weekly one hour conversation practice lab at the time of registration. Prerequisite: FS-202 or placement into FS-300 through the World Languages placement exam

**FS-300B Advanced Spanish: Composition and Conversation II Credits: 3**

Prerequisite(s): FS-202 or placement into FS-300 through the World Languages placement exam

Term Offered: All Terms

Course Type(s): None

This course is designed to bridge the gap between lower and upper division courses by providing students with optimal opportunities to practice and refine their writing and reading comprehension skills in Spanish at the high intermediate level. The course provides practice in all four language functions while placing special emphasis on writing, reading comprehension and analysis, and vocabulary building skills. Students who register for FS-300B must also register for a weekly one hour conversation practice lab at the time of registration. Prerequisite: FS-202 or placement into FS-300 through the World Languages placement exam

**FS-301 Introduction to Hispanic Literature Credits: 3**

Prerequisite(s): FS-300A or FS-318, FS-300B; and EN-101 and EN-102 or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Introduction to the four principal genres of Hispanic literature. Fundamentals of literary analysis through a selection of texts from Medieval through contemporary Spanish literature, and Colonial through twentieth-century Latin American literature.

**FS-304 Onstage and in the Streets: Performance and Culture Credits: 3**

Course Type(s): CD, COCSD, COCST

Introduction to understanding diverse popular performance practices as unique and contested expressions of culture and identity. Studying human performances within everyday life, in public spaces, and through cultural rituals, street theatre, and professional productions, a variety of contemporary theories, methods, and critical issues are considered within the fields of communication, theatre, performance, and cultural studies. Students must be enrolled in the Study Abroad program in Cadiz, Spain. Also listed as CO-304.

**FS-305 Survey of Spanish-American Literature Credits: 3**

Prerequisite(s): FS-301 or permission of the department and EN-101 and EN-102, or permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Survey of Latin-American literature studying representative works from the Colonial period through the twentieth-century. Genres covered include novel, drama, poetry, essay, and short story. Taught in Spanish.

**FS-307 Survey of Spanish Literature Credits: 3**

Prerequisite(s): FS-301 or permission of the department chair

Term Offered: Spring Term

Course Type(s): None

Survey of Peninsular Spanish literature that focuses on drama, short story, and poetry from the Medieval period until the beginning of the eighteenth century. Emphasis will be on the drama of the Renaissance and Baroque periods incorporating playwrights such as Lope de Vega, Tirso de Molina, and Calderon de la Barca. In addition, poets and writers such as Garcilaso, Fray Luis, Santa Teresa, and Maria de Zayas are included. Taught in Spanish.

**FS-308 Afro-Hispanic Literature Credits: 3**

Prerequisite(s): One semester of a 300-level Spanish course

Term Offered: Spring Term

Course Type(s): None

This course examines the development of Afro-Hispanic Literature and visual documentation from the Colonial period to the present. We will study the materials according to their historical and political context and examine the literary forms, genres, and techniques by spanning a range of analyses of textual criticism, political rhetoric, poetry, music, fiction, and non-fiction. This course engages students interested in learning more about Afro-Hispanic cultures as expressed through the lens of its literature, documentaries, and the visual arts. Students will appreciate artistic creations by Afro-Hispanic authors and exercise their analytical and creative abilities. The course is taught in Spanish, and fulfills the FS-305 or FS-307 requirement for Spanish minors and majors.

**FS-309 Culture and Civilization Spain Credits: 3**

Prerequisite(s): FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

Term Offered: All Terms

Course Type(s): None

Study of the culture and civilization of Spain from pre-historic times to the present day. The first part of the course will present the major historical developments and artistic movements of the Iberian Peninsula with special focus placed upon the plastic arts (painting, architecture, sculpture). The second part of the course will focus on contemporary socio-cultural issues such as the Spanish economy, politics (dictatorship and democracy), society, and cultural life. Taught in Spanish. Prerequisite: FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

**FS-310 Culture and Civilization of Latin America Credits: 3**

Prerequisite(s): FS-202 or FS-222, and EN-101 and EN-102; or permission of the instructor

Term Offered: All Terms

Course Type(s): RE, WT

Study of the natural aspects and historical evolution of the culture and civilization of Latin American countries. Landmarks in the political, economic, cultural and social history of the continents are traced from the pre-colonial times to the present. Students are introduced to, and familiarized with, the world of Latin American history, life, thought, and feelings. Emphasis is given to aspects of Latin America today such as the new political and economic map in the twenty-first century, women's impact in politics, LGBT issues, religion, education, science and technology, music, art, and film. Conducted in Spanish.

**FS-311 Independent Readings in Spanish****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Supervised readings in the original language for students who wish to do intensive work in their major field; materials are selected in consultation with the student's advisor from the major field, and the student confers regularly with an instructor from the language staff.

**FS-312 Independent Readings in Spanish****Credits: 1-3**

Course Type(s): None

Supervised readings in the original language for students who wish to do intensive work in their major field; materials are selected in consultation with the student's advisor from the major field, and the student confers regularly with an instructor from the language staff.

**FS-313 Introduction to Spanish for Business****Credits: 3**

Prerequisite(s): FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

Term Offered: Spring Term

Course Type(s): None

Designed to acquaint students with business practices, documents, culture, and terminology of Spanish-speaking countries (including the U.S.). Additionally, students will review and practice Spanish grammar, and learn about Hispanic culture(s) and current topics in the Hispanic business world. This course is designed to give intermediate and advanced students a solid foundation in business vocabulary, basic business and cultural concepts, and situational practice (all in Spanish) necessary to be successful in today's Spanish-speaking business world, which includes the United States. Class participants will acquire key communicative and structural elements through commercial dialogs, translations, advertisements, and role-plays. Prerequisite: FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

**FS-314 Advanced Spanish for Health Care Professionals****Credits: 3**

Prerequisite(s): FS-202, FS-222 or placement into FS-300 through the World Languages placement exam

Term Offered: All Terms

Course Type(s): None

Advanced Spanish for Health Professionals is a high-intermediate communicative-based language course that satisfies a 300-level Spanish class for Health Studies, Nursing, Pre-Med or science majors, as well as for Spanish minors or majors. The course offers a continuation of study of Spanish grammar, vocabulary, and communicative structures as well as Hispanic cultures, within the context of the health professions. It is intended for students who have completed FS-202, FS-222 or have placed into FS-300 through the World Languages Placement exam. As a communicative-based course, the class is devoted to working in pairs, small group, and whole-class conversation/presentational activities that focus on meaningful and accurate communication of the material in the context of the health professions. Prerequisite: FS-202, FS-222 or placement into FS-300 through the World Languages placement exam

**FS-315 Introduction to Spanish Linguistics****Credits: 3**

Prerequisite(s): FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

Term Offered: All Terms

Course Type(s): None

An introduction to the linguistic analysis of the Spanish language from the point of view of its internal organization and sound system, including study of accents, dialects, register and regional variations. Intended for Spanish majors and minors and will be conducted entirely in Spanish. Students will be introduced to the morphological study of the language; an introduction to Spanish phonetics in theory and practice will incorporate the history of the Spanish language from Latin to modern Spanish. Discussion of Hispanic dialectology and geolinguistics, accompanied by interviews and student analysis of native Spanish speech. Prerequisite: FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

**FS-317 Cadiz y su sociedad (Social Issues in Cadiz) Mid-Level Credits: 3**

Prerequisite(s): FS-202

Co-requisite(s): FS-300A or FS-300B

Term Offered: Summer Term

Course Type(s): None

Analysis of diverse social issues in Cadiz through readings, visual media, interaction with various social and governmental organizations and assemblies as well as community service. It will be taught in Spanish.

**FS-318 Spanish Pronunciation, Voice, and Diction****Credits: 3**

Prerequisite(s): FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

Co-requisite(s): FS-LAB

Term Offered: All Terms

Course Type(s): None

An analytical, practical and hands-on study of contemporary Spanish pronunciation, conducted completely in Spanish. Students are introduced to the phonetics (the study of sounds) and phonology (the study of the sound system) of the Spanish language, and work to refine and improve their pronunciation, speech and presentational skills in Spanish. Prerequisite: FS-202 or FS-222 or placement into FS-300 through the World Languages placement exam

**FS-398 Special Topics in Spanish****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Students study text in the original language. Course context will vary from semester to semester.

**FS-399 Independent Study in Spanish****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided readings and research on an area or topic of Spanish language, culture, and/or literature selected in consultation with the instructor. Regular conferences with the instructor and written reports. Prior permission of the directing professor and department chair is required to take this course.

**FS-402 Advanced Spanish Conversation and Oral Proficiency****Credits: 3**

Prerequisite(s): One semester of a 300-level Spanish course.

Term Offered: Fall Term

Course Type(s): None

Advanced conversational practice in Spanish and review of Spanish grammar and vocabulary. This course focuses on the improvement of oral and aural communication skills in Spanish and aims to prepare students to achieve an oral proficiency rating of Advanced Low or higher, according to the ACTFL scale. This course is intended for Spanish and Spanish/Education majors, and Spanish minors.

**FS-403 Spanish Literature of the Eighteenth and Nineteenth Centuries****Credits: 3**

Term Offered: Spring Term

Course Type(s): FS.LT

Novels, drama, and poetry, with emphasis on the works of Iriarte, Moratin, Espronceda, Zorrilla, Becquer, Galdos, and others.

**FS-404 Spanish Literature of the Twentieth Century****Credits: 3**

Term Offered: Spring Term

<sup>1</sup> In courses numbered 300 it is presumed that the student has taken 202 (Intermediate) or placed into the 300 level with the world languages placement exam to assure adequate communicative facility in the world language

<sup>2</sup> A native speaker may be exempt from taking FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) upon consultation with the Chair of the Department. The student may substitute any FS-300+ course to fulfill the three credit requirement.

<sup>3</sup> These 6 credits are in addition to the General Education requirements. Courses taken in these areas to fulfill a General Education requirement will not also fulfill this Interdisciplinary Requirement for the Major.

<sup>4</sup> Course Type: EN, some exclusions apply, contact the department for guidance.

<sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major

or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Note

- 54 credits must be completed at the 200 level or higher.

## Sequence Chart

|----------------------|------------|

- <sup>1</sup> In courses number above 300 it is presumed that the student has taken 201-202 (Intermediate) or equivalent to assure adequate communicative facility in the foreign language
- <sup>2</sup> A native speaker may be exempt from taking FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) upon consultation with the Chair of the Department. The student may substitute any FS-300+ course to fulfill the three credit requirement.
- <sup>3</sup> Can substitute a minimum of 9 credits in the same foreign language other than Spanish
- <sup>4</sup> Other than Spanish; in addition to the General Education requirements: (i.e. Italian, German, Irish, Latin, Chinese, Arabic, French)
- <sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.
- <sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Note

- 54 credits must be completed at the 200 level or higher.

| Select 6 credits from two of the following subjects: AR, CO, EN, HS, MU, PL <sup>4</sup> |                                                                           |   |

**Free Electives (2 credits)<sup>5</sup>**Select up to 2 free elective credits.<sup>5</sup> 2**General Education Requirements (33 credits)<sup>6</sup>**Complete 33 credits as outlined in the General Education table.<sup>6</sup> 33**Total Credits 120**

<sup>1</sup> 33 credits above the intermediate level. In courses numbered above 300 it is presumed that the student has taken 201-202 (Intermediate) or equivalent.

<sup>2</sup> A native speaker may substitute any FS-300+ course for FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) after consultation with the Chair of the Department.

<sup>3</sup> Can substitute a minimum of 9 credits of the same foreign language other than Spanish.

<sup>4</sup> Within Interdisciplinary Requirements, specific exclusions apply for English; contact the department for guidance.

<sup>5</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>6</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

**Note:**

- 54 credits must be completed at the 200-level or higher.

**Sequence Chart**

| First Year                                                               |           |                                                                            |           |

<sup>1</sup> In 300+ level courses it is presumed that the student has taken 202 (Intermediate) or been placed into the 300 level through the world languages placement exam, to ensure adequate communicative facility in the world language.

<sup>2</sup> A native speaker may be exempt from taking FS-300A Advanced Spanish Conversation and Oral Discourse (3 cr.) upon consultation with the Chair of the Department. The student may substitute any FS-300+ course to fulfill the three credits.

<sup>3</sup> Minimum grade of "C" Required for all Education courses.

<sup>4</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>5</sup> These courses are taken in addition to the General Education requirements. Courses taken in these areas that fulfill General Education requirements will not also fulfill the Interdisciplinary Requirements for the Major.

<sup>6</sup> Subject EN: some exclusions apply, contact the department for guidance.

<sup>7</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>8</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - K-12
- ESL - English as a Second Language - K-12

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

| Select 6 credits at the 200-level from:       |                                       | 6         |
| FS-201                                        | Intermediate Spanish I <sup>1</sup>   |           |
| FS-202                                        | Intermediate Spanish II               |           |
| FS-LAB                                        | Conversation Practice                 |           |
| FS-222                                        | Spanish for Health Care Professionals |           |
| <b>Electives (9 credits)</b>                  |                                       |           |
| Select 9 credits from Spanish (FS) 300+ level |                                       | 9         |
| <b>Total Credits</b>                          |                                       | <b>15</b> |

<sup>1</sup> FS-201 cannot be taken after FS-202.

## Minor in Spanish for Business (MIN.FSBU)

| Code                         | Title                                                    | Credits   |
|------------------------------|----------------------------------------------------------|-----------|
| FS-201                       | Intermediate Spanish I <sup>1</sup>                      | 3         |
| FS-202                       | Intermediate Spanish II <sup>1</sup>                     | 3         |
| FS-313                       | Introduction to Spanish for Business                     | 3         |
| Select two of the following: |                                                          | 6         |
| FS-412                       | Advanced Business Spanish I                              |           |
| FS-413                       | Advanced Business Spanish II                             |           |
| FS-414                       | Current Issues in Business in the Spanish-Speaking World |           |
| <b>Total Credits</b>         |                                                          | <b>15</b> |

<sup>1</sup> A native speaker may be exempt from taking FS-201 Intermediate Spanish I (3 cr.) and/or FS-202 Intermediate Spanish II (3 cr.) upon consultation with the Chair of the Department. The students may substitute any FS-300+ course.

# THE SCHOOL OF SCIENCE

Dean: Joseph Coyle, Ph.D.

Monmouth University's School of Science is a community of teacher-scholars actively fostering learning, quantitative reasoning, and scientific inquiry among its majors and among all students. A goal of the School is to lead in the innovative development and delivery of curricula and in providing creative solutions to problems that include significant technical components. Educational programs provide a student-centered learning environment that builds a foundation for lifelong learning, critical thinking, and collaborative, technical problem solving. Faculty scholarship interests include: original basic and applied research in a range of disciplines and scholarly work on science education and pedagogy. Undergraduate and graduate students are encouraged to participate in student-faculty collaborative research projects leading to the acquisition and dissemination of new knowledge in the sciences.

The School of Science offers:

## Majors

- B.S. in Biology (p. 228)
- B.S. in Biology and Education with Endorsement in Secondary Education in Biology (p. 229)
- B.S. in Biology with a Concentration in Molecular Cell Physiology (p. 231)
- B.S. in Marine and Environmental Biology and Policy (p. 232)
- B.S. in Chemistry (p. 243)
- B.S. in Chemistry and Education with Endorsement in Secondary Education in Chemistry (p. 348)
- B.S. in Chemistry and Education with Endorsement in Secondary Education in Physical Sciences (p. 246)
- B.S. in Chemistry with a Concentration in Advanced Chemistry (American Chemical Society Certified) (p. 247)
- B.A. in Computer Science (p. 259)
- B.S. in Computer Science (p. 258)
- B.S. in Mathematics (p. 268)
- B.S. in Mathematics and Education with Endorsement in Elementary Education (<https://catalog.monmouth.edu/undergraduate-catalog/science/mathematics/mathematics-education-bs-endorsement-elementary-education-mathematics/>)
- B.S. in Mathematics and Education with Endorsement in Secondary Education in Mathematics (p. 269)
- B.S. in Mathematics with a Concentration in Statistics (p. 270)
- B.S. in Clinical Laboratory Sciences with a Concentration in Medical Laboratory Science (p. 273)
- B.S. in Medical Laboratory Science (p. 274)
- B. S. in Software Engineering (p. 260)

## Certificate

- Information Technology (p. 261)

## Minors

- Biology (p. 233)
- Chemistry (p. 249)
- Computer Science (p. 261)

- Cybersecurity (<https://catalog.monmouth.edu/undergraduate-catalog/science/cybersecurity/>)
- Environmental Biology (p. 234)
- Global Sustainability (p. 234)
- Information Technology (p. 261)
- Mathematics (p. 271)
- Statistics (p. 271)
- Physics (p. 277)

The School of Science also offers master's degrees in Computer Science, Information Systems, and Software Engineering. The undergraduate Bachelor of Science in Computer Science program is accredited by the Computing Accreditation Commission of ABET (<http://www.abet.org>). The undergraduate Bachelor of Science in Software Engineering program is accredited by the Engineering Accreditation Commission of ABET (<http://www.abet.org>). The Chemistry and Physics Department is approved by the American Chemical Society (ACS). All qualified advanced chemistry, biochemistry, and chemical physics degree recipients may receive ACS certification of their degrees. All programs of study are directed toward preparing students for working and living in a multicultural, technologically complex, global environment.

Studies in the School of Science provide students with a solid background in the technical aspects of their chosen scientific or engineering field, sufficient to prepare them for further study in graduate or professional programs, or to compete for access to employment opportunities in industry or education. Core courses for the non-major stress the nature of the scientific enterprise and the benefits and risks that scientific advances present to society rather than the digestion of large doses of content from the discipline. Both major and non-major courses emphasize the importance of critical thinking and cooperative learning, clarify working to the scientific method in posing and answering questions concerning the natural world, and explore the nature of human problems for which technology may provide solutions.

# Biology

Chair: Dorothy Lobo, Department of Biology

The Biology curriculum is designed to give students a basic diversified background in the life sciences and prepare them for graduate work, professional school (medicine, dentistry, podiatry, chiropractic, etc.), laboratory work in government and industry, and careers in teaching.

**National Biological Honor Society: Beta Beta Beta, Chi Eta Chapter**, requires completion of at least ten credits of biology and a 3.2 or better GPA in biology courses.

**Department Honors** can be earned in Biology based on the following criteria being met:

- Achieving a 3.3 or better overall GPA with a 3.5 or better GPA in biology courses;
- Completing two additional courses (6 credits) at the 300 or 400 level;
- Completing six credits of faculty-directed research and presenting a research thesis, leading to a public presentation of the work upon completion. Up to three credits of research may be substituted by SoS Summer Research program work (or equivalent summer research).

