HEALTH AND PHYSICAL EDUCATION

Chair: Christopher Hirschler, Department of Health and Physical Education

Health Studies

The Health Studies (https://www.monmouth.edu/school-of-nursing-health/health-majors-for-undergraduates.aspx) program at Monmouth University is designed for students who wish to enhance their knowledge of health and prepare for careers in the exciting field of healthcare and health promotion. Courses engage students in analysis of current research, problem-solving, and valuable internships. The program enables students to develop the skills needed to positively impact lives through the application, evaluation, and creation of knowledge. Additionally, students develop an understanding of the link between new research in health science and the development of healthcare strategies and policies.

Graduates of the program are prepared to work with individuals, groups, and families in health organizations and services, corporate health programs, education, and at the local, state, federal, or international level. Students can further their education by pursuing graduate degrees in areas such as medicine, dentistry, physical therapy, health and physical education, healthcare administration, public health, and many others.

The mission of the Health Studies program is to increase students' knowledge in a variety of health disciplines by teaching students to: analyze the causes and means of preventing disease and illness while seeking optimal health, develop the responsibilities and competencies of effective health educators, and advocate for the health of others. The mission of the Health and Physical Education program is to prepare well-rounded undergraduates for careers in health and physical education through a curriculum that combines courses in health education with a strong foundation in exercise science.

Health Studies graduates have secured employment in various health-related organizations as well as acceptance to graduate schools in numerous health science disciplines. Health Studies students are prepared for graduate programs including: Athletic Training, Exercise Science, Health Promotion, Medicine, Occupational Therapy, Physical Therapy, Physician Assistant, and Public Health. All students are encouraged to apply to sit for the Certified Health Education Specialist (CHES (https://www.nchec.org)) certification exam at the conclusion of their undergraduate curriculum.

The School of Nursing and Health Studies Web site (http://www.monmouth.edu/academics/schools/nursing/health.asp) provides additional information regarding employment settings.

Student Health Honor Society: Epsilon Gamma Chapter – Eta Sigma Gamma (https://www.monmouth.edu/academics/hepe/ESG.asp) National Health Education Honor Society

Physical Education

Note: A maximum of four credits of physical education course work will be applied toward degree requirements for non-health physical education majors. Health/Physical Education and Health/Physical Education with an Endorsement in Education majors complete six (6) credits of physical education course work.

Programs

Majors

- B.S. in Health Promotion (http://catalog.monmouth.edu/undergraduate-catalog/marjorie-k-unterberg-nursing-health-studies/health-promotion-bs)
- B.S. in Health Studies (http://catalog.monmouth.edu/undergraduate-catalog/marjorie-k-unterberg-nursing-health-studies/health-physical-education-health-studies-bs)
- B.S. in Health and Physical Education with an Education Endorsement in K-12 (http://catalog.monmouth.edu/undergraduate-catalog/marjorie-k-unterberg-nursing-health-studies/health-physical-education-health-physical-education-endorsement-k-12-bs)

Minor

- Health Studies (http://catalog.monmouth.edu/undergraduate-catalog/marjorie-k-unterberg-nursing-health-studies/health-physical-education-health-studies-minor)

Faculty

Sasha N. Canan, Assistant Professor. B.A., West Virginia University; M.Ed., Widener University; Ph.D., University of Arkansas.

scanan@monmouth.edu

Staci Drewson, Assistant Professor. B.A., Gonzaga University; M.S., Ph.D., Springfield College. Interests include teaching through physical activities, sport and end exercise psychology.

srandrew@monmouth.edu

Kiameesha Evans, Specialist Professor. B.A., Johns Hopkins University; M.A., University of Medicine and Dentistry, NJ. Her research interests include health disparities, community-based research, coalition building/community development, and use of social media and emerging technologies to advance health education. She has held the Certified Health Education Specialist (CHES) credential since 1998 and obtained the Master CHES credential in 2011.

kevans@monmouth.edu

Christopher A Hirschler, Associate Professor and Chair. B.S., Excelsior College; M.A., State University of New York; Ph.D., Cleveland State University. Specialty area interests include physical activity and nutrition, childhood obesity prevention, development of worksite health promotion programming, and women's health.

chirschler@monmouth.edu

Andrea Hope, Associate Professor. B.S., Montclair State University; M.S., The American University; Ed.D., C.H.E.S., Teachers College, Columbia University. Specialty areas and interests include physical activity and nutrition, childhood obesity prevention, development of worksite health promotion programming, and women's health.

ahope@monmouth.edu

Maria Hrycenko, Lecturer. B.S., Rutgers University; D.C., Sherman College of Chiropractic, Spartanburg, South Carolina. Specialty area interests include health policy, alternative health, and ergonomics.

mhrycenko@monmouth.edu

Jeremy Lackman, Assistant Professor. B.S., University of Central Missouri; M.S., Brooklyn College; (C.U.N.Y); Ph.D., University of Georgia.

jilackman@monmouth.edu

Marilynn McNeil, Associate Professor.
Vice President and Director of Athletics. B.P.E., the University of Calgary; M.A., McGill University; Ed.D., Washington State University. Dr. McNeil is active on the national level of intercollegiate athletics. She is a former member of the NCAA Division I Committee on Women's Athletics and the Management Council and also served as president of the National Association of Collegiate Women Athletics Administrators (NACWAA). In 2001, Dr. McNeil was honored as the NACWAA Division I Administrator of the Year.

Jaime Myers, Assistant Professor. B.A., M.P.H., Emory University; Ph.D., University of South Florida. Dr. Myers specializes in psychosocial determinants of health using a public health perspective. Broadly interested in sexual health, women’s health, applied statistics, and maternal and child health, her doctoral work focused on determinants of and reasons for disclosure among individuals with genital herpes. In her current research, she continues to investigate the process of sexually transmitted infection disclosure.

Jamie Pigman, Lecturer. B.S., M.A., Montclair State University; Ph.D., University of Delaware. Dr. Pigman specializes in social determinants of health, focusing on how structural and policy-level factors influence health disparity and inequity. She is particularly interested in the intersection of health and social justice, and has expertise in research methods including quasi-experimental and mixed-methods designs.

Julie Schaaff, Lecturer. B.A., Bucknell University; M.A., University of Delaware. Specialty areas include biomechanics, mind-body fitness, and health studies.

Courses

**HE-100 Technology and Health Informatics**

Term Offered: Fall Term  
Course Type(s): TL  
Credits: 3  
Described to provide an introduction to the computer technology used in health care and its impact on decision-making. Includes an overview of the basic computer skills required to process electronic information, the nature and types of health information available on the World Wide Web, the development of search skills associated with finding information, linking electronic information to health decision-making processes, ethical and social issues involving the use of technology, and identifying major issues in computer and Internet security. Also listed as NU-100.

**HE-101 Strategies for Healthy Living**

Term Offered: All Terms  
Course Type(s): None  
Credits: 3  
Factors influencing personal health; function of body cells and systems; lifestyle choices such as nutrition, exercise, alcohol, drug and tobacco use, sexuality, contraception, and sexually transmitted diseases; the U.S. health care system and those of other countries.

**HE-150 Medical Terminology**

Term Offered: All Terms  
Course Type(s): HE.EL, HEPE, NU.EL  
Credits: 3  
Introduction of medical terminology to those students who have an interest in a wide variety of health care services. Presents a study of basic medical terms, including prefixes, suffixes, word roots, special endings, plural forms, abbreviations, and has a special emphasis on spelling, definition, usage, and pronunciation for each body system. A programmed learning, word building system will be used to learn word parts that are used to construct and analyze new terms. The accurate use and understanding of medical terminology used in communications between health care professionals, clients, and other providers of care will be enhanced by taking this course.

**HE-180 Introduction to Public Health**

Term Offered: All Terms  
Course Type(s): HE.EL, HEPE  
Credits: 3  
This course is designed to provide an introduction to the field of public health. The history of the field as well as key philosophical perspectives are reviewed. It will address the core values of public health practice, and the role of public health agencies at the international, national, state and local levels. Determinants of health, public health initiatives, ethical practice and selected contemporary public health issues will be explored.

**HE-198 Special Topics in Health Studies**

Term Offered: All Terms  
Course Type(s): HE.EL, HEPE  
Credits: 1-3  
An intensive study of a particular subject or problem in health studies to be announced prior to registration. May be conducted on either a lecture-discussion or a seminar basis. If there is a prerequisite for this course it will be announced in the course schedule.

**HE-199 Independent Study in Health Studies**

Term Offered: All Terms  
Course Type(s): HE.EL, HEPE  
Credits: 3  
Guided research and in-depth study of an area of health studies of particular interest to the student.

**HE-200 Becoming a Home Health Aide**

Term Offered: All Terms  
Course Type(s): HE.EL  
Credits: 4  
Through classroom lecture, discussions, reading and laboratory practice the student will learn the 76-hour training program designed to meet the NJ requirements for the Certified Homemaker/Home Health Aide (HHA). After completion of this course the student will have the opportunity to sit for the state examination and become certified as a HHA. Once certified, the student will be able to gain employment as a certified HHA in numerous agencies and institutions in NJ.

**HE-212 Lifespan Development and Health**

Term Offered: All Terms  
Course Type(s): HE.EL, RD  
Credits: 3  
Health from conception through senescence using a developmental approach. Examines the factors that influence health at each stage of life, including the effect of environmental, biological, and genetic influences and common deviations from health. Using this approach, the student will investigate the effect of political and economic policies, education, epidemiology, health promotion, and illness prevention programs.

**HE-225 Mind-Body Connection**

Term Offered: All Terms  
Course Type(s): HE.EL  
Credits: 3  
Focuses on the psychology of wellness and illness and the healing connections between the mind and body across diverse cultures. How stress is interpreted and expressed in different cultures will be explored. The healing practices and rituals of different faiths and cultural traditions will be explored.

**HE-235 Human Aging**

Term Offered: Fall Term  
Course Type(s): EX3, HE.EL, HEPE  
Credits: 3  
Designed to provide an understanding of the major health problems, health promotion, and wellness concepts that affect older people. Offers an introduction to the physical and functional changes associated with human aging. Common illnesses that are often identified in older people will be discussed. In addition, factors will be presented that are believed to cause or influence the aging process, changes in physical function and quality of life.
HE-260 Substance Use and Abuse
Term Offered: All Terms
Course Type(s): HE.EL
Physical, psychological, and sociological aspects of addictive substances; legal and ethical concerns; alternative methods of dealing with stress in young adulthood; socially responsible behavior.