## Programs

### Majors

- B.S. in Biology (p. 228)
- B.S. in Biology and Education with Endorsement in Secondary Education in Biology (p. 229)
- B.S. in Biology with a Concentration in Molecular Cell Physiology (p. 231)
- B.S. in Marine and Environmental Biology and Policy (p. 232)

### Minor

- Biology (p. 233)
- Environmental Biology (p. 234)
- Global Sustainability (p. 234)

## Faculty

**Jason E. Adolf**, Professor. B.S., Roger Williams University; M.S., University of Hawai'i; Ph.D., University of Maryland. Specializes in phytoplankton ecology and physiology, Harmful Algal Blooms (HABs) and real-time continuous water quality monitoring in the coastal ocean.  
jadolf@monmouth.edu

**Aina Ananda**, Lecturer. M.Eng., Institut Supérieur de Madagascar; M.Sc., NY Medical College; Ph.D., Rutgers University  
tandrian@monmouth.edu

**Pedram Daneshgar**, Professor. B.A., University of Delaware; M.S., Saint Joseph's University; Ph.D., University of Florida. Research interests include community and ecosystem ecology of coastal systems including dunes and mangroves, impacts of invasive plant species, and diversity maintenance mechanisms of grasslands.  
pdaneshg@monmouth.edu

**Ellen Doss-Pepe**, Senior Lecturer. B.S., University of Scranton; Ph.D., Rensselaer Polytechnic Institute. Specializes in biochemistry, protein folding and misfolding, and protein degradation. Current interests

include the relationship of protein misfolding and degradation as underlying causes of neurodegenerative diseases and the roles of antioxidant proteins in cells during oxidative stress and neurodegeneration.  
edoss@monmouth.edu

**Catherine N. Duckett**, .

Associate Dean, School of Science. B.A., Brown University; M.A., University of Texas at Austin; Ph.D., Cornell University. Research interests focus on the evolution of tropical flea beetles (Coleoptera: Chrysomelidae: Alticinae) using both molecular and morphological data.  
cduckett@monmouth.edu

**Bernadette Dunphy**, Senior Specialist Professor.

Co-Director of the Pre-Professional Health Advising Committee. P.T., D.P.T., University Medicine and Dentistry, NJ. Specializes in physical therapy, sports medicine, and anatomy and physiology. Current interests are integration of clinical skills and case study work with teaching Physiology and Anatomy as well as preparing students for graduate health programs.  
bdunphy@monmouth.edu

**Keith Dunton**, Associate Professor. B.S., M.S., Ph.D., Stony Brook

University. Current research interests are focused on the ecology, management, and conservation of marine fisheries with a specialized focus on species of concern.  
kdunton@monmouth.edu

**Kathryn Ann Lionetti**, Associate Professor. B.S., Ph.D., State University of New York at Stony Brook. Specializes in microbiology and molecular biology. Current interests include recombinant DNA technology, apoptosis, and applications of molecular biology in clinical diagnostic procedures and emerging viral diseases.  
lionetti@monmouth.edu

**Dorothy Lobo**, Professor and Chair.

Co-Director of the Pre-Professional Health Advising Committee. B.A., Immaculate College; Ph.D., The Catholic University of America. Specializes in cell and molecular biology, and signal transduction pathways. Current research includes the regulation of stress signaling pathways during cell proliferation and programmed cell death, and the use of crafts and models for teaching molecular biology.  
dlobo@monmouth.edu

**James P. Mack**, Professor. B.S., Monmouth University (Monmouth College); M.S., William Paterson College; Ed.D., Teachers College, Columbia University. Specializes in anatomy and physiology. Current research includes alternative treatment for multidrug-resistant bacterial infections in health care settings including MRSA, MSSA, *Pseudomonas aeruginosa*, *E. coli* (ESBL), and *Enterococcus* (VRE).  
mack@monmouth.edu

**Karen Pesce**, Senior Lecturer. B.A., B.S., M.S., Seton Hall University; Ph.D., Rutgers University. Specializes in environmental microbiology. Current research interests include microbial community analysis and characterization of novel biodegradative genes from polluted environments.  
kpesce@monmouth.edu

**Saheli Sengupta**, Assistant Professor. B.S., M.S., University of Calcutta; Ph.D., Iowa State University.

ssengupt@monmouth.edu

**Sean Sterrett**, Associate Professor. B.Sc., Butler University; M.S., Ph.D., Warnell School of Forestry and Natural Resources, University of Georgia. Specializes in wildlife biology, ecology, management and conservation with a concentration on reptiles and amphibians. Current interests include diamondback terrapin ecology and management on the Jersey Coast and influence of "Big Night" volunteer effort to mitigate road mortality of migrating amphibians. ssterret@monmouth.edu

**Jennifer Urban**, Assistant Professor. B.S., William Patterson University; Ph.D., Brown University.

**Jeffrey Weisburg**, Senior Specialist Professor. B.A., Ph.D., Cornell-Weill Graduate School of Biomedical Sciences. Specializes in anatomy and physiology and immunology. Current research involves the use of nutraceuticals and food derivatives that have pharmacological properties for treat cancers of the oral cavity and leukemia. jweiss@monmouth.edu

## Courses

### **BY-101 Issues and Methods of Biology** **Credits: 3**

Prerequisite(s): SC-100

Term Offered: Spring Term

Course Type(s): None

Major concepts in biological science and their importance in current society. Methods and approaches to questions in biology. Cannot be used in satisfaction of a major requirement in the Biology program.

### **BY-102 Applications in Biotechnology** **Credits: 3**

Term Offered: Spring Term

Course Type(s): NS

Introduction for non-science majors. The focus is on basic principles of biotechnology along with an exploration of associated bioethical issues. The laboratory component serves to familiarize students with scientific practice.

### **BY-103 Environmental Science** **Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Examines society's effects on the natural environment and current efforts to address environmental issues in a sustainable manner. Stresses the interdisciplinary nature of environmental issues, and that resolution of environmental problems sustainably involves the application of sound scientific information, but at the same time involves social, political, cultural, and economic values as well.

### **BY-104 Human Biology** **Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Introductory course for non-science majors. Focus is on basic structure and function of human body systems and diseases of these systems. The laboratory component serves to familiarize students with scientific practice.

### **BY-105 Introductory Biology and Human Development** **Credits: 3**

Term Offered: All Terms

Course Type(s): NS

An introductory-level survey of biology with an emphasis on human biology that includes human development, aging, genetics and other topics selected to support the social work program. An introduction to neurobiology will be provided with applications in mental health. Not for credit toward a major in biology. For Social Work majors only.

### **BY-106 The Brain - Highs and Lows** **Credits: 3**

Term Offered: Spring Term

Course Type(s): NS

An introductory neurobiology course designed for non-science majors. The focus is the study of the human brain from the highs of intelligence and creativity to the lows of depression. The brain will also be examined for its roles in drug use, from the highs of euphoria to the lows of dependence. Topics will include the interplay between genetic and environmental influences that shape the brain and its responses. Not for credit towards a major in Biology.

### **BY-107 Microbiology in Health and Disease** **Credits: 4**

Term Offered: All Terms

Course Type(s): None

Microorganisms pathogenic for man; emphasizing etiology, modes of transmission and control. Laboratory includes proper collection of specimens, aseptic technique, cultivation, identification, and disposal of microbes. Three hours of class, two hours of laboratory per week.

### **BY-108 Evolution and the History of Life on Earth** **Credits: 3**

Term Offered: Spring Term

Course Type(s): NS

Examines evolution both as a process and as a phenomenon. Students will examine how evolutionary processes occur in time, both very short and geological time scales, and how both are studied. Students will review the history of life on earth with emphasis on major lineages such as vertebrates, mollusks, insects and plants, as well as basic geological processes and continental drift during these time periods. Bacterial evolution will be examined in the context of the importance of understanding natural selection and evolution and their impacts on society and medicine. Emphasis will be placed on understanding evolution of groups and processes often cited in creationist arguments, to help students be prepared to enter civil discourse as informed citizens. Evidence of evolutionary change from the fossil record and DNA sequences of organisms will be compared and reviewed.

### **BY-109 Introduction to Ecology and Evolution** **Credits: 4**

Term Offered: All Terms

Course Type(s): NS

Introductory course for biology majors. Focus is on evolution, origin and diversity of life, Ecology and climate change. Three hours of lecture and 2 hours of laboratory per week. This course satisfies the Natural Science component of General Education.

### **BY-110 Introduction to Cell and Molecular Biology** **Credits: 4**

Term Offered: All Terms

Course Type(s): NS

For biology majors and other students needing an introduction to the cellular and molecular levels of biology. Includes an introduction to cell structure and function, biochemistry and metabolism, bioenergetics, genetics and cell division, and molecular biology. Three hours of lecture and three hours of laboratory per week. Limited to majors in Biology, Chemistry, Clinical Science, Medical Laboratory Science, Mathematics, Computer Science, Software Engineering, Criminal Justice, Health Studies, and Health and Physical Education.

**BY-111 Anatomy and Physiology I**

Term Offered: All Terms

Course Type(s): NS

Study of human systems: structure, function and integration, including chemical and cellular base, integumentary, skeletal, muscular and nervous systems. Laboratory covers human anatomy, microscopy of tissues and organs, and physiological study of living organisms. Three hours of lecture, two hours of laboratory per week. Open to Health Studies, Health Promotion, Health and Physical Education and Education, and Nursing majors only. This course is a non-major level Biology course and cannot be used to fulfill the Biology minor. Students pursuing professional graduate health programs should register for BY-211. Students who take BY-111 are not eligible to take BY-211.

**Credits: 4****BY-112 Anatomy and Physiology II**

Prerequisite(s): BY-111 passed with a grade of C- or higher

Course Type(s): NS

Study of human systems: structure, function and integration, including special senses, digestive, endocrine, cardiovascular, lymphatic and immunity, respiratory, urinary and reproductive. Laboratory covers human anatomy, microscopy of tissues and organs, and physiological study of living organisms. Three hours of lecture, two hours of laboratory per week. Open to Health Studies, Health Promotion, Health and Physical Education and Education, and Nursing majors only. This course is a non-major level Biology course and cannot be used to fulfill the Biology minor. Students pursuing professional graduate health program should register for BY-212. Students who have taken BY-112 are not eligible to take BY-212.

**Credits: 4****BY-113 Introduction to Structure and Function of Living Systems**

Term Offered: All Terms

Course Type(s): NS

Examines the characteristics of living organisms. Intended primarily for future elementary teachers to provide them with a better understanding of the life sciences they will teach. Content will focus on the structure and function of cells, tissues and organs and life processes. There is an emphasis on understanding heredity, including patterns of inheritance of traits and the molecular basis of heredity, and growth and development. This is an activity-centered/lab course to demonstrate scientific inquiry (questioning, developing hypotheses, gathering data, and drawing reasonable conclusions) and how to use resources and research material in science. BY-113 does not count towards the Biology major or minor requirements.

**Credits: 3****BY-114 Unity and Diversity of Life**

Term Offered: Fall Term

Course Type(s): NS

Intended primarily for future elementary school teachers to provide them with a better understanding of the life sciences they will teach. Examining the interdependence and individuality of organisms in ecosystems, populations and communities and how these organisms change over time due to life cycles, mutations, adaptations and natural selection. Classification of organism will also be covered. This is an activity-centered/lab course to demonstrate scientific inquiry (questioning, developing hypotheses, gathering data, and drawing reasonable conclusions) and how to use resources and research material in science. BY-114 does not count towards the Biology major or minor requirements.

**Credits: 3****BY-116 The Biology of Nutrition, Aging, and Anti-Aging Nutrition****Credits: 3**

Course Type(s): None

Discussions of the theories of aging and the role of nutrition in delaying aging and preventing degenerative disease. Analysis of the scientifically sound, medically reliable evaluation of widely promoted nutritional supplements, including the anti-aging nutrients: vitamins, minerals, amino acids, nucleic acid derivatives, lipids and derivatives, pharmaceuticals and chemicals (BHA, BHT, DMSO, etc.) and other supplements (L-Carnitine, ginseng, etc.)

**BY-118 The Mighty Microbes****Credits: 3**

Term Offered: Spring Term

Course Type(s): NS

An introductory microbiology course designed for non-science majors. Students will investigate microbiology in everyday living. Topics will include the role microbes have in health, disease, the environment, and food and beverage production. Attention will be devoted to microbiology related current issues. Students will learn the impact microbes have in society so that they develop awareness, knowledge of and appreciation of microbiology.

**BY-119 Introductory Biology Major Seminar****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Designed for first-year students in any of the majors offered by the Biology Department, this course will introduce students to the academic requirements required for the major, and the related skills to be successful in college and beyond, including University resources, curricular and co-curricular requirements, and opportunities related to the Biology major. Preparation for research and advanced coursework will be emphasized, and students will be introduced to career resources. Transition to studying and integrating into the Monmouth University Department of Biology will be complemented by the assistance of a peer learning assistant for the course. Attendance at a limited number of campus events will be required. This course will be offered as "pass/fail". Limited to students with 30 or fewer credits.

**BY-201 Introduction to Biotechnology****Credits: 3**

Prerequisite(s): BY-110 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC

Introduction to recent advances in biotechnology: the use of living organisms to create products, applications or processes that improve the quality of life for humans and other species. Presents historical and modern applications of biotechnology that impact our everyday lives. An overview of current developments and applications of microbial, agricultural, animal, marine and forensic biotechnology, bioremediation, and medical biotechnology will be presented. Regulatory agencies and policies that govern the biotechnology industry will be discussed, and students will also learn to formulate opinions about ethical, legal and social issues associated with biotechnology.

**BY-205 Zoology****Credits: 3**

Prerequisite(s): BY-109 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): None

This course provides an introductory survey of vertebrate and invertebrate zoology. Topics covered include taxonomy and classification, anatomy and physiology, behavior and ecology, and evolutionary relationships of the major phyla of the animal kingdom with a specific focus on local marine species. The laboratory component of the course focuses on the diversity of the animal kingdom from a structural, functional and ecological perspective. Labs will include exercises that will include examination of live organisms, dissections and examinations of preserved specimens, and field trips.

**BY-206 Introduction to Oceanography****Credits: 3**

Term Offered: All Terms

Course Type(s): MEBP

Our lives are linked to the oceans, and through this class you will gain a better understanding of our natural world by learning the key aspects and natural processes of our planet's oceans. Topics covered include ocean origins, chemistry, physics, atmospheric interactions, biological oceanography and environmental issues including climate change impacts. Course will include field trips.

**BY-209 Environment and Human Health****Credits: 3**

Prerequisite(s): BY-109 and BY-110, both passed with a grade of C- or higher

Term Offered: Fall Term

Course Type(s): MC, MEBP

Human activities are adversely affecting ecosystems throughout the world. Some of these changes may be deleterious to human health. The purpose of this course is to provide students with an understanding of the relationship between the environment and human health. Specific topics that will be covered are the importance of biodiversity to human health, the relationships between global warming and vector-borne diseases, microbial evolution and resistance of pathogenic organisms, persistent pollutants and toxicity, and the effect of environmental disasters on human health. A focus of this course will be to integrate several areas of biology including microbiology, toxicology, and environmental science.

**BY-210 Forensic Genetics and DNA Analysis****Credits: 3**

Prerequisite(s): BY-110 and CJ-211

Term Offered: Spring Term

Course Type(s): None

Focus on fundamental principles of DNA and genetic analysis and their applications in forensics. Designed for criminal justice majors who have had an introduction to Mendelian and molecular genetics and to DNA structure, but who need more background in the underlying biology of forensic DNA analysis and interpretation. Sources of DNA will be presented along with methods for DNA extraction, amplification of DNA by polymerase chain reaction, analysis of restriction fragment length polymorphisms and short tandem repeats. Open only to Criminal Justice majors.

**BY-211 Physiology with Anatomy I****Credits: 4**

Prerequisite(s): BY-110, CE-111, and CE-112 all passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC

Lecture and laboratory course Study of Human Systems: Their structure, function and integration. Laboratory covers gross human anatomy and physiology. Three hours of lecture and two hours of laboratory per week. Open only to Biology, Chemistry, Medical Lab Science, Clinical Lab Science, Health, and Psychology majors. Students who have taken BY-211 are not eligible to take BY-111.

**BY-212 Physiology with Anatomy II****Credits: 4**

Prerequisite(s): BY-110, BY-211, CE-111, and CE-112 all passed with a grade of C- or higher

Course Type(s): MC

Lecture and laboratory course Study of Human Systems: Their structure, function and integration. Laboratory covers gross human anatomy and physiology. Three hours of lecture and two hours of laboratory per week. Open only to Biology, Chemistry, Medical Lab Science, Clinical Lab Science, Health, and Psychology majors. Students who have taken BY-212 are not eligible to take BY-112.

**BY-214 Botany****Credits: 3**

Prerequisite(s): BY-109 passed with a grade of C- or higher

Course Type(s): None

Characteristics of the major plant groups, principles of plant taxonomy, considerations of evolutionary and ecological relationships. Two hours of class, two hours of laboratory per week.

**BY-216 Introduction to Genetics****Credits: 4**

Prerequisite(s): BY-110 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): TL

Focuses on one of the core concepts of biology; the flow, exchange, and storage of hereditary information. Topics will include principles of classical and molecular genetics, including transmission, arrangement, and alteration of genetic information; structure, function, and regulation of the genetic material; biological variation resulting from recombination, mutation, and population genetics; applications to human heredity. Two 80-minute lectures and one 3-hour lab per week.

**BY-220 Environmental Biology and Policy****Credits: 3**

Prerequisite(s): BY-109

Term Offered: Fall Term

Course Type(s): ME, SUS

Focuses on human use of natural resources and the environment and the problems and impacts that result from those uses. By taking an interdisciplinary perspective, students will gain an understanding of the scientific, political and socioeconomic factors that underlie resolution of these problems.

**BY-221 Introduction to Global Sustainability****Credits: 3**

Term Offered: Fall Term

Course Type(s): MEBP, SUS

Introduces students to the global, environmental, economic and social foundations of sustainability and the policy and scientific challenges involved with accommodating population growth, development, and resources used while assuring that future generations will have the natural and economic resources to support an enhanced quality of life. An emphasis will be placed on understanding of sustainability principles from multiple perspectives and cross-disciplinary application of sustainable practices. Also listed as PS-223.