HE-290 Health Research Methods
Prerequisite(s): EN-101 and EN-102
Co-requisite(s): MA-151
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
Introduces students to the basic concepts in health sciences research. Students will gain an understanding of the rationale for conducting research, study designs, qualitative and quantitative inquiry, principles of instrumentation and measurement, data management and interpretation, and research proposal writing and presentation techniques. Students should be able to apply these concepts to evaluate research done by others.

HE-320 Principles of Health Education
Prerequisite(s): HE-101 and HE-290; or permission of the instructor
Term Offered: All Terms
Course Type(s): HE.EL, HEPE, RD
Examination of the principles and practices of health education for adults in the community, including program development and implementation, educational strategies, behavioral objectives, learner characteristics, and institutional assessment. Essential factors for teaching, learning, and motivating clients to make behavioral changes to promote health.

HE-324 Human Sexuality
Term Offered: All Terms
Course Type(s): GS, HE.EL
Designed to provide the student with a factual background as well as an in-depth understanding of his or her own and others' sexuality and how it affects health. Focuses on developing an understanding of the essential components of human sexuality and its interrelationship with human development. Social, cultural, and developmental determinants will be examined for their influence upon human sexuality. Examines the relationship between human sexuality and professional nursing practice. Content will include: the use of a sexual history in the nursing assessment; sexually transmitted disease; effects of pregnancy and aging on sexuality; effects of medical, surgical, and chronic health problems on an individual's sexual functioning; and identity. The role of the nurse as an educator/counselor is discussed. Also listed as NU-324.

HE-330 Women's Health
Term Offered: All Terms
Course Type(s): BI.EL, CD, GS, HE.EL, HEPE
Health care needs/concerns of women from diverse cultures will be examined. The focus will be on African, Asian, Caribbean, and Latina perspectives of health beliefs, health practices, physical and psychological threats, ethical issues. Body image, sexuality, marriage customs, reproduction, childbirth, parenting, lifestyle choices, menopause, and aging will be examined within the context of culture and contrasted to those of Western women. Also listed as NU-330.

HE-340 Environmental Health Issues
Term Offered: Spring Term
Course Type(s): BI.EL, GU, HE.EL, HEPE, SUS
A comprehensive study of current environmental, occupational health issues and associated health risks. Focus on the practical applications of assessing environmental, quality and occupational safety. Major topics include: population growth, water quality, use of pesticides, air pollution, food quality, and occupational health. Legal and regulatory issues also considered.

HE-350 Epidemiology
Prerequisite(s): HE-290 passed with a grade of C- or higher and MA-151; or permission of the instructor
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
A study of the basic principles and methods of epidemiology. These include types of epidemiologic studies, choices in study design, measures of disease frequency and association, sources of bias, screening, and applications to public health. The course covers conceptual and practical issues in epidemiologic research and the interpretation of epidemiologic data.

HE-360 Transcultural Health
Term Offered: All Terms
Course Type(s): BI.EL, GU, HE.EL, HEPE
Focuses on African, Asian, Caribbean, South- and Latin-American, Middle-East, and Indian beliefs, values, and health practices; physical and psychological threats to health; and ethical issues. Differences of cultural beliefs related to health, illness, and the impact on the delivery of healthcare will be examined. Also listed as NU-360.

HE-365 Wisdom, Wellness and Aging
Term Offered: All Terms
Course Type(s): CD, HE.EL, HEPE
Provides an understanding of the cross-cultural variations in the status of aging and health in older adults. Examples of various cultures include examining older adults from non-English speaking countries, such as North Korea, South Korea, Iran, Mexico, China, and Brazil. Examines factors that affect the economic, social, and health care decisions made by the older adults from these diverse populations as well as other nations. Topics to be covered include examinations of health implications on aging populations in non-English speaking countries. Compare countries, such as Japan, India, and Nigeria, to explore how their specific culture influences caregiving, social support networks, and community. Specific cultural views of love, intimacy, and sexuality in older adults will be examined. Also listed as NU-365.

HE-370 Alternative/Complementary Health Therapies
Term Offered: All Terms
Course Type(s): BI.EL, GU, HE.EL, HEPE
Cultural origins of Complementary Alternative Medical (CAM) therapies will be discussed. Perspectives of health and healing through co-mingling Eastern Traditional Complementary and Alternative Medicine (TCAM) therapies and Western biomedical practices into an integrative strategy will be examined. Appropriate therapies for health promotion and specific illness contexts, potential risks/benefits, ethical issues addressing treatment choices and global entities that employ CAM therapies will be discussed. There will be an emphasis on choosing CAM therapies that are supported by research as safe and effective. Knowledge of reliable sources of information on the Internet will improve decision making regarding therapies. Also listed as NU-370.
HE-375  Health in Developing Countries: A Cross-Cultural Perspective  Credits: 3
Term Offered: All Terms
Course Type(s): BI.EL, GU, HE.EL, HEPE, SUS
Designed to introduce students to the concept of health as a cross-cultural issue. Students will examine their own health beliefs and practices and expand their understanding of health and health issues of the developing world. Contemporary health issues will be analyzed. Health care delivery systems in selected countries in Asia and Africa will be examined and compared to the American health care system. Students are expected to problem solve and postulate solutions to contemporary and emerging health issues. Also listed as NU-375.

HE-376  Guatemala Public Health  Credits: 3
Term Offered: Spring Term
Course Type(s): CD, EX3, HE.EL, HEPE
Guatemala Public Health will introduce students to the concepts and practice of public health in a developing country. Students will expand their understanding of health issues that exist in Guatemala and they will deliver a health education lesson to "Las Amigas", Guatemalans who are being trained to be community health care workers. The group will also work on a construction project during the work week. Students and faculty will fly to Guatemala City and travel to Chichicastenango and Antigua and several surrounding towns. This is a hybrid course that involves asynchronous on-line work. Permission of the instructor is required to take this course.

HE-380  Nutrition and Health  Credits: 3
Term Offered: All Terms
Course Type(s): HE.EL
An introduction to the physiology of nutrition, basic concepts of normal nutrition and nutrition in chronic disease (such as diabetes mellitus, and cardiovascular disease and obesity) will be explored. A study of the basic nutrients and the gastrointestinal system in its role of digestion, absorption, and metabolism. Food needs of an individual throughout life (birth to old age) will be considered along with necessary dietary modifications caused by decreased activity. Food fads and fallacies will be discussed, as will factors to consider in choosing a healthy diet. Current concerns, such as how safe are the additives in our foods; the role of sugar, salt, and highly processed foods; and alternative therapies, such as herbal remedies and phytochemicals and their potential roles in modern nutrition will be studied. Weight management will be addressed as it relates to medical-nutrition therapy.

HE-389  Internship in Health and Physical Education  Credits: 1-3
Term Offered: All Terms
Course Type(s): EX1, HE.EL, HEPE
Supervised, pre-professional field experience in health and physical education. The student will secure an internship site related to his/her interests and career goals. Potential internship sites include health and fitness clubs, community wellness agencies, coaching opportunities, hospitals, corporations, and private services. The student will work fifty hours per credit per term at his/her internship site. Students are required to obtain a faculty sponsor, develop learning objectives at the start of their internship, keep a journal of their internship activities throughout their placement, and write a final paper reflecting upon their internship experience. Also listed as PE-389. This is a pass/fail course. Junior standing (and others by permission of a faculty advisor), placement opportunity and approval by the Health and Physical Education Department are required to take this course. Limited to Health majors.

HE-398  Special Topics in Health Education (300 Level)  Credits: 1-3
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
An intensive study of a particular subject or problem in health education to be announced prior to registration. If there is a prerequisite for this course it will be announced in the course schedule.

HE-399  Independent Study in Health  Credits: 1-3
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
Guided research and in-depth study of an area of health of particular interest to the student.

HE-430  Health Advocacy  Credits: 3
Prerequisite(s): HE-101, HE-290, and Junior standing; or permission of the instructor
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
Focus is on personal and peer health advocacy. Being healthy involves making decisions that are right for each individual and being part of a community that promotes healthy behaviors. Advocating for individual health requires that the student has the confidence, basic understanding of advocacy, resources, and skills to make proper health decisions. Foster student health advocacy as skills are taught while students grapple with personal and social questions that affect their overall health and the health of others. Put student-health promotion into the hands of the students. They will be required to create a health initiative. These initiatives will foster a healthier Monmouth University community.

HE-435  Community Health  Credits: 3
Prerequisite(s): HE-101, HE290, EN-101, EN-102 and Junior standing; or permission of the instructor
Term Offered: All Terms
Course Type(s): WT
Healthcare of groups and communities; this includes community and public health theories, epidemiology, health promotion, illness prevention, research, ethics, vulnerable populations, and common deviations from health.

HE-440  Health Policy  Credits: 3
Prerequisite(s): HE-101, HE-290, EN-101, EN-102 and Junior standing; or permission of the instructor
Term Offered: All Terms
Course Type(s): HE.EL, HEPE, WT
Delves into the core elements that define health policy. Describes factors, such as the healthcare delivery systems (public/non-profits vs. private/for profits), access to care, healthcare financing, quality-of-care issues, and social issues, such as gender and culture, and their impact on health and healthcare. The dynamics of the policy-making process at different levels (federal, state and local) will be explored, along with policy analysis and how policy influences healthcare decisions. The complexities and challenges of healthcare reform will be identified. Also listed as NU-440.
HE-476  Interpersonal Violence  Credits: 3
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
Examines the various types and patterns of violence related to cultural values, beliefs, biases, and societal issues, as well as the historical perspectives of violence. Course content includes: family, community, youth, and workplace violence; child, domestic, elder, and sexual abuse. Theories concerning gender violence, gangs, bias and hate crimes, and terrorism are challenged. Public health and health care issues related to violence, and primary, secondary, and tertiary-level interventions for victims and offenders of violence are discussed. Individual responsibilities associated with identification and reporting violence are identified. Health care measures to identify and prevent violence are analyzed. Methods of treatment for victims and perpetrators of violence are evaluated. Also listed as NU-476.

HE-485  Professional Seminar in Health  Credits: 3
Prerequisite(s): HE-101, HE-290 and Junior standing; or permission of the instructor
Term Offered: All Terms
Course Type(s): EX5, HE.EL, HEPE
Provides students with the experiential education requirement for the BS in Health Studies. Students will have a placement in a health setting where they will have the opportunity to work with a health professional and to apply what they have learned in class to the experiential setting. Weekly seminars will be designed to allow the students to share their experiences with their peers.