**BY-223 General Microbiology**

Prerequisite(s): BY-110 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC, MEBP

Morphology, taxonomy, physiology, genetics, and control of microorganisms; history of microbiology. Three hours of class, three hours of laboratory per week.

**Credits: 4****BY-250 Research in Molecular Cell Physiology****Credits: 1-3**

Prerequisite(s): BY-110 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): EX5, MC

Faculty-student collaborative research lab course designed to introduce students to the research process. Students will work in small groups under faculty supervision to conduct research on a project in molecular cell physiology determined by the directing faculty member. Students will be involved in the research process by developing hypotheses, planning and carrying out experiments using modern lab techniques, analyzing data, and evaluating resource information. Research may be extended in detail in BY-450. Limited to sophomore Biology majors.

**BY-262 Primate Behavior, Evolution, and Ecology****Credits: 3**

Term Offered: Spring Term

Course Type(s): NS

The study of primatology, which examines the lifeways, biology, and behavior of our closest living relatives. Various topics will be explored including taxonomy and classification, diet, behavior, grouping patterns, locomotion, and land usage patterns of monkeys, apes and prosimians. These topics will be explored within the frameworks of natural selection, sexual selection, and evolution. Also listed as AN-262.

**BY-264 Environmental Field Methods****Credits: 3**

Prerequisite(s): BY-109 passed with a grade of C- or higher.

Term Offered: Fall Term

Course Type(s): MEBP

Environmental Field Methods provides students with hands on experience in environmental and marine research by learning a suite of techniques and working under real field conditions. Students become familiar with the use and application of standard environmental and marine science instruments and sampling techniques and devices, as well as data handling, management and analysis techniques. One course meeting per week for three hours. This course will be taught as a fully integrated team-taught course, with two faculty who have environmental and marine research expertise.

**BY-290 Open Water Scuba Certification Course****Credits: 2**

Term Offered: All Terms

Course Type(s): MEBP, OUTDR

The Open Water Scuba Certification course entails completion of the Professional Association of Diving Instructors (PADI) Open Water Diver course, the world's most popular scuba course. Completion of this course leads to PADI scuba certification as an open water diver. Limited to 8 students. Skills course: Outdoor Pursuits (Individual). This is a pass/fail course. Also listed as PE-290.

**BY-298 Special Topics in Biology (200 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in biology to be announced prior to registration. May be conducted in a lecture, seminar, or laboratory format. Please note: when Scuba is offered as BY-298 it does not carry a course type of MC. If a prerequisite is required it will be announced in the course schedule.

**BY-299 Independent Study in Biology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Principles of independent study and research; critical review of published work on a designated topic in the biological sciences or original research; preparation of a research paper or review article in publishable format or oral presentation of research results. Laboratory or field work arranged as needed. Requires submission and approval of an "Application for Independent Study" (an e-form is available on WEBadvisor) with a faculty mentor. To take this course, students need prior permission of the directing professor and department chair and Sophomore or higher standing in Biology (Total of all independent study credits to be counted towards the degree may not exceed six, unless approved by the Dean).

**BY-301 Vertebrate Histology****Credits: 3**

Prerequisite(s): BY-205 passed with a grade of C- or higher

Course Type(s): MC

Microscopic structure of vertebrate cells, tissues, and organs, emphasizing microscopic anatomy of the human body. Laboratory identification of vertebrate tissues. Two hours of class, three hours of laboratory per week.

**BY-308 Unifying Concepts in Biology****Credits: 3**

Prerequisite(s): BY-113 and BY-114 or permission of the instructor

Course Type(s): None

Unifying Concepts in Biology is a capstone course for elementary education majors in the Interdisciplinary Studies for Elementary Educators (ISEE) program. This course integrates scientific methodology, life science, earth science, and environmental science concepts and is designed to prepare future educators for the K-8 science classroom. A strong emphasis is placed on exploring relationships between living organisms and the environment through the use of hands on lab activities, problem-based approaches, and inquiry learning. BY-308 does not count toward the biology major or minor requirements.

**BY-310 Biochemistry and Lab****Credits: 4**

Prerequisite(s): BY-216 and CE-242 passed with a grade of C- or higher;

and EN-101 and EN-102 or permission of the instructor

Course Type(s): MEBP, WT

A survey of the major principles of biochemistry with attention to the structures and functions of proteins, carbohydrates and fats; the major pathways for metabolism of proteins, carbohydrates and fats; and the biochemical basis of DNA replication and gene expression. Laboratory provides hands-on experience in selected biochemical techniques with an emphasis on protein characterization. Designed to provide practice and critique in effective writing and appropriate writing style and format.

**BY-311 Herpetology****Credits: 4**

Prerequisite(s): BY-109 and BY-205

Term Offered: All Terms

Course Type(s): MEBP

This course is designed for undergraduate students in marine and environmental biology and policy as well as students in a biology program. This course will provide an overview of the structure, behavior, evolution and taxonomy of reptiles and amphibians. Additionally, this course will discuss critical concepts in management and conservation. The laboratory emphasis will be on identification, anatomy and ecology of New Jersey reptile and amphibian species, as well as methods and techniques for surveying, estimating population sizes and home ranges. Prerequisites: BY-109 and BY-205

**BY-314 Topics in Horticulture**

Term Offered: Spring Term

Course Type(s): MC, ME, MEBP

Principles and practices of plant culture; practical experience through greenhouse projects; the horticulture industry and career possibilities; field trips to places of horticultural interest. Two hours of class, three hours of laboratory per week. Field trips arranged.

**Credits: 3** **BY-326 International Medical Shadowing and Cultural Competence Abroad** **Credits: 4**

Term Offered: Spring Term

Course Type(s): EX5, HE.EL, MC

This course offers students an intensive 3-week medical shadowing experience, providing direct observational opportunities in international healthcare settings. Students will shadow healthcare professionals for 25-30 hours per week across diverse medical specialties while critically analyzing healthcare systems, cultural determinants of health, and professional practices. Through reflective assignments, research, and guided discussions, students develop intercultural competence, critical thinking, and transferable professional skills. This program enhances clinical exposure and prepares students for careers in healthcare. Added HE.EL Course Type as per USC February meeting. Prerequisites: BY-211 and BY-212 and Permission of the Instructor

**BY-317 Tropical Island Ecology**

Prerequisite(s): BY-109 passed with a grade of C- or higher.

Term Offered: Spring Term

Course Type(s): EX5, FLT, ME, MEBP, NS

A field course focusing on investigations of plants, animals, and natural ecosystems of the Bahamas with emphasis on marine ecosystems, island ecology, resource management, and sustainable development.

**Credits: 3****BY-321 Systemic Inequalities and Racism in Biology and Medicine****Credits: 3**

Prerequisite(s): BY-216.

Term Offered: All Terms

Course Type(s): HE.EL, MC, SIAR

Society has been shaped by many impactful events in medicine and healthcare which have been influenced by systemic inequality and racism. This course will allow students to study the biology behind these events, as well as the impact on society, and will encourage students to explore means of being agents of change in the workforce. The course will examine several biological hot topics in depth (such as global pandemics, vaccines, and medical research), highlighting the effects of systemic inequalities, oppression, and racism. Both the biological mechanisms of the topic/event, and the impact on society will be discussed. Films, documentaries, and critical readings will be used to gain further understanding of societal beliefs.

**BY-322 Ichthyology****Credits: 4**

Prerequisite(s): BY-109 and BY-205, passed with a C- or better

Term Offered: Fall Term

Course Type(s): MEBP

A survey of all-extant groups of fishes (e.g., bony fishes, cartilaginous fishes, and jawless fishes), including sections on evolution, taxonomy, form and function, biogeography, behavior, and ecology. Laboratory component will include required dissections. There will be several scheduled off campus field trips. Three hours of lecture and three hours of laboratory per week.

**BY-324 Applied Microbiology****Credits: 4**

Prerequisite(s): BY-223 passed with a grade of C - or higher

Term Offered: Spring Term

Course Type(s): MC, ME, MEBP

Microorganisms of food, water, soil, dairy products, industrial processes, disease, and genetic engineering. Three hours of class, three hours of laboratory per week.

**BY-327 Design and Analysis of Biological Experiments** **Credits: 3**

Prerequisite(s): MA-151 or MA-220 or BE-251 passed with a grade of C or higher or permission of the instructors.

Term Offered: Spring Term

Course Type(s): MEBP

The purpose of this course is to learn about the statistical design & analysis of biological experiments. After learning mathematical techniques of designing experiments, and statistical analyses customized to them, students will be presented with a broad research question by the instructors. Literature surveys will be a critical part of the course to allow students to find pertinent, relevant, potentially publishable biological questions that address a specific aspect of the larger question posed by the instructors. Students will design their own experiment addressing their question, generate their own data collection plan, collect their data, and then analyze their data using statistical techniques taught in class. This course will involve field/lab work for data collection and computer work in the statistical analysis of the final data. Students will defend their question, design and analysis from both a statistical and biological perspective. At the end of the semester students will complete a formal manuscript in journal format. This course can be used to fulfill the Mathematics or Statistics minor and the Bio/MEBP elective. This course is a research based course and students must have demonstrated a strong interest in and potential for research. Also listed as MA-327.

**BY-341 Marine Biology** **Credits: 4**

Prerequisite(s): BY-205 and BY-214, both passed with a grade of C- or higher

Term Offered: Fall Term

Course Type(s): None

Biota of the oceans and inshore waters with an emphasis on ecology, functional morphology, and marine and estuarine habitats. Basic oceanography is also included. Marine biology is a laboratory course supported by lectures and field projects. Field trips outside of class time may be required.

**BY-342 Coastal Zone Management** **Credits: 3**

Prerequisite(s): BY-220 passed with a grade of C- or higher, and EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): ME, WT

Focus on the impact of increased demand on the coastal environment based on the theme that management of an environment for multiple purposes requires an understanding of the effects of use and exploitation throughout that environmental system and how decisions can be made in an effective, equitable manner.

**BY-360 The Business of Biotechnology: From the Bench to the Market****Credits: 3**

Prerequisite(s): Limited to junior or senior biology majors or other students with approval by the course faculty. BY-110 or BY-201 completed with a grade of C- or higher. For Business majors: BY-102, BY-110, or BY-201, completed with a grade of C- or higher

Term Offered: Fall Term

Course Type(s): MC

Tomorrow's biotechnology leaders require a breadth of cross-functional knowledge to face the scientific, regulatory, and financial challenges for developing biotech companies in the 21st century. This course will provide students with a strategic overview of the business of biotechnology, exploring the integration of science, technology, the regulatory framework, financial requirements, and market forces that drive the industry. The course will introduce students to basic aspects of molecular biology related to product development in the biopharmaceutical industry, and the regulatory and financial requirements for drug development, placing emphasis on real-world application and the challenges of bringing new biotechnology drugs to market for the treatment of human disease. Limited to junior or senior biology majors or other students with approval by the course faculty. BY-110 or BY-201 completed with a minimum grade of C- or higher is required. For Business majors BY-102, BY-110, or BY-201, completed with a minimum grade of C- or higher are required.

**BY-370 Cell Biology****Credits: 3**

Prerequisite(s): BY-310

Course Type(s): None

In-depth study of biology at the cellular and subcellular levels. Integrates principles of biochemistry into an understanding of cell structure and physiology. Prerequisite: BY-310

**BY-375L Laboratory in Molecular and Cellular Biology****Credits: 3**

Prerequisite(s): BY-310, and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): MEBP, RD, WT

Designed to introduce biology majors to basic laboratory techniques used in molecular and cellular biology. Students will develop proficiency in modern techniques in molecular and cellular biology including micro pipetting, bacterial culturing and sterile technique, solution preparation, DNA extraction, restriction digestion of DNA, DNA sub cloning, gel electrophoresis of nucleic acids and proteins, nucleic acid blotting and analysis with molecular probes, DNA sequencing, polymerase chain reaction (PCR), immunological techniques for analysis of proteins, mammalian cell culture and transfection, and DNA sequence analysis on the Internet. The use of traditional and Internet information resources for molecular and cellular biology will also be emphasized. The presentation of data in both oral and written form will be emphasized. Partially fulfills the reasoned oral discourse requirement for biology and biology/molecular cell physiology.

**BY-388 Cooperative Education: Biological Sciences****Credits: 1-4**

Prerequisite(s): 6 credits in Biology, overall G.P.A. of 2.00 and Junior standing or higher

Term Offered: All Terms

Course Type(s): EX2

Provides an opportunity for students to fulfill the Experiential Education requirement by pursuing a short-term cooperative work experience in biology or for students who, are currently employed in a biological or medical field, to integrate the work with a related academic component. May be repeated for credit. This is a pass/fail course. Departmental approval is required to take this course.

**BY-389 Internship in Biological Science****Credits: 1-3**

Prerequisite(s): Overall GPA of 2.00; Junior status, at least six credits of biology courses and departmental approval

Term Offered: All Terms

Course Type(s): EX1

Complements the practical experience gained by students at internship sites, such as hospitals, clinics, private practices, research laboratories, environmental agencies, museums, botanical gardens, and zoos with a significant set of academic goals. May be repeated once for credit. This is a pass/fail course.

**BY-395 Seminar in Marine and Environmental Biology****Credits: 3**

Term Offered: Spring Term

Course Type(s): RD

A seminar-style course for juniors in the Marine and Environmental Biology and Policy (MEBP) major.

**BY-398 Special Topics in Biology (300 Level)****Credits: 1-4**

Prerequisite(s): BY-110

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in biology to be announced prior to registration. May be conducted in a lecture, seminar, or laboratory format. If a prerequisite is required it will be announced in the course schedule.

**BY-399 Independent Study in Biology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Principles of independent study and research; critical review of published work on a designated topic in the biological sciences or original research; preparation of a research paper or review article in publishable format or oral presentation of research results. Laboratory or field work arranged as needed. Requires submission and approval of an "Application for Independent Study" an e-form is available on WEBadvisor) with a faculty member. Students must have prior permission of the directing professor and department chair; and Junior standing in Biology to take this class. (Total of all independent study credits to be counted towards the degree may not exceed six, unless approved by the Dean.)

**BY-404 Animal Behavior****Credits: 3**

Prerequisite(s): PY-103 or BY-103 or above, passed with a grade of C- or higher

Course Type(s): None

Why and how animals (vertebrates and invertebrates) do the things they do. Emphasizes rules governing the evolution of behavior rather than mere description of how animals behave. Focus includes behavioral ecology, habitat selection, feeding strategies, predator-prey tactics, mating systems and strategies, social behavior (conflict and cooperation) and population dynamics. The course begins with an historical overview and ends with the evolution of human behavior. Also listed as PY-404.

**BY-404L Animal Behavior Laboratory****Credits: 1**

Prerequisite(s): PY-311 and PY-320 passed with a grade of C or higher

Co-requisite(s): BY-404 or PY-404

Term Offered: Spring Term

Course Type(s): None

Methods in the study of animal behavior. Projects on instinctive behavior, early experience, learning, dominance relationships, territoriality, behavioral ecology, and sociobiology. One all-day field trip and an independent project will be required.

**BY-406 Introduction to Neurosciences****Credits: 3**

Prerequisite(s): BY-216 passed with a grade of C- or higher

Term Offered: Spring Term

Course Type(s): MC, ME

The organization of the nervous system in terms of its anatomy, physiology, neurochemical correlates, and evolution; behavioral processes such as attention, sleep, motivation, instinct, learning, and languages.

**BY-406L Neurosciences Laboratory****Credits: 1**

Co-requisite(s): BY-406

Course Type(s): MC

Human and animal neuroanatomy; surgical techniques, including lesion, stimulation, and perfusion; histology; drug and hormone administration; physiological recording techniques. Three hours per week.

**BY-410 Molecular Biology****Credits: 3**

Prerequisite(s): BY-216 or BY-310 or CE-331 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): None

Provides a detailed examination of the central dogma of molecular biology - DNA replication, transcription, reverse transcription, and translation - in viruses, prokaryotes, and eukaryotes. Standard techniques of biotechnology used to study molecular biology will be emphasized.

Additional topics, including eukaryotic chromosome structure and regulation of gene expression, will also be discussed.

**BY-412 Vertebrate Physiology and Laboratory****Credits: 3**

Term Offered: Spring Term

Course Type(s): MC

Comparative vertebrate physiology, with emphasis on osmotic regulation, nutrition, circulation, respiration, and muscle physiology. One hour of class, four hours of laboratory per week.

**BY-420 Applied Field Biology****Credits: 1-3**

Prerequisite(s): MA-151, BY-205, BY-214, and BY-220 or permission of the instructor.

Term Offered: Spring Term

Course Type(s): EX1, MEBP

Applied Field Biology is a research-based applied ecology course that combines lectures, hands-on field and laboratory activities, and focused data collection and analysis to allow participating students to understand techniques used by scientists and environmental managers in order to provide information necessary to perform key functions associated with natural resource and ecosystem conservation and management. The course is designed to allow students in the Marine and Environmental Biology and Policy Program (MEBP) to fulfill their Experiential Education requirement. This course is repeatable twice for credit.

**BY-424 Evolution****Credits: 3**

Prerequisite(s): BY-109 and BY-216, both passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC, ME, MEBP

Synthetic theory of evolution, including sources of genetic variability, Hardy-Weinberg, natural selection, genetic drift, balanced polymorphism, molecular evolution, speciation and the origin of life. Three hours of class per week.

**BY-425 Principles of Developmental Biology****Credits: 4**

Prerequisite(s): BY-216 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC

The study of major morphological changes during development and the analysis of causative factors. Model organisms used in the study of development include: sea urchin, nematode worm, *Drosophila*, frog, and mouse. Topics include: fertilization, growth, differentiation, morphogenesis, regeneration, and tissue interactions. The genetic control of development will be emphasized.

**BY-427 Cancer Biology****Credits: 3**

Co-requisite(s): BY-370 or BY-410

Term Offered: Spring Term

Course Type(s): MC

Course will provide students with a foundation in the molecular biology of cancer. Topics include the genetic and molecular changes that lead to transformation, oncogenes, tumor suppressors, viruses, angiogenesis, metastasis, tumor immunology, and clinical trials and treatments.

Primary literature and review articles, as well as field work, will be used to understand advances in cancer biology and treatment.

**BY-430 Neuroscience Beyond Neurons****Credits: 3**

Prerequisite(s): BY-216

Term Offered: Spring Term

Course Type(s): MC

A seminar-style class with focus on the different cell types that make up the brain and how they interact and signal with one another. Topics include how glial-neuronal interactions impact brain development, brain metabolism, and numerous pathological conditions. Objectives will be met through lectures and class discussions, readings from primary literature, journals clubs and class debate.