HE-489  Internship in Health and Physical Education  Credits: 1-3
Term Offered: Summer Term
Course Type(s): EX1, HE.EL, HEPE
Supervised, pre-professional field experience in health and physical education. The student will secure an internship site related to his/her interests and career goals. Potential internship sites include health and fitness clubs, community wellness agencies, coaching opportunities, hospitals, corporations, and private services. The student will work fifty hours per credit per term at his/her internship site. Students are required to obtain a faculty sponsor, develop learning objectives at the start of their internship, keep a journal of their internship activities throughout their placement, and write a final paper reflecting upon their internship experience. This is a pass/fail course. Junior standing (and others by permission of a faculty advisor), placement opportunity and approval by the Health and Physical Education Department are required to take this course. Limited to Health majors.

HE-498  Special Topics in Health  Credits: 3
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
An intensive study of a particular subject or problem in health education to be announced prior to registration. If there is a prerequisite for this course it will be announced in the course schedule.

HE-499  Independent Study in Health Studies  Credits: 1-3
Term Offered: All Terms
Course Type(s): HE.EL, HEPE
Guided research and in-depth study of an area of health studies of particular interest to the student.

PE-103  Surfing  Credits: 1
Term Offered: Summer Term
Course Type(s): OUTDR
Students will learn the basic skills, history, etiquette, and strategy of surfing. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to surfing. The analysis of skills, etiquette, safety considerations, and strategy will be covered. This course is a physical activity skills course. Skills course: Outdoor Pursuits(Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode. Student must know how to swim and will be tested by the instruction on their swimming ability.

PE-104  Biking  Credits: 1
Term Offered: Fall Term
Course Type(s): OUTDR
Students will learn the basic skills, safety, maintenance, and strategy for bike riding. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to riding and maintaining a bike. The analysis of skills, rules, safety considerations, and strategy will be covered. This course is a physical activity skills course. Skills course: Outdoor Pursuits(Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-105  Bowling  Credits: 1
Term Offered: Fall Term
Course Type(s): PERF
Students will learn the basic skills, history, rules and strategy for ten-pin bowling. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to ten-pin bowling. The analysis of skills, rules, safety considerations, and strategy of play will be covered. This course is a physical activity skills course. Skills course: Individual-Performance Activities (individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-110  Swimming  Credits: 1
Term Offered: All Terms
Course Type(s): AQUA
Provides a comprehensive foundation for recreational swimming. Students will learn and practice skills associated with proper stroke development, water safety, and improved general fitness. This course is a physical activity skills course. Skills course: Aquatics (individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-112  Lifeguard Certification/Water Safety  Credits: 2
Term Offered: All Terms
Course Type(s): AQUA
Lifeguard Certification and Water Safety will prepare the student to work as a pool lifeguard. Upon completing the course the student will be able to take American Red Lifesaving and Standard First Aid and CPR for the Professional Rescuer exams. If the student properly performs all required skills and passes all written examinations with a score of 80% or higher the student will earn the American Red Cross Lifeguard Certification. This course is a physical activity skills course. Skills course: Aquatics(Individual). This is a pass/fail course. Student must know how to swim and will be tested by the instruction on their swimming ability.
PE-114  Advanced Swimming  Credits: 1
Term Offered: Fall Term
Course Type(s): AQUA
Develop and practice advanced stroke technique and create swimming workouts. This course is a physical activity skills course. Skills course: Aquatics(Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode. Student must know how to swim and will be tested by the instruction on their swimming ability.

PE-116  Badminton  Credits: 1
Term Offered: Fall Term
Course Type(s): PERF
Learn basic skills, history, rules and strategy for a single and double game in badminton. This course is a physical activity skills course. Skills course: Individual-Performance Activities (dual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-117  Ballroom Dance I  Credits: 1
Term Offered: All Terms
Course Type(s): RHYTH
Provides a comprehensive foundation for both men and women to successfully perform on any social dance floor. Students will learn the introductory steps to Foxtrot, English, the Viennese Waltz, East Coast Swing, Cha Cha, and the Charleston. A minimum of 5 step patterns per dance will be introduced. Students will practice dance etiquette and social skills, leading to increased confidence for social dancing and improved fitness. In addition, "partner" dance positions and keeping music tempos will be addressed. This course is a physical activity skills course. Skills course: Rhythmic (dual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode. Also listed as DA-117.

PE-118  Ballroom Dance II  Credits: 1
Term Offered: All Terms
Course Type(s): RHYTH
Provides a comprehensive foundation for both men and women to successfully perform on any social dance floor. Students will learn introductory steps of the Hustle, Salsa, and Tango. Intermediate/advanced skills of the Viennese Waltz, Foxtrot, and East Coast Swing will be taught. A minimum of eight step patterns per dance will be introduced. Students will practice dance etiquette and social skills, leading to increased confidence for social dancing and improved fitness. In addition, "partner" dance positions and keeping music tempos will be addressed. This course is a physical activity skills course. Skills course: Rhythmic (dual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode. Also listed as DA-118.

PE-119  Golf I  Credits: 1
Term Offered: All Terms
Course Type(s): PERF
Introduces the basic golf fundamentals, such as basic swings, equipment, rules, terms of the game, drills, etiquette, and playing the course. This course is a physical activity skills course. Skills course: Individual-Performance Activities (individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-120  Golf II  Credits: 1
Term Offered: All Terms
Course Type(s): PERF
Practicing more advanced skills in golf and playing the course. This course is a physical activity skills course. Skills course: Individual-Performance Activities (individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-122  Ultimate Frisbee  Credits: 1
Term Offered: Fall Term
Course Type(s): GAMES
Students will learn the basic skills, history, rules and strategy for ultimate frisbee. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety considerations, and strategy of play will be covered. This course is a physical activity skills course. Skills course: Games and Sports (team). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-125  Tennis  Credits: 1
Term Offered: All Terms
Course Type(s): PERF
Students will learn the basic skills, history, rules and strategy for a singles and doubles game in tennis. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety consideration and strategy of play will be covered. This course is a physical activity skills course. Skills course: Individual-Performance Activities (dual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-126  Tennis II  Credits: 1
Term Offered: All Terms
Course Type(s): PERF
Practicing more advanced skills and learning technique and tactics in singles and doubles games in tennis. This course is a physical activity skills course. Skills course: Individual-Performance Activities (dual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-127  Volleyball  Credits: 1
Term Offered: All Terms
Course Type(s): GAMES
Students will learn the basic skills, history, rules and strategy for playing the team sport of volleyball. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety consideration and strategy of play will be covered. This course is a physical activity skills course. Skills course: Games and Sports (team). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.
PE-128  Yoga  Credits: 1  Term Offered: All Terms  
Course Type(s): RHYTH  
Students will learn and practice basic styles of Hatha Yoga. A combination of asanas (physical postures), breathing techniques and relaxation/meditation methods will help students improve fitness levels, reduce stress and enhance mind-body awareness. Emphasis will be placed on proper body alignment and exercise safety. This course is a physical activity skills course. Skills course: Rhythmic (individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-130  Basketball  Credits: 1  Term Offered: Spring Term  
Course Type(s): GAMES  
Students will learn the basic skills, history, rules and strategy for playing the team sport of basketball. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety consideration and strategy of play will be covered. This course is a physical activity skills course. Skills course: Games and Sports (team). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-131  Soccer  Credits: 1  Term Offered: All Terms  
Course Type(s): GAMES  
Students are provided with learning experiences that will serve as a basic foundation for teaching the team sport of soccer. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety consideration and strategy of play will be covered. This course is a physical activity skills course. Skills course: Games and Sports (team). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-132  Softball  Credits: 1  Term Offered: Fall Term  
Course Type(s): GAMES  
Students will learn the basic skills, history, rules and strategy for playing the team sport of softball. The main emphasis will be placed on skill acquisition with focus on specific movements and techniques important to game play. The analysis of skills, rules, safety consideration and strategy of play will be covered. This course is a physical activity skills course. Skills course: Games and Sports (team). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-142  Pilates  Credits: 1  Term Offered: All Terms  
Course Type(s): RHYTH  
Students will apply the principles of Pilates exercises to improve the strength, flexibility and endurance of the core muscles. Consistent Pilates exercise practice will help to improve posture, balance, and coordination; relieve pain and tension; and enhance athletic performance. Students will learn and practice the proper form and technique for a variety of Pilates exercises. Emphasis will be placed on proper body alignment, mind-body awareness and exercise safety. This course is a physical activity skills course. Skills course: Rhythmic (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-143  Endurance Running  Credits: 1  Term Offered: Summer Term  
Course Type(s): OUTDR  
Working together to develop and achieve individual endurance running goals while cultivating a life-long love of running in a low-stress, social atmosphere. Pre-and post-run discussions focus on select topics about the history, science, and culture of running. This course is a physical activity skills course. Skills course: Outdoor Pursuits (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-144  T'ai Chi  Credits: 1  Term Offered: All Terms  
Course Type(s): RHYTH  
Students will improve health, mental focus and overall well-being through the practice of QiGong and T'ai Chi. Often called "meditation in motion," this ancient Chinese form of exercise blends graceful flowing movements with breathing and relaxation techniques. Students will learn proper form and technique for a variety of movements, eventually combining them into a simplified adaptation of the Yang Short form of T’ai Chi. Particular emphasis will be placed on the use of T’ai Chi and QiGong to reduce stress and anxiety. This course is a physical activity skills course. Skills course: Rhythmic (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-156  Aerobics  Credits: 1  Term Offered: All Terms  
Course Type(s): RHYTH  
Learn and practice low-and high-impact aerobic activities. This course is a physical activity skills course. Skills course: Rhythmic (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-161  Self Defense  Credits: 1  Term Offered: All Terms  
Course Type(s): PERF  
Designed to give the student an opportunity to experience physical activity through martial arts training at an introductory level. This course is a physical activity skills course. Skills course: Individual-Performance Activities (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.
PE-163  Weight Training  
Term Offered: All Terms  
Course Type(s): PERF  
Credits: 1  
Students will develop and practice an individualized, weight-training program using free weights and resistance machines. Proper training techniques, exercise safety and improvement of health and fitness will be emphasized. This course is a physical activity skills course. 
Skills course: Individual-Performance Activities (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-168  Stress Reduce Relax  
Term Offered: All Terms  
Course Type(s): PERF  
Credits: 1  
Learn and practice breathing, progressive relaxation, visualization, autogenic training, and other relaxation techniques to reduce your stress. This course is a physical activity skills course. Skills course: Individual-Performance Activities (Individual). This is a pass/fail course. To pass the course, students must earn the specified amount of points required in three evaluation categories: participation, performance assessment, and a teaching episode.