**BY-431 Immunology****Credits: 3**

Prerequisite(s): BY-110 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): MC

Components of the immune system; biological individuality and the recognition of "foreignness"; structure of antibodies; cellular immunity and graft rejection; blood group antigens; the immune system and cancer development; immunogenetics; clinical and experimental applications.

Two hours of class, two hours of laboratory per week.

**BY-440 Ecology****Credits: 4**

Prerequisite(s): BY-205 or BY-214, and MA-151 all passed with a grade of C- or higher, and EN-101 and EN-102 and Senior standing.

Term Offered: Fall Term

Course Type(s): WT

Lecture and laboratory course examining the concepts of ecology and evolutionary biology, the interaction of organisms and their environment, population ecology, community ecology, and ecosystems dynamics. 3 hours of lecture and 3 hours of lab/field work per week. Prerequisites: BY-205 or BY-214, and BY-220 all passed with a grade of C- or higher, and EN-101 and EN-102 and Senior standing

**BY-442 Natural Resource Conservation and Management****Credits: 3**

Prerequisite(s): BY-220 passed with a grade of C- or higher, and EN-101 and EN-102

Term Offered: Spring Term

Course Type(s): SUS, WT

The principles of ecology and resource management are used to analyze contemporary environmental problems and highlight legislative, technological, and methodological solutions to environmental problems that move us toward a sustainable society.

**BY-450 Research in Molecular Cell Physiology****Credits: 1-3**

Prerequisite(s): BY-310 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): EX5, MC

A faculty-student collaborative research lab course. Students will work in small groups under faculty supervision to conduct comprehensive research on a project in molecular cell physiology determined by the directing faculty member. Students will experience all aspects of the research process, from developing hypotheses, planning and carrying out experiments using modern lab techniques, and analyzing data, to preparing research results for publication. May be taken to extend research initiated in BY-250. May be repeated for a maximum of six credits. Limited to Junior or Senior biology majors.

**BY-475 Endocrinology****Credits: 3**

Prerequisite(s): BY-310 or twelve credits in Biology

Term Offered: Spring Term

Course Type(s): MC, ME

Introduction to biochemical, molecular, and physiological aspects of the vertebrate endocrine system and mechanisms by which hormones maintain homeostasis in animals, including humans. Topics to be studied include: molecular structures: biochemical properties and interactions of different categories of hormones and their receptors; major endocrine systems that regulate reproduction, growth, development, and metabolism; neuroendocrinology; and pathophysiology of the endocrine system. Hormones and organs that influence processes such as calcium homeostasis, digestion, salt balance, carbohydrate metabolism, and sex differentiation and development will be examined. Endocrine regulation of male and female reproductive organs and reproduction will also be discussed, including the hormonal control of fertilization, implantation, placental function, pregnancy, parturition, lactation, and contraception.

**BY-489 Internship in Biological Science****Credits: 3**

Prerequisite(s): 6 credits in Biology, Junior standing and a minimum G.P.A. of 2.00

Term Offered: All Terms

Course Type(s): EX1

Complements the practical experience gained by students at internship sites, such as hospitals, clinics, private practices, research laboratories, environmental agencies, museums, botanical gardens, and zoos with a significant set of academic goals. May be repeated once for credit. Departmental approval is required to take this course. This is a pass/fail course.

**BY-495 Senior Seminar****Credits: 1**

Prerequisite(s): completion of 90 credits; for Biology majors only

Term Offered: All Terms

Course Type(s): RD

A seminar course with presentations by guest scientists as well as students. Gauges students' abilities to draw upon a broad background of coursework and experience to organize, present, discuss, and evaluate topics of current interest in biology.

**BY-499 Independent Study in Biology****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Principles of independent study and research; critical review of published work on a designated topic in the biological sciences or original research; preparation of a research paper or review article in publishable format or oral presentation of research results. Laboratory or field work arranged as needed. Requires submission and approval of an "Application for Independent Study" (an e-form is available on WEBadvisor) with a faculty member. Students are required to have prior permission of the directing professor and department chair and Senior standing in Biology to take this course. (Total of all independent study credits to be counted towards the degree may not exceed six, unless approved by the Dean.)

**BY-499E Independent Study in Biology****Credits: 1-3**

Prerequisite(s): BY-216 and 2 credits of prior research experience (BY-299, BY-399, or BY-499).

Term Offered: All Terms

Course Type(s): EX5, MC, MEBP

Principles of independent study and research; critical review of published work on a designated topic in the biological sciences or original research; preparation of a research paper or review article in publishable format or oral presentation of research results. Laboratory or field work arranged as needed. Requires submission and approval of an "Application for Independent Study" (an e-form is available on WEBadvisor) with a faculty member. Students are required to have prior permission of the directing professor and department chair and Senior standing in Biology to take this course. (Total of all independent study credits to be counted towards the degree may not exceed six, unless approved by the Dean.)

**BY-499T Independent Study in Biology with Thesis****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Preparation and submission of a thesis in science journal format. The thesis will contain results from the completion of independent study and research and will include appropriate description of the background and methods for the project and discussion of the results and its significance. It is designed specifically for students desiring Biology departmental honors. Students are required to have permission of the course advisor and Senior standing in Biology, Biology with a concentration in Cell and Molecular Physiology, or Marine and Environmental Biology and Policy in order to take this course.

<sup>1</sup> BY-102 Applications in Biotechnology (3 cr.), BY-104 Human Biology (3 cr.), BY-105 Introductory Biology and Human Development (3 cr.), and BY-106 The Brain - Highs and Lows (3 cr.) are not available to BY majors.

<sup>2</sup> Two Writing Intensive courses (WT) must be selected and two courses (six credits of electives) must be at the 400-level. Take note of course prerequisites in the catalog descriptions. Writing intensive courses include BY-310, BY-342, BY-375L, BY-440, and BY-442.

<sup>3</sup> Except BY-262

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

• 54 credits must be completed at the 200 level or higher.

| ED-369 | Methods of Teaching Science at the Secondary Level             | 3 |

#### Free Electives (0 credits)<sup>4</sup>

The number of free electives, if any, will be determined in consultation with your advisor.<sup>4</sup>

#### General Education Requirements (30 credits)<sup>5</sup>

|                                                                              |    |
|------------------------------------------------------------------------------|----|
| Complete 30 credits as outlined on the General Education table. <sup>5</sup> | 30 |
|------------------------------------------------------------------------------|----|

**Total Credits** **120-121**

<sup>1</sup> BY-102 Applications in Biotechnology (3 cr.), BY-104 Human Biology (3 cr.), BY-105 Introductory Biology and Human Development (3 cr.), and BY-106 The Brain - Highs and Lows (3 cr.) are not available to BY majors.

<sup>2</sup> Minimum grade of "C" required for Education Courses

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major

or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - Secondary
- ESL - English as a Second Language - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

## Sequence Chart

| First Year                                                                                                                        |         |                                                                                                        |           |

<sup>1</sup> BY-102 Applications in Biotechnology (3 cr.), BY-104 Human Biology (3 cr.), BY-105 Introductory Biology and Human Development (3 cr.), and BY-106 The Brain - Highs and Lows (3 cr.) are not available to BY majors.

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (<http://catalog.monmouth.edu/undergraduate-catalog/academic-programs-support-services-regulations/general-education-requirements/>) courses must be completed.

Notes

- 54 credits must be completed at the 200 level or higher.

<sup>1</sup> BY-102 Applications in Biotechnology (3 cr.), BY-104 Human Biology (3 cr.), BY-105 Introductory Biology and Human Development (3 cr.), and BY-106 The Brain - Highs and Lows (3 cr.) are not available to BY majors.

<sup>2</sup> A second semester of Organic Chemistry (CE-242 Organic Chemistry II (3 cr.)) may be required for certain graduate programs in marine or environmental science.

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Notes

- 54 credits must be completed at the 200 level or higher.

## Chemistry and Physics

Chair: Tsanangurayi Tongesayi, Department of Chemistry and Physics

Our curricula provide foundations in the traditional chemistry sub-disciplines. The programs serve as excellent preparation for further professional study in chemistry and related sciences, health professions such as medicine, dentistry, pharmacy, and physical therapy. Careers in academia, the chemical and pharmaceutical industries, environmental protection, forensics, government, industrial hygiene, information science, patent law, science writing, toxicology, and education are open to those whose initial field of study is chemistry.

The Bachelor of Science in Chemistry (CE.BS) provides a core curriculum of chemistry while allowing sufficient flexibility to combine it with a second major, a minor, or elective biology courses for pre-medical studies, within the total number of credits required for graduation. Completion of the Chemistry and Education curriculum qualifies graduates to apply for Secondary Education endorsement as a chemistry teacher. Completion of two additional courses provides eligibility for physical science certification, which is required for teaching chemistry or physics at the high school level.

The Bachelor of Science in Chemistry with a concentration in Advanced Chemistry (CE.ACS.BS) provides a strong foundation in all five of the chemistry sub-disciplines. Students planning to pursue graduate study in chemistry should follow this program, which leads to a degree certified by the American Chemical Society.

The Bachelor of Science in Chemistry with a track in Biochemistry (CE.BIO.BS) includes an introduction to the traditional subject areas of biology as well as specific biochemistry courses. This program is appropriate for students planning to seek employment or pursue graduate study in chemistry/biochemistry, or attend medical or other health professional schooling. The Industry track (CE.IND.BS) is designed for students who are interested in direct entry into the workforce. Such students can still pursue graduate studies in chemistry or health-related professional schooling. American Chemical Society certification may be achieved in these two tracks by appropriate choice of electives.

The Chemistry faculty are engaged in research in many interesting areas. Providing opportunities for student participation in these efforts is an important priority for the department.

**Departmental Honors** can be earned in Chemistry if the following criteria are met\*:

- An overall GPA of 3.5 or higher;
- A major GPA of 3.7 or higher;
- At least three credits of research;
- Completion of all five foundation courses in the five major areas of chemistry;
- Completion of *at least three in-depth courses* from the five major areas of chemistry;
- Public presentation of research.

*\*Please speak to a department advisor for more details.*

## Programs Majors

- B.S. in Chemistry (p. 243)
- B.S. in Chemistry and Education with Endorsement in Secondary Education in Chemistry (p. 244)
- B.S. in Chemistry and Education with Endorsement in Secondary Education in Physical Science (p. 246)
- B.S. in Chemistry with a Concentration in Advanced Chemistry (ACS Approved) (p. 247)

## Minor

- Chemistry (p. 249)

## Faculty

**Warren Brown**, Lecturer. B.S., M.S., Ph.D., Georgia State University  
wbrown@monmouth.edu

**Nikita Burrows**, Associate Professor. B.S., The College/University of the Bahamas; M.S., Ph.D., Georgia State University. Research interest is chemical education.  
nburrows@monmouth.edu

**Azzam Elayan**, Senior Lecturer. Ph.D., Wesleyan University.  
Organometallic chemistry. Mechanisms of metal-catalyzed processes, particularly those involving carbon-carbon bond-forming reactions.  
aelayan@monmouth.edu

**Gayle Hallett**, Lecturer. B.A., Drew University; M.S., Rutgers University; Ph.D., University of Bristol.  
ghallett@monmouth.edu

**Uzma Imtiaz**, Lecturer. B.S., St. Mary's College; Ph.D., Wayne State University.  
uimtiza@monmouth.edu

**Davis Jose**, Associate Professor. B.S., M.S., Mahatma Gandhi University, India; Ph.D., Max-Planck Institute for Biophysical Chemistry, Germany. Research interest is biological chemistry.  
djose@monmouth.edu

**Ilyong Jung**, Assistant Professor. B.S., M.S., Kyngpook National University; Ph.D., Brown University. Research interests include Biophysics of microorganism locomotion.  
ijung@monmouth.edu

**Massimiliano Lamberto**, Professor. B.S., M.S., University of Messina, Italy; Ph.D., University of Southampton (UK). Organic chemistry. Research interests: small molecule synthesis for the inhibition of telomerase by G-quadruplex DNA stabilization; synthesis of novel chromophoric systems for dye-sensitized solar cells and sensor applications; synthetic methodology.  
mlambert@monmouth.edu

**Gregory Moehring**, Associate Professor. B.A., Western Washington University; Ph.D., Purdue University. Research interests are synthesis and NMR characterization of transition metal polyhydride compounds; transformations of small molecules at transition metal polyhydride compounds.  
gmoehring@monmouth.edu

**Datta V. Naik**, Professor. BS.c., St. Xavier's College, University of Bombay, Goa, India; Ph.D., University of Notre Dame. Analytical inorganic chemistry.  
dnaik@monmouth.edu

**Jonathan Ouellet**, Associate Professor. B.S., M.S., Ph.D., University of Sherbrooke. Research interests are nucleic acid structure and folding dynamics.  
jouellet@monmouth.edu

**Debmalya Ray**, Assistant Professor. B.S., University of Calcutta; M.S., Indian Institute of Technology; Ph.D., University of Minnesota.

**William Schreiber**, Lecturer and Coordinator, Clinical Laboratory Sciences and Medical Laboratory Science Programs. B.S., Massachusetts Institute of Technology; Ph.D., University of Rochester. Organic chemistry. Organic synthesis, process research, and chemical education.  
wschreib@monmouth.edu

**Danuta Sz wajkajzer**, Senior Lecturer. M.S., Technical University of Warsaw; M.S., University of Rochester; Ph.D., Rutgers University. Biophysical chemistry. Chemistry of proteins and nucleic acids, thermodynamics of drug binding to DNA.  
dsz wajka@monmouth.edu

**Tsanangurayi Tongesayi**, Professor and Chair. B.S., M.S., University of Zimbabwe; Ph.D., West Virginia University. Analytical chemistry. Research interests are speciation, geochemical cycling, bioavailability of heavy metals in the environment, technologies and methods for the removal of toxic heavy metals and their compounds from drinking water, and analytical method development.  
ttongesa@monmouth.edu

## Courses

### CE-101 Chemistry in Our Lives Credits: 3

Term Offered: All Terms

Course Type(s): NS

Major concepts and methodologies in chemistry and their relation to specific, important issues in today's society.

### CE-109 Introduction to General, Organic, and Biochemistry Credits: 4

Prerequisite(s): Score of 3 or higher on the Mathematics Placement Exam, or MA-101, or MA-105 passed with a grade of C- or higher.

Course Type(s): None

Structure of matter, the mole concept, chemical bonds and reactions, acids and bases, structure and reactions of organic compounds, chemistry and metabolism of amino acids, carbohydrates, lipids, proteins, and nucleic acids. Three hours of class, three hours of lab per week. Students must have had High School Chemistry to take this course.

### CE-111 General Chemistry I Credits: 3

Prerequisite(s): Score of 2 or higher on the Mathematics Placement Exam or MA-050 passed with a grade of C- or higher

Co-requisite(s): CE-111L

Term Offered: All Terms

Course Type(s): NS

The first of two lecture courses which, taken together, provide a preparation for subsequent courses in chemistry. Principles and theories of chemical problem solving, stoichiometry and chemical reactions, states of matter, periodic properties of the elements, atomic and molecular structure, introductory quantum mechanics, thermochemistry, and the properties of gases are covered.

**CE-111L General Chemistry I Laboratory****Credits: 1**

Co-requisite(s): CE-111

Term Offered: All Terms

Course Type(s): None

Laboratory work to complement the class work of CE-111 and CE-112; review of mathematical fundamentals; experiments involving observation and interpretation of chemical and physical changes; experimental studies of gas laws, thermodynamics, kinetics, equilibrium, acids and bases, qualitative analysis, and molecular mass determination. Three hours per week.

**CE-111R General Chemistry I Recitation****Credits: 1**

Co-requisite(s): CE-111 and CE-111L

Term Offered: All Terms

Course Type(s): None

Gen Chem 1 Recitation supports General Chemistry 1 students with active learning activities such as group problem solving and peer-led team learning that focus on the key or most challenging aspects of the General Chemistry 1 course. Assessment activities, including quizzes, are included in Gen Chem 1 Recitation. Gen Chem 1 is a Pass/Fail corequisite for CE 111 - General Chemistry 1. Corequisite: CE-111 and CE-111L

**CE-112 General Chemistry II****Credits: 3**

Prerequisite(s): CE-111 passed with a grade of C- or higher, CE-111L passed with a grade of C- or higher, and either MA-101 passed with a grade of C- or higher or a score of 3 or higher on the Mathematics Placement Exam.

Co-requisite(s): CE-112L

Term Offered: All Terms

Course Type(s): NS

The second of two lecture courses which, taken together, provide preparation for subsequent courses in chemistry. Properties of liquids and solutions, chemical kinetics and equilibrium, thermodynamics, electrochemistry and nuclear chemistry.

**CE-112L General Chemistry II Laboratory****Credits: 1**

Co-requisite(s): CE-112

Course Type(s): None

Laboratory work to complement the class work of CE-111 and CE-112; review of mathematical fundamentals; experiments involving observation and interpretation of chemical and physical changes; experimental studies of gas laws, thermodynamics, kinetics, equilibrium, acids and bases, qualitative analysis, and molecular mass determination. Three hours per week.

**CE-112R General Chemistry II Recitation****Credits: 1**

Prerequisite(s): CE-111 and CE-111L both passed with a grade of C- or higher; CE-111R.

Co-requisite(s): CE-112 and CE-112L

Term Offered: All Terms

Course Type(s): None

Chem 2 Recitation supports General Chemistry 2 students with active learning activities such as group problem solving and peer-led team learning that focus on the key or most challenging aspects of the General Chemistry 1 course. Assessment activities, including quizzes, are included in Gen Chem 2 Recitation. Gen Chem 2 Recitation is a Pass/Fail corequisite for CE-112.

**CE-198 Special Topics in Chemistry (100 Level)****Credits: 1-3**

Course Type(s): None

An intensive study of a particular subject or problem in chemistry to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**CE-220 Environmental Chemistry****Credits: 3**

Prerequisite(s): CE-112 and CE-112L, both passed with a grade of C- or higher

Co-requisite(s): CE-220L

Course Type(s): MEBP

Soil, aquatic, and atmospheric chemistry; environmental analytical chemistry; connections to environmental biology. Sources, reactions, mobility, effects, and fates of chemical species in the soil, water and air environments and the effect of human activity on these. Gives the theoretical principles and techniques of both classical and instrumental methods of chemical analysis.

**CE-220L Environmental Chemistry Laboratory****Credits: 1**

Co-requisite(s): CE-220

Course Type(s): MEBP

Soil, aquatic and atmospheric chemistry; environmental analytical chemistry; connections to environmental biology. Sources, reactions, mobility, effects and fates of chemical species in the soil, water and air environments and the effect of human activity on these. Laboratory experiments and field trips will be used to address the needs for this course. Students will gain hands-on experience in both classical and instrumental methods of chemical analysis.

**CE-221 Analytical Chemistry I Quantitative Analysis****Credits: 3**

Prerequisite(s): CE-112 and CE-112L both passed with a grade of C- or higher

Co-requisite(s): CE-221L

Term Offered: Spring Term

Course Type(s): None

Theoretical principles and techniques of volumetric, gravimetric, and potentiometric methods of analysis; treatment of analytical data, equilibria involving acid-base, redox, complexometric, and precipitation reactions.

**CE-221L Analytical Chemistry I Laboratory Quantitative Analysis****Credits: 1**

Co-requisite(s): CE-221

Term Offered: Spring Term

Course Type(s): None

Laboratory techniques, procedures, and practice in quantitative analysis of selected substances by volumetric, gravimetric, and potentiometric methods.

**CE-241 Organic Chemistry I****Credits: 3**

Prerequisite(s): CE-112 and CE-112L both passed with a grade of C- or higher

Co-requisite(s): CE-241L

Term Offered: All Terms

Course Type(s): None

Preparations and reactions of major classes of organic compounds with extensive discussion of reaction mechanisms and stereo-chemistry; interpretation of mass, infrared, and nuclear magnetic resonance spectra.

**CE-241L Organic Chemistry I Laboratory****Credits: 1**

Prerequisite(s): CE-112 and CE-112L.

Co-requisite(s): CE-241

Term Offered: All Terms

Course Type(s): None

Laboratory work demonstrating the basic techniques of organic chemistry; qualitative organic analysis; and use of the gas chromatograph and infrared and nuclear magnetic resonance spectrometers to solve problems. Three hours per week.

**CE-242 Organic Chemistry II****Credits: 3**

Prerequisite(s): CE-241 and CE-241L, both passed with a grade of C- or higher.

Co-requisite(s): CE-242L.

Term Offered: All Terms

Course Type(s): MEBP

Preparations and reactions of major classes of organic compounds with extensive discussion of reaction mechanisms and stereo-chemistry; interpretation of mass, infrared, and nuclear magnetic resonance spectra.

**CE-242L Organic Chemistry II Laboratory****Credits: 1**

Prerequisite(s): CE-241 and CE-241L, both passed with a grade of C- or higher.

Co-requisite(s): CE-242.

Course Type(s): None

Laboratory work demonstrating the basic techniques of organic chemistry; qualitative organic analysis; and use of the gas chromatograph and infrared and nuclear magnetic resonance spectrometers to solve problems. Three hours per week.

**CE-298 Special Topics in Chemistry (200 Level)****Credits: 1-3**

Prerequisite(s): CE-111, CE-111L, CE-112, CE-112L and others as announced in the course schedule

Course Type(s): None

An intensive study of a particular subject or problem in chemistry to be announced prior to registration. May be conducted in a lecture, seminar or laboratory format.

**CE-299 Independent Study in Chemistry****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Original research work planned and carried out with the assistance of a faculty research advisor. The number of course credits will be arranged with the advisor. Three hours per credit. Prior permission of the directing professor and department chair is required to take this course.

**CE-314 Chemical Literature and Seminar****Credits: 3**

Prerequisite(s): CE-241

Term Offered: All Terms

Course Type(s): RD

The course focuses on the professional development of chemistry majors including: the chemical literature and how to use it, presentation skills for chemists, laboratory safety, professional ethics, and intellectual property. Prerequisite: CE-241

**CE-322 Analytical Chemistry II****Credits: 3**

Prerequisite(s): CE-221, CE-221L, MA-116, PH-212, and PH-212L, all passed with a grade of C- or higher, or permission of the instructor.

Term Offered: Fall Term

Course Type(s): None

Basic components of instruments and their arrangements; fundamental principles, applications, and limitations of instrumental methods of chemical analysis; spectroscopic methods (UV-Visible, Fourier transform infrared, Raman, Fluorescence, Phosphorescence, Atomic absorption, Atomic emission, and Mass spectrometry); electrochemical methods (Potentiometry and Voltammetry); separation methods (High Performance liquid chromatography, Gas chromatography, and Capillary Electrophoresis).

**CE-322L Analytical Chemistry II Laboratory****Credits: 2**

Co-requisite(s): CE-322

Term Offered: Fall Term

Course Type(s): WT

Basic components of instruments and their arrangements; fundamental principles, applications and limitations of instrumental methods of chemical analysis; spectroscopic methods (UV-Visible, Fourier transform infrared, Fluorescence, Atomic absorption and Atomic emission); electrochemical methods (Potentiometry and Voltammetry); separation methods (High Performance liquid chromatography, Gas chromatography - Mass spectrometry). Laboratory experiments and an independent research project will be used to address the needs of this course. Students will gain hands-on experience in instrumental methods of chemical analysis for both qualitative and quantitative work.

**CE-325 NMR Spectroscopy****Credits: 3**

Prerequisite(s): CE-242L

Term Offered: Fall Term

Course Type(s): None

A treatment of the theories and applications of modern Fourier transform nuclear magnetic resonance (FT-NMR) spectroscopy. Applications of FT-NMR spectroscopy to the investigation and solution of chemical problems will be emphasized.

**CE-333 Biochemistry****Credits: 3**

Prerequisite(s): CE-242

Co-requisite(s): CE-333L

Term Offered: Fall Term

Course Type(s): None

Biochemistry is a field about chemistry in living organisms. Biochemistry CE-333 is a 1-semester complete biochemistry course. This water-based chemistry will initially explore monomers (amino acids, monosaccharides and nucleotides) followed by their polymers (protein, polysaccharides and nucleic acids) with a focus on the relationship between their structure and function. Moreover, structures and properties of fatty acids to phospholipids and membranes will be studied. The properties of these molecules and how they all interact together will be further studies through the concepts of enzymology and metabolism. Being multidisciplinary, this course should be taken by chemistry majors, as well as students aiming at graduate school or medical professional fields. Prerequisite: CE-242 Corequisite: CE-333L

**CE-333L Biochemistry Laboratory****Credits: 1**

Term Offered: Fall Term

Course Type(s): WT

CE-333L will provide training in modern biochemical techniques, using proteins, nucleic acids, carbohydrates and lipids. This laboratory will provide students with hands-on experience in basic and modern techniques commonly used in biochemistry, that will be required in the pursuit of their academic and career objectives. Prerequisites: EN-101 and EN-102 Corequisite: CE-333

**CE-350 Research in Chemistry****Credits: 1-4**

Term Offered: All Terms

Course Type(s): EX5

Original research work, carried out under the mentorship of a faculty research advisor. Research conducted by the students may be submitted for presentation, publication, or review, as appropriate. The number of course credits will be determined by arrangement with the advisor. Three hours/week per credit, 1-3 credits. Prerequisites: Determined by faculty mentor.

**CE-360 Biophysical Chemistry**

Prerequisite(s): CE-242

Term Offered: All Terms

Course Type(s): None

Principles and applications of physical chemistry including thermodynamics, kinetics and spectroscopy to study the structure and function of biological macromolecules. Prerequisite: CE-242

**Credits: 3****CE-360L Biophysical Chemistry Laboratory**

Prerequisite(s): CE-242

Term Offered: All Terms

Course Type(s): None

The Lab course is designed to give hands-on experience with contemporary experimental instrumentation and techniques that are widely used in the biophysical characterization of biological macromolecules. Students will also work on individual projects designed to provide a real-life academic/industrial research experience and will submit a clear and concise report and presentation based on the experimental results. Prerequisite: CE-242 Corequisite: CE-360

**Credits: 1****CE-374 Industrial Chemistry**

Prerequisite(s): CE-242

Term Offered: Fall Term

Course Type(s): None

A treatment of some reaction chemistry, chemical processes, thermodynamics, chemical equilibria, and kinetics that are important to the chemical industry. Fundamental principles and problems of the chemical industry will also be discussed.

**Credits: 3****CE-381 Physical Chemistry I**

Prerequisite(s): MA-116, PH-212, both passed with a grade of C- or higher.

Co-requisite(s): CE-381L.

Term Offered: Fall Term

Course Type(s): None

Basic principles of quantum mechanics essential for understanding of atomic and molecular spectroscopy are covered. The specific topics included: Quantum Mechanics: postulates and formulation of Schrodinger equation, uncertainty principle, particle in a box, simple harmonic oscillator, rigid rotor, Hydrogen atom, hydrogenic wave functions, Pauli principle, Helium atom, Hydrogen molecule, Molecular Orbital Theory; Introduction and applications of Computational Chemistry; Spectroscopy; Light-matter interaction, term symbols, spectroscopic selection rules, electronic spectra of atoms and molecules, rotational and vibrational spectra, IR and Raman spectroscopy, Lasers.

**Credits: 3****CE-381L Physical Chemistry I Laboratory**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor.

Co-requisite(s): CE-381.

Term Offered: Fall Term

Course Type(s): WT

This course is designed to be taken concurrently with CE-381, Physical Chemistry I. The experiments performed complement material studied in CE-381. Topics covered include: UV-Vis, FT-IR, Raman, Laser Induced Fluorescence, and Flash Photolysis spectroscopies. This laboratory also requires the use of modern computer platforms and quantum chemistry software for molecular simulations and data analysis.

**Credits: 1****CE-382 Physical Chemistry II**

Prerequisite(s): MA-116, PH-212 and CE-381, all passed with a grade of C- or higher

Co-requisite(s): CE-382L

Term Offered: All Terms

Course Type(s): None

Amplification of concepts in thermodynamics, chemical kinetics and dynamics and application of these to gases, liquids, and solutions to provide a solid background for understanding the physical principles that govern behavior of chemical and biological systems. The specific topics included: Thermodynamics: standard functions (enthalpy, entropy, etc.), ensembles, partition function. Gibbs chemical potential, phase equilibria, electrochemical cells; Kinetic Theory of Gases: Maxwell-Boltzmann distribution, collision frequency; effusion rate, heat capacity, transport processes (diffusion, viscosity, etc.); Chemical Kinetics: differential and integral expressions for rate laws, reaction mechanisms, Chemical Dynamics: collision theory, absolute rate theory, transition state theory. Corequisite: CE-382L

**Credits: 3****CE-382L Physical Chemistry II Laboratory**

Prerequisite(s): EN-101 and EN-102 or permission of the instructor.

Co-requisite(s): CE-382.

Term Offered: Spring Term

Course Type(s): WT

This course is designed to be taken concurrently with CE-382, Physical Chemistry I. The experiments performed complement material studied in CE-382. Topics covered include experimental investigation of gas laws, phase transitions, transport properties of gases (diffusion), electrochemistry (electrolysis, electroplating, and voltammetry) and chemical kinetics (fluorescence quenching). This laboratory also requires the use of modern computer platforms and quantum chemistry software for simulations of chemical kinetics, dynamics and data analysis.

**Credits: 1****CE-388 Cooperative Education: Chemistry**

Prerequisite(s): CE-221, CE-221L, CE-242, and CE-242L; an overall G.P.A. of 2.00; fifteen credits completed at Monmouth University, and approval of the Department of Chemistry

Term Offered: Spring Term

Course Type(s): EX2

Application of chemical concepts and skills learned in lecture and laboratory to work-related experiences. Students and faculty sponsors maintain journals of their cooperative education opportunities with the assistance of the Director of Cooperative Education. Students will work forty hours per credit per semester at their jobs. Students will maintain journals of their cooperative education experiences and write reports demonstrating how their experiences helped them achieve their learning goals. This is a pass/fail course. Departmental approval is required to take this course.

**Credits: 1-3****CE-389 Internship in Chemistry**

Prerequisite(s): CE-221, CE-221L, CE-242, CE-242L, an overall GPA of 2.00, fifteen credits completed at Monmouth University, and approval by the Department of Chemistry

Term Offered: All Terms

Course Type(s): EX1

Provides an opportunity to apply chemical concepts and skills learned in lecture and laboratory to work-related experiences. Students and faculty sponsors will identify internship opportunities. Students will work forty hours per credit per semester in their internship positions. Students will maintain journals of their internship experiences and write reports demonstrating how their internship experiences helped them achieve the learning objectives identified at the start of the internships. This is a pass/fail course.

**Credits: 1-3**

**CE-398 Special Topics in Chemistry (300 Level)****Credits: 1-3**

Prerequisite(s): CE-241, CE-241L, CE-242, CE-242L, or as announced in the course schedule

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in chemistry to be announced prior to registration. May be conducted in a lecture, seminar, or laboratory format.

**CE-398L Special Topics in Chemistry****Credits: 3**

Course Type(s): None

An intensive study of a particular subject or problem in chemistry to be announced prior to registration. Conducted in a laboratory format.

**CE-399 Independent Study in Chemistry (300 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Original research work planned and carried out with the assistance of a faculty research advisor. The number of credits will be arranged with the advisor. Prior permission of the directing professor and department chair is required to take this course.

**CE-401 Advanced Inorganic Chemistry****Credits: 3**

Prerequisite(s): CE-242 and CE-242L both passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): None

Modern theories of inorganic chemistry, including advanced considerations of atomic and molecular structure, chemical bonding, complex ions, solid state chemistry, magnetic properties of ions, periodicity, and contemporary problems.

**CE-401L Advanced Inorganic Chemistry Laboratory****Credits: 1**

Co-requisite(s): CE-401

Term Offered: All Terms

Course Type(s): None

Inorganic synthetic techniques, including inert atmosphere, high temperature, and non-aqueous solvents; methods of characterization of inorganic compounds, including use of spectroscopic and other instrumental methods. Three hours per week.

**CE-405 Methods of Inorganic Chemistry****Credits: 3**

Prerequisite(s): CE-401

Term Offered: Spring Term

Course Type(s): None

Coverage of important experimental methods in inorganic structural determinations. Topics include symmetry and group theory, computational methods, mass spectrometry, diffraction analysis and nuclear magnetic resonance, electron paramagnetic resonance, rotational, Mossbauer, vibrational, electronic absorption, photoelectron spectroscopies. The application of these techniques to the characterization and determination of inorganic substances is the emphasis of the course.

**CE-432 Advanced Analytical Chemistry****Credits: 3**

Prerequisite(s): CE-322 passed with a grade of C- or higher.

Term Offered: All Terms

Course Type(s): None

This course examines modern analytical techniques with special emphasis on gas chromatography (GC), liquid chromatography (LC) and capillary electrophoresis (CE) in terms of basic principles, instrumentation, method development and practical applications. Mass spectrometry (MS) and ion mobility spectrometry (IMS) are also extensively explored as detection techniques for GC (GC-MS and GC-IMS), LC (LC-MS), and CE (CE-MS). Multidimensional separations (LC x LC & GC x GC) and their practical applications are also examined. A combination of traditional lecture notes, textbook readings and published peer-reviewed scientific literature will be used to explore and discuss topics. The course also involves case studies on analytical method development, data interpretation and applications of analytical techniques covered as well as visits to or tours of facilities with sophisticated analytical instrumentation relevant to the course.

**CE-452 Advanced Organic Chemistry****Credits: 3**

Prerequisite(s): CE-242 and CE-242L both passed with a grade of C- or higher

Term Offered: Spring Term

Course Type(s): None

Selected topics of modern, theoretical, organic chemistry.

**CE-454 Advanced Biochemistry****Credits: 3**

Prerequisite(s): CE-333

Term Offered: Spring Term

Course Type(s): None

Advanced Biochemistry provides a deeper focus on the biochemistry of several diseases as well as medical biochemistry while building upon the concepts learned in the prerequisite biochemistry course (CE-333). Using current publications to support content, topics such as gene therapy, various blood test works will be discussed. Topics of the biochemistry of Cancer, AIDS and Aging will also be covered.

**CE-460 Electrochemical Methods****Credits: 3**

Co-requisite(s): CE-341

Term Offered: Spring Term

Course Type(s): None

Theory and applications of electrochemical analysis: electrode processes, thermodynamics and kinetics of electrode reactions, controlled potential and controlled current microelectrode techniques, and bulk electrolysis.

**CE-475 Computational Chemistry and Molecular Modeling****Credits: 3**

Prerequisite(s): CE-341 and CE-341L both passed with a grade of C- or higher

Term Offered: Spring Term

Course Type(s): None

Principal methods and techniques used to study organic molecules and biomolecules by computational methods. Interpretation of chemical data with the aid of a computer. Atomic and molecular orbitals, force fields, molecular dynamics, and molecular modeling and drug design.

**CE-484 Methods Development and Statistical Process Control Credits: 4**

Prerequisite(s): CE-432 and MA-151 both passed with a grade of C- or higher.

Term Offered: All Terms

Course Type(s): None

Concentrates on methods development in the analytical laboratory with applications in pharmaceutical, food product, cosmetics, and environmental testing. This course focuses on methods development and optimization to satisfy regulatory and customer requirements, validating analytical methods, application of newer analytical methods, and those involved in quality control, quality assurance, and quality assessment. Discusses regulatory framework and requirements including FDA, WHO, and ICH examples. Focus includes development and use of statistical process control as tools to improve quality and productivity.

**CE-486 Medicinal Chemistry****Credits: 3**

Prerequisite(s): CE-241 and CE-242

Term Offered: Spring Term

Course Type(s): None

A Medicinal Chemistry course in which you will learn about the application of chemistry to the discovery, design and synthesis of new drugs. Medicinal chemistry is an interdisciplinary science. Its successful application to new drug discovery and development involves knowledge of organic chemistry, biology, physiology, microbiology, biochemistry, pharmacology and medicine among others. Topics that will be covered in this course include: structure and function of biological targets (proteins, enzymes, receptors and DNA/RNA); sources of new drugs from nature or synthesis; methods used to identify relevant structural features for biological activity; fate of a drug in the body and interaction with its biological target (pharmacokinetics and pharmacodynamics); strategies for drug design and case studies.

**CE-489 Internship in Chemistry****Credits: 1-3**

Prerequisite(s): CE-221, CE-221L, CE-242, CE-242L, an overall GPA of 2.00, fifteen credits completed at Monmouth University, and approval by the Department of Chemistry

Term Offered: Spring Term

Course Type(s): EX1

Provides an opportunity to apply chemical concepts and skills learned in lecture and laboratory to work-related experiences. Students and faculty sponsors will identify internship opportunities. Students will work forty hours per credit per semester in their internship positions. Students will maintain journals of their internship experiences and write reports demonstrating how their internship experiences helped them achieve the learning objectives identified at the start of the internships. This is a pass/fail course.