PE-198  Special Topics in Physical Education  
Term Offered: All Terms  
Course Type(s): None  
Credits: 1  
An intensive study of a particular subject in physical education to be announced prior to registration. If there is a prerequisite for this course it will be announced in the course schedule.

PE-199  Independent Study in Physical Education  
Term Offered: Spring Term  
Course Type(s): None  
Credits: 1  
Focus on an area in Physical Education under the direction of a Physical Education faculty member.

PE-201  First Aid/CPR/AED Certification  
Term Offered: All Terms  
Course Type(s): PERF  
Credits: 2  
Safety problems that affect the individual, the community, and the nation: a standard course in first aid, including adult, child, and infant First Aid/CPR/AED. If the student attends all courses, properly performs all required skills and passes all written examinations, the student will earn the American Red Cross Adult/Child/Infant First Aid/CPR/AED Certification. This course is a physical activity skills course. Skills course: Individual-Performance Activities (Individual). This is a pass/fail course.

PE-203  Instructional Strategies In Physical Education and Health  
Term Offered: All Terms  
Course Type(s): HEPE  
Credits: 3  
Co-requisite(s): PE-103 or a higher level physical education skills course to support application of content and a reflective cycle  
This course is designed to introduce future professionals to effective teaching strategies and skills within the context of physical education and health. Grounded by national and state teaching standards, this course emphasizes academic language, curricular models, instructional styles, short- and long-term planning and implementation, instructional and managerial skills reflective practices, and professional responsibility. Lecture sessions are focused upon conceptual foundations of teaching physical education and health. Laboratory sessions devoted to "hands-on," practical applications and observational assessment of lecture concepts in a controlled environment with peers and children.

PE-215  Fitness Concepts and Measurements  
Term Offered: All Terms  
Course Type(s): HE.EL, HEPE  
Credits: 3  
A comprehensive study of wellness and fitness and will include scientific principles and practical applications of exercise to promote a healthy lifestyle. The health-related fitness components, heart health, stress management, nutrition, weight management, and cancer prevention will be examined. Particular emphasis will be placed on the analysis of personal fitness and wellness status, and will lead to the creation and implementation of a behavior change program. Delivered in a lecture/practical performance format.

PE-222  International Outdoor Adventure Education  
Term Offered: Fall Term  
Course Type(s): FLT, GU, HE.EL, HEPE, OUTDR  
Credits: 3  
This faculty-led study abroad course is designed to introduce students to a variety of outdoor adventure activities in foreign countries while promoting cultural and global understanding. Lecture sessions at Monmouth University in the beginning of the course will highlight content knowledge related to outdoor adventure education, the theories and best practices for developing an outdoor adventure program, and students will explore their individual and collective responsibilities through analytical, practical, or creative responses to issues facing a globally interconnected society. While abroad, students will experience and reflect upon similarities and differences between a host of issuers (i.e., customs, norms, historical influences, language, religion, standard of living, food, art, music, dance, etc.) within the United States and the destination country. Students will describe how they see themselves within the context of that diversity and explore opportunities to interact in a global world. Student must pay additional travel expenses. This course also counts as a Physical Activity Skills Course. Skills Course: Outdoor Pursuits (Individual).

PE-290  Open Water Scuba Certification Course  
Term Offered: Spring Term  
Course Type(s): MEBP, OUTDR  
Credits: 2  
The Open Water Scuba Certification course entails completion of the Professional Association of Diving Instructors (PADI) Open Water Diver course, the world's most popular scuba course. Completion of this course leads to PADI scuba certification as an open water diver. This course is a physical activity skills course. Skills course: Outdoor Pursuits(Individual). This is a pass/fail course. Limited to 8 students. Also listed as BY-290.

PE-310  Sport and Exercise Psychology  
Term Offered: All Terms  
Course Type(s): HE.EL, HEPE, WT  
Credits: 3  
Prerequisite(s): EN-101, EN-102, and PY-103  
Explores the psychological determinants and consequences of physical activity, with an emphasis on psychological factors relevant to enhancing sport performance. Students will also analyze key theories in exercise psychology in order to understand exercise’s influence on psychological health outcomes.
Course Type(s): HE.EL, HEPE
Term Offered: Fall Term
PE-351 Prevention and Care of Athletic Injuries Credits: 3
Term Offered: Fall Term
Course Type(s): HE.EL, HEPE
Basic information and skills for the care and prevention of athletic injuries.

PE-350 Physical Activity in Afterschool Programs Credits: 4
Term Offered: All Terms
Course Type(s): EX3, HE.EL, HEPE
This experiential education service learning course is designed to introduce students to best practices for promoting physical activity in afterschool programs in accordance with theoretical frameworks and empirical evidence associated with movement competencies, physical activity engagement, and prosocial skills for children. Lecture sessions will highlight pedagogical content knowledge related to the facilitation of standards-based, developmentally-appropriate physical activity opportunities for children. Service learning sessions will provide opportunities for students to apply content via planning and facilitating physical activity in an afterschool program.