**CE-498 Special Topics in Chemistry (400 Level)****Credits: 1-3**

Prerequisite(s): CE-242 or as announced in the course schedule

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in chemistry to be announced prior to registration. May be conducted in a lecture, seminar, or laboratory format.

**CE-499 Independent Study in Chemistry****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Original research work planned and carried out with the assistance of a faculty research advisor. The number of course credits will be arranged with the advisor. Three hours per credit. Prior permission of the directing professor and department chair is required to take this course.

**CE-499T Independent Study in Chemistry****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Original research work planned and carried out with the assistance of a faculty research advisor. Prior permission of the directing professor and department chair is required to take this course.

**ML-411 Clinical Internship in Medical Laboratory Science I****Credits: 16**

Term Offered: All Terms

Course Type(s): EX1, WT

First half of an intensive one-year clinical internship and training at an approved, partner medical institution in the requisite skills for a career in medical laboratory science. Practical experience in tests and procedures of hematology, histology, blood bank, clinical microscopy, clinical chemistry, bacteriology, parasitology, mycology, immunology, serology, radioisotopes, and related subjects. Limited to Medical Laboratory Science majors who have completed all other degree requirements.

**ML-412 Clinical Internship in Medical Laboratory Science II****Credits: 16**

Prerequisite(s): ML-411

Term Offered: Spring Term

Course Type(s): EX1

Second half of an intensive one-year clinical internship and training at an approved, partner medical institution in the requisite skills for a career in medical laboratory science. Practical experience in tests and procedures of hematology, histology, blood bank, clinical microscopy, clinical chemistry, bacteriology, parasitology, mycology, immunology, serology, radioisotopes, and related subjects. Limited to Medical Laboratory Science majors who have completed all other requirements.

**MM-490 Experience in Clinical Medicine****Credits: 9**

Term Offered: All Terms

Course Type(s): EX5

Intensive, practical, first-hand experience in clinical medicine at Monmouth Medical Center. A comprehensive introduction to the skills required to practice medicine: excellent communication, critical reading of the literature, epidemiologic methods (disease patterns in populations), and understanding medicine as a human experience. The practicum consists of clinical observations, seminars, community service, discussion groups, and a research paper. This course is under the auspices of the Biology Department. Limited to Monmouth Medical Center Scholars with Junior standing. This is a pass/fail course.

**PH-101 Physics in Our Lives****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Presents major concepts and methodologies in physics and their importance in today's society. Introduction to principles of physics and their applications to today's technology using lectures and demonstration.

**PH-103 The Physics of Sound and Music****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Presents the topics of sound and music from a physics point of view. Covered topics are harmonic motion, waves (both traveling and standing), the human voice and ear, the production of music and musical scales and the physics of several representative instruments.

**PH-105 Physics for the Life Sciences I****Credits: 3**

Prerequisite(s): MA-101 or MA-109 or MA-115 or higher Math courses passed with grade of C- or higher.

Co-requisite(s): PH-105L

Term Offered: All Terms

Course Type(s): NS

An introduction to classical physics intended primarily for students majoring in the life sciences. Topics include: mechanics, dynamics, heat, electricity, magnetism, and optics.

**PH-105L Physics for the Life Sciences I Laboratory****Credits: 1**

Co-requisite(s): PH-105

Term Offered: All Terms

Course Type(s): None

Laboratory work to complement PH-105. Experiments in the fields of statics, dynamics, energy, momentum, heat, sound, electricity, magnetism, optics, and spectroscopy. Three hours per week.

**PH-106 Physics for the Life Sciences II****Credits: 3**

Prerequisite(s): PH-105 and PH-105L both passed with a grade of C- or higher

Co-requisite(s): PH-106L

Course Type(s): NS

An introduction to classical physics intended primarily for students majoring in the life sciences. Topics include, mechanics, dynamics, heat, electricity, magnetism, and optics.

**PH-106L Physics for the Life Sciences II Laboratory****Credits: 1**

Co-requisite(s): PH-106

Course Type(s): None

Laboratory work to complement PH-106. Experiments in the fields of sound, electricity, magnetism, optics, and spectroscopy. Three hours per week.

**PH-150 Principles of Astronomy****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

The historical development of astronomy and the modern concepts of the universe, including demonstrations and viewing sessions with optical telescopes.

**PH-199 Independent Study in Physics****Credits: 1**

Term Offered: All Terms

Course Type(s): None

Guided study of a selected topic in physics not substantially treated in a regular course, under the direction of a member of the Physics faculty. Prior permission of the directing professor and department chair is required to take this course.

**PH-211 General Physics with Calculus I****Credits: 3**

Prerequisite(s): MA-116 or MA-125

Co-requisite(s): PH-211L

Term Offered: Fall Term

Course Type(s): NS

The first of a two-semester sequence of courses that, taken together, provide a thorough introduction to classical physics using calculus. Topics covered include: one- and two-dimensional motion, Newton's laws and their applications, energy, momentum and impulse, rotational mechanics, and thermodynamics.

**PH-211L General Physics with Calculus I Laboratory****Credits: 1**

Co-requisite(s): PH-211

Term Offered: Fall Term

Course Type(s): None

Laboratory experiments to complement the topics covered in PH-211. Includes experiments in statics, dynamics, and thermodynamics.

**PH-212 General Physics with Calculus II****Credits: 3**

Prerequisite(s): PH-211 and PH-211L passed with a grade of C- or higher.

Co-requisite(s): PH-212L

Term Offered: Spring Term

Course Type(s): NS

The second of a two-semester sequence of courses that, taken together, provide a thorough introduction to classical physics using calculus.

Topics covered include: sound and wave mechanics, electrostatics, circuits, magnetic forces and fields, Faraday's Law, reflection and refraction, and optics.

**PH-212L General Physics with Calculus II Laboratory****Credits: 1**

Co-requisite(s): PH-212

Term Offered: Spring Term

Course Type(s): None

Laboratory experiments to complement the topics covered in PH-212. Includes experiments in sound, electricity, magnetism, circuits, and optics.

**PH-270 Physical Oceanography****Credits: 3**

Prerequisite(s): BY-109, CE-111, CE-111L, CE-112, and CE-112L

Term Offered: Fall Term

Course Type(s): MEBP

Physical Oceanography provides a survey of physical, chemical and geological processes that define and affect the coastal ocean including ocean basins, beach formation and dynamic ocean processes (currents, waves, wind, weather). Environmental considerations include the role of the ocean in the association with global climate change issues, problems associated with coastal development, exploitation of marine resources, and ocean and coastal pollution.

**PH-298 Special Topics in Physics (200 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in physics to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If a prerequisite is required it will be announced in the course schedule.

**PH-299 Independent Study in Physics****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Guided study of a selected topic in physics not substantially treated in a regular course, under the direction of a member of the Physics faculty. Prior permission of the directing professor and department chair is required to take this course.

**PH-311 Theoretical Physics****Credits: 3**

Prerequisite(s): PH-212 passed with a grade of C- or higher

Term Offered: All Terms

Course Type(s): None

Presents physics topics aimed at the advanced undergraduate level.

The subjects range over classical mechanics, electromagnetism, and statistical mechanics, with explicit links made to topics from PH-301. The course is calculus-based, and seeks to round out the physics education of physics minors.

**PH-312 Modern Physics****Credits: 3**

Prerequisite(s): PH-311 passed with a grade of C- or higher

Term Offered: Spring Term

Course Type(s): None

Topics from physics of the twentieth century, including special relativity, the origins of quantum theory, quantum mechanics, atomic structure, nuclear physics, and elementary particles.

**PH-350 Research in Physics****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX5

Original research work, carried out under the mentorship of a faculty research advisor. Research conducted by the students may be submitted for presentation, publication, or review, as appropriate. The number of course credits will be determined by arrangement with the advisor. Three hours/week per credit, 1-3 credits.

**PH-399 Independent Study in Physics****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

Reading and research on a selected topic under the direction of a Physics faculty member. Prior permission of the directing professor and department chair is required to take this course.

**PH-499 Independent Study in Physics (400 Level)****Credits: 1-3**

Course Type(s): None

Reading and research on a selected topic under the direction of a Physics faculty member. Three hours per week per credit. Prior permission of the directing professor and department chair is required to take this course.

**SC-100 Discovery and Thinking in Natural Sciences****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

The development of major concepts in the biological, chemical, and physical sciences; their importance today.

**SC-103 Physical Geography****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

A survey of the Earth sciences from a spatial perspective. We will use maps, diagrams, simulations, and computer mapping software to learn about the systems of the Earth. Students will gain an understanding of physical processes and patterns of the Earth's atmosphere, climate, landforms, and biosphere. Understanding of these systems will be used to examine the ways in which humans influence and adapt to Earth systems. The learning outcomes of this course satisfy a general education requirement for the Natural Sciences. Also listed as GO-103.

**SC-110 Nutrition Science****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

An overview of the science of human nutrition, including the basics of protein, carbohydrate, lipid, vitamin, mineral, water, and alcohol metabolism. An analysis of the relationship of diet to various health issues and current controversies in nutrition will be covered. Students will learn the elements of nutritional analysis by evaluating their personal diets. Emphasis will be on the manner in which nutrition knowledge is acquired, including a nutrition study conducted by the students.

**SC-120 The Science of Food and Cooking****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

This course covers concepts from chemistry, biology and physics that underpin the principles of food science and the transformations that occur during food preparation and cooking. Students will develop a scientific understanding of food preparation, cooking techniques, and recipes. Cooking demonstrations and experiments will be used to illustrate the scientific concept involved. Note: This course involves the preparation and (optional) consumption of food. If you have specific food allergies or needs, contact the instructor to discuss any necessary arrangements.

**SC-130 Climate Science for 21st Century Citizens****Credits: 3**

Term Offered: All Terms

Course Type(s): SUS, NS

Earth's climate has changed in the past and will change in the future. Climate science and hypotheses about climate change and man's effects on climate figure prominently in the news and popular culture. However, forces and feedbacks impacting climate are poorly understood by the general public. This lack of understanding originates partially because climate science is complicated and interdisciplinary, and partially because addressing climate change requires significant changes in the global energy economy, turning it into a political issue with skewed and un-scientific public discourse. This course aims to cover parts of climate science that are well established, differentiate them clearly from parts of climate science where genuine uncertainty exists and use these contrasts to illustrate the scientific methods, culture of science and science practices of the 21st Century.

**SC-140 Forensic Science****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

An introductory course in which scientific principles will be applied to the methods used to investigate and solve crimes. The course will focus on the principles and methods utilized in the traditional sciences of biology, chemistry, and physics. The scientific techniques used to collect and analyze evidence will be covered.

**SC-150 Drug Discovery****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Concepts of biology, chemistry and pharmacology are used to examine aspects of drug discovery from early recorded history to modern treatments for disease. Additionally, students will understand the impacts of key drug discoveries on society/public health. Note: No prior biology/chemistry knowledge is assumed.

**SC-160 Science of Energy****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Energy consumption is a key aspect of society that has been profoundly impacted by abundant low-cost energy. What does the future of energy look like in terms of abundance and cost? This course examines energy sources, energy needs, and the transition from geologically stored energy sources (fossil fuels) to ecologically available energy sources and conservation. It also explores the potential environmental consequences of such transition in the immediate future and long-term.

**SC-170 Oceanography****Credits: 3**

Term Offered: All Terms

Course Type(s): NS

Oceanography provides a survey of physical, biological, chemical, and geological resources and the processes that define and affect ocean basins, coasts, beaches, estuaries, offshore waters and marine species. Environmental considerations include the role of oceans in global climate change issues, coastal development, exploitation of marine resources, and marine pollution. Students in the Marine and Environmental Biology and Policy (MEBP) program should take PH-270, Physical Oceanography, for elective credit.

**SC-198 Special Topics in Science**

Term Offered: Spring Term

Course Type(s): NS

Study of a particular subject or problem in science to be announced prior to registration. May be conducted on either a lecture-discussion or seminar basis. Courses would meet General Education requirements in the natural sciences. If a prerequisite is required it will be announced in the course schedule.

**SC-233 Climate Science: Understanding our Changing Climate Credits: 3**

Prerequisite(s): BY-109 or permission of the instructor

Course Type(s): NS, SUS

Climate Change is arguably the most important problem of the 21st century. Climate Science Understanding Our Changing Climate provides students with a quantitatively rigorous treatment of basic climate science as well as a scientific exploration of impacts caused by human-mediated climate change. This course aims to cover climate science from an explicitly interdisciplinary perspective, because climate science depends on chemistry, physics, biology, mathematics, computer modeling and geology for complete understanding of the climate system and because workable climate solutions are almost always interdisciplinary in nature. Climate modeling and assessment of future climate conditions and risks will be stressed.

| CE-401L                                                         | Advanced Inorganic Chemistry Laboratory             |
| Free Electives (36 credits)                                     |                                                     |
| Select up to 36 credits of free electives                       | 36                                                  |
| General Education Requirements (33 credits) <sup>5</sup>        |                                                     |
| Complete 33 credits as outlined on the General Education table. | 33                                                  |
| Total Credits                                                   | 120                                                 |

- <sup>1</sup> Students desiring certification by the ACS should enroll in the CE.ACS program and consult with the department chair and academic advisor.
- <sup>2</sup> CE-350, Research in Chemistry, is highly recommended and may be taken as a free elective. Please consult with your advisor regarding the required number of free electives that must be completed.
- <sup>3</sup> Students opting for the Biochemistry Track are advised to take CE-333 (and CE-333L) from the CE-300+ elective list of courses so they will take only 10 credits from the remaining track courses. This way the total number of credits required to graduate from the program remains 120.
- <sup>4</sup> Students opting for the Industry Track are advised to take CE-432 Advanced Analytical Chemistry from the list of the CE-300+ elective courses so they will need to take only 10 credits from the remaining track courses. This way the total number of credits required to graduate from the program remains 120.
- <sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

Notes

- 54 credits must be completed at the 200 level or higher.

| <b>Total Credits</b> | <b>120</b> |
|----------------------|------------|

<sup>1</sup> Students desiring certification by the ACS should enroll in the BS CE ACS program

<sup>2</sup> Minimum grade of "C" required for Education Courses

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

<sup>6</sup> Students can take MA-125 in place of MA-116.

## Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - Secondary
- ESL - English as a Second Language - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

| Complete up to 0 free electives credits. <sup>4</sup>                      |                                                                | 0 |
| <b>General Education Requirements (33 credits) <sup>5</sup></b>            |                                                                |   |

Complete 33 credits as outlined on the General Education table.<sup>5</sup> 33

**Total Credits 121**

<sup>1</sup> Students desiring certification by the ACS should enroll in the BS CE ACS program

<sup>2</sup> Minimum grade of "C" required for Education Courses

<sup>3</sup> Students must complete the appropriate test requirement(s) with a passing score PRIOR to Clinical Practice.

<sup>4</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>5</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education courses (p. 45) must be completed.

## Additional Endorsements Available

- TSD - Teacher of Students with Disabilities - Secondary
- ESL - English as a Second Language - Secondary

## Notes

- 54 credits must be completed at the 200 level or higher.
- Education majors are required to have an overall GPA of 3.00 for State Certification.
- By state regulation, all Education Majors seeking content area endorsement must complete 30 content credits (12+ credits at the 300+ level).

<sup>1</sup> Students who major in this concentration cannot also major in the Biochemistry concentration.

<sup>2</sup> Please consult with your advisor regarding the required number of free elective credits that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed

Notes

- 54 credits must be completed at the 200 level or higher.

| CE-112                                                                                                                                                                                                            | General Chemistry II            | 3         |
| CE-112R                                                                                                                                                                                                           | General Chemistry II Recitation | 1         |
| CE-112L                                                                                                                                                                                                           | General Chemistry II Laboratory | 1         |
| CE-241                                                                                                                                                                                                            | Organic Chemistry I             | 3         |
| CE-241L                                                                                                                                                                                                           | Organic Chemistry I Laboratory  | 1         |
| Select 7 credits of chemistry at the 200+ level, three of which must be at the 300+ level. Research courses, CE-350, CE-399 and CE-499, cannot be used to satisfy course requirements for the minor. <sup>1</sup> |                                 | 7         |
| <b>Total Credits</b>                                                                                                                                                                                              |                                 | <b>21</b> |

<sup>1</sup> Students who have taken BY-310 Biochemistry may not use CE-333 Biochemistry toward the Chemistry Minor.

## Computer Science and Software Engineering

Chair: Ling Zheng, Department of Computer Science and Software Engineering

UNIX Administrator and Teacher: Joseph Chung

### Bachelor of Science in Computer Science

The Computer Science curriculum provides a solid foundation in the computing sciences, preparing students for employment in industry or for graduate school. Software design and development is emphasized along with foundational computing concepts. The higher-level courses enable students to explore a variety of topics, such as databases, networks, artificial intelligence, scripting languages, game programming, UNIX administration, and computer security.

The B.S. in Computer Science, which is accredited by the Computing Accreditation Commission of ABET (<http://www.abet.org>), is recommended especially for students who plan to attend graduate school in computer science or who plan to specialize in scientific computing. The Bachelor of Science in Computer Science identifies the following within a few years after graduation from the program:

- Work as effective team members or team leaders in the development of secure computer and software systems covering a wide range of business, educational and scientific applications, or undertake graduate studies.
- Work in teams to solve problems, communicating effectively with technical and non-technical team members, clients, and customers, while meeting the social and ethical responsibilities of their profession.
- Adapt to new technologies, methodologies and regulations with the skills required to react to and innovate for a changing world.

Students interested in Computer Science but looking for a more flexible curriculum may choose to pursue the non-ABET-accredited B.A. in Computer Science. This program requires fewer math and science credits, which allows students to take additional coursework or a minor in other academic areas.

### Bachelor of Science in Software Engineering

The undergraduate Software Engineering curriculum, which is accredited by the Engineering Accreditation Commission of ABET (<http://www.abet.org>) is designed to give students a broad background in both computer and engineering science with a heavy emphasis on those aspects of software engineering that will enable graduates to efficiently participate in the design, development, and deployment of large software systems.

The educational objectives of the B.S. in Software Engineering program are to prepare software engineering graduates to do the following within the first few years after graduation from the program:

- Work as effective team members or team leaders in the development of secure computer and software systems covering a wide range of business, educational and scientific applications, or undertake graduate studies.

- Work in teams to solve problems, communicating effectively with technical and non-technical team members, clients, and customers, while meeting the social and ethical responsibilities of their profession.
- Adapt to new technologies, methodologies and regulations with the skills required to react to and innovate for a changing world.

## Programs Majors

- B.S. in Computer Science (p. 258)
- B.A. in Computer Science (p. 259)
- B.S. in Software Engineering (p. 260)

## Minors

- Data Science (<https://catalog.monmouth.edu/undergraduate-catalog/science/data-science/>)
- Computer Science (p. 261)
- Cybersecurity (<https://catalog.monmouth.edu/undergraduate-catalog/science/cybersecurity/>)
- Information Technology (p. 261)

## Certificate

- Information Technology (p. 261)

## Faculty

**William Byrne**, Specialist Professor. B.S., M.S., New York University; MSEE, Stevens Institute of Technology; M.S., Columbia University. Interests include information technology education and web technologies.  
bbyrne@monmouth.edu

**Brian Callahan**, Specialist Professor. B.A., Carnegie Mellon University; M.A., Monmouth University; M.S., Ph.D., Rensselaer Polytechnic Institute.

**Rolf Kamp**, Specialist Professor (Graduate Faculty). B.S., B.A., Stockton University; M.B.A., Monmouth University; M.S., New Jersey Institute of Technology. Interests include computer science education, networking technologies, and ethics and professionalism for scientists and engineers.  
rkamp@monmouth.edu

**Raman Lakshmanan**, Specialist Professor (Graduate Faculty). B.S., University of Madras; Ph.D., Oakland University. Interests include web technologies and applications, Cloud computing architectures, SQL and noSQL databases, machine learning, and enterprise iOS apps.  
rlakshma@monmouth.edu

**Weihaio Qu**, Assistant Professor. B.S., Tianjin University; M.S., University at Buffalo; Ph.D., Boston University.  
wqu@monmouth.edu

**Richard Scherl**, Associate Professor. B.A., Columbia University; M.A., University of Chicago; Ph.D., University of Illinois. Interests include artificial intelligence (especially knowledge representation, automated reasoning and natural language processing), cognitive science, and databases.  
rscherl@monmouth.edu

**Jiacun Wang**, Professor and Graduate Program Director (Graduate Faculty). B.S., Jiangsu University of Science and Technology; Ph.D., Nanjing University of Science and Technology, China. Interests include software architecture, Petri nets, real-time systems, discrete event systems, telecommunications, and networking.  
jwang@monmouth.edu

**Cui Yu**, Associate Professor (Graduate Faculty). B.S., Nanjing University of Aeronautics and Astronautics; Ph.D., University of Singapore, Singapore. Interests include database management systems, spatial databases, and information storage and retrieval.  
cyu@monmouth.edu

**Ling Zheng**, Associate Professor and Chair (Graduate Faculty). B.S., Southern Medical University, Guangzhou, China; M.S., Zhejiang University, Hangzhou, China; Ph.D., New Jersey Institute of Technology. Healthcare information systems, translational bioinformatics, biomedical ontologies/terminologies, and biomedical knowledge representation and discovery.  
lzheng@monmouth.edu

## Courses

### CS-104 Introduction to Problem Solving and Software Development

**Credits: 3**

Term Offered: All Terms

Course Type(s): TL

Introduces a broad overview of problem solving, computing topics, and fundamental concepts and methodologies of software development designed to provide students with awareness of the computing field's many aspects. Topics include fundamentals of computer architecture, operating systems, applications, problem-solving. It emphasizes the main phases of the software development lifecycle, such as requirements, design, implementation, testing, project planning. Also, it stresses the difference between the software product and process. Introduces social and ethical issues related to computing and explores the local and global impact of computing on individuals, organizations and society. It also gives students their initial exposure to group project work.

### CS-175 Introduction to Computer Science I

**Credits: 3**

Co-requisite(s): CS-175L

Term Offered: All Terms

Course Type(s): None

Introductions to the basic concepts of program development in a modern object-oriented language; problem-solving methods and algorithm development; basic primitive and object data types; language syntax; style and documentation; and coding and testing of programs.

### CS-175L Introduction to Computer Science I lab

**Credits: 1**

Co-requisite(s): CS-175

Term Offered: All Terms

Course Type(s): None

Introductions to the basic concepts of programming and program development in a modern Software Development Environment with debugger and source code control.

**CS-176 Introduction to Computer Science II****Credits: 3**

Prerequisite(s): CS-175 and CS-175L, both passed with a grade of C or higher

Co-requisite(s): CS-176L

Term Offered: All Terms

Course Type(s): None

Continuation in depth and breadth of problem solving and algorithm development, using the same modern object-oriented language as in CS-175. More advanced object-oriented design. Introduction to polymorphism, inheritance, and interfaces.

**CS-176L Introduction to Computer Science II Lab****Credits: 1**

Prerequisite(s): CS-175 and CS-175L, both passed with a grade of C or higher

Co-requisite(s): CS-176

Term Offered: All Terms

Course Type(s): None

Introduction to advanced concepts of programming and program development in a modern Software Development Environment with debugger and source code control.

**CS-199 Independent Study in Computer Science****Credits: 1-3**

Course Type(s): None

Independent study in a computer science topic not substantially treated in a regular course; for students with superior ability. One-hour consultation per week. Prior permission of the directing professor and department chair is required to take this course.

**CS-201 Introduction to Computer Programming for Data Science****Credits: 1**

Prerequisite(s): IT-100 or IT-102 or IT-150 or CS-104

Term Offered: Spring Term

Course Type(s): None

This course introduces the most important data structures available in R and their practical application. Methodologies to import data from external sources (files, databases, on-line resources), to manipulate and transform data, and to save/export data to data repositories are described. The course also describes how to compute descriptive statistics and how to build chart for effective data visualization tasks. The students will become familiar in using some R data manipulation and visualization libraries.

**CS-205 Data Structures and Algorithms****Credits: 3**

Prerequisite(s): MA-130, CS-176, and CS-176L, all passed with a grade of C or higher

Co-requisite(s): CS-205L

Term Offered: All Terms

Course Type(s): None

Introduction to the design, implementation, and use of fundamental data structures (lists, stacks, queues, trees); extensions of these structures and associated algorithms; informal complexity analysis.

**CS-205L Data Structures and Algorithms Lab****Credits: 1**

Prerequisite(s): MA-130, CS-176, and CS-176L, all passed with a grade of C or higher

Co-requisite(s): CS-205

Term Offered: All Terms

Course Type(s): None

Introductions to the basic concepts of programming and program development in a modern Software Development Environment with debugger and source code control.

**CS-286 Computer Architecture I****Credits: 3**

Prerequisite(s): CS-176 passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Data representation and operations. Digital logic design. Processor data path. Memory hierarchy. Instruction set architecture. Assembly language programming.

**CS-289 Internship in Computer Science****Credits: 3**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in Computer Science. Repeatable for credit. Sophomore standing, departmental approval, and placement are required to take this course.

**CS-298 Special Topics in Computer Science (200 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in computer science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. Three or four hours per week. If a prerequisite is required it will be announced in the course schedule.

**CS-299 Independent Study in Computer Science****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent study in a computer science topic not substantially treated in a regular course; for students with superior ability. One-hour consultation per week. Prior permission of the directing professor and department chair is required to take this course.

**CS-301 Android Application Development****Credits: 3**

Prerequisite(s): CS-205 and CS-205L

Term Offered: Spring Term

Course Type(s): None

This course will teach students software methodologies for Android App Development. This will include Android Development Studio, Kotlin programming language, and interfaces to external services required to develop simple to moderately complex Android mobile apps. Also listed as SE-301.

**CS-305 Advanced Computing****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Introduction to fundamental concepts of computer science theory and methods of parallel and distributed programming. The course covers automata theory (including finite-state machines and Turing machines, algorithm complexity (including the distinction between P and NP problems), BNF specification of programming languages, methods of parallel programming, methods of distributed programming, measuring the speedup obtained by parallelization, and methods of addressing NP completeness through approximation. The course will provide experience in the implementation of parallel and distributed programming.

**CS-310 Advanced Object-Oriented Programming and Design****Credits: 3**

Term Offered: All Terms

Course Type(s): WT

Object-oriented programming and design, using a language different from that used on CS-176. Use of classes, inheritance, polymorphism, and libraries. Topics will include flexible system design for such requirements as globalization. This is a writing-intensive course.

**CS-315 Theory of Computing****Credits: 3**

Prerequisite(s): CS-176 passed with a grade of C or higher and either CS-202 or MA-120 or MA-130 passed with a grade of C or higher

Term Offered: Spring Term

Course Type(s): None

An introduction to phrase structure languages and their relation to automata, computability, and program verification.

**CS-325 Software Engineering Concepts****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Overview of software engineering concepts, analysis/design techniques, Unified Modeling Language (UML), software documentation, and group development of software.

**CS-335 Programming Language Concepts****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Course Type(s): None

Design, evaluation, and implementation of programming languages.

Discussion of imperative, applicative, object-oriented and concurrent languages. Four hours per week.

**CS-336 Program Analysis for Security****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

The course will introduce students to concepts and constructs found in classical programming languages and their application in security.

Topics include type systems, higher-order functions, and polymorphism, syntax and semantics, parsing, interpretation and advanced programming language theory of program analysis in security such as information flow control and taint analysis.

**CS-337 Enterprise Mobile iOS Apps Design and Development****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Presents methodologies to build enterprise mobile apps on iPad tablets and iPhone smartphones using iOS. The course will cover technologies to use in the design and development of apps on mobile devices and integration of these apps with corporate data sources, sensor devices and cloud computing services. Also listed as SE-337.

**CS-350 Research in Computer Science****Credits: 1-4**

Prerequisite(s): CS-306 passed with a grade of C or higher, a minimum of fifteen credits at Monmouth University and a minimum GPA of 3.25

Course Type(s): EX5

Original research work, associated with an external constituent and/or organization, planned and carried out with assistance of faculty research advisor. Research conducted by the student will be shared with the external constituency and submitted for outside publication and review. Number of credits arranged with advisor. Limited to Computer Science students with approval of chair, program director, or advisor.

**CS-357 Engineering Full-Stack Software Applications****Credits: 3**

Prerequisite(s): CS-176 and CS-176L

Term Offered: Fall Term

Course Type(s): None

A practical introduction to the principles, methods, and tools required to create high-quality software applications for the distributed, client-server context of the Web. Emphasis is on architectural designs, and language and data access methods that are common in Web-based systems. Also listed as SE-357.

**CS-358 Software Frameworks****Credits: 3**

Prerequisite(s): EN-101, EN-102, CS-205 and SE-207 both passed with a grade of C or higher; and SE-357 or CS-357, or permission of the instructor.

Course Type(s): WT

An introduction to Design Patterns and modern Software Frameworks, programming languages, data access methods and asynchronous Application Programming Interfaces (APIs). This is a writing intensive course. Restricted to Computer Science or Software Engineering students only. Also listed as SE-358. and SE-357 or CS-357 or permission of the instructor.

**CS-360 Introduction to Game Development****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

An introduction to the creation of computer/video games and the different elements of games, including computer graphics, animation, artificial intelligence, algorithms, data structures, networking, software development cycles and human-computer interaction. Also listed as SE-360.

**CS-370 Program Development Under Unix****Credits: 3**

Prerequisite(s): CS-176 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Introduction to the use of the UNIX operating system and its utilities for incremental and distributed program development, maintenance, and debugging. The course covers the UNIX shell, utilities, and program development tools that are used for large projects involving multiple developers on multiple machines. Three hours per week.

**CS-371 Scripting Languages****Credits: 3**

Prerequisite(s): CS-176 or equivalent

Term Offered: Spring Term

Course Type(s): None

An introduction to programming using widely-used, dynamically-typed, interpreted programming languages, which are sometimes called "scripting" languages. Covers general-purpose scripting languages, such as Perl and Python that are used to develop a wide range of applications. Scripting languages, such as PHP, that are used primarily in web development, will not be covered in this course.

**CS-375 File Management****Credits: 4**

Prerequisite(s): CS-205 passed with a grade of C or higher

Course Type(s): None

Overview of files, records and files, blocking and buffering, secondary storage devices; sequential file organization, external sort/merge algorithms; random access; relative file organization; tree-structured file organization; search trees, indexed sequential file organization; list-structured file organization; multiple-key file organization. Four hours per week.

**CS-388 Cooperative Education: Computer Science****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher, Junior standing and thirty or more earned credits with at least fifteen taken at Monmouth University

Term Offered: All Terms

Course Type(s): EX2

Provides an opportunity for students who are engaged in a computer science-related experience. Fifteen to twenty hours of work experience per week. This course may be repeated for credit. Departmental approval is required to take this course.

**CS-389 Internship in Computer Science****Credits: 3**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in Computer Science. Repeatable for credit. Junior standing, departmental approval, and placement are required to take this course.

**CS-398 Special Topics in Computer Science (300 Level)****Credits: 1-3**

Term Offered: Spring Term

Course Type(s): None

An intensive study of a particular subject or problem in computer science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. Three or four hours per week. If a prerequisite is required it will be announced in the course schedule.

**CS-399 Independent Study in Computer Science****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent study in a computer science topic not substantially treated in a regular course; for students with superior ability. One-hour consultation per week. Prior permission of the directing professor and department chair is required to take this course.

**CS-414 Computer Networks****Credits: 3**

Prerequisite(s): CS-286 passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

An introductory-level course on the hierarchy of networking software and hardware. Emphasis on the; description of protocols in the Internet, specifically, client-server Application Layer Protocols such as HTTP, SMTP, DNS, DHCP; Transport Layer Protocols such as UDP/TCP, Network Layer Protocols such as IP, ICMP, as well as Network Layer Routing and Forwarding techniques, such as RIP and OSPF for IPv4 and Tunneling for IPv6.

**CS-418 Compiler Construction****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Course Type(s): None

The principles and practices of incorporating the theory of finite automata and context-free languages, the maintenance and use of semantic information, and the generation and optimization of code to produce a compiler. Four hours per week.

**CS-420 Survey of Artificial Intelligence Concepts and Practices****Credits: 3**

Prerequisite(s): CS-205 and MA-130 both passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Introduction of fundamental concepts and practices of artificial intelligence, covering search techniques, constraint satisfaction, knowledge representation, machine learning, planning, and natural language processing. The course will provide experience in the implementation of techniques from these areas. Three hours per week.

**CS-432 Database Systems****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Overview of database system concepts; data modeling; ER and UML diagrams; relational database schema definition; database design; query languages; introduction to NoSQL and comparison between relational and non-relational databases; hand-on experience of SQL, Oracle, and NoSQL.

**CS-438 Operating Systems Analysis****Credits: 3**

Prerequisite(s): CS-286 and CS-205 both passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): None

Management of memory, processes, files, and devices. OS design principles and performance measures. Multiprogramming, multiprocessing, concurrency, deadlock, virtual machines. Competitive and cooperating processes. Programs will be written in C or in Java. Three hours per week.

**CS-450 Cyber Security****Credits: 3**

Prerequisite(s): CS-205

Term Offered: Fall Term

Course Type(s): None

Cover fundamental theory and practice of cyber security. Review cryptographic tools used to provide security, such as shared key encryption; public key encryption, key exchange, authentication, digital signature, and intrusion detection. Learn implementation of secure mechanisms in object-oriented programming languages. Also listed as SE-450.

**CS-451 Applied Computer Security****Credits: 3**

Prerequisite(s): CS-450 or SE-450

Term Offered: Spring Term

Course Type(s): None

This course will introduce students to multiple aspects of computer security and practice into a series of well-defined security topics such as network security and hacking tools. Also, the student will introduce different topics of digital forensics. Also listed as SE-451.

**CS-452 Introduction to Cloud Computing and Security****Credits: 3**

Prerequisite(s): CS-414 passed with a grade of C or higher.

Term Offered: Fall Term

Course Type(s): None

The course will introduce students to proven and mature cloud computing technologies and provide an overview of theory, practices, and methodologies of information security, focusing in particular on secure cloud computing.

**CS-471 System Administration****Credits: 3**

Prerequisite(s): CS-370 or CS-371 passed with a grade of C or higher

Term Offered: Spring Term

Course Type(s): None

Fundamental topics in system administration, focused primarily on UNIX administration with added coverage of Microsoft Windows NT descendant systems. The course is a hands-on introduction to installing and maintaining modern, multi-user, production UNIX-like operating systems and the essential services that are hosted on these systems.

**CS-488 Cooperative Education: Computer Science****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): EX2

Provides an opportunity for students who are engaged in a computer science-related experience. Fifteen to twenty hours of work experience per week. May be repeated for credit. Departmental approval is required to take this course. Junior standing, thirty or more earned credits with at least fifteen taken at Monmouth University and CS-205 passed with a grade of C or higher are required to take this course.

**CS-489 Internship in Computer Science****Credits: 1-3**

Term Offered: All Terms

Course Type(s): EX1

Supervised practical experience in Computer Science. Repeatable for credit. Junior standing, departmental approval, and placement are required to take this course.

**CS-490 Senior Project****Credits: 4**

Prerequisite(s): CS-325 and CS-432 both passed with a grade of C or higher

Term Offered: Spring Term

Course Type(s): RD

Affords the student an opportunity to integrate topics and techniques from previous coursework in a capstone project. The project will combine investigation into computer science literature and actual implementation, either in an area of current research or an application area of interest to industry. Implementation might involve collaboration with other students. The project will be presented formally, both orally and in written form. This course satisfies the reasoned oral discourse requirement for computer science students.

**CS-492A Computer Science Senior Project A****Credits: 3**

Prerequisite(s): CS-325 and CS-432, both passed with a grade of C or higher

Term Offered: All Terms

Course Type(s): RD

Affords the student an opportunity to integrate topics and techniques from previous coursework in a capstone project. The project will combine investigation into computer science literature and actual implementation, either in an area of current research or an application area of interest to industry. Implementation might involve collaboration with other students. The project will be presented formally both orally and in written form. This course satisfies the reasoned oral discourse requirement for computer science students.

**CS-492B Computer Science Senior Project B****Credits: 3**

Prerequisite(s): CS-492A

Term Offered: All Terms

Course Type(s): RD

Affords the student an opportunity to integrate topics and techniques from previous coursework in a capstone project. The project will combine investigation into computer science literature and actual implementation, either in an area of current research or an application area of interest to industry. Implementation might involve collaboration with other students. The project will be presented formally both orally and in written form. This course satisfies the reasoned oral discourse requirement for computer science students.

**CS-498 Special Topics in Computer Science (400 Level)****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

An intensive study of a particular subject or problem in computer science to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. Three or four hours per week. If a prerequisite is required it will be announced in the course schedule.