PE-340 Motor Development and Learning Credits: 3
Prerequisite(s): BY-111, BY-112 and 3 credits in Math except MA-050, MA-100, MA-101 or MA-103
Term Offered: All Terms
Course Type(s): HE.EL
Introduces students to the fundamental concepts of motor learning and development changes in human movement that occur over the lifespan. Basic research findings and applications of general human growth principles are discussed in relation to the development and acquisition of motor skills. Emphasis will also be placed on theoretical foundations for understanding motor learning principles that can be applied to the teaching and learning of physical activities.

PE-330 Biomechanics and Kinesiology Credits: 3
Prerequisite(s): MA-105 or higher and BY-111 or BY-211 or BY-112 or BY-212
Term Offered: All Terms
Course Type(s): HE.EL
Introduction to the major principles of biomechanics, providing students with foundational knowledge that allows for the systematic analysis of human movement. Emphasis is placed on analyzing key forces and movement in the context of sport and exercise.

PE-320 Exercise Physiology Credits: 3
Prerequisite(s): BY-111 or BY-211 and BY-112 or BY-212 and 3 credits from subject MA except MA-050, MA-100 and MA-103
Term Offered: All Terms
Course Type(s): HE.EL
A scientific foundation for understanding the physiological response and adaptation to exercise training. A comprehensive study of basic theories and practical applications of exercise physiology principles to physical education and sports performance. Focus on metabolic, cardiovascular-respiratory, neuromuscular-skeletal and endocrine systems as they relate to acute and chronic responses to exercise. Environmental concerns, cardiovascular disease risk factors and the immune response to exercise.

PE-310 Exercise Testing and Prescription Credits: 4
Prerequisite(s): BY-111, BY-211 and 3 credits in Math except MA-050, MA-100, MA-101 or MA-103
Term Offered: All Terms
Course Type(s): EX1
A comprehensive introduction to the principles, knowledge, and skills that support effective coaching decisions and actions. This course combines national standards, sport science theory and research findings, with practical knowledge and best practices of expert coaches related to the five essential categories of coaching education and professional practice. An emphasis will be placed on the principles of coaching, behavior, teaching, physical training, and management. Ten hours of volunteer/observation are required in a local youth sport environment which can be completed across weekdays and weekends.

PE-389 Internship in Health and Physical Education Credits: 1-3
Term Offered: All Terms
Course Type(s): EX1
Supervised, pre-professional field experience in health and physical education. The student will secure an internship site related to his/her interests and career goals. Potential internship sites include health and fitness clubs, community wellness agencies, coaching opportunities, hospitals, corporations, and private services. The student will work 50 hours per credit per term at his/her internship site. Students are required to obtain a faculty sponsor, develop learning objectives at the start of their internship, keep a journal of their internship activities throughout their placement, and write a final paper reflecting upon their internship experience. Also listed as HE-389. This is a pass/fail course. Limited to Physical Education majors only. Satisfies the Experiential Education General Education requirement.

PE-398 Special Topics in Physical Education Credits: 1-3
Term Offered: Spring Term
Course Type(s): None
An intensive study of a particular subject or problem in physical education to be announced prior to registration. If there is a prerequisite for this course it will be announced in the course schedule.

PE-399 Independent Study in Physical Education Credits: 1-3
Term Offered: Summer Term
Course Type(s): None
Reading and research on a selected topic under the direction of a Physical Education faculty member.

PE-410 Exercise Testing and Prescription Credits: 4
Prerequisite(s): HE-101, PE-320 and PE-330
Term Offered: All Terms
Course Type(s): HEPE
Provides the foundation of knowledge and skills necessary for assessing the health and physical fitness profile and developing effective exercise programs for healthy individuals and those with controlled chronic diseases.
PE-411  Adapted Physical Education and Health  Credits: 3
Prerequisite(s): PE-350 or permission of the instructor
Term Offered: Fall Term
Course Type(s): CD, HE.EL, HEPE
This course introduces students to best practices for teaching individuals
with disabilities skills related to health and physical education. Provides
basic information on disabling conditions and on how to provide adapted
physical education and health programs based upon an individual's
assessed needs. It will also introduce students to best teaching practices
for providing access to physical education and health curriculum for
students with disabilities in inclusive settings. A clinical experience is an
integral part of the course providing in school settings to gain practical
experience in screening and assessment; identification, selection, and
prescription of appropriate exercise programs and in teaching health
to students with disabilities. Travel to and from the clinical site is the
responsibility of the students.

PE-489  Internship in Health and Physical Education  Credits: 1-3
Term Offered: Summer Term
Course Type(s): EX1
Supervised, pre-professional field experience in health and physical
education. The student will secure an internship site related to his/her
interests and career goals. Potential internship sites include health and
fitness clubs, community wellness agencies, coaching opportunities,
hospitals, corporations, and private services. The student will work 50
hours per credit per term at his/her internship site. Students are required
to obtain a faculty sponsor, develop learning objectives at the start of
their internship, keep a journal of their internship activities throughout
their placement, and write a final paper reflecting upon their internship
experience. Limited to Physical Education majors only. Satisfies the
Experiential Education General Education requirement. This is a pass/fail
course.

PE-499  Independent Study in Physical Education  Credits: 1-3
Term Offered: All Terms
Course Type(s): None
Reading and research on a selected topic under the direction of a
Physical Education faculty member.