**CS-499 Independent Study in Computer Science****Credits: 1-4**

Term Offered: All Terms

Course Type(s): None

Independent study in a computer science topic not substantially treated in a regular course; for students with superior ability. One-hour consultation per week. Prior permission of the directing professor and department chair is required to take this course.

**IT-100 Information Technology****Credits: 3**

Term Offered: All Terms

Course Type(s): TL

Introduction to computer-based information management concepts that provide an integrated approach to computer software in a Windows environment. These include the ability to create, edit and format documents, spreadsheets, databases, presentation graphics, and internet applications; information retrieval from the Internet and online library resources; fundamental computer literacy; and the ethical and societal implications of computer technology. Hands-on experience in a computer lab is provided. Not open to students who have completed CS-104 or IT-102 or IT-150.

**IT-102 Information Technology for Scientists****Credits: 3**

Term Offered: All Terms

Course Type(s): TL

Introduction to computer-based information management that provides an integrated approach to computer software in a Windows environment, which includes the ability to create, edit and format documents, spreadsheets, mathematical models, databases, presentation graphics, and Internet applications. Emphasizes scientific applications, technical report preparation and presentation. Hands-on experience in a computer lab is provided. Not open to students who have completed CS-104 or IT-100 or IT-150.

**IT-103 Applied Information Technology****Credits: 3**

Term Offered: Fall Term

Course Type(s): TL

Applies the principles and tools of information technology toward a deeper understanding of their impact on scientific, social and ethical issues via a central theme for the semester such as (but not limited to) climate change, big data, health-care cost analysis and others. This course will use software such as spreadsheets, databases, modeling, simulation, data analysis, software, electronic-communication applications; information retrieval from the internet and on-line library resources; social media, intranet and extranet systems to help students emerge with thematic materials in a way that deepens their understanding of associated topics.

**IT-150 Information Technology for Business****Credits: 3**

Term Offered: All Terms

Course Type(s): TL

Introduction to computer-based information business management that provides an integrated approach to computer software in a Windows environment. This includes fundamental technology literacy; operating systems, the ability to create, edit and format documents, spreadsheets, databases, presentation graphics, and internet applications; computer and network security; troubleshooting; information retrieval from the Internet and on-line library resources; and the ethical, societal, legal, and economic implications of computer technology. Hands-on experience in a computer lab is provided. Not open to students who have completed CS-104 or IT-100 or IT-102.

**IT-200 Advanced Information Technology****Credits: 3**

Prerequisite(s): IT-100 or IT-102; or CS-104 or IT-150

Term Offered: All Terms

Course Type(s): None

Advanced concepts and techniques in computer-based information management are provided through an integrated approach to personal computer hardware and software in a Windows environment. These include: hardware and software considerations; societal and ethical considerations; the program development life cycle; creating tables; merging documents and desktop publishing in word processing; creating templates, workbooks with multiple worksheets, and creating a data map in electronic spreadsheets; creating custom reports and an application system using macros in database management; and using embedded visuals in presentation graphics applications. Hands-on experience with a microcomputer on a networked system is provided.

**IT-250 Web Application Design****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Introduction to creating websites and applications for the Web that adapt to smart phones, tablets and desktop computers. Creation of web applications with content, images that can link to other apps. Creation of modern style layouts for various applications. Skills include: HTML, CSS, and embedding JavaScript code. Hands-on experience using the computer labs and web server.

**IT-275 Data Analytics for Web Applications****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Define Data Analytics and the key steps in the Data Analytics process involving collecting, wrangling, mining, and visualizing data. Concepts include different types of data structures, file formats, sources of data, and Big Data. Collecting data from public websites. Making use of Generative AI. Students will learn about and take on various Roles: Data Engineer, Data Analyst, Data Scientist, Business Analyst, and Business Intelligence Analyst.

**IT-298 Special Topics in Information Technology (200 Level)****Credits: 3**

Prerequisite(s): IT-100 and as announced in the course schedule

Course Type(s): None

Topics of current interest in Information Technology.

**IT-299 Independent Study in Information Technology****Credits: 3**

Term Offered: Summer Term

Course Type(s): None

Reading and research on a selected topic under the direction of a faculty member.

**IT-300 Web Programming****Credits: 3**

Prerequisite(s): IT-250 or permission of the department

Term Offered: All Terms

Course Type(s): None

Introducing dynamic web actions such as: app sign-up and processing data forms, creating blogs, creating animations, advertisements, popup windows, selling products online, email blasts etc. Students will also learn processing the meta data of a website/application (ie number of visits, clicks, duration per visit, returning customers etc.). Simple examples in Gaming, AI and Data Analytics can be used. Skills include: php, JavaScript, mySQL.

**IT-398 Special Topics in Information Technology (300 Level)****Credits: 3**

Prerequisite(s): IT-100 and as announced in the course schedule

Course Type(s): None

Topics of current interest in Information Technology.

**IT-399 Independent Study in Information Technology****Credits: 3**

Term Offered: Spring Term

Course Type(s): None

Reading and research on a selected topic under the direction of a faculty member. Prior permission of the directing professor and department chair is required to take this course.

**IT-450 Information Systems Project Management****Credits: 3**

Prerequisite(s): IT-250 or permission of the department

Co-requisite(s): IT-300

Term Offered: All Terms

Course Type(s): EX5

Students will use their skills to create web applications for local businesses and vendors as their client. Students will create applications and promote them using: social media, creating QR (Quick Response) and using codes, search engine marketing strategies. Students will work on small teams and use tools and skills of a system analyst for project management. Project management software will be used to track progress for reporting to a client.

**IT-498 Special Topics in Information Technology (400 Level)****Credits: 3**

Prerequisite(s): IT-100 and as announced in the course schedule

Course Type(s): None

Topics of current interest in Information Technology.

**IT-499 Independent Study in Information Technology****Credits: 3**

Course Type(s): None

Reading and research on a selected topic under the direction of a faculty member.

**SE-199 Independent Study in Software Engineering****Credits: 3**

Term Offered: Summer Term

Course Type(s): None

Independent Study of a particular subject or problem in software engineering under the guidance of a software engineering faculty member. Prior permission of the directing professor and department chair is required to take this course.

**SE-205 Requirements Engineering and Specifications****Credits: 3**

Prerequisite(s): CS-104 and CS-175

Term Offered: All Terms

Course Type(s): None

Elicitation, analysis, specification, validation, and management of user requirements; process, notations, methods and tools, requirements standards, system requirements specifications document (SRS).

**SE-207 Software Design and Architecture****Credits: 3**

Prerequisite(s): CS-104 and CS-176; and EN-101 and EN-102 or

permission of the instructor

Term Offered: Spring Term

Course Type(s): WT

Design process notations, methods, paradigms, and tools. System architecture tradeoff analysis; component and subcomponent specification. Generic (domain) design; architectural styles, frameworks, and patterns. Architecture standards; design tools.

**SE-289 Internship in Software Engineering****Credits: 3**

Term Offered: Summer Term

Course Type(s): EX1

Supervised practical experience in Software Engineering. Repeatable for credit. Junior standing, departmental approval, and placement are required to take this course.

**SE-299 Independent Study in Software Engineering****Credits: 3**

Term Offered: All Terms

Course Type(s): None

Independent Study of a particular subject or problem in software engineering under the guidance of a software engineering faculty member. Prior permission of the directing professor and department chair is required to take this course.

**SE-301 Android Application Development****Credits: 3**

Prerequisite(s): CS-205 and CS-205L

Course Type(s): None

This course will teach students software methodologies for Android App Development. This will include Android Development Studio, Kotlin programming language, and interfaces to external services required to develop simple to moderately complex Android mobile apps. Also listed as CS-301.

**SE-306 Formal Methods in Software Engineering****Credits: 3**

Prerequisite(s): MA-120 or MA-130, and MA-220, passed with a grade of C or higher.

Term Offered: All Terms

Course Type(s): None

Covers a variety of formal methods and applies them to software-specification development. Assumes a firm grounding in mathematical logic, knowledge of proof techniques, and skill in the translation of problems expressed in English into predicate logic.

**SE-312 Software Verification, Validation, and Maintenance****Credits: 3**

Prerequisite(s): CS-104 and CS-176

Term Offered: All Terms

Course Type(s): None

Covers inspections of requirements, design and code, as well as testing, the handling of change requests, software evolution, code comprehension, and change management.

**SE-337 Enterprise Mobile iOS Apps Design and Development****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Presents methodologies to build enterprise mobile apps on iPad tablets and iPhone smartphones using iOS. The course will cover technologies to use in the design and development of apps on mobile devices and integration of these apps with corporate data sources, sensor devices and cloud computing services. Also listed as CS-337.

**SE-352 Embedded and Real-Time Software****Credits: 3**

Prerequisite(s): CS-176, CS-176L, and SE-205 all passed with a grade of C or higher.

Term Offered: Spring Term

Course Type(s): None

Familiarizes students with the fundamental issues related to embedded and real-time software systems and gives them an opportunity to become familiar with a commercially available system for developing and testing embedded and real-time software. Topics include: definition of embedded systems, process concurrency, interprocess communications, synchronization, and process scheduling.

**SE-353 Comparative Languages****Credits: 3**

Prerequisite(s): CS-176

Course Type(s): None

Begins with a history of the development of programming languages that provides the background necessary to understand programming-language design and evaluation. This is followed by an introduction to the basic programming language constructs and then critically comparing their implementation in some of the most common languages. Included is a discussion of the advantages and disadvantages of modern programming languages for a variety of applications. Some of the languages discussed are LISP, C, Small Talk, C++, Java, Ada, PL/1, and Prolog.

**SE-357 Engineering Full-Stack Software Applications****Credits: 3**

Prerequisite(s): CS-176 and CS-176L

Term Offered: All Terms

Course Type(s): None

A practical introduction to the principles, methods, and tools required to create high-quality software applications for the distributed, client-server context of the Web. Emphasis is on architectural designs, and language and data access methods that are common in Web-based systems. Also listed as CS-357.

**SE-358 Software Frameworks****Credits: 3**

Prerequisite(s): EN-101, EN-102, CS-205 and SE-207 both passed with a grade of C or higher; and SE-357 or CS-357, or permission of the instructor.

Term Offered: Spring Term

Course Type(s): WT

An introduction to Design Patterns and modern Software Frameworks, programming languages, data access methods and asynchronous Application Programming Interfaces (APIs). This is a writing intensive course. Restricted to Computer Science or Software Engineering students only. Also listed as CS-358. SE-357 or CS-357 or permission of the instructor.

**SE-360 Introduction to Game Development****Credits: 3**

Prerequisite(s): CS-205 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

An introduction to the creation of computer/video games and the different elements of games, including computer graphics, animation, artificial intelligence, algorithms, data structures, networking, software development cycles and human-computer interaction. Also listed as CS-360.

**SE-370 Program Development Under Unix****Credits: 3**

Prerequisite(s): CS-176 passed with a grade of C or higher

Term Offered: Fall Term

Course Type(s): None

Introduction to the use of the UNIX operating system and its utilities for incremental and distributed program development, maintenance, and debugging. The course covers the UNIX shell, utilities, and program development tools that are used for large projects involving multiple developers on multiple machines. Three hours per week.

**SE-398 Special Topics in Software Engineering****Credits: 3**

Course Type(s): None

A 300-level intensive study of a particular subject or problem in software engineering to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. Three or four hours per week. If a prerequisite is required it will be announced in the course schedule.

**SE-399 Independent Study in Software Engineering****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Independent Study of a particular subject or problem in software engineering under the guidance of a software engineering faculty member. Prior permission of the directing professor and department chair is required to take this course.

**SE-402 Human Computer Interaction****Credits: 3**

Term Offered: Spring Term

Course Type(s): IM

Covers basic human psychology, computer technology, and the interface between them. The key topics of HCI are examined, grounded in the context of usability and the design lifecycle.

**SE-403 Software Process Improvement****Credits: 3**

Prerequisite(s): CS-205

Term Offered: Spring Term

Course Type(s): None

Students will be introduced to the various aspects related to software processes. It will focus on the definition and modeling of a software process, as well as on methods for process assessment and improvement. The concepts will be illustrated through process-improvement case studies, followed by hands-on experience with the improvement of the personal software-development process.

**SE-418 Software Project Management****Credits: 3**

Prerequisite(s): CS-176; and EN-101 and EN-102 or permission of the instructor

Term Offered: All Terms

Course Type(s): WT

Project management and its application to software-development projects. Emphasis will be on planning, organizing, monitoring, and controlling. Students will learn how to develop work breakdown structures, estimate task durations, assign resources, specify network precedence, and determine a project's critical path. Methods for scheduling in the face of resource constraints will be included, as well as function point counting, algorithmic models for estimating total project cost, and software tools for project planning and monitoring.

**SE-450 Cyber Security****Credits: 3**

Prerequisite(s): CS-205

Term Offered: Fall Term

Course Type(s): None

Cover fundamental theory and practice of cyber security. Review cryptographic tools used to provide security, such as shared key encryption; public key encryption, key exchange, authentication, digital signature, and intrusion detection. Learn implementation of secure mechanisms in object-oriented programming languages. Also listed as CS-450.

**SE-451 Applied Computer Security****Credits: 3**

Prerequisite(s): CS-450 or SE-450

Term Offered: Spring Term

Course Type(s): None

This course will introduce students to multiple aspects of computer security and practice into a series of well-defined security topics such as network security and hacking tools. Also, the student will introduce different topics of digital forensics. Also listed as CS-451.

**SE-485A Software Practicum****Credits: 3**

Prerequisite(s): CS-205, SE-205, SE-207, SE-312, SE-357 and SE-358 All passed with a grade of C or higher.

Term Offered: Fall Term

Course Type(s): EX5, RD

Team work on substantial software projects submitted by corporate sponsors. Interim progress reports required, with a final formal defense and presentation to corporate staff, faculty, and other students in the course. At the end of SE-485A, students must submit their software engineering portfolio for review by the Software Engineering faculty.

**SE-485B Software Practicum****Credits: 3**

Prerequisite(s): SE-485A

Co-requisite(s): SE-402

Term Offered: Spring Term

Course Type(s): EX5, RD

Team work on substantial software projects submitted by corporate sponsors. Interim progress reports required, with a final formal defense and presentation to corporate staff, faculty, and other students in the course. At the end of SE-485B, students must submit their software engineering portfolio for review by the Software Engineering faculty.

**SE-498 Special Topics in Software Engineering****Credits: 3**

Term Offered: Fall Term

Course Type(s): None

A 400-level intensive study of a particular subject or problem in software engineering to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. Three or four hours per week. If a prerequisite is required it will be announced in the course schedule.

**SE-499 Independent Study in Software Engineering****Credits: 1-3**

Term Offered: All Terms

Course Type(s): None

Independent Study of a particular subject or problem in software engineering under the guidance of a software engineering faculty member. Prior permission of the directing professor and department chair is required to take this course.

<sup>1</sup> Except the following courses: CS-288, CS-289, CS-388, CS-389, CS-488, CS-489, CS-212, CS-222, CS-302, CS-312, CS-316, CS-320, CS-322, and CS-330

<sup>2</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>3</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.

## Note:

- 54 credits must be completed at the 200-level or higher.

## B.A. in Computer Science (CS.BA)

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

**Major Requirements/Computer Science (54 credits)**

|        |                                                          |   |
|--------|----------------------------------------------------------|---|
| CS-104 | Introduction to Problem Solving and Software Development | 3 |
|--------|----------------------------------------------------------|---|

*(Satisfies Technological Literacy (TL) in General Education)*

|         |                                                 |   |
|---------|-------------------------------------------------|---|
| CS-175  | Introduction to Computer Science I              | 3 |
| CS-175L | Introduction to Computer Science I lab          | 1 |
| CS-176  | Introduction to Computer Science II             | 3 |
| CS-176L | Introduction to Computer Science II Lab         | 1 |
| CS-205  | Data Structures and Algorithms                  | 3 |
| CS-205L | Data Structures and Algorithms Lab              | 1 |
| CS-286  | Computer Architecture I                         | 3 |
| CS-305  | Advanced Computing                              | 3 |
| CS-325  | Software Engineering Concepts                   | 3 |
| CS-310  | Advanced Object-Oriented Programming and Design | 3 |
| CS-414  | Computer Networks                               | 3 |
| CS-432  | Database Systems                                | 3 |
| CS-438  | Operating Systems Analysis                      | 3 |
| CS-450  | Cyber Security                                  | 3 |
| CS-492A | Computer Science Senior Project A               | 3 |
| CS-492B | Computer Science Senior Project B               | 3 |

*(CS-492A and CS-492B satisfy Reasoned Oral Discourse (RD) in General Education)*

Select 6 credits of Computer Science (CS) courses at the 200-level or higher <sup>1</sup> 6

Select 3 credits of Computer Science (CS) courses at the 400-level or higher (except CS-488 and CS-489) 3

**Interdisciplinary Requirements (7 credits)**

MA-130 Applied Discrete Mathematics 3

Select one of the following: 4

MA-109 Pre-Calculus Mathematics

Select 4 credits of Mathematics (MA) <sup>2</sup>

(MA-109 or higher satisfies Mathematics in General Education)

**Free Electives (23 credits) <sup>3</sup>**

Select 23 credits of free electives <sup>3</sup> 23

**General Education Requirements (36 credits) <sup>4</sup>**

Complete 36 credits as outlined on the General Education table. <sup>4</sup> 36

**Total Credits** 120

<sup>1</sup> Except the following courses: CS-288, CS-289, CS-388, CS-389, CS-488, and CS-489

<sup>2</sup> Except MA-100 Quantitative Reasoning and Problem Solving (3 cr.), MA-101 College Algebra (3 cr.)MA-103 Foundations of Elementary Mathematics (3 cr.)MA-105 Mathematical Modeling in the Social Sciences (3 cr.)MA-107 Mathematics in the Arts (3 cr.)MA-120 Introduction to Mathematical Reasoning (4 cr.)MA-130 Applied Discrete Mathematics (3 cr.)MA-203 Foundations of Elementary Mathematics I (3 cr.)MA-204 Foundations of Elementary Mathematics II (3 cr.)MA-237 Programming and Technology in Mathematics (4 cr.)

<sup>3</sup> Please consult with your advisor regarding the required number of free electives that must be completed.

<sup>4</sup> The General Education curriculum requires the completion of 45 credits. However, students may be able to share credits from within their major or interdisciplinary requirements. Please consult with your advisor to determine which General Education (p. 45) courses must be completed.
